FOREWORD

This 1969 edition of *Florida Statutes* contains the greatest reworking of the Statutes that has occurred since the biennial publication began in 1949. The normal meshing in of new enactments is only a part of the editorial work contained in the new edition. The adaptation of statutes with the revised Constitution adopted in November 1968, extensive revisions enacted in 1969 such as the reordering of the ad valorem tax statutes, and the conformance of statutes with the reorganized state government are major elements. Together these changes make *Florida Statutes 1969* the most important volumes on the desk of the Florida lawyer today.

The continuing modernization and strengthening of the Florida Legislature led to the abolition of the Legislative Council and the transfer of its supervisory responsibility to the Joint Legislative Management Committee. Similarly, the old Statutory Revision and Bill Drafting Department and the old Legislative Reference Bureau are reconstituted into the Legislative Service Bureau, with David V. Kerns continuing as director. He has assigned the responsibility for the continuing revision of *Florida Statutes* to the Statutory Revision Service with Ernest E. Means as Chief. The basic policy that guides the preparation of *Florida Statutes* continues to be that of providing an authoritative up-to-date publication of the general laws of the state at the lowest possible cost to the user. Comments and suggestions for improvements in the Statutes are always welcome.

ACKNOWLEDGMENT

The 1969 Governmental Reorganization Act directed the amendment of all statutes to conform with the agency nomenclature therein established. The task of carrying this mandate through the statutes has been monumental and has been carried out by the staff of the Statutory Revision Service with diligence and strict adherence to the act. It is fitting that special recognition be given to Mr. Means, Mrs. Flournoy, Mrs. Kitchen, Mrs. Roemer, Mrs. Garrison and other members of the Service Bureau staff assisting them for their outstanding efforts to complete this publication.

Acknowledgment is also made of the services to the Legislative Service Bureau of the following law students and attorneys before and during the 1969 Session of the Legislature: James L. Lowe, A. S. Johnston, Roy Gonzalez, Jr., Richard Kane, S. C. Cheeseman, D. H. Morford, J. H. Thompson, J. R. Millen, Jon S. Wheeler, Larry Groover, Howard Horowitz, and Clinton H. Coulter.

Dedication

*In accordance with a formal resolution of the Legislative Printing Committee of the Florida Legislature at its meeting of March 2, 1970, this twelfth edition of the **Florida Statutes** is dedicated to the memory of the Honorable Fred M. Burns, who died on August 11, 1969.*

Fred Burns served as an assistant attorney general for thirty years, under five attorneys general. During this long period, he built an enviable reputation as a constitutional lawyer, especially in the field of taxation, and, even more especially, in the famous tidelands oil case. For his careful and learned research, and also for the invaluable counsel that he warmly and unselfishly provided during this period for a long succession of governors, cabinet members, legislators, and other public officers, he has been appropriately recognized in resolutions adopted by the Florida Legislature, the cabinet, and other public and professional organizations.

*But other good works of Mr. Burns are even more relevant to this dedication of the **Statutes**. In a very real sense, Fred M. Burns can be called the "Father of the **Florida Statutes**" and of Florida's continuous statutory revision program. His first assignment, upon joining the staff of the attorney general in 1939 was as chief assistant to the reviser of statutes in the then emerging statutory revision program. After close participation in the formative stages of that program, he assumed full responsibility for it upon succeeding to the directorship of the Statutory Revision Department in 1941, a capacity in which he served until 1947.*

*In short, Mr. Burns played as important a role as any man in the establishment of Florida's continuous statutory revision program, of which the biennial publication of the **Florida Statutes** is an integral part. It is therefore fitting that the Legislative Printing Committee and the staff of the Legislative Service Bureau dedicate this twelfth edition of the **Florida Statutes**, the first published after his death, to the memory of the Honorable Fred M. Burns, Esquire.*

PREFACE

THE CONTINUOUS REVISION PROGRAM

Florida is one of the states having a continuous revision program that has followed the practice of publishing the whole body of general law in force after each regular session. With the advent of annual sessions under the Constitution as revised in 1968, the prospect is for continued biennial publication of the *Statutes* following each regular odd-year session, with a supplement being published after each even-year session. Of course, the principal advantage remains the same: Such a program provides an up-to-date, authoritative statement of the general law for use by practitioners, judges, legislators and other interested persons. The following is an attempt to identify and explain some of the attributes and consequences of the Florida program that should be of interest to all who use the *Statutes*.

Biennial adoption of the Florida Statutes.—An important feature of Florida's continuous statutory revision program is the biennial adoption and reenactment by the legislature of the preceding edition of the *Florida Statutes*, including general laws enacted by the preceding legislature, as amended by reviser's bills enacted during the current session. Section 11.2421 is the vehicle for such adoption. Section 11.242(6)(d) requires that all laws "of a general and permanent nature" enacted during the current session be included in the *Florida Statutes* but specifies that they shall be only prima facie evidence of the law in all courts of this state.

Together, these sections have the following result: Those portions of each edition of the *Statutes* that are carried forward from the preceding edition are made the official law of the state; those portions representing the product of the current sessions remain prima facie evidence of the law for approximately two years, after which the next ensuing adoption act makes them the official version of the law. During this period, the portions representing the product of the current sessions are closely scrutinized by the members of the bar and others. If any errors were made in meshing those portions into the standing law, they can be corrected by reviser's bills before they are made official. See *City of Coral Gables v. Brasher*, Fla. 1960, 120 So.2d 5.

The principal consequence of these provisions is that they simplify the task of one who is researching the general statutory law, in that he need only examine the current edition of the *Florida Statutes* and the volumes of the session law resulting from sessions intervening since the preceding edition. Any law "of a general and permanent nature" enacted prior to that time which does not appear in the *Florida Statutes* stands repealed by operation of section 11.2422. See *National Bank of Jacksonville v. Williams*, 1896, 38 Fla. 305, 20 So. 931.

The biennial adoption feature of Florida's continuous statutory revision program has an important by-product that should be mentioned. It cures any procedural—as opposed to substantive—defect in the initial passage of a particular act. *Brewer v. Gray*, Fla. 1956, 86 So.2d 799. As a result, general legislation remains susceptible to attack on such technical, procedural grounds only during the period between its original enactment and passage of the adoption bill at the beginning of the subsequent legislative session.

Implied repeals and amendments.—In the confusion that seems inevitably to attend legislative sessions, the legislature occasionally enacts two or more bills that relate to the same provision of the *Florida Statutes*. On such occasions, the revisers must find the legislative intent from the best evidence available. When the provisions of two amendatory acts are not mutually inconsistent, the language is meshed and full effect is given to both. When the provisions of two amendatory statutes are in irreconcilable conflict, the editors apply the usual canons of statutory construction in determining which version to publish. However, a note is inserted calling attention to the conflict and setting forth the alternative text.

When the last enacted of two conflicting statutes purports to amend a section of the *Florida Statutes* which an earlier act had repealed, the course to be followed depends on whether the substance of the amendatory act makes sense

standing alone. If it does not, it is not published, and a note explaining the omission is inserted; if the amendatory act does make sense standing alone, it is published as a new section in place of the repealed section, though with a new section number. On the other hand, if the last enacted of two conflicting acts repeals a section which an earlier act purported to amend, the section would simply be deleted.

ADDITIONAL FEATURES OF THE FLORIDA STATUTES

Arrangement of chapters and titles.—The object of any arrangement of compiled statutes is to facilitate the finding of the law. There are two methods of arrangement in general use in the United States: The "logical," or "topical," grouping of related subjects, as used in many digests; and the "alphabetical" arrangement, as used by *Corpus Juris* and *American Jurisprudence*. Florida has followed the majority of states in adopting the former of these arrangements.

Numbering system.—The sections of the *Florida Statutes* are identified by the decimal numbering system. Having first been arranged by subject matter, the chapters of the *Florida Statutes* are each assigned a whole number which appears to the left of the decimal point in each number that identifies a section. The section within the chapter is then identified by the digits appearing to the right of the decimal point. Thus, section 16.01 would identify a section in chapter 16 of the *Statutes*.

The principal advantage of the decimal numbering system is its infinite flexibility. A new section can always be inserted between any two existing sections. For example, a new section to be inserted between sections 16.12 and 16.13 could be assigned any number between 16.121 and 16.129 without using more than three digits to the right of the decimal point. Recently, the practice has been adopted of using "5" as the last digit in such a situation—i.e., 16.125—so as to leave room for future expansion in both directions without the necessity of adding another digit.

As a corollary to this discussion of the decimal numbering system, it should be emphasized that the number of a chapter or section has no significance other than to indicate the order in which the particular chapter or section appears. In other words, a section that is identified by a number containing four digits to the right of the decimal point is of no less dignity or importance than a section having a number with only two or three digits to the right of the decimal point.

The hierarchical arrangement of textual subdivisions is indicated by various designations. Thus, chapters are indicated by whole numbers; sections, by numbers containing a decimal point; subsections, by whole arabic numbers enclosed by parentheses; paragraphs, by lower case letters enclosed by parentheses; and subparagraphs, by whole arabic numbers followed by a period. Subdivisions beyond the subparagraph are not ordinarily used.

Chapters 624, 625, 626, and 627 contain aberrational departures from the rule of decimal numbering. These aberrations will be eliminated as soon as this can be accomplished without causing undue confusion.

Finding the law.—There are two general methods for finding those sections of the *Florida Statutes* that deal with a particular subject matter. The choice of which to use on any particular occasion should be determined by the preference of the searcher and the degree of his familiarity with the *Statutes* and the indexing systems contained therein. One who has considerable familiarity with the body of law being searched may save some time by simply using the chapter index which appears at the front of each chapter. The proper chapter can usually be located by use of the alphabetical and numerical (also topical) indexes that are located at the front of Volumes 1 and 2. One who is less familiar with the subject matter or who is conducting a more wide-ranging search will probably prefer to use the general index which is located in Volume 3. Directions for the use of the general index are also to be found there.

History notes and cross references.—History notes have been carefully compiled, checked for accuracy with the original session laws, and brought completely up to date. During the period 1957-1965, an attempt was made to relate the history notes to the specific subsection or paragraph affected. This practice has now been abandoned as involving labor and susceptibility to error far out of proportion to the benefit attained. However, notes containing that detailed information will be left undisturbed until later changes require resetting of the type.

Where possible, related or qualifying sections are noted in the form of cross references immediately following the history notes.

Table of statutory changes by the 1969 Legislature.—A table of changes to sections of the *Florida Statutes* is located at the front of Volumes 1 and 2, printed on buff paper. This table shows: (1) The numbers of sections or subsections that have been changed in any way and (2) whether the change consisted of an amendment, a repeal, a transfer, or an addition. It is a convenient device for pinpointing changes to a given segment of the general law.

Tracing table.—A table tracing the classification of general laws into the *Florida Statutes* throughout the period 1919-1969 will be found in Volume 3. The word "omitted" shown in the place of a statute section number indicates that the act was local or special or a general act of local application. To find an omitted chapter, consult the appropriate volumes of the Session Laws.

Immediately following the tracing table for general laws enacted by the legislative process is a special table tracing various provisions of the Constitution of 1885, as amended, into the *Florida Statutes*. This conversion of constitutional provisions into statutory law occurred pursuant to the provisions of section 10, Article XII of the Constitution as revised in 1968.

Table of repealed and inactive sections.—Immediately preceding the General Index in Volume 3 is a table showing repealed and transferred sections. Whenever a section is repealed or transferred through revision to a new location in the *Statutes*, the former section number becomes inactive and will not be used again. Such numbers are then transferred to this table, along with the chapter number of the session law by which the repeal or transfer occurred. The table is of primary utility to the researcher who is interested in the movement of the law as well as its current content.

Miscellaneous materials.—Section 11.242(5) authorizes the inclusion in the published edition of the *Florida Statutes*, in addition to the general laws as adopted and enacted, the Florida Constitution, and complete indexes, "such other matters, notes, data, and other material as may be deemed necessary or admissible by the Statutory Revision Service for reference, convenience or interpretation." The various items published under this authority are located in Volume 3 and identified in the table of contents at the front of each volume.

FORMER REVISIONS AND COMPILATION

The laws of general application of the territory of Florida and of the State of Florida have either been compiled unofficially or revised under authority of law and adopted as official statutes in the following publications: *Duval's Compilation of Territorial Laws, 1840* (compilation); *Thompson's Digest, 1847* (compilation); *Bush's Digest, 1872* (compilation); *McClellan's Digest, 1881* (compilation); *Revised Statutes (R.S.) 1892* (revision enacted as a law); *General Statutes (G.S.) 1906* (revision enacted as a law); *Revised General Statutes (R.G.S.) 1920* (revision enacted as a law); *Compiled General Laws (C.G.L.) 1927* (compilation unofficial); revision of 1940 and the beginning of the continuous revision system; adoption of the official 1940 revision in 1941 (F.S. 1941); the *Florida Statutes* of 1949 (F.S. 1949) (consolidation of 1941 statutes and supplements printed during the war years in 1943, 1945, 1947); and *Florida Statutes* of 1951, 1953, 1955, 1957, 1959, 1961, 1963, 1965, 1967, and 1969.

THE STATUTORY REVISION SERVICE

By chapter 22012, Laws of Florida, 1943, the legislature created a permanent statutory revision and legislative drafting and reference department under the supervision and control of the attorney general. The principal functions of this department were to publish the general laws of the state and to maintain a bill drafting department and legislative reference library. In 1949 the legislature established the Legislative Council and Legislative Reference Bureau as an arm of the legislature and completely separate from the attorney general. By chapter 67-472, the legislature removed the Statutory Revision Department from the office of the attorney general and established it as a part of the Legislative Reference Bureau under the supervision of the Legislative Council. Finally, by chapter 69-52, the Legislative Reference Bureau was renamed the Legislative Service Bureau, and the Statutory Revision Department became the Statutory Revision Service within the bureau. The work of the bureau is subject to the supervision of the Joint Legislative Management Committee, which replaced the Legislative Council.

The powers, duties, and functions of the Statutory Revision Service are set out in section 11.242. In general, they are: (1) To conduct a systematic and continuing study of the statutes and laws of the state for the purpose of reducing their number and bulk, removing inconsistencies, redundancies and unnecessary repetitions and otherwise improve their clarity and facilitate their correct and proper interpretation and (2) to publish the *Florida Statutes*.

Section 11.242(6) defines the limits of the editorial license that is available to the Statutory Revision Service in producing the *Florida Statutes*. Pursuant to this section, the service has broad authority over the arrangement and grammatical structure of the *Statutes*. Although the statutes provide that the product of the service's work shall constitute only prima facie evidence of the law until it has been formally adopted at the beginning of the following session, the Statutory Revision Service nonetheless traditionally exercises its editorial prerogatives with as much self-restraint as possible. It believes its mandate to be to produce the *Statutes* in usable and literate form, but strictly within the framework of the legislative intent.

The reviser's office is a clearinghouse where lawyers, judges, legislators, and administrators may help to improve the statutory law of the state. Persons calling attention to errors, omissions, conflicts and other defects in the law can be a material help in administering Florida's continuous revision program.

394.201 Hospitalization of the mentally ill; involuntary.—

(1) **HOSPITALIZATION ON MEDICAL CERTIFICATION; NONEMERGENCY PROCEDURE.—**

(a) Any individual may be admitted to a hospital upon:

1. Written application to the hospital by a friend, relative, spouse or guardian of the individual, a physician or the head of any institution in which such individual may be, and

2. Written certification by two licensed physicians that they have examined the individual and that they are of the opinion that the individual is mentally ill and they are of the further opinion that the individual either:

a. Is likely to injure himself or others if allowed to remain at liberty, or

b. Is in need of care or treatment in a hospital and because of his illness lacks sufficient insight or capacity to make responsible application therefor.

The aforesaid certification by the said physicians may be made jointly or separately, and may be based upon examination conducted jointly or separately; an individual with respect to whom such certification has been issued may not be admitted on the basis thereof at any time after the expiration of ten days after the date of examination by the first doctor. The attending medical doctor admitting the individual shall forthwith make a report of such admission to the county judge of the county in which such hospital is situate, and to the patient's guardian or next of kin.

(b) If the physicians' certification states the opinion that the individual is likely to injure himself or others if allowed to remain at liberty, and if the individual refuses to be admitted, despite the requirements of paragraph (a) having been met, the said certification shall, upon written endorsement for such purpose by the county judge of the county in which the individual is resident or present, authorize any sheriff, deputy sheriff, or police officer to take the individual into custody and immediately transport him to a hospital designated in the application.

(2) HOSPITALIZATION ON MEDICAL CERTIFICATION; EMERGENCY PROCEDURE.—

(a) Any state, county or municipal peace officer authorized to make arrests in Florida, or any licensed physician, who has reason to believe that an individual is mentally ill and because of such illness is likely to physically injure himself or others if he is not immediately detained, may without a warrant take such individual into custody and transport him to a hospital. The person taking the individual to a hospital may apply for his admission thereto for the purposes of emergency observation, diagnosis and treatment; provided that the application shall be accompanied by the certificate of a licensed physician (who may be an employee of the admitting hospital) that he has examined the individual within forty-eight hours prior to the date of the certificate and that he is of the opinion that the individual is mentally ill and because of such illness is likely to physically injure himself or others if he is not immediately detained for the purposes of emergency observation, diagnosis and treatment. The application for admission shall state the circumstances under which the individual was taken into custody and the reasons therefor, the name and address of the spouse or nearest relative of the person said to be in need of treatment, if known to the applicant, and, if not known, that diligent inquiry has been made to learn the name of such spouse or relative, and the name and address of the

person or persons, if any, having custody and control of the person asserted to be in need of treatment.

(b) Subject to the other provisions of this section, any hospital may admit and detain for purposes of emergency observation, diagnosis and treatment, any individual with respect to whom application is made for emergency hospitalization, if such application is accompanied by the certificate of a licensed physician as provided under paragraph (a). Prior to the closing of the next business day after the admission of any individual to a hospital pursuant to this section, the hospital shall transmit notice of such admission by registered or certified mail to the parent, guardian, spouse or adult next of kin of such individual, and by registered or certified mail to the county judge of the county of the individual's residence, and to the county judge of the county where the hospital is situate if not in the county of residence. Any individual admitted to a hospital under the provisions of this section shall have the right, if he so requests, to the immediate use of a telephone to call his spouse, parent, guardian, next of kin, legal counsel or friend. At the request of the patient he shall have the right to have any physician or attorney of his choice visit with him in the hospital for examination or consultation or both. In the absence of such request by the patient, the spouse, parent, guardian, next of kin, legal counsel, or friend, shall have the same right.

(c) If there is no physician immediately available so that it is impossible to obtain the formal physician's certificate provided for above, then the person asserted to be in need of emergency observation, diagnosis, or treatment may nevertheless be admitted to the hospital on the informal order of a physician upon presentation of the application above provided for, pending the obtaining of the physician's written certificate for a period of not to exceed twelve hours, exclusive of the hours between 6:00 p.m. and 6:00 a.m. In such case, the application shall show, in addition to the requirements hereinabove provided for, that an effort was made to obtain a written certificate from a physician, but there was no physician immediately available.

(3) NOTICE OF RELEASE RIGHTS.—Any person so admitted shall promptly be advised of his rights and privileges provided by this section.

(4) RIGHT TO RELEASE ON APPLICATION.—A patient admitted to a hospital under the provisions of this section who requests his release, or whose release is requested in writing by his legal guardian, parent, spouse or adult next of kin, shall be released forthwith; except that:

(a) If the patient by reason of his age was admitted on the application of another person, his release prior to his becoming twenty-one years of age may be conditioned upon the consent of his parent or guardian. If the patient

is over the age of twenty-one years and the application for his release is made by another person, the release may be conditioned upon the consent of the patient.

(b) If the administrator of the hospital, upon the recommendation of the attending physician, within the hours of the ensuing business day from the receipt of the request for release, files in the office of the county judge of the county in which the hospital is located a certification that in his opinion the release of the patient would be unsafe for the patient or others, or there is need for further observation, the county judge may order the release of the patient postponed for such period, not to exceed five days, as the court may determine to be necessary for the commencement of proceedings for judicial hospitalization under court order pursuant to §394.22; provided, however, that in the event the patient is hospitalized in a county other than the county of his residence the costs incident to such commitment proceedings shall be borne by the county of the patient's residence.

(5) **RELEASE OF INVOLUNTARY PATIENTS; COMMENCEMENT OF JUDICIAL PROCEEDINGS.**—In addition to provisions for release otherwise set forth in this section:

(a) The attending physician shall release any patient hospitalized pursuant to this section whenever he determines that the patient has recovered or that his continued hospitalization is no longer beneficial to him.

(b) Upon receipt of the notice of hospitalization required to be given to the county judge under the provisions of this section, the county judge shall note the admission on his docket in the mental health division of the county judges' court and shall cause a copy of the notice to be forthwith mailed to the patient's parent, guardian, spouse or next of kin as shown in the notice. If no proceeding is instituted under the provisions of this chapter for examination of the patient to judicially determine his status of competency by any person authorized by this chapter so to do, within five days after receipt of the notice by the county judge (exclusive of Saturdays, Sundays or legal holidays), the county judge shall sua sponte enter an order directed to the superintendent of the hospital to forthwith release the involuntary patient. The superintendent, upon receipt of the order of release, shall release the patient immediately.

(c) If proceedings under this section or under §394.22 for the examination and judicial determination of status of competency are instituted within the five-day period, the court shall proceed with all acts required by this chapter for the holding of a hearing, and such hearing shall be held within ten days after petition for same has been instituted, unless the time thereof is extended by the county judge for good cause shown. Upon the petition being filed for a judicial determination of the status of competency as in this chapter pro-

vided, the county judge may order that the temporary detention and hospitalization of the involuntary patient be continued until the rendition of judgment in the proceedings, but judgment shall be rendered by the county judge not more than five days after the end of the hearing for determination of competency.

(6) **PAYMENT FOR CARE OF MENTALLY ILL.**—

(a) Such reasonable charges and expenses as may be fixed by a hospital for the care, maintenance and treatment of a patient admitted to such hospital under the provisions of this section, shall be a lawful charge against the estate or property, real, tangible or intangible, of said patient in this state; that said charges and expenses may be lawfully paid from the estate of said patient by any authorized personal representative, parent or legal guardian of said patient thereafter appointed. Any suit or action instituted by the state or any political subdivision thereof for the recovery of such charges and expenses against said person or his duly authorized personal representative, parent or legal guardian shall be brought by the state attorney of the judicial circuit in which the patient is resident or by the department of legal affairs of Florida or both such state attorney and department of legal affairs.

(b) No law enforcement agency, or certifying or admitting physician, acting in the performance of his official or professional capacity, shall be held liable for the expenses of care and treatment of any person admitted to a hospital under the provisions of this section.

394.22 Adjudication of persons mentally or physically incompetent; procedure.—

(1) **PETITION FOR EXAMINATION OF PERSONS BELIEVED TO BE MENTALLY OR PHYSICALLY INCOMPETENT; PETITION.**—Whenever any person within this state is believed to be incompetent by reason of mental illness, sickness, drunkenness, excessive use of drugs, insanity, or other mental or physical condition, so that he is incapable of caring for himself or managing his property, or is likely to dissipate or lose his property or become the victim of designing persons, or inflict harm on himself or others, application by written petition, under oath, may be made to the county judge of the county wherein the alleged incompetent resides or may be found, or, in the absence or disability of the county judge, to the judge of the circuit court of the county wherein such petition is filed, for a judicial inquiry as to the mental or physical condition, or both, of the alleged incompetent.

(2) **WHO MAY FILE PETITION.**—The petition may be filed by:

(a) The mother, father, brother, sister, husband, wife, child or next of kin of the alleged incompetent;

(b) Any three citizens of the state of Florida;

(c) The sheriff of the county where such alleged incompetent resides, if none of the persons named in paragraphs (a) and (b) file such petition;

(d) Any citizen of this state who requests the examination of himself, provided he presents a certificate of a physician authorized to practice medicine in this state, certifying that he believes such petitioner to be incompetent for any one or more of the reasons specified in subsection (1) of this section.

(e) In addition to the persons set forth and described in paragraphs (a)-(d), who may file a petition for the examination of a person believed to be incompetent as contemplated by this section, the superintendent of the state prison farm in Union county, and the superintendent of the branch thereof in Marion county, are hereby authorized to file such a petition with respect to any person at said institution.

(3) **NECESSARY ALLEGATIONS.**—Every petition shall allege the name, approximate age, address, if known, and nature of the disability of such alleged incompetent, and shall name all the members of his family with their addresses, if known to petitioner, and shall pray for an examination of such alleged incompetent as provided by law and for an order adjudging such person to be incompetent.

(4) **NOTICE; HEARING.**—Whenever a petition is filed the county judge, or, in his absence or disability, a circuit judge, shall set a date for an immediate or a very early hearing on the petition. Reasonable notice shall then be given in writing to the alleged incompetent and to one or more members of his family, if any (other than petitioner) are known to the county judge to be residing within his jurisdiction, notifying them that application has been made for an inquiry into either the mental or the physical condition, or both, of the alleged incompetent and that a hearing on such application will be had before the judge having jurisdiction at the time and place to be specified in said notice. The hearings shall be conducted in as informal a manner as may be consistent with orderly procedure and in a physical setting not likely to have a harmful effect on the mental health of the proposed patient. The court shall receive all relevant and material evidence which may be offered and shall not be bound by the rules of evidence. An opportunity to be represented by counsel shall be afforded to every proposed patient, and if neither he nor others provide counsel, the court may appoint counsel.

(5) **DETENTION OF ALLEGED INCOMPETENT.**—

(a) If it appears, before the date of the hearing, from evidence produced before the judge, by affidavit or otherwise, that it is for the best interest of the alleged incompetent or others that he be detained for observation and

examination, said judge may order that said alleged incompetent be placed in the protective custody of the spouse or of one or more of the near relatives of the incompetent or in the protective custody of any other responsible citizen of the state.

(b) The judge may, if in his opinion the public safety or the safety of the alleged incompetent requires it, direct that the sheriff forthwith confine said alleged incompetent in some specified place until the further proceedings herein provided for have been had, or until his further order; the judge may also order the detention of said person for such reasonable time as may be necessary for proper medical observation and examination, not to exceed fifteen days, unless extended for good cause; provided, that in all such cases, there shall first be filed with said judge an affidavit setting forth facts which make such detention necessary.

(6) **EXAMINING COMMITTEE.**—

(a) The judge shall appoint an examining committee consisting of a responsible citizen of this state and two practicing physicians of good professional standing, each of whom shall be a graduate of a school of medicine recognized by the American medical association; provided, however, the two doctors appointed shall not be permanently associated with each other in the practice of medicine and the citizen appointed shall not be associated with or employed by either doctor. The examining committee, within a reasonable time after notice of their appointment, shall proceed to make such examination of said person as will enable it to ascertain thoroughly his mental and physical condition as of the time of the examination. No petitioner shall serve as a member of the examining committee; provided, however, the provisions of this section shall not apply in those counties where there are not more than four resident practicing physicians. The provisions of this section shall not apply to resident physicians under the jurisdiction of the division of mental health.

(b) If the examining committee considers the person under examination to be incompetent, it shall determine whether the condition is acute or chronic, what the apparent cause is, and what hallucinations, if any, he has, and what the age and propensities of the person examined are. The report shall cover specifically the findings of the committee; it shall be on the form hereinafter prescribed, shall be signed by each member of the examining committee, and shall be transmitted immediately to the judge. If the report of the designated examiners is to the effect that the proposed patient is not mentally ill, the court may without taking any further action terminate the proceedings and dismiss the application.

(7) **INDIGENCY OF INCOMPETENT; ATTORNEY'S FEES; WITNESSES.**—

(a) The judge shall ascertain, or direct the examining committee to ascertain whether

the person being examined is indigent or possesses sufficient available means for his support. This investigation may extend to the possibilities of acquiring property in the future.

(b) At any state of the proceeding the judge may, upon the application of any alleged incompetent who is indigent, appoint an attorney to represent said person, and the compensation of said attorney shall be fixed by the court in an amount not to exceed fifty dollars and shall be paid by the county commissioners out of the general fund of the county.

(c) If the alleged incompetent person is found to be indigent and unable to procure the attendance of witnesses in his behalf, the judge shall upon written application therefor, summon a reasonable number of witnesses for such person, and the witness and mileage fees of said witnesses shall be paid by the county commissioners of the county from its general fund.

(8) NOTICE; PROCESS; TESTIMONY.—In any trial or proceeding under this section, notice of hearing, service of notice or process, the taking of depositions, summoning of witnesses, and the taking of testimony shall be governed by rules pertaining to such matters in the general guardianship law of this state except as otherwise specified in this section.

(9) JUDGMENT.—If the judge, from the report of the examining committee and the hearing, finds that the person under investigation is incompetent, mentally or physically or both, he shall so adjudge, and his judgment shall set forth the nature and extent of the incompetency; but, if he finds that such person is not incompetent he shall dismiss the cause and discharge said person.

(10) EFFECT OF JUDGMENT.—

(a) After the judgment adjudicating a person to be mentally incompetent is filed in the office of the county judge, such person shall be presumed to be incapable, for the duration of such incompetency, of managing his own affairs or of making any gift, contract, or any instrument in writing which is binding on him or his estate. The filing of said judgment shall be notice of such incapacity.

(b) After a judgment adjudicating a person to be physically incompetent is filed in the office of the county judge, such person shall be presumed to be incapable, for the duration of such incompetency, of making any gift *inter vivos* or any contract which will bind him or his estate. The filing of said judgment shall be notice of such incapacity.

(11) COMMITMENT.—

(a) Whenever any person who has been adjudged mentally incompetent requires confinement or restraint to prevent self-injury or violence to others, the said judge shall direct that such person be committed to the sheriff for safekeeping and the sheriff shall proceed as provided in §394.09.

(b) The order of commitment shall be accompanied by a copy of the report of the examining committee, the judgment of mental incompetency, and copies of such other instruments and records as may be required by the division of mental health; said copies to be forwarded to the division of mental health.

(c) Where, however, the judge finds, from the report of the examining committee or otherwise, that such person does not require confinement or restraint to prevent self-injury or violence to others and that treatment in the Florida state hospital is unnecessary or would be without benefit to such person, he may further adjudge and decree that such person is harmless and that confinement or restraint of such person is unnecessary, and that he be delivered to a guardian of his person or to any responsible person who may offer to assume the care and custody of such harmless person, without cost to the state or county, or, if he is also found indigent and without funds for self-support, that he be delivered to the county commissioners of the county of his residence, for care and maintenance in the manner provided for paupers.

(d) After adjudication and commitment and before admission to the Florida state hospital the county judge for good cause shown may revoke said commitment and discharge the alleged incompetent.

(12) TEMPORARY HOSPITALIZATION AND CONFINEMENT; PROCEDURE FOR ADJUDICATION OF MENTAL INCOMPETENCY; DISCHARGE; TEMPORARY GUARDIAN.—

(a) Any person under a petition for examination to determine his mental competency before the county judge of any county in this state, as provided in this section, upon the recommendation of the examining committee, appointed by the county judge as provided in this section, that such person is, in the opinion of said examining committee, only temporarily incompetent and through specialized care and treatment may speedily be restored to competency, or upon good cause shown to said county judge at the hearing provided for in this section that said person is only temporarily incompetent and through specialized care and treatment may be speedily restored to competency may, by order of the county judge, be certified to an approved county, city or privately operated hospital, with the consent of said county, city or private hospital, or to the division of mental health, for admission to one of the state hospitals, and there be subject to intensive care, treatment and observation for a period not to exceed six months.

(b) If at any time prior to the expiration of the six month period it is the opinion of the staff of the hospital where a person admitted pursuant to this subsection is a patient that said person is mentally competent, or that he has regained his status of mental competency,

or that said person will not benefit from further hospitalization, the head of the hospital may discharge said person from said hospital and immediately notify the county judge issuing the order of certification in writing, stating the reason for said discharge. Upon receipt of the notice of discharge, the county judge shall file and record the same. The filing and recording thereof in the office of said county judge shall constitute a discharge of the alleged incompetent and terminate the proceedings thereon.

(c)1. If at any time prior to the expiration of the six month period it is the opinion of the staff of the hospital where a person admitted pursuant to this subsection is a patient, that said person is mentally incompetent and requires further hospitalization and confinement to prevent self-injury or violence to others, the head of the said hospital shall notify the county judge issuing the order of certification to that effect and shall deliver to said county judge a report, signed by not less than two members of the hospital staff, containing their findings of said person's mental condition, prognosis and recommendation that said person be adjudicated incompetent. Upon receipt of such report, said county judge shall forthwith notify the person or persons who filed the original petition upon which the certificate was based, or in his or their absence, such next of kin or legal guardian of such person as may be found in the jurisdiction of the county judge, that said report has been filed and the notice to such person or persons shall state that the mental competency of such person shall be determined from the report of the hospital staff and the report of the original examining committee unless a hearing and the further examination of the alleged incompetent by an examining committee is requested in writing within ten days of receipt of said notice. A copy of the report of the medical staff of the said hospital shall accompany said notice and a copy of the notice and the report of the medical staff of the hospital shall be delivered to the alleged incompetent. The notice herein required to be given to the person or persons who filed the original petition, or in their absence, to next of kin or guardian of the alleged incompetent, shall be by registered or certified mail.

2. If the head of the hospital is of the opinion that release of the patient at the expiration of the six month period would be unsafe to the patient or others, and if a report praying for the adjudication of said patient is filed, the release of said patient by said hospital may be postponed for a period not to exceed fifteen days, during which time the adjudication proceedings shall be commenced as herein provided, and when commenced, release of said patient shall be postponed until the cause is determined before the county judge.

(d) If a hearing and further examination

of the alleged incompetent is requested as herein provided, the county judge shall proceed with the adjudication and commitment procedure as set forth in this section. If a hearing and further examination of the alleged incompetent is not requested within the time allowed by law, they shall be deemed waived and the county judge shall determine from the report of the hospital staff, together with the original petition and the report of the original examining committee, whether or not the alleged incompetent is incompetent and in need of further hospitalization and treatment.

(e) If the judge finds the alleged incompetent to be incompetent he shall so adjudge; but if he finds such person is not incompetent he shall dismiss the cause and order such person immediately discharged. A judgment of incompetency shall have the same effect as that specified in subsection (10). Once a judgment of incompetency has been entered, the judge shall follow the provisions of subsection (11) as regarding the commitment of said incompetent.

(f) The head of a state hospital may, upon filing the report as provided in this subsection, include in such report a request that in the event any hearing is requested on such report that the cause be transferred to the county judge of the county in which the hospital at which the patient is confined is located. Upon receipt of such request the county judge shall, except for good cause shown, forthwith transmit the entire file and record to the proper county judge of the county where the hospital wherein the alleged incompetent is confined is located; provided that all costs and fees incident to such proceedings shall be borne by the county from which the original order of certification was issued.

(g) No person who is senile, addicted to the use of drugs, mentally retarded, addicted to the use of alcohol, convulsively disordered, a nonresident or subject to pending criminal charges shall be certified to a state hospital under the provisions of this subsection.

(h) After the entry and filing of the order certifying a person for admission to a hospital, such person shall be presumed to be incapable, for the duration of such hospitalization, of managing his own affairs or of making any gift, contract, or any instrument in writing which is binding on him or his estate. Such civil rights of said person are suspended for the period of such hospitalization. The filing of said order of certification shall be notice of such incapacity and suspension of civil rights. Provided that upon the discharge of said person from the hospital, his civil rights shall be deemed automatically restored.

(i) *Temporary guardian.*—

1. After the entry and filing of an order certifying any person to a hospital, the county judge, upon application of any party, may appoint a temporary guardian of the property of such person. Such appointment shall

be made only after notice to said person or to one or more members of his family or next of kin as may be required in the discretion of the county judge.

2. From and after the rendition of the order appointing a temporary guardian of the property of such person, the general guardianship laws of this state shall apply to all subsequent proceedings thereon. Any temporary guardian of the property appointed as a result of the filing of such application shall qualify to serve as such by filing his oath, furnishing bond, and making such accounting as shall be required by order of the county judge. The general guardianship laws of this state shall apply to such guardian of the property.

3. Upon the discharge of such person for whom a temporary guardian of the property has been appointed by the hospital as in paragraph (b) provided, the temporary guardian shall forthwith file his final account and, upon approval of the same and surrender of the assets in the hands of the temporary guardian of the property, as ordered by the county judge shall be discharged.

4. Any person for whom a temporary guardian of the property has been appointed, thereafter adjudicated incompetent as in paragraph (c), may have a guardian of the property, or of the person, or of both, appointed under the general guardianship law of this state. Upon such adjudication of incompetency and the appointment of a guardian of the property of such person, the temporary guardian shall forthwith file his final account in the office of the county judge and upon its approval by the county judge and the surrender of the assets in the hands of the temporary guardian as directed by order of the county judge, the temporary guardian shall be discharged.

(13) **PAYMENT FOR THE CARE OF COMMITTED INCOMPETENTS.**—Reasonable charges and expenses for the care, maintenance and treatment of committed incompetents under any provision of this section and reimbursement for such charges and expenses that may be advanced by the state or any political subdivision thereof, shall be a lawful charge against the person and estate or property, real, tangible or intangible, of said incompetent in this state. Such charges and expenses may lawfully be paid from the estate of the said incompetent by any authorized personal representative, parent, or legal guardian of said incompetent; provided, however, that the payment thereof, in advance or otherwise, shall never be a prerequisite to the care, maintenance and treatment of any committed incompetent under any circumstances whatsoever. In cases of commitments to state hospitals or institutions, such charges and expenses shall be fixed or approved by the division of mental health. In the case of commitments to private hospitals or to public hospitals or institutions other than state hospitals or institutions, such charges and

expenses shall be fixed or approved by the board of county commissioners of the county wherein the patient is or has been committed. Any suit or action instituted by the state or any political subdivision thereof for the recovery of such charges and expenses against the person or his duly authorized personal representative, parent, or legal guardian, shall be brought by the state attorney of the judicial circuit in which said incompetent was committed, or by the department of legal affairs or both such state attorney and department of legal affairs, as the case may be, as party plaintiff.

(a) If an individual ordered to be hospitalized pursuant to the previous section is eligible for hospital care or treatment by any agency of the United States, the court, upon receipt of such advice from such agency showing that facilities are available and that the individual is eligible for care or treatment therein, may order him to be placed in the custody of such agency for hospitalization. When any such individual is admitted pursuant to the order of such court to any hospital or institution operated by any agency of the United States within or without the state, he shall be subject to the rules and regulations of such agency. The chief officer of any hospital or institution operated by such agency and in which the individual is so hospitalized, shall with respect to such individual be vested with the same powers as the heads of hospitals within this state with respect to detention, custody, transfer, conditional release, or discharge of patients.

(a) In all cases where any person who has been heretofore, or hereafter may be adjudged incompetent, whether such person be confined

in the Florida state hospital or has been discharged therefrom, or is in the custody of any person, persons, or committee, it shall be lawful for any relative, husband or wife, or next friend of such person as the case may be, to apply by petition to the county judge of the county where the alleged incompetent was adjudged incompetent, or where such person may be living at the date of such application, to have the mental status of such adjudged incompetent inquired into, as to whether such person is still incompetent and unable to manage his or her affairs; provided, however, that when the alleged incompetent is confined in the Florida state hospital, or any branch thereof, the proceedings shall be brought in the county in which said institution is located.

(b) Such petition shall contain all the facts upon which an order restoring such person to a judicially sound mental condition or status of competency is prayed, and shall be under oath. Such proceeding shall be ex parte and without respondent being named therein; provided however, that service of a copy of said petition shall be served upon the state attorney of the judicial circuit embracing the county in which the cause is brought, and he shall represent the state in such cases. In the event a legal guardian, as provided under the laws of Florida, has been appointed, of the person or property of said adjudicated incompetent, that then and in that event service of a copy of said petition for restoration shall be made upon said legally appointed guardian of the person or property of the adjudicated incompetent. Proof of service of copies of the notice, certificates, and petition shall be by affidavit or acknowledgment to be filed with the court.

(c) Upon the filing of such petition, the county judge of such county shall cause the adjudicated incompetent to be brought before him at an early date, after reasonable notice to the state attorney and legal guardian of said adjudicated incompetent; the time of said notice to be fixed by the county judge, at which time the issue in the said petition shall be tried, unless for the cause of justice the time shall be enlarged in the discretion of the court. In all other respects the hearing before the county judge on said petition shall be had in the same manner as the hearing provided in subsection (4) of this section.

(d) If upon the hearing of such cause it shall appear to the court that the adjudicated incompetent is of sound mind and is capable of managing his or her own affairs, the county judge hearing such cause shall immediately issue his order herein, which order shall be to the following effect:

1. That said person is of sound mind judicially and is capable of managing his own affairs.
2. That said person be immediately restored to his personal liberty.
3. That the guardian, committee, or custodian, as the case may be, of such person, shall,

within thirty days, or such time as the county judge may fix, make full settlement with such person so restored to the status of judicial competency of all his or her property in their or his hands, custody or control, as the case may be, under penalty of contempt of court and the punishment thereof.

(e) The county judge entering such order shall forthwith cause a certified copy thereof to be forwarded to the office of the county judge of the county where said incompetent was originally committed, and said certified copy of order of restoration shall be filed in the original proceedings of record in said county; and a certified copy thereof shall be forwarded to the office of the superintendent of the Florida state hospital.

(f) The petitioner shall be entitled to an appeal to the appropriate district court of appeal in the time and in the manner prescribed by the Florida appellate rules, or to the supreme court if authorized by §4, Art. Said certificate shall be attested by the superintendent or manager of the said hospital or institution or someone designated by such superintendent or manager, and said certificate shall be admissible in evidence in any hearing for the restoration to sanity of such person and shall be prima facie proof that such person is sane.

(b) *Automatic restoration.*—Upon issuing the certificate as provided in the foregoing paragraph, the original of said certificate shall be sent to the office of the county judge where said patient to whom said certificate was issued was originally committed. Upon receipt of said certificate it shall be docketed and filed in the file of said person and the county judge shall notify the legally appointed guardian of said discharged person, if there be one appointed, and the state attorney of the judicial circuit embracing the county that said person has been discharged from the state hospital with a certificate of competency and said state

attorney shall represent the state in this matter. The state attorney shall file any objections he might have to the restoration to competency of the person named in the certificate within twenty days of his receiving notice of said discharge; provided, the state attorney may prior to the expiration of the twenty day period file a waiver of objection. If no objections are filed within the time allowed herein or if a waiver of objection is filed, the person named in said certificate shall automatically be restored to competency on the basis of said certificate and an order to that effect shall forthwith be entered by the county judge. Provided, however, no fee shall be charged by the county judge for such proceedings. In the event an objection to such restoration is made by the state attorney, a copy of said objections shall be served by registered or certified mail upon the person named in said certificate or upon his next of kin, if known, or legal guardian if one has been appointed, together with a notice that said person or his next of kin, if known, or legal guardian if one has been appointed must institute restoration proceedings which shall be the same in substance as those proceedings provided in subsection (15) of this section.

The attorney shall be entitled to a reasonable fee not to exceed fifty dollars, to be allowed by the county judge and paid by the county commissioners of the county from the county's general fund.

(17) REMOVAL OF PHYSICAL INCOMPETENCY.—

(a) *Petition.*—After a judgment of physical incompetency has been entered, if the person affected thereby shall at any time thereafter become able to care for his property, he or one or more of his family or any of his next of kin may petition the court having jurisdiction of his case, setting forth the recovery of such incompetent and the reasons why he should be restored to his former status.

(b) *Notice and hearing.*—The judge shall set a time for the hearing of such petition, and reasonable notice of the hearing shall be given to the incompetent, if he is not the petitioner, and to one or more of the members of his family, if any, and, if he has no family, or next of kin, known to the county judge to be within his jurisdiction, then such notice shall be given as the judge may direct.

(c) *Order.*—After the hearing, if the judge shall find that such person has regained the ability to care for his property, an order to that effect shall be entered, and thereupon, such person, so far as his person and property are concerned, shall occupy the same status as though he had never been adjudicated incompetent. If a guardian has been appointed for him during such physical incompetency, such guardian shall immediately render his accounting to the court having jurisdiction and

apply for his discharge as provided by the general guardianship laws of this state.

(18) *FORMS.*—The division of mental health shall cause to be prepared and prescribe forms for applications, notices, medical reports, orders of commitment, and such other forms as may be found necessary or convenient, in administering this law. The division shall cause said forms to be printed and distributed to the county judges of this state.

(20) *CRIMINAL COMMITMENTS.*—All persons committed to any of the state hospitals by order of any criminal court shall be liable for the payment of care and maintenance charges in the same manner and at the same rate as persons who have been committed by a county judge in a noncriminal proceeding. Such charges shall be paid from the estate of such mentally ill person admitted under a criminal court order and shall be a lawful charge against the estate or property, real, tangible or intangible, of said mentally ill person where-soever situate; provided, however, the provisions of this subsection shall be applicable only to persons committed by a court having criminal jurisdiction prior to entry of any order of sentence, but shall not apply to persons who have been committed to the state hospitals while serving a criminal sentence.

Said report shall contain the results of the examination, a diagnosis and history of the child's mental and physical condition and a statement as to whether or not the committee believes said child will benefit from intensive care and treatment at the children's division.

(6) CERTIFICATION.—On the basis of the petition and original examination report and examining committee's report, if any, and such other evidence and testimony as may be presented, the judge shall determine whether or not the child named in the petition is severely emotionally disturbed or psychotic and will benefit from intensive care and treatment at the children's division. If the judge finds the child is severely emotionally disturbed or psychotic and will benefit from intensive care and treatment at the center, he shall certify the child for admission to the center; provided, however, no child shall be admitted to the center without the consent of the director of the children's division; if he finds said child is not severely emotionally disturbed or psychotic and will not benefit from intensive care and treatment at the center, said judge may dismiss the cause or make such other order as he may deem in the best interest of said child.

All payments hereunder shall be made to the superintendent and remitted by him to the state treasurer at stated intervals and deposited to general revenue fund. The expenses of certification and transportation to and from and admission to the center shall be borne by the county from which the child is admitted, except in cases of paying children in which case such expenses shall be borne by the parent, guardian or estate of said child. Whether or not a child is admitted to the center on a paying basis shall in no way influence the treatment of said child; every child at the center is to be treated solely on his merits and according to his mental and physical condition.

394.60 Transfer of patients.—When it is made to appear to the division of mental health that any child at the center is not responding to or benefiting from the intensive care and treatment at the center and that such child is in need of further care and treatment and would be more suitably treated and cared for at one of the Florida state hospitals or sunland training center, said division of mental health may order such child transferred from the center to sunland training center or to one of the state hospitals, as the case may be, and thereupon said child shall be received and treated and cared for in Florida state hospital or sunland training cen-

The original of said certificate shall be forwarded to the county judge who originally certified said child and copy shall be sent by registered or certified mail to the parent or guardian of the child. Upon the filing and docketing said certificate, the case shall be terminated. In the event the parent or legal guardian cannot be found or refuses to accept custody of said discharged child, the child shall be placed in the care and custody of the juvenile court of the county from which the child was originally admitted, as a dependent child.

(2) In addition to the discharge procedure contained in subsection (1), the division of mental health, together with the superintendent of the south Florida state hospital, may make such rules and regulations as they deem necessary to provide for the trial visits or vacation leaves of patients at the center who are not sufficiently improved to be discharged from the center.

History.—§12, ch. 59-383; §§19, 35, ch. 69-106.

History.—§1, ch. 24096, 1947; §1, ch. 57-227; §§16, 35, ch. 69-106.
***Note.**—In order to conform with §16, ch. 69-106, the editors have substituted a definition of "division" for the definition of "commission." This subsection will be amended so to read by a subsequent reviser's bill.

399.02 General requirements.—

(1) The requirements of this chapter shall

apply to all installations of elevators, as defined, as hereinafter specified.

(2) The division shall adopt an elevator safety code the same as or similar to the latest revision of the "American standard safety code for elevators, dumbwaiters and escalators," which is hereinafter referred to as the "Elevator safety code." This may be changed from time to time to comply with future revisions.

(3) The division shall by regulation fix the responsibilities of the manufacturer, the constructor and the owner for all elevator installations.

(4) The division only shall have the power to grant exceptions or permit the uses of other devices or methods as may be provided by the elevator safety code.

(5) All new and existing elevators shall have a serial number assigned by the division painted on or attached to the elevator car in plain view and also to the driving mechanism. This serial number shall be shown on all required certificates.

(6) (a) A permit shall be obtained from the division of general regulation before erecting or constructing new elevators, moving such apparatus from one hoistway to another, or before making alterations to existing equipment.

(b) The contractor, company or individual employed to do the work, shall submit an application for a permit accompanied by specifications and drawings showing the proposed construction, equipment, and mode of operation in such form as the division may prescribe.

History.—§2, ch. 24096, 1947; §2, ch. 57-227; §§16, 35, ch. 69-106. cf.—§399.13, Certain municipalities exempt.

(1) All new elevators, dumbwaiters, and escalators shall be designed and installed in accordance with the requirements of the elevator safety code.

(2) All alterations to, and relocations of, elevators, dumbwaiters, and escalators, installed after the adoption of this act, shall meet the requirements of the elevator safety code.

(3) Elevators, dumbwaiters and escalators installed before July 1, 1947, may be used without being rebuilt to comply with the requirements of the elevator safety code; pro-

vided, however, all such elevators shall be equipped with standard hoistway entrance protection, and all passenger elevators of more than one hundred feet per minute contract speed shall be provided with car doors or gates which meet the requirements of the elevator safety code on or before July 1, 1959. Such installations shall be maintained in a safe operating condition and shall be subject to inspections and tests required by §399.08. The division shall issue a certificate for each existing elevator, dumbwaiter, and escalator, which certificate shall be posted in the car, and on, near, or plainly visible from the dumbwaiter and escalator.

(4) Elevators, dumbwaiters and escalators, moved from one shaft or location to another, shall conform to the requirements of the elevator safety code.

(5) (a) Existing installations may be altered to obtain the advantage of any provisions of the elevator safety code, provided the safety requirements covering such provisions are met.

(b) Where alterations are made to existing installations, any part of the installation which is directly affected as to safety, due to the alteration, shall comply with the requirements of the elevator safety code, subject also to the following subsections of this section.

(6) Where an increase is made in the contract load, the installation shall meet the requirements of the elevator safety code for car and counterweight safeties, interlocks and terminal stopping devices.

(7) Where an increase is made in the contract speed, the installation shall meet the requirements of the elevator safety code for car and counterweight safeties, buffers, speed governor, interlocks and terminal stopping devices. The pull-out of the governor cable need not meet the requirements of the elevator safety code.

(8) Where any change is made in the method of operation, or type of control, the installation shall meet the requirements of the elevator safety code for interlocks and terminal stopping devices.

(9) Where any change is made in the classification, the installation shall meet all of the requirements of the elevator safety code.

(10) Change in power supply (general):

(a) Change in voltage, frequency, or number of phases of an alternating current supply; or

(b) Change from direct current to alternating current or alternating current to direct current; or

(11) Only such electrical equipment or parts thereof as are adjusted or altered to operate safely and properly in the opinion of the division may be retained.

(12) Change from direct to alternating current.

(13) (a) Where the change of power supply is from direct current to alternating current, existing electric brakes, if inadequate in the

opinion of the division, shall be replaced with electrically released brakes of sufficient capacity to meet the operating and test requirements of the elevator safety code.

(b) Where elevators and escalators are not equipped with electrically operated brakes, such equipment shall be provided in accordance with the elevator safety code.

(14) Where the change of power supply is from direct to alternating current, the motor and control shall be of a type which will provide at least one slowdown step having a stable speed not more than one half the contract speed, except as follows:

(a) If the contract speed is one hundred and ten feet per minute or less, one-speed motor and control may be used.

(b) If the contract speed is two hundred feet per minute or less, and the overhead car and counterweight clearances are at least as great as required by the elevator safety code for the contract speed, one-speed motor and control may be used.

(15) Where the change in power supply is from direct to alternating current terminal stopping devices shall be provided to conform to the requirements of the elevator safety code.

(16) (a) Damaged or defective parts shall be wholly or partially replaced at the discretion of the division; broken parts subject to bending, tension or torsional stresses, and parts upon which the support of the car depends, shall not be welded.

(b) Ordinary repairs or replacement on existing installations may be made with parts equivalent in material, strength and design to those replaced. Such repairs and replacements need not conform to the requirements of this chapter.

399.04 Inspectors.—

(1) To carry out the provisions and the intent and purpose of this chapter, the division is authorized, and its duty shall be, to appoint and fix salaries of the necessary state elevator inspectors on a merit basis, and may delegate to such inspectors such powers and authority as may be necessary to enable them to effectively discharge their duties, provided, however, that no person shall be appointed to such position unless he has had seven and one-half years practical experience in the construction, installation or inspection of elevators.

(2) (a) No other person shall be authorized to act as an inspector of elevators, unless he holds a current certificate of competency from the division as provided in this section.

(c) Each certificate of competency shall be issued for a calendar year and shall expire at the end of the year unless renewed by the division. Each application for annual renewal of a certificate of competency shall be accompanied by a renewal fee of five dollars.

(3) Certificates of competency shall be issued to applicants who have successfully completed examinations for inspector, and any certificate holder may make inspections required by §399.05, when employed by the division, or an insurance company, in accordance with regulations of the division.

(4) Certificates of competency may be revoked by the division for cause, after a hearing is afforded the holder thereof.

(5) A certificate of competency may be issued to an applicant therefor without examination when such applicant shall furnish to the division satisfactory evidence that he is employed as an inspector of elevators by an insurance company authorized to do business in this state, by a manufacturer or dealer in elevators, or by a municipality, and such applicant is otherwise qualified as provided in this chapter.

399.05 Permit to erect; fees; inspection and tests of new, moved or altered installations.—

(1)(a) Before any permanent elevator shall be erected, removed to a different location, or whenever any changes or repairs are made which alter its construction or the classification, grade or rated lifting capacity thereof, detailed plans and specifications of the said apparatus, in duplicate, shall be submitted to the division for approval, the permit fee required under paragraph (b) of this subsection shall be paid, and a permit obtained from the division for such work. Where plans and specifications are submitted to, and approved by the division, a permit for the erection or other work shall be issued upon payment of the permit fee required by paragraph (b) of this subsection. A final inspection shall be made of the apparatus when installed or repairs completed, before final approval shall be given by the division. The elevator shall not be operated until such final inspection and approval be given, unless a temporary permit be granted by the said division.

(b) Each applicant for a permit from the division pursuant to paragraph (a) of this subsection shall pay the division a fee based on the cost of the installation, computed as follows: five dollars on the first five thousand dollars of such cost, fifty cents on each additional thousand dollars of cost up to fifty thousand dollars, and thirty-five cents on each thousand

dollars of cost in excess of fifty thousand dollars.

(2) The operation or use of any new, altered or moved elevator, is prohibited until such equipment has passed tests and inspection as required by this section and a certificate to this effect has been issued in accordance with §399.07.

(3) The person or firm installing, moving or altering elevators, shall notify the division in writing, at least seven days before completion of the work and shall, in the presence of a representative of the division, subject the new, moved, or altered portions of the equipment to tests required to show that such equipment meets the requirements of this chapter. Where the division grants specific permission, such tests and inspection may be made without the presence of the division's representative, provided a certified copy of the test is furnished to such official.

(1) The owner or user of any elevator in this state shall register with the division every elevator operated by him, giving the type, capacity and description, name of manufacturer and purpose for which each is used on or before ninety days after this chapter becomes effective. Such registration shall be made on a form to be furnished by the division.

(2) Every inspector shall forward to the division a full report of each inspection made of any elevator, as required to be made by him under the provisions of §399.05, showing the exact condition of the said elevator. If this report indicates that the said elevator is in a safe condition to be operated, the division shall issue a certificate of operation for a capacity not to exceed that named in the said report of inspection, which certificate shall be valid for one year after the date of inspection unless the certificate is suspended or revoked by the division. No elevator may lawfully be operated on or after January 1, 1948, without having such a certificate conspicuously posted thereon; where there is an elevator cab it shall be posted conspicuously therein.

(3) If any elevator be found which, in the judgment of an inspector, is dangerous to life and property, or is being operated without the operating certificate required by §399.07, such inspector may require the owner or user of such elevator to discontinue its operation, and the inspector shall place a notice to that effect conspicuously on or in such elevator. Such notice shall designate and describe the alteration or other change necessary to be made in order to insure safety of operation, date of inspection, and time allowed for such alteration or change. Such inspector shall immediately report all facts in connection with such elevator to the division. In the event a certificate has been

issued for such elevator, the said certificate shall be suspended and not renewed until such elevator has been placed in safe condition. In such case, where an elevator has been placed out of service, the owner or user of such elevator shall not again operate the same until repairs have been made and authority given by the division to resume operation of the said elevator.

(4) The owner or user of every elevator, escalator, dumbwaiter, or man lift subject to this chapter shall pay to the division an annual license or inspection fee as a prerequisite to issuance of a certificate of operation pursuant to subsection (2), which annual fee shall be based upon the type of installation and the number of floors served thereby, as follows:

(3) Certificates shall show the serial number of the elevator for which it is issued, as required in subsection (5) of §399.02.

(4) The required certificate shall be posted in a conspicuous location in the elevator car, and on, near, or plainly visible from the dumbwaiter, escalator, amusement device or special equipment.

(5) The division may permit the temporary use of any elevator, dumbwaiter, or escalator, for passenger or freight service during the installation or alteration, under the authority of a limited certificate, issued by it for each class of service. Such limited certificate shall not be issued until the elevator shall have been tested under contract load, and the car safety and terminal stopping equipment for construction purposes.

(6) Limited certificates shall be issued for a period not to exceed thirty days. Such certificates may be renewed at the discretion of the division.

(7) Where a limited certificate is issued, a notice bearing the information that the equipment has not been finally approved shall be conspicuously posted on, near, or visible from each

entrance to such elevator, dumbwaiter or escalator.

399.08 Routine inspections, tests and maintenance.—

(1) Passenger and freight elevators shall be inspected by an inspector and tested by the owner in the presence of the inspector at least once each calendar year.

(3) The division shall certify the inspection of each elevator which, after inspection, is judged to be in conformity with the requirements of this chapter. This certification shall be in the form of an endorsement of the certificate required in §399.07, and shall include the date of the inspection and the signature of the inspector.

400.011 Purpose.—The purpose of this chapter is to provide for the development, establishment and enforcement of basic standards for the health, care, and treatment of persons in nursing homes, and for the construction, maintenance, and operation of such institutions which, in the light of existing knowledge, will insure safe and adequate care, treatment, and health of persons in such homes.

History.—§1, ch. 69-309.

400.021 Definitions.—When used in this chapter, unless the context otherwise requires:

* (1) ["Division" means the division of health of the department of health and rehabilitative services.]

* (2) "Health officer" means the state health officer and secretary to the state board of health.

(3) "Nursing home administrator" means the individual in general administrative charge of the nursing home.

(4) "Council" means the nursing home council.

(5) "Nursing home" or "home" means a private home, institution, building, residence, or other place, whether operated for profit or not, including those places operated by a county or municipality, which undertakes through its owners or management to provide, for a period exceeding twenty-four hours, maintenance, personal care, nursing, or related extended care for three or more persons not related by blood or marriage to the operator, who by reason of illness, physical infirmity, or advanced age are unable to care for themselves, but shall not include any place providing care and treatment primarily for the acutely ill. A home offering services for less than three persons shall be within the meaning of this definition if it holds itself out to the public to be an establishment which regularly provides nursing and custodial services.

(6) "Home for the aged" means a home providing domiciliary and custodial service.

(7) "Nursing service" means such services or acts as may be rendered directly or indirectly to, and in behalf of, a person by individuals as defined in §464.021.

(8) "Custodial service" means care for the person which entails observation of diet and sleeping habits and maintenance of a watchfulness over the general health, safety, and well-being of the aged or infirm.

History.—§2, ch. 69-309; §§19, 35, ch. 69-106.

* **Note.**—In order to conform with §19, ch. 69-106, the editors have substituted a definition of "division" for the definition of "board." Subsection (2) will be repealed by a subsequent reviser's bill as obsolete.

400.031 Classification of homes.—

(1) The division shall classify nursing homes according to character, size, and range of services provided. Whenever it deems distinctions in its standards, rules, and regulations to be appropriate as among different classes of nursing homes, it may make such distinctions.

(2) No administrator of a nursing home, and no registered nurse who plans and directs the nursing care in a home, shall function as either administrator or one who plans and directs the nursing care for more than one nursing home, unless the homes involved are of a class or classes found by the division to be of a character, size, and type of operation making it reasonable for a single administrator or registered nurse to perform such functions effectively for more than one nursing home. As part of the classifications made pursuant to this section, the division shall determine and fix specific limits on the number of homes of particular classes which may be served by the same individual acting as administrator or registered nurse responsible for planning and directing nursing care. No such administrator or nurse shall accept employment in violation of such limitations; nor shall the owner or administrator of a nursing home knowingly employ any

person in violation thereof. The division shall not issue or renew any nursing home license bearing the name of an administrator which already appears on the maximum number of nursing home licenses permitted by its standards, rules, and regulations.

(2) Licensed operators against whom a revocation proceeding is pending at the time of license renewal shall be issued a conditional permit effective until final disposition by the division of such proceedings. If the final order of the division is appealed from, the court before whom the appeal is taken may order the extension of the conditional permit for a period of time to be specified in said order.

applicant or licensee, setting forth the particular reasons for the proposed action, and a fair hearing, if demanded by the licensee or applicant. Such notice shall be effected by registered or certified mail with return receipt requested, or by personal service. The licensee or applicant, within ten days after receipt of said notice, may request in writing a hearing, delivering the request to the division in person or by due course of mail. corrected and that the license should be reinstated. No licensee who has previously had a license suspended or revoked under this chapter shall request a hearing to reinstate the license prior to one year after the determination becomes final.

(2) The request for hearing shall be in writing and shall be delivered to the division in person or by due course of mail.

(3) Any hearing conducted under this section shall not operate to stay or supersede any decision revoking or suspending a license.

(4) Hearings conducted under this section shall be conducted in the same manner as prescribed for hearing in §400.121.

History.—§12, ch. 69-309; §§19, 35, ch. 69-106.

400.141 Administration and management of nursing homes.—Every nursing home shall comply with all applicable standards, rules, and regulations of the division and shall:

(1) Be under the administrative direction and charge of the person whose name appears on the nursing home license as administrator of the nursing home.

(2) Have at least one registered nurse responsible for planning and directing the nursing care, at least one nurse licensed by this state on duty at all times, and such additional registered and licensed practical nurses in its employ as the size and regular patient care needs in the home may require.

(3) Have the regular, consultative, and emergency services of one physician licensed by this state and as many additional licensed physicians as the size and patient care needs in the home may require.

(4) Provide for the access of its patients to dental and other health related services, recreational services, rehabilitative services, and social work services, appropriate to their needs and conditions and not directly furnished by the nursing home.

(5) Keep drugs and medicines in a safe place specially set aside for that purpose.

(6) Maintain its premises and equipment and conduct its operations in a safe and sanitary manner.

(7) Provide a wholesome and nourishing diet sufficient to meet generally accepted standards of proper nutrition for its patients, and provide such therapeutic diets as may be prescribed for individual patients. In making rules and regulations to implement this subsection, the division shall be guided by standards recommended by nationally recognized professional groups and associations with knowledge of dietetics.

(8) Keep full records of patient admissions, discharges, medical and general health status, including medical records, personal and social history, and identity and address of next of kin or other persons who may have responsibility for the affairs of the patients. Each party to such contract shall be entitled to a duplicate original thereof and the nursing home shall keep on file all contracts which it has with patients. The nursing home shall not destroy or otherwise dispose of any such contract until one year after its expiration or such longer period as may be provided in the rules and regulations of the division.

(2) Each contract to which this section applies shall contain express provisions specifically setting forth the following:

(a) The term of the contract.

(b) The services and accommodations to be provided by the nursing home and the rates or charges therefor.

(c) Specifications of any rights, duties, and obligations of the parties in addition to those required by operation of law.

History.—§14, ch. 69-309; §§19, 35, ch. 69-106.

400.162 Property and personal affairs of patients.—

(1) The admission of a patient to a nursing home and his presence therein shall not confer on such nursing home or its owner, administrator, employees, or representatives any authority to manage, use, or dispose of any property of such patient; nor shall such admission or presence confer on any of the aforementioned persons any authority or responsibility for the personal affairs of the patient, except to the extent necessary for the safety and orderly management of the nursing home.

(2) No nursing home, and no owner, administrator, employee, or representative thereof, shall act as guardian, trustee, or conservator for any patient of such nursing home or any of such patient's property.

(3) A nursing home shall provide for the safekeeping of personal effects, funds, and other property of the patient in the home. (4) A nursing home shall keep complete and accurate records of all funds and other effects

and property of its patients received by it for safekeeping.

(5) Any funds or other property belonging or due to a patient or expendable for his account which are received by a nursing home shall be trust funds, shall be kept separate from the funds and property of the nursing home and other patients, or specifically credited to such patient, and shall be used or otherwise expended only for the account of the patient. Moneys or securities received as advance payment for care shall at no time exceed the cost of care for a six month period. Upon request, but not more often than once every three months unless upon order of a court of competent jurisdiction, the nursing home shall furnish the patient and the guardian, trustee, or conservator, if any, for such patient a complete and verified statement of all funds and other property to which this subsection applies, detailing the amounts and items received, together with their sources and disposition. In any event, the nursing home shall furnish such a statement annually and upon the discharge or transfer of a patient. Any governmental agency or private charitable agency contributing funds or other property on account of a patient also shall be entitled to receive such statement annually and upon discharge or transfer and such other report as it may require pursuant to law.

History.—§15, ch. 69-309.

400.17 Rebating prohibited.—No owner, administrator, employee, or representative of a nursing home shall pay any commission, bonus, fee, or gratuity in any form whatsoever to any physician, surgeon, organization, agency, or any person, either directly or indirectly, for patients referred.

History.—§16, ch. 69-309.

400.18 Closing of nursing home.—

The home also shall inform the patient, the next of kin, legal representative, or agency acting on the patient's behalf of the fact and proposed time of such discontinuance and give sufficient notice so that suitable arrangements may be made for the transfer and care of such patient. In the case of any patient who has no such person to act in his behalf, the home shall be responsible for securing a suitable transfer of the patient prior to the discontinuance of operation.

(2) Immediately upon discontinuance of operation of a nursing home, the owner shall surrender the license therefor to the division and such license shall be canceled.

History.—§16, ch. 69-309; §19, 35, ch. 69-106.

400.19 Right of entry and inspection.—The division and any duly designated officer or employee thereof shall have the right to enter upon and into the premises of any nursing home

licensed pursuant to this chapter at any reasonable time in order to determine the state of compliance with the provisions of this chapter and any rules and regulations in force pursuant thereto. Such right of entry and inspection also shall extend to any premises which the division has reason to believe is being operated or maintained as a nursing home without a license, but no such entry or inspection of any premises shall be made without the permission of the owner or person in charge thereof, unless a warrant is first obtained from the circuit court authorizing same. Any application for a nursing home license made pursuant to this chapter shall constitute permission for and complete acquiescence in any entry or inspection of the premises for which the license is sought in order to facilitate verification of the information submitted on or in connection with such application.

History.—§18, ch. 69-309; §19, 35, ch. 69-106.

400.20 Licensed administrator required.—

No nursing home shall operate except under the supervision of a nursing home administrator, and no person shall be a nursing home administrator unless he is the holder of a current license issued pursuant to this chapter; and, further, all applicants certified by the First Church of Christ Scientist in Boston, Massachusetts, shall also be issued a license without the necessity of an examination.

History.—§19, ch. 69-309.

***400.21 Licenses; nursing home administrators.**—

(1) The council, subject to review by the division, shall:

(a) Establish standards, which must be met by individuals in order to receive a license as a nursing home administrator, which standards shall be designed to insure that nursing home administrators will be individuals who are of good character and are otherwise suitable, and who, by training or experience in the field of institutional administration, are qualified to serve as nursing home administrators.

(b) Develop and apply appropriate techniques, including examinations and investigations, for determining whether an individual meets such standards and the division shall issue licenses to individuals determined, after the application of such techniques, to meet such standards.

(c) Revoke or suspend administrator licenses previously issued in any case where an individual holding any such license is determined substantially to have failed to conform to the requirements of such standards.

(2) All minimum standards, rules, and regulations shall be reasonable and fair, it being the intention of the legislature to provide adequate and safe administration of nursing homes, rather than to regulate competition. Any minimum standard, rule, or regulation so established shall provide that a person who presents satisfactory evidence of having received a license as a nursing home administrator

tor from another state, pursuant to a state licensing law meeting the minimum standards of the federal social security act, shall be entitled to the issuance of a license without the necessity of an examination.

(3) A person who desires to be licensed as a nursing home administrator shall apply to the council in writing on a blank furnished by the council. He shall pay to the council, at the time of filing his application, a fee of \$25.00 no part of which shall be returned.

(4) An initial registration fee of \$75.00 shall be required upon issuance of a license as a nursing home administrator. Such license shall be renewable annually on July 1 of each year for a fee of \$25.00.

(5) Any funds received by the council from fees which remain uncommitted and unexpended at the end of each year shall be paid into the general revenue fund.

(6) No person shall hold himself out to be a qualified nursing home administrator unless he is licensed in accordance with this chapter.

History.—§20, ch. 69-309; §§19, 35, ch. 69-106.

***Note.**—This section will be amended by a subsequent reviser's bill to conform the functions of the council to ch. 69-106, which reorganized the executive branch of government. cf.—§400.24 Nursing home council; powers and duties.

***400.22 Provisional license required.—**

(1) The council may issue a provisional license to any individual over the age of twenty-one years who submits evidence that for not less than one year prior to October 1, 1969, he has been regularly engaged as a nursing home administrator as defined in this chapter.

(2) Such provisional license shall terminate after two years or at midnight, June 30, 1972, whichever is earlier, and shall be canceled and be of no legal force or effect thereafter. However, if, prior to the expiration of such provisional license, such provisional nursing home administrator shall have passed a qualifying examination as required by the council, a nursing home administrator license shall be issued to him.

(3) A provisional license or extension thereof may not be issued to any person after June 30, 1972.

History.—§21, ch. 69-309.

***Note.**—See note following §400.21.

400.23 Minimum standards, rules and regulations to be prescribed by the division.—

(1) The division shall prescribe, publish, and enforce minimum standards in relation to:

(a) Location and construction of the home, including plumbing, heating, lighting, ventilation, and other housing conditions which shall insure the health, safety, and comfort of residents and protection from fire hazard. Such standards shall include adequate provisions for fire alarm and fire protection suitable to the size and type of structure and an adequate nurse-call system.

(b) Number and qualifications of all personnel, including management and nursing personnel, having responsibility for any part

of the care given to residents;

(c) All sanitary conditions within the nursing home and its surroundings, including water supply, sewage disposal, food handling, and general hygiene, which shall insure the health and comfort of residents;

(d) Equipment essential to the health and welfare of the residents.

(2) The division may adopt and enforce rules and regulations relating to the operation and conduct of nursing homes and the care, treatment, and maintenance of the residents thereof as it shall deem necessary for an effective administration of this chapter.

(3) All minimum standards, rules, and regulations to be prescribed hereunder shall be reasonable and fair, it being the intention of the legislature to provide safe and sanitary homes for the patients thereof. Such minimum standards shall be those in effect at the time of original licensure.

(4) The division is authorized to charge a fee not to exceed \$50.00 for services rendered in reviewing preliminary plans of each new project, whether an alteration or addition.

History.—§22, ch. 69-309; §§19, 35, ch. 69-106.

***400.24 Nursing home council; powers and duties.—**

(1) The governor, subject to confirmation by the senate, shall appoint a nursing home council to advise and consult with the division in carrying out the administration of this chapter. 403.011 Short title.—This act shall be known and cited as the Florida Air and Water Pollution Control Act.

History.—§2, ch. 67-436.

403.021 Legislative declaration; public policy.—

(1) The pollution of the air and waters of this state constitutes a menace to public health and welfare, creates public nuisances, is harmful to wildlife, fish and other aquatic life, and impairs domestic, agricultural, industrial, recreational, and other beneficial uses of air and water.

(2) It is declared to be the public policy of this state to conserve the waters of the state and to protect, maintain, and improve the quality thereof for public water supplies, for the propagation of wildlife, fish and other aquatic life, and for domestic, agricultural, industrial, recreational, and other beneficial uses, and to provide that no wastes be discharged into any waters of the state without first being given the degree of treatment necessary to protect the beneficial uses of such water.

(3) It is declared to be the public policy of this state and the purpose of this act to achieve and maintain such levels of air quality as will protect human health and safety, and to the greatest degree practicable, prevent injury to plant and animal life and property, foster the comfort and convenience of the people, promote the economic and social development of this state and facilitate the enjoyment of the natural attractions of this state.

(4) It is declared that local and regional air and water pollution control programs are to be supported to the extent practicable as essential instruments to provide for a coordinated statewide program of air and water pollution prevention, abatement and control for the securing and maintenance of appropriate levels of air and water quality.

(5) It is hereby declared that the prevention, abatement and control of the pollution of the air and waters of this state are affected with a public interest, and the provisions of this act are enacted in the exercise of the police powers of this state for the purpose of protecting the health, peace, and safety, and general welfare of the people of this state.

(6) The legislature finds and declares that control, regulation, and abatement of the activities which are causing or may cause pollution of the air or water resources in the state and which are or may be detrimental to human, animal, aquatic, or plant life, or to property, or unreasonably interfere with the comfortable enjoyment of life or property be increased to insure conservation of natural resources, to insure a continued safe environment, to insure purity of air and water, to insure domestic water supplies, to insure protection and preservation of the public health, safety, welfare, and economic well-being, to insure and provide for recreational and wildlife needs as the population increases and the economy expands, to insure a continuing growth of the economy and industrial development.

(7) The legislature further finds and declares that:

(a) Compliance with this law will require capital outlays of hundreds of millions of dollars for the installation of machinery, equipment, and facilities for the treatment of industrial wastes which are not productive assets and increased operating expenses to owners without any financial return and should be separately classified for assessment purposes;

(b) Industry should be encouraged to install new machinery, equipment and facilities as technology in environmental matters advances, thereby improving the quality of the air and waters of the state and benefiting the citizens of the state without pecuniary benefit to the owners of industries, and the legislature should prescribe methods whereby just valuation may be secured to such owners and exemptions from certain excise taxes should be offered with respect to such installations;

(c) Facilities as herein defined should be classified separately from other real and personal property of any manufacturing or processing plant or installation, as such facilities contribute only to general welfare and health and are assets producing no profit return to owners; and

(d) In existing manufacturing or processing plants it is more difficult to obtain satisfactory results in treating industrial wastes than in new plants being now planned or constructed and that with respect to existing plants in many instances it will be necessary to demolish and remove substantial portions thereof and replace the same with new and more modern equipment in order to more effectively treat, eliminate or reduce the objectional characteristics of any industrial wastes and that such replacements should be classified and assessed differently from replacements made in the ordinary course of business.

History.—§3, ch. 67-436.

The notice shall specify the provision of the law, rule or regulation alleged to be violated, and the facts alleged to constitute a violation thereof, and may include an order that corrective action be taken within a reasonable time. No such order shall become effective except after reasonable notice and the order is served upon the person or persons named therein and a hearing held if requested within the time specified in the notice; except that injunctive relief may be sought as provided under §403.131.

(2) If, after hearing, the department finds that a violation or violations have occurred, it shall affirm or modify its order previously issued, or issue an appropriate order or orders for the prevention, abatement or control of the emissions or pollution involved or for the taking of such other corrective action as may be appropriate. Any order issued prior to a hearing as a part of a notice provided in subsection (1) of this section, or any order issued after a hearing may prescribe the date by which the violation shall cease by fixing reasonable timetables for necessary action to prevent, abate or control the pollution. If after hearing on an order contained in a notice, the department finds that no violation is occurring, it shall rescind the order.

(3) All testimony taken at any such hearing before the department shall be under oath or affirmation. A full and complete record of all proceedings and testimony presented shall be taken and filed, and upon payment and receipt of all costs or fees allowed there-

Such injunctive relief may include both temporary and permanent injunctions.

History.—§14, ch. 67-436; §§26, 35, ch. 69-106.

(2) Upon the request of any state agency or the alleged violator, the department may consider and assess these damages. If the amount so assessed is not paid within a reasonable time as prescribed by the department, the department may institute civil action in the appropriate court for a judicial determination of liability and damages.

(3) Nothing herein shall give the department the right to bring an action on behalf of any private person. Nothing herein shall prohibit the department from proceeding forthwith to obtain a judicial determination of the liability and damages. (2) Violation is punishable by a civil penalty of not more than \$1,000.00 for the first offense and of not more than \$1,000.00 for each offense thereafter. Each day during any portion of which such violation occurs constitutes a separate offense.

403.182 Local pollution control programs.—

(1) Each county and municipality or any combination thereof may establish and administer a local pollution control program if it complies with this act. Local pollution control programs in existence on the effective date of this act shall not be ousted of jurisdiction if such local program complies with this act. All local pollution control programs, whether established before or after the effective date of this act, must:

(a) Be approved by the department as adequate to meet the requirements of this act and any applicable rules and regulations pursuant thereto.

(b) Provide by ordinance, regulation, or local law for requirements compatible with, or stricter or more extensive than those imposed by this act and regulations issued thereunder.

(c) Provide for the enforcement of such requirements by appropriate administrative and judicial process.

(d) Provide for administrative organization, staff, financial and other resources necessary to effectively and efficiently carry out its program.

(2) The department shall have the exclusive authority and power to require and issue permits; provided, however, that the department may delegate its power and authority to local pollution control organizations if the department finds it necessary or desirable to do so.

(3) If the department finds that the location, character or extent of particular concentrations of population, contaminant sources, the geographic, topographic or meteorological considerations, or any combinations thereof, are such as to make impracticable the maintenance of appropriate levels of air and water quality without an areawide pollution control program, the department may determine the boundaries within which such program is necessary and require it as the only acceptable

alternative to direct state administration.

(4)(a) If the department has reason to believe that a pollution control program in force pursuant to this section is inadequate to prevent and control pollution in the jurisdiction to which such program relates, or that such program is being administered in a manner inconsistent with the requirements of this act, the department shall, on due notice, conduct a hearing on the matter.

(b) If, after such hearing, the department determines that such program is inadequate to prevent and control pollution in the municipality, county, or municipalities or counties to which such program relates, or that such program is not accomplishing the purposes of this act, it shall require that necessary corrective measures be taken within a reasonable period of time, not to exceed ninety days.

(c) If the municipality, county, or municipalities or counties fail to take such necessary corrective action within the time required, the department shall administer within such municipality, county, or municipalities or counties all of the regulatory provisions of this act. Such pollution control program shall supersede all municipal or county pollution laws, regulations, ordinances and requirements in the affected jurisdiction.

(d) If the department finds that the control of a particular class of contaminant source because of its complexity or magnitude is beyond the reasonable capability of the local pollution control authorities or may be more efficiently and economically performed at the state level, it may assume and retain jurisdiction over that class of contaminant source. Classifications pursuant to this paragraph may be either on the basis of the nature of the sources involved or on the basis of their relationship to the size of the communities in which they are located.

(5) Any municipality or county in which the department administers its pollution control program pursuant to subsection (4) of this section may with the approval of the department establish or resume a municipal or county pollution control program which meets the requirements of subsection (1) of this section.

(6) In exercising its powers, duties and functions the department of air and water pollution control shall have no jurisdiction over local acts of a stricter or more stringent nature.

History.—§19, ch. 67-436; §26, 35, ch. 69-106.

403.191 Construction in relation to other law.—

(1) It is the purpose of this act to provide additional and cumulative remedies to prevent, abate, and control the pollution of the air and waters of the state. Nothing contained herein shall be construed to abridge or alter rights of action or remedies in equity under the common law or statutory law, criminal or civil, nor shall any provisions of this act, or any act done by virtue thereof, be construed as estopping the state or any municipality, or person

affected by air or water pollution, in the exercise of their rights in equity or under the common law or statutory law to suppress nuisances or to abate pollution.

(2) No civil or criminal remedy for any wrongful action which is a violation of any rule or regulation of the department shall be excluded or impaired by the provisions of this chapter.

(3) This act shall limit and restrict the application of chapter 24952, Laws of Florida, Acts of 1947, to any person operating any industrial plant that has located in the State of Florida in reliance thereon and exercised rights and powers granted thereby on and before the effective date of this act; provided such person shall henceforth in the exercise of such rights and powers install and use treatment works or control measures generally equivalent to those installed and used by other similar industrial plants pursuant to the requirements of the department.

History.—§20, ch. 67-436; §26, 35, ch. 69-106.

403.201 Variances.—

(1) Upon application the department in its discretion may grant a variance from the provisions of this act or the rules and regulations adopted pursuant hereto. Variances and renewals thereof may be granted for any one of the following reasons:

(a) There is no practicable means known or available for the adequate control of the pollution involved.

(b) Compliance with the particular requirement or requirements from which a variance is sought will necessitate the taking of measures which, because of their extent or cost, must be spread over a considerable period of time. A variance granted for this reason shall prescribe a timetable for the taking of the measures required.

(c) To relieve or prevent hardship of a kind other than those provided for in paragraphs (a) and (b) above. Variances and renewals thereof granted under authority of this paragraph shall each be limited to a period of twenty-four months.

(2) The department or its duly designated hearing officer shall hold a hearing on each application for a variance. The hearing procedures of §403.051 shall apply at such hearing.

(a) The department of agriculture and consumer services and the game and fresh water fish commission issue prior approval of such permit.

(b) An appropriate agency, such as an aquatic vegetation laboratory, issues a memorandum certifying that the importation, transportation, or cultivation of such species poses no danger to the waters, fish, reptiles, or ecology of the state.

(5) The department of air and water pollution control, the department of agriculture and consumer services, and the game and fresh water fish commission shall conduct investigations of such species prior to issuance or denial

of a permit for importation, transport or transfer of such species in the waters of the state.

(6) To insure due process to all parties affected, the department shall follow the procedures of parts II and III of chapter 120 relating to hearings and review.

(7) The department shall publicize the provisions of this section on road signs throughout the state.

No person, other than a relative or a person who is considering the adoption of a child in the manner provided for by law, and no institution, society, or association may receive a dependent child for boarding or custody unless such person, society, association or institution shall first have procured a license from the division empowering or authorizing such person, association, institution, or society to care for, receive, or board a child or children. Application for license shall be made on blanks provided by the division. The application must also be approved by the division of health after inspection of health and sanitary conditions. (b) Have not made an assignment or transfer of property for the purpose of rendering or keeping himself eligible for assistance under this chapter. There shall be a rebuttable presumption that any assignment or transfer of property within two years immediately prior to the receipt of assistance pursuant to the

(c) Meet the requirements pursuant to §§409.205, 409.215, 409.225, 409.235, and 409.255, and the rules and regulations of the department. No person shall receive financial assistance for himself under more than one of these sections during the same month.

(2) In determining income available to an applicant or recipient the division may disregard such income as may be required or permitted by federal law.

(2) Is a citizen of the United States or has been a resident of the United States for at least twenty years;

(3) Has been a resident of the state during at least five of the nine years immediately preceding the application for old age assistance and has resided in the state for one year immediately preceding the application; and

(4) Is eligible under §409.185.

(1) Is declared to be blind according to the requirements set by the division;

at least twenty years, except that assistance may be paid to any blind child who is a resident of the state at the time of application;

(3) Has been a resident of the state during at least five of the nine years immediately preceding the application for assistance and who has resided in the state for one year immediately preceding application; provided, that such assistance may be paid to any blind child who has resided in the state for one year preceding the application for such aid, or if under one year of age, the parent or relative with whom the child is living must have resided in the state for one year immediately preceding the birth of such child; and

(3) Is a citizen of the United States or has been a resident of the United States for at least twenty years;

(4) Has been a resident of the state for at least five of the nine years immediately preceding his application for aid and has resided in the state continuously for one year immediately preceding his application; and

(5) Is eligible under §409.185.

History.—§1, ch. 69-268; §§19, 35, ch. 69-106.

***Note.**—See note following §409.205.

409.235 Aid to families with dependent children.—

(1) It is the intent of the legislature to furnish financial assistance and protective, rehabilitative, and other services to dependent children.

(2) There shall be paid monthly assistance in such amount as determined by the division of family services to any child under the age of eighteen, or under the age of twenty-one and still in school, who has been deprived of parental support or care by reason of death, continued absence from the home, or physical or mental incapacity of a parent.

(3) The child must have resided in the state for one year preceding the application for such aid; or if under one year of age, the parent or other relative with whom the child is living has resided in the state for one year immediately preceding application.

(4) Is eligible under §409.185.

(5) If aid to families with dependent children is claimed or applied for on the ground of physical or mental incapacity of parent or other person liable for the support of the dependent child, such aid shall not be granted unless the parent or other person liable for the support of the child be examined by a physician and a certificate of incapacity is signed by said physician and filed with the division. When such physician certifies to the

incapacity of the parent or other person liable for the support of the dependent child, reexamination as to incapacity shall be made annually, if said incapacity is not obvious. Aid to the dependent child shall be discontinued if at any such annual examination a physician shall certify that the parent or other person liable for support of the child is able to provide such support.

(6)(a) The division shall, during the initial and any subsequent determination of eligibility, evaluate the suitability of the home in which the dependent child lives. Consideration shall be given to:

1. Physical care and supervision provided in the home;
2. Social, educational, and religious opportunities afforded the child;
3. The child's physical and mental health and emotional security;
4. Special needs occasioned by the child's physical handicaps or illnesses if the child has any;
5. The extent to which desirable factors outweigh the undesirable in the home; and
6. The apparent possibility for improving undesirable conditions in the home.

(b) The division shall find the home unsuitable if any of the following conditions are found to exist:

1. Physical or mental abuse of the child by beating, overwork, or other cruel treatment, or by improper relations with the child;
2. Exploitation of the child by having him beg on the streets, sell or make contracts for the sale of illegal products, or engage in prostitution;
3. Repeated conviction of the parent or other relative for disorderly conduct, alcoholism, prostitution, or other violations of law evincing a weakness or lack of moral structure in the home;
4. Neglect of the needs of the child by failing to provide proper food and clothing, when this results, not from lack of income, but from use of the income or grant for purposes other than the procurement of necessities, or neglect of the child by failure to assist it in maintaining a satisfactory school attendance record when not prevented by factors outside the control of the parent or relative;
5. Neglect in care of the child by reason of the absence of the parents or relatives who leave the child alone in the home, on the streets, or in the home of neighbors, when such absence is not due to employment or other valid requirements, but for the purpose of engaging in social activities or undesirable pursuits;
6. Feeble-mindedness or disability of the parent or relative to such extent that the parent or relative cannot give the child the minimum care necessary to protect his physical and mental health; or
7. Failure of the parent or relative to provide a stable moral environment for the child.

(c) If the home in which the child lives is found to be unsuitable, but there is reason to

believe that elimination of the undesirable conditions can be effected, and the child is otherwise eligible for aid, a grant shall be initiated or continued for such time as the division and the family require to complete the improvements.

(d) When intensive efforts over a reasonable period have failed to improve the home conditions, the division shall determine if any other relatives specified by the social security act are maintaining a suitable home and are willing to take custody and care for the child in their home. Upon an affirmative finding the division shall, if the parents or relatives with whom the child is living consent, take the necessary steps for placement of the child with such other relatives. If the parents or relatives with whom the child lives refuse their consent to the placement, then the division shall file a petition in the appropriate juvenile court for a decree adjudging the home unsuitable and placing the dependent child with such other relatives.

(e) If a diligent search reveals no other relatives as specified in the social security act maintaining a suitable home and willing to take custody of the child, then the division may file a petition in the appropriate juvenile court for placement of the child according to the law relating to dependent children.

(f) Notwithstanding the provisions of this section, a child otherwise eligible for aid shall not be denied such assistance when a relative as specified in the social security act is unavailable or refuses to accept custody and the appropriate circuit court or juvenile court fails to enter an order removing the child from the custody of the parent, relative or guardian then having custody.

History.—§1, ch. 69-268; §§19, 35, ch. 69-106.

***Note.**—See note following §409.205.

409.245 Dependent children; action for support.—No application to the division of family services for any aid to dependent children which is within its power to grant shall be approved unless such applicant shall have instituted in the proper court, and in good faith prosecutes, a civil action for support from persons liable for the support of applicant's dependent child as the case may be, whenever such cause of action exists. The division shall assist applicants in bringing proceedings to enforce support by such persons who may be liable for the support under the laws of this state. Court costs may be provided for all indigent applicants when necessary and provided by §57.081. Such assistance shall be by consultation and arrangements with legal aid societies and bureaus established by local bar associations if there are such legal aid societies able and willing to act; otherwise, the state attorney of the circuit in which such county is located shall institute and prosecute such action. Assistance shall be granted persons otherwise eligible, pending the institution, and during the prosecution of, such action, but payments may be terminated whenever in the

opinion of the division the action is not being prosecuted in good faith through the fault of the recipient of public assistance or the fault of the person receiving assistance on behalf of dependent children.

History.—§1, ch. 69-268; §§19, 35, ch. 69-106.

409.255 Aid to families with dependent children; parents unemployed.—

(1) When the parent who provides from his earnings the major support of the child is unemployed, the family shall be eligible for assistance, if the parent:

(b) Has not refused, without good and certain cause, to accept a bona fide offer of employment which he can perform, whether offered by the state employment service or by an employer;

(c) Takes advantage of the adult education and vocational education facilities, when retraining or additional training are required to obtain full employment;

(d) Is not receiving workmen's compensation payments in an amount which meets the needs of the family; and

(e) Is eligible under §409.185.

(2) The division of family services, the state employment service, and the department of education are authorized to provide administrative agreements and safeguards to guarantee the integrity of this program and to assure the best use of available community services to return these families to a condition of self-support.

History.—§1, ch. 69-268; §§19, 35, ch. 69-106.

However, such drugs shall be furnished in the most economical manner consistent with the interest of the health of welfare recipients. For this purpose the division is authorized to adopt a formulary and require its use in the writing of prescriptions. The medical school at the University of Florida is hereby authorized to assist the division, upon request, in determining the feasibility and economy of adopting a formulary and in determining the type of formulary most desirable.

(2) In the event that the division shall contract with any private corporation or association in order to carry out the provisions of subsection (1), any such private corporation or association shall, as a condition of such contract or agreement, make any and all of its books, records, or files relating to such contract available to the auditor general for audit of the period since the initial contract with such corporation or association and for an annual post audit.

(3) Any plan adopted by the division under the provisions of this section shall be sub-

2. Is a citizen of the United States and resides in this state; and

3. Has not sufficient income resources or assets, as determined by the division of family services or such other agency of the state as the governor may designate, remaining after necessary expenditure for personal health care including premium for health insurance to provide needed medical care without utilizing his resources required to meet his basic needs for shelter, food, clothing, and personal expenses.

The division shall, upon receiving such appeal, give the applicant or recipient reasonable notice and opportunity for a fair hearing.

(2) The hearing authority may be a panel of division officials or a hearings officer appointed for that purpose. 409.295 Court appointed guardian unnecessary.—It is unnecessary for any incompetent person entitled to public assistance payments, as provided by this chapter, to have a court appointed guardian in order to receive such payments if said incompetent person is living in the household with an adult member of his family or if there is a responsible person who will act in his behalf.

History.—§1, ch. 69-268.

409.315 Public assistance; payment on death.—

(1) Upon the death of any person receiving public assistance through the division of family services, all public assistance accrued to such person from the date of last payment to date of death shall be paid to the person who shall have been designated by the person entitled to receive such public assistance. The designation shall be on a form prescribed by the division and filed with the division during the lifetime of the person making such designation. In the event no designation is made or the person so designated is no longer living or cannot be found, then payment shall be made to such person as may be designated by the county judge of the county where the public assistance recipient resided. Designation by the county judge may be made on a form provided by the division or by letter or memorandum to the department of banking and finance. No filing or recordation of the designation shall

be required, and the county judge shall receive no compensation for such service. If a warrant has not been issued and forwarded prior to notice by the division of the recipient's death, upon notice thereof, the division shall promptly requisition the state comptroller to issue a warrant in the amount of the accrued assistance payable to the person designated to receive it and shall attach to the requisition the original designation of the deceased recipient, or if none, the designation made by the county judge, as well as a notice of death. The comptroller shall issue a warrant in the appropriate amount payable.

(2) If a warrant has been issued and not cashed by the recipient payee prior to his death, such warrant shall be promptly returned to the division, together with notice of the death of the recipient. The original warrant shall be endorsed on the back by an authorized employee of the division. The endorsement shall be on a form prescribed by the division and approved by the department of banking and finance which shall contain the name of the deceased recipient, a statement of his death and the date thereof and state that it is payable to the order of the designated beneficiary, without recourse. The form shall be signed by the authorized employee or employees of the division, and thereupon such warrant shall be payable to the designated beneficiary as fully and completely as if made payable to him when issued. The division shall furnish to the department of banking and finance each month a list of such deceased recipients, the designated beneficiaries or persons to whom such warrants are endorsed, and a description of such warrants as herein provided. The division shall cause all persons receiving public assistance to make the designations as soon as conveniently may be, and shall preserve such designations in a safe place for use.

(2) Any officer or employee of the division of family services or any other person having any duties in the administration or enforcement of this chapter, who has knowledge that

any applicant or recipient by misstatement or by withholding facts has knowingly violated or attempted to violate any provisions of this chapter, which violation or attempted violation resulted in or would have resulted in such applicant, or recipient receiving assistance or service or in his receiving more assistance or service than that to which he would have been entitled shall immediately make a written report to the division, setting forth the facts of such violation in detail.

(3) The division shall within thirty days after receipt of this report conduct an investigation promptly into the facts and circumstances set out in such report and to obtain such additional facts as are required and to conduct a hearing, if the same is deemed advisable. The applicant or recipient involved in the suspected fraud shall be given an eight day notice of said hearing by registered mail.

(4) If such investigation, including any hearing held thereon, shows that there is evidence of a violation or attempted violation of this section, the division shall within forty-five days forward the report along with its comments and recommendations and other material evidence to the proper prosecuting authority for the county in which the applicant or recipient resides.

(5) It shall be the duty of the proper prosecuting authority to conduct an investigation into the facts and circumstances set out in such report and, if the investigation supports said facts and there is adequate evidence of a violation or attempted violation of this section, to prosecute such fraud or attempted fraud. If required by the prosecuting authority, the division shall furnish assistance in the prosecution of such fraud or attempted fraud, including the filing of affidavits when the prosecuting authority cannot legally do so.

History.—§1, ch. 69-268; §§19, 35, ch. 69-106.

409.345 Public assistance payments to constitute debt of recipient.—

(1) **CLAIMS.**—The acceptance of public assistance payments or benefits shall create a debt of the person accepting the payments or benefits, which debt shall be enforceable only after the death of the recipient. After the death

of the person and within the time prescribed by law, the division of family services may file a claim against the estate of the recipient for the total amount of public assistance paid to or for the benefit of such recipient reimbursement for which has not been made. Claims so filed shall take priority as class seven claims as provided by §733.20(1)(g).

(2) **CLAIM AGAINST ESTATE.**—Before any application for public assistance is approved, the applicant shall agree that all such benefits paid to him or on his behalf shall constitute a claim against his estate enforceable according to law by the division. Such agreement may be contained in the application signed by the applicant. The debt thereby created shall be enforceable only by claim filed against the estate of the recipient after his death or by suit to set aside a fraudulent conveyance, as defined in subsection (4).

(3) **DISCHARGE OF DEBT.**—The debt created by this section shall be discharged one year after the death of the debtor unless the division shall have instituted probate proceedings as a creditor or filed a timely claim against the estate of the debtor or instituted a suit to set aside a fraudulent conveyance as defined in subsection (4).

(4) **FRAUDULENT CONVEYANCE.**—Any person who shall transfer or encumber his property for an inadequate consideration with the intent of defeating or hindering the claim of the division for reimbursement shall be deemed to have made a fraudulent conveyance and such transfer or encumbrance shall be void and of no effect as against the claim of the division if the division institutes a suit to set aside the conveyance within one year after the death of the debtor. A transfer or encumbrance for an inadequate consideration made within six months immediately preceding the death of the transferor shall be presumed to have been made with the intent of defeating or hindering the claim of the division. However, nothing contained in this section shall be construed to make void any conveyance or encumbrance which shall be made upon and for good consideration and bona fide, as to any person or persons or bodies, politic or corporate, anything in this section to the contrary notwithstanding.

(5) **ENFORCEMENT AGAINST HOMESTEAD PROHIBITED.**—The claim herein created shall not in any manner be enforceable against a homestead of realty or personalty as defined and provided for in §4, Art. X of the state constitution or against household furnishings and furniture.

(6) **AUTHORITY TO COMPROMISE AND SETTLE.**—The division shall have authority to enter the appearance of the state in any proceeding affecting the property on which the state has a claim, to institute probate proceedings as a creditor of deceased persons, and, either in the course of or in the absence of and apart from any action or proceeding, to enter into any stipulation, compromise, settlement, or any other agreement in respect to such claim

affecting such property as may seem wise, and to execute and deliver any such stipulation, modification, quitclaim, releases, partial releases, discharges, extensions, agreements, satisfactions, partial satisfactions, or subordination or other contract or stipulation or agreement which the interest of the parties or the circumstances of the case may make advisable.

(7) **NOTICE.**—The division shall notify all persons receiving public assistance that all public assistance grants paid shall constitute a claim against the estate of each recipient. The notice may be given by letter mailed to the last known address of each recipient, but the failure to give such notice shall not affect the validity of the claim.

(8) **ACCEPTANCE OF OFFERS TO RE-PAY.**—Any person who desires to repay all or part of benefits paid under the public assistance programs may do so in accordance with a procedure to be adopted by the division. Such rules and regulations shall provide for the immediate sale of any real property or the state's equity in any real property so acquired in the manner which will be most expedient and advantageous to the state.

(9) **DISPOSITION OF FUNDS RECOVERED.**—All funds collected under the provisions of this section shall be deposited with the department of banking and finance and a report of such deposit made to the division. After payment of costs the sums so collected shall be credited to the division and used by it.

(10) **RULES AND REGULATIONS.**—The division is authorized to make such rules and regulations as may be necessary for the proper administration of this section.

(11) **EXCEPTIONS.**—The provisions of this section shall not apply to those assistance programs in which such claims, adjustments, or recoveries are specifically prohibited by federal regulations governing programs in which the federal government participates financially.

413.36 Duties of other agencies and officials regarding §§413.20-413.45.—It shall be the duty of all officials in charge of state or county agencies whose official duties enable them to know the needs of disabled individuals for vocational rehabilitation to report to the division of vocational rehabilitation the names of such individuals who come to their attention and who appear to be eligible and feasible for vocational rehabilitation services provided under §§413.20-413.45. Such officials shall cooperate with the division in carrying out the purpose of §§413.20-413.45 insofar as their duties and facilities permit, but the division may not delegate any of its duties and responsibilities under §§413.20-413.45 to any other agency or individual except with respect to disabled individuals for each of whom a vocational rehabilitation plan has been approved by the division or by a member of its staff to whom it has delegated authority to approve individual vocational rehabilitation plans. However, nothing in §§413.20-413.45 shall be so construed as to prevent other agencies from rendering services to disabled individuals not designed especially for the purpose of vocationally rehabilitating such individuals or services to which disabled individuals might be entitled without regard to their disabilities.

413.37 Self-care program for handicapped; legislative findings.—It is hereby found by the legislature of the state that many seriously disabled persons are institutionalized or require the services of an attendant and that studies and demonstrations have shown that many such persons, although not apparently feasible for vocational rehabilitation services based on a plan designed to prepare for employment in a designated vocation as now required for eligibility for vocational rehabilitation services nevertheless could be substantially assisted toward achieving ability for self-care by the services the division of vocational rehabilitation could render to them and that such persons might be made able to dispense with or greatly reduce the need for services of an attendant

or for institutional care, thereby relieving such individuals from being a burden on others and helping to restore and maintain their independence and self-respect; and some such persons, after achieving the ability to care for themselves, may later through further rehabilitation services be rendered able to perform remunerated work thereby making them less dependent on others for financial support. The legislature further finds that the division of vocational rehabilitation which serves approximately twenty thousand disabled individuals annually, is specially qualified and equipped by over thirty years of rehabilitation experience and by the nature of its comprehensive program of disability evaluation, studies of individual capacity for employment and vocational rehabilitation services leading to the employment of handicapped persons to administer such a program and that it is in the best interest of the state that such a program be established as a means of providing necessary services to individuals, thereby reducing and discouraging dependency and encouraging individual effort for self support.

History.—§18, ch. 69-106.

421.01 Short title.—This chapter may be referred to as the "Housing Authorities Law."

History.—§1, ch. 17981, 1937; CGL 1940 Supp. 7100(3-a).

421.02 Finding and declaration of necessity.—It is hereby declared that:

(1) There exist in the state insanitary

or unsafe dwelling accommodations and that persons of low income are forced to reside in such insanitary or unsafe accommodations; that within the state there is a shortage of safe or sanitary dwelling accommodations available at rents which persons of low income can afford and that such persons are forced to occupy overcrowded and congested dwelling accommodations; that the aforesaid conditions cause an increase in and spread of disease and crime and constitute a menace to the health, safety, morals and welfare of the residents of the state and impair economic values; that these conditions necessitate excessive and disproportionate expenditures of public funds for crime prevention and punishment, public health, welfare and safety, fire and accident protection, and other public services and facilities;

(2) Slum areas in the state cannot be

cleared, nor can the shortage of safe and sanitary dwellings for persons of low income be relieved, through the operation of private enterprise, and that the construction of housing projects for persons of low income (as herein defined) would therefore not be competitive with private enterprise;

(3) The clearance, replanning and reconstruction of the areas in which insanitary or unsafe housing conditions exist and the providing of safe and sanitary dwelling accommodations for persons of low income (including the acquisition by a housing authority of property to be used for or in connection with housing projects or appurtenant thereto) are exclusively public uses and purposes for which public money may be spent and private property acquired and are governmental functions of public concern;

(4) The necessity in the public interest for the provisions hereinafter enacted, is hereby declared as a matter of legislative determination.

History.—§2, ch. 17981, 1937; CGL 1940 Supp. 7100(3-b).

421.03 Definitions.—The following terms, wherever used or referred to in this chapter, shall have the following respective meanings for the purposes of this chapter, unless a different meaning clearly appears from the context:

(1) "Authority" or "housing authority" shall mean any of the public corporations created by §421.04.

(2) "City" shall mean any city or town of the state having a population of more than two thousand five hundred (according to the last preceding federal or state census). "The city" shall mean the particular city for which a particular housing authority is created.

(3) "Governing body" shall mean the city council, the commission, or other legislative body charged with governing the city (as the case may be).

(4) "Mayor" shall mean the mayor of the city or the officer thereof charged with the duties customarily imposed on the mayor or executive head of the city.

(5) "Clerk" shall mean the clerk of the city or the officer of the city charged with the duties customarily imposed on the clerk thereof.

(6) "Area of operation":

(a) In the case of a housing authority of a city having a population of less than twenty-five thousand, shall include such city and the area within five miles of the territorial boundaries thereof; and

(b) In the case of a housing authority of a city having a population of twenty-five thousand or more shall include such city and the area within ten miles from the territorial boundaries thereof; provided however, that the area of operation of a housing authority of any city shall not include any area which lies within the territorial boundaries of some other city as herein defined; and further provided that the area of operation shall not ex-

tend outside of the boundaries of the county in which the city is located and no housing authority shall have any power or jurisdiction outside of the county in which the city is located.

(7) "Federal government" shall include the United States, the Federal Emergency Administration of Public Works or any other agency or instrumentality, corporate or otherwise, of the United States.

(8) "Slum" shall mean any area where dwellings predominate which, by reason of dilapidation, overcrowding, faulty arrangement or design, lack of ventilation, light or sanitary facilities, or any combination of these factors, are detrimental to safety, health and morals.

(9) "Housing project" shall mean any work or undertaking:

(a) To demolish, clear or remove buildings from any slum area; such work or undertaking may embrace the adaption of such area to public purposes, including parks or other recreational or community purposes; or

(b) To provide decent, safe and sanitary urban or rural dwellings, apartments or other living accommodations for persons of low income; such work or undertaking may include buildings, land, equipment, facilities and other real or personal property for necessary, convenient or desirable appurtenances, streets, sewers, water service, parks, site preparation, gardening, administrative, community, health, recreational, educational, welfare or other purposes; or

(c) To accomplish a combination of the foregoing. The term "housing project" also may be applied to the planning of the buildings and improvements, the acquisition of property, the demolition of existing structures, the construction, reconstruction, alteration and repair of the improvements and all other work in connection therewith.

(10) "Persons of low income" shall mean persons or families who lack the amount of income which is necessary (as determined by the authority undertaking the housing project) to enable them, without financial assistance, to live in decent, safe and sanitary dwellings, without overcrowding.

(11) "Debentures" shall mean any notes, interim certificates, debentures, revenue certificates, or other obligations issued by an authority pursuant to this chapter.

(12) "Real property" shall include all lands, including improvements and fixtures thereon, and property of any nature appurtenant thereto, or used in connection therewith, and every estate, interest and right, legal or equitable, therein, including terms for years and liens by way of judgment, mortgage or otherwise and the indebtedness secured by such liens.

(13) "Obligee of the authority" or "obligee" shall include any holder of debentures, trustee or trustees for any such holders, or lessor demising to the authority property used in connection with a housing project, or any assignee or assignees of such lessor's interest or any

part thereof, and the federal government when it is a party to any contract with the authority.

History.—§3, ch. 17981, 1937; CGL 1940 Supp. 7100(3-c); §1, ch. 20219, 1941; §1, ch. 28061, 1953; §24, ch. 57-1; §1, ch. 67-566.

421.04 Creation of housing authorities.—

(1) In each city (as herein defined) there is hereby created a public body corporate and politic to be known as the "Housing Authority" of the city; provided, however, that such authority shall not transact any business or exercise its powers hereunder until or unless the governing body of the city by proper resolution shall declare that there is need for an authority to function in such city. The determination as to whether there is such need for an authority to function:

(a) May be made by the governing body on its own motion; or

(b) Shall be made by the governing body upon the filing of a petition signed by twenty-five residents of the city asserting that there is need for an authority to function in such city and requesting that the governing body so declare.

(2) The governing body may adopt a resolution declaring that there is need for a housing authority in the city if it shall find that:

(a) Insanitary or unsafe inhabited dwelling accommodations exist in such city; or

(b) There is a shortage of safe or sanitary dwelling accommodations in such city available to persons of low income at rentals they can afford. In determining whether dwelling accommodations are unsafe or insanitary said governing body may take into consideration the degree of overcrowding, the percentage of land coverage, the light, air, space and access available to the inhabitants of such dwelling accommodations, the size and arrangement of the rooms, the sanitary facilities, and the extent to which conditions exist in such buildings which endanger life or property by fire or other causes.

(3) In any suit, action or proceeding involving the validity or enforcement of or relating to any contract of the authority, the authority shall be conclusively deemed to have become established and authorized to transact business and exercise its powers hereunder upon proof of the adoption of a resolution by the governing body declaring the need for the authority. Such resolution or resolutions shall be sufficient if it declares that there is such need for an authority and finds in substantially the foregoing terms (no further detail being necessary) that either or both of the above enumerated conditions exist in the city. A copy of such resolution duly certified by the clerk shall be admissible in evidence in any suit, action or proceeding.

History.—§4, ch. 17981, 1937; CGL 1940 Supp. 7100(3-d).
cf.—§1.01 for general definitions.
§421.52, Agreements and contracts.

421.05 Appointment, qualifications and tenure of commissioners.—

(1) When the governing body of a city adopts a resolution as aforesaid, the mayor with

the approval of the governing body shall promptly appoint five persons as commissioners of the authority created for said city. Three of the commissioners who are first appointed shall be designated to serve for terms of one, two and three years respectively; and the remaining two of such commissioners shall be designated to serve for terms of four years each, from the date of their appointment. Thereafter commissioners shall be appointed as aforesaid for a term of office of four years except that all vacancies shall be filled for the unexpired term. No commissioner of an authority may be an officer or employee of the city for which the authority is created. A commissioner shall hold office until his successor has been appointed and has qualified. A certificate of the appointment or reappointment of any commissioner shall be filed with the clerk and such certificate shall be conclusive evidence of the due and proper appointment of such commissioner. A commissioner shall receive no compensation for his services, but he shall be entitled to the necessary expenses, including traveling expenses, incurred in the discharge of his duties.

(2) The powers of each authority shall be vested in the commissioners thereof in office from time to time. Three commissioners shall constitute a quorum of the authority for the purpose of conducting its business and exercising its powers and for all other purposes. Action may be taken by the authority upon a vote of a majority of the commissioners present, unless in any case the bylaws of the authority shall require a larger number. The mayor with the concurrence of the governing body shall designate which of the commissioners appointed shall be the first chairman, but when the office of the chairman of the authority thereafter becomes vacant, the authority shall select a chairman from among its commissioners. An authority shall select from among its commissioners a vice-chairman, and it may employ a secretary (who shall be executive director), technical experts and such other officers, agents and employees, permanent and temporary, as it may require, and shall determine their qualifications, duties and compensation. For such legal services as it may require, an authority may call upon the chief law officer of the city or may employ its own counsel and legal staff. An authority may delegate to one or more of its agents or employees such powers or duties as it may deem proper.

History.—§5, ch. 17981, 1937; CGL 1940 Supp. 7100(3-e); §1, ch. 59-413.

421.06 Interested commissioners or employees.—No commissioner or employee of an authority shall acquire any interest, direct or indirect, in any housing project or in any property included or planned to be included in any project, nor shall he have any interest, direct or indirect, in any contract or proposed contract for materials or services to be furnished or used in connection with any housing pro-

ject. If any commissioner or employee of an authority owns or controls an interest, direct or indirect, in any property included or planned to be included in any housing project, he shall immediately disclose the same in writing to the authority and such disclosure shall be entered upon the minutes of the authority. Failure so to disclose such interest shall constitute misconduct in office.

History.—§6, ch. 17981, 1937; CGL 1940 Supp. 7100(3-f).

421.07 Removal of commissioners.—For inefficiency or neglect of duty or misconduct in office, a commissioner of an authority may be removed by the mayor with the concurrence of the governing body, but a commissioner shall be removed only after he shall have been given a copy of the charges at least ten days prior to the hearing thereon and had an opportunity to be heard in person or by counsel. In the event of the removal of any commissioner, a record of the proceedings, together with the charges and findings thereon, shall be filed in the office of the clerk.

History.—§7, ch. 17981, 1937; CGL 1940 Supp. 7100(3-g); §2, ch. 59-413.

421.08 Powers of authority.—An authority shall constitute a public body corporate and politic, exercising the public and essential governmental functions set forth in this chapter, and having all the powers necessary or convenient to carry out and effectuate the purpose and provisions of this chapter, including the following powers in addition to others here-in granted:

(1) To sue and be sued; to have a seal and to alter the same at pleasure; to have perpetual succession; to make and execute contracts and other instruments necessary or convenient to the exercise of the powers of the authority; and to make and from time to time amend and repeal by-laws, rules and regulations, not inconsistent with this chapter, to carry into effect the powers and purposes of the authority.

(2) Within its area of operation, to prepare, carry out, acquire, lease and operate housing projects; to provide for the construction, reconstruction, improvement, alteration or repair of any housing project or any part thereof.

(3) To arrange or contract for the furnishing by any person or agency, public or private, of services, privileges, works, or facilities for, or in connection with, a housing project or the occupants thereof; provided, however, that notwithstanding any other power or provision in this chapter, the authority shall not construct, lease, control, purchase or otherwise establish in connection with or as a part of any housing project or any other real or any other property under its control, any system, work, facilities, plants or other equipment for the purpose of furnishing utility service of any kind to such projects or to any tenant or occupant thereof in the event that a system, work, facility, plant or other equipment for the furnishing of the same utility service is being actually operated

by a municipality or private concern in the area of operation or the city or the territory immediately adjacent thereto; provided, further, that nothing herein shall be construed to prohibit the construction or acquisition by the authority of any system, work, facilities or other equipment for the sole and only purpose of receiving utility services from any such municipality or such private concern and then distributing such utility services to the project and to the tenants and occupants thereof; and (notwithstanding anything to the contrary contained in this chapter or in any other provision of law) to include in any contract let in connection with a project, stipulations requiring that the contractor and any subcontractors comply with requirements as to minimum wages and maximum hours of labor, and comply with any conditions which the federal government may have attached to its financial aid of the project.

(4) To lease or rent any dwellings, houses, accommodations, lands, buildings, structures or facilities embraced in any housing project and (subject to the limitations contained in this chapter) to establish and revise the rents or charges therefor; to own, hold and improve real or personal property; to purchase, lease, obtain options upon, acquire by gift, grant, bequest, devise, or otherwise any real or personal property or any interest therein; to acquire by the exercise of the power of eminent domain any real property; to sell, lease, exchange, transfer, assign, pledge or dispose of any real or personal property or any interest therein; to insure or provide for the insurance of any real or personal property or operations of the authority against any risks or hazards; to procure or agree to the procurement of insurance or guarantees from the federal government of the payment of any such debts or parts thereof (whether or not incurred by said authority), including the power to pay premiums on any such insurance.

(5) To invest any funds held in reserves or sinking funds, or any funds not required for immediate disbursement, in property or securities in which savings banks may legally invest funds subject to their control; to purchase its debentures at a price not more than the principal amount thereof and accrued interest, all debentures so purchased to be canceled.

(6) Within its area of operation: to investigate into living, dwelling and housing conditions and into the means and methods of improving such conditions; to determine where slum areas exist or where there is a shortage of decent, safe and sanitary dwelling accommodations for persons of low income; to make studies and recommendations relating to the problem of clearing, replanning and reconstruction of slum areas, and the problem of providing dwelling accommodations for persons of low income, and to cooperate with the city, the county, the state or any political subdivision thereof in action taken in connection

with such problems; and to engage in research studies and experimentation on the subject of housing.

(7) Acting through one or more commissioners or other person or persons designated by the authority; to conduct examinations and investigations and to hear testimony and take proof under oath at public or private hearings on any matter material for its information; to administer oaths, issue subpoenas requiring the attendance of witnesses or the production of books and papers and to issue commissions for the examination of witnesses who are outside of the state or unable to attend before the authority, or excused from attendance; to make available to appropriate agencies (including those charged with the duty of abating or requiring the correction of nuisances or like conditions, or of demolishing unsafe or insanitary structure within its area of operation) its findings and recommendations with regard to any building or property where conditions exist which are dangerous to the public health, morals, safety or welfare.

(8) To exercise all or any part or combination of powers herein granted. No provisions of law with respect to acquisition, operation or disposition of property by other public bodies shall be applicable to an authority unless the legislature shall specifically so state.

cf.—§§421.24, 421.47, 421.52, Validation, etc., of acts.
See: Adams v. Housing authority of city of Daytona Beach, 60 So. 2d 663.

421.09 Operation not for profit.—It is the policy of this state that each housing authority shall manage and operate its housing projects in an efficient manner so as to enable it to fix the rentals for dwelling accommodations at the lowest possible rates consistent with its providing decent, safe and sanitary dwelling accommodations, and that no housing authority shall construct or operate any such project for profit, or as a source of revenue to the city. To this end an authority shall fix the rentals for dwellings in its project at no higher rate than it shall find to be necessary in order to produce revenues which (together with all other available moneys, revenue, income and receipts of the authority from whatever sources derived) will be sufficient:

(1) To pay, as the same shall become due, the principal and interest on the debentures of the authority;

(2) To meet the cost of, and to provide for, maintaining and operating the projects (including the cost of any insurance) and the administrative expenses of the authority; and

(3) To create (during not less than the six years immediately succeeding its issuance of any debentures) a reserve sufficient to meet the largest principal and interest payments which will be due on such debentures in any one year thereafter, and to maintain such reserve.

History.—§9, ch. 17981, 1937; CGL 1940 Supp. 7100(3-1).

421.091 Financial accounting and investments.—A complete and full financial account-

ing and audit shall be made annually by a certified public accountant, and a copy of said report shall be filed with the governing body not less than ninety days after the close of each fiscal year. Provided, however, that it shall not be necessary to make a financial accounting and audit of federal funds furnished housing authorities by the federal government and which are audited annually by said federal government if a copy of such federal audit is furnished to the governing body.

History.—§3, ch. 59-413.

421.10 Rentals and tenant selection.—

(1) In the operation or management of housing projects an authority shall at all times observe the following duties with respect to rentals and tenants selection:

(a) It may rent or lease the dwelling accommodations therein only to persons of low income and at rentals within the financial reach of such persons of low income;

(b) It may rent or lease to a tenant dwelling accommodations consisting of the number of rooms (but no greater number) which it deems necessary to provide safe and sanitary accommodations to the proposed occupants thereof, without overcrowding; and

(c) It shall not accept any person as a tenant in any housing project if the person or persons who would occupy the dwelling accommodations have an annual net income in excess of five times an annual rental of the quarters to be furnished such person or persons, except that in case of families with three or more minor dependents, such ratio shall not exceed six to one; in computing the rental for this purpose of selecting tenants, there shall be included in the rental the average annual cost (as determined by the authority) to occupants of heat, water, electricity, gas, cooking range and other necessary services or facilities, whether or not the charge for such services and facilities is in fact included in the rental.

(2) Nothing contained in this section or §421.09, shall be construed as limiting the power of an authority to vest in an obligee the right, in the event of a default by the authority, to take possession of a housing project or cause the appointment of a receiver thereof, free from all the restrictions imposed by this or the preceding section.

(3) This section shall not apply to housing facilities financed by loans made for the purpose of providing such facilities for domestic farm labor pursuant to §514 of the federal housing act of 1949.

History.—§10, ch. 17981, 1937; §1, ch. 19510, 1939; CGL 1940 Supp. 7100(3-j); §7, ch. 22858, 1945; §1, ch. 65-223.

421.101 False representations to obtain lower rent in housing accommodations; penalty.—Whoever makes a false statement or representation, knowing it to be false, or knowingly fails to disclose a material fact in order to obtain a lower rent for housing accommodations in a low rent housing development op-

erated pursuant to chapter 421, than the rental such person is required to pay pursuant to federal or state statutes, schedule of rents or rules and regulations as determined and fixed by housing authorities created pursuant to chapter 421, aforesaid, shall be punished by a fine of not less than \$50.00 nor more than \$500.00, or by imprisonment for not more than six months in the county jail, or both such fine and imprisonment; and each such false statement or representation or failure to disclose a material fact as aforesaid shall constitute a separate offense.

History.—§1, ch. 61-468.

421.11 Cooperation of authorities.—Any two or more housing authorities may join or cooperate with one another in the exercise, either jointly or otherwise, of any or all of their powers for the purpose of financing (including the issuance of bonds, debentures, notes or other obligations and giving security therefor), planning, undertaking, owning, constructing, operating or contracting with respect to a housing project or projects located within the area of operation of any one or more of said authorities. For such purpose, an authority may by resolution prescribe and authorize any other housing authority or authorities, so joining or cooperating with it, to act on its behalf with respect to any or all such powers. Any authorities joining or cooperating with one another may by resolutions appoint from among the commissioners of such authorities an executive committee with full power to act on behalf of such authorities with respect to any or all of their powers, as prescribed by resolutions of such authorities.

History.—§11, ch. 17981, 1937; CGL 1940 Supp. 7100(3-k); §1, ch. 21699, 1943.

421.12 Eminent domain.—An authority shall have the right to acquire by the exercise of the power of eminent domain any real property which it may deem necessary for its purposes under this chapter after the adoption by it of a resolution declaring that the acquisition of the real property described therein is necessary for such purposes. An authority may exercise the power of eminent domain in the manner provided in chapters 73 and 74. Property already devoted to a public use may be acquired in like manner, provided that no real property belonging to the city, the county, the state or any political subdivision thereof may be acquired without its consent.

History.—§12, ch. 17981, 1937; CGL 1940 Supp. 7100(3-l).

421.13 Planning, zoning and building laws.—All housing projects of an authority shall be subject to the planning, zoning, sanitary and building laws, ordinances and regulations applicable to the locality in which the housing project is situated. In the planning and location of any housing project, an authority shall take into consideration the relationship of the project to any larger plan or long-range program for the development of the area in which the housing authority functions.

History.—§13, ch. 17981, 1937; CGL 1940 Supp. 7100(3-x).

421.14 Debentures.—

(1) An authority may issue debentures from time to time in its discretion, for any of its corporate purposes. An authority may also issue refunding debentures for the purpose of paying or retiring debentures previously issued by it. An authority may issue such types of debentures as it may determine, including debentures on which the principal and interest are payable:

(a) Exclusively from the income and revenues of the housing project financed with the proceeds of such debentures, or with such proceeds together with a grant from the federal government in aid of such project;

(b) Exclusively from the income and revenues of certain designated housing projects whether or not they were financed in whole or in part with the proceeds of such debentures; or

(c) From its revenues generally. Any of such debentures may be additionally secured by a pledge of any revenues of any housing project, projects or other property of the authority.

(2) Neither the commissioners of an authority nor any person executing the debentures shall be liable personally on the debentures by reason of the issuance thereof. The debentures and other obligations of an authority (and such debentures and obligations shall so state on their face) shall not be a debt of the city, the county, the state or any political subdivision thereof, and neither the city or the county, nor the state or any political subdivision thereof shall be liable thereon, nor in any event shall such debentures or obligations be payable out of any funds or properties other than those of said authority. The debentures shall not constitute an indebtedness within the meaning of any constitutional or statutory debt or bond limitation or restriction.

History.—§14, ch. 17981, 1937; CGL 1940 Supp. 7100(3-y).

421.15 Form and sale of debentures.—

(1) Debentures of an authority shall be authorized by its resolution and may be issued in one or more series and shall bear such dates, mature at such times, bear interest at such rates, not exceeding six per cent per annum, be in such denominations, be in such form, either coupon or registered, carry such conversion or registration privileges, have such rank or priority, be executed in such manner, be payable in such medium of payment, at such places and be subject to such terms of redemption (with or without premium) as such resolution or its trust indenture may provide.

(2) The debentures may be sold at not less than par at public sale held after notice published once at least five days prior to such sale in a newspaper having a general circulation in the city and in a financial newspaper published in the city of Chicago, Illinois, or in the city of New York, New York, provided, however, that such debentures may be sold at not less than par to the federal government at private sale without any public advertisement.

(3) In case any of the commissioners or officers of the authority whose signatures appear on any debentures or coupons shall cease to be such commissioners or officers before the delivery of such debentures, such signatures shall, nevertheless, be valid and sufficient for all purposes, the same as if such commissioners or officers had remained in office until such delivery. Any provision of any law to the contrary notwithstanding, any debentures issued pursuant to this chapter shall be fully negotiable.

(4) In any suit, action or proceedings involving the validity or enforceability of any debenture of an authority or the security therefor, any such debenture reciting in substance that it has been issued by the authority to aid in financing a housing project to provide dwelling accommodations for persons of low income shall be conclusively deemed to have been issued for a housing project of such character and said project shall be conclusively deemed to have been planned, located and constructed in accordance with the purposes and provisions of this chapter.

History.—§15, ch. 17981, 1937; CGL 1940 Supp. 7100(3-a).

421.16 Provisions of debentures and trust indentures.—In connection with the issuance of debentures or the incurring of obligations under leases and in order to secure the payment of such indentures or obligations, an authority, in addition to its other powers, shall have power:

(1) To pledge all or any part of its gross or net rents, gross or net fees or gross or net revenues to which its right then exists or may thereafter come into existence.

(2) To covenant against pledging all or any part of its rents, fees and revenues, or against mortgaging all or any part of its real or personal property, to which its right or title then exists or may thereafter come into existence or against permitting or suffering any lien on such revenues or property; to covenant with respect to limitations on its rights to sell, lease or to otherwise dispose of any housing project or any part thereof; and to covenant as to what other, or additional debts or obligations may be incurred by it.

(3) To covenant as to the debentures to be issued and as to the issuance of such debentures in escrow or otherwise, and as to the use and disposition of the proceeds thereof; to provide for the replacement of lost, destroyed or mutilated debentures; to covenant against extending the time for the payment of its debentures or interest thereon; and to redeem the debentures, and to covenant for their redemption and to provide the terms and conditions thereof.

(4) To covenant (subject to the limitations contained in this chapter) as to the rents and fees to be charged in the operation of a housing project or projects, the amount to be raised each year or other period of time by rents, fees and other revenues, and as to the use and

disposition to be made thereof; to create or to authorize the creation of special funds for moneys held for construction or operating costs, debt service, reserves, or other purposes, and to covenant as to the use and disposition of the moneys held in such funds.

(5) To prescribe the procedure, if any, by which the terms of any contract with the holders of debentures may be amended or abrogated, the amount of debentures the holders of which must consent thereto, and the manner in which such consent may be given.

(6) To covenant as to the use of any or all of its real or personal property; and to covenant as to the maintenance of its real and personal property, the replacement thereof, the insurance to be carried thereon and the use and disposition of insurance moneys.

(7) To covenant as to the rights, liabilities, powers and duties arising upon the breach by it of any covenant, condition, or obligation, and to covenant and prescribe as to events of default and terms and conditions upon which any or all of its debentures or obligations shall become or may be declared due before maturity, and as to the terms and conditions upon which such declaration and its consequences may be waived.

(8) To vest in a trustee or trustees or the holders of debentures or any proportion of them the right to enforce the payment of the debentures or any covenants securing or relating to the debentures; to vest in a trustee or trustees the right, in the event of a default by said authority, to take possession and use, operate and manage any housing project or part thereof, and to collect the rents and revenues arising therefrom and to dispose of such moneys in accordance with the agreement of the authority with said trustee; to provide for the powers and duties of a trustee or trustees and to limit the liabilities thereof; and to provide the terms and conditions upon which the trustee or trustees or the holders of debentures or any proportion of them may enforce any covenant or rights securing or relating to the debentures.

(9) To exercise all or any part or combination of the powers herein granted.

History.—§16, ch. 17981, 1937; CGL 1940 Supp. 7100(3-aa).

421.17 Validation of debentures and proceedings.—

(1) A housing authority shall have the right, if it deems it expedient, to determine its authority to issue any debentures, and the legality of all proceedings had or taken in connection therewith, in the same manner and to the same extent (except as otherwise provided in this section) as provided in chapter 75 for the determination by a county, municipality, taxing district, or other political district or subdivision of its authority to incur bonded debt or to issue certificates of indebtedness and of the legality of all proceedings had or taken in connection therewith.

(2) The petition to validate such debentures

tures, and the proceedings had or taken in connection therewith, shall be filed by the housing authority in the circuit court for the county in which is located the city for which said housing authority was created, except that whenever it appears that a housing authority is empowered to function in more than one county the circuit court of any county in the whole or any part of which the housing authority is empowered to function shall have jurisdiction of the cause in the same manner as provided in said chapter whenever a municipality, taxing district or other political district or subdivision shall extend into more than one county.

(3) The notice required by §75.06 shall be addressed to the taxpayers and citizens of the city for which such housing authority has been created and of the county (or counties, in the event such housing authority is empowered to function in more than one county) in the whole or any part of which the housing authority is empowered to function; and by the publication of such notice as required by said chapter 75 all taxpayers and citizens of such city and such county or counties, as the case may be, shall be considered as parties defendant to such proceedings, and the circuit court in which the proceeding is brought shall have jurisdiction of all of the same as if they were named defendants in the petition filed pursuant to said chapter and personally served with process.

(4) In the event no appeal is taken within the time prescribed by said chapter, or if taken, and the decree validating said debentures is affirmed by the supreme court, the decree of the circuit court validating and confirming the issuance of the debentures of the housing authority shall be forever conclusive as to the validity of said debentures against the housing authority and against all taxpayers and citizens of the city for which said housing authority was created and of the county or counties in the whole or part of which the housing authority is empowered to function; and the validity of said debentures shall never be called in question in any court in this state. Debentures of a housing authority, when issued under the provisions of said chapter, shall have stamped or written thereon by the proper officers of the housing authority issuing the same, the words: "Validated and confirmed by decree of the circuit court" (specifying the date when such decree was rendered and the court in which it was rendered), which shall be signed by the clerk of the circuit court in which the decree was rendered, which entry shall be original evidence of said decree in any court in this state.

History.—§17, ch. 17981, 1937; CGL 1940 Supp. 7100(3-bb). cf.—§§421.26, 421.48, 421.52, Notes, bonds, debentures; validation, etc.

421.18 Remedies of an obligee of authority.—An obligee of an authority shall have the right in addition to all other rights which may be conferred on such obligee, subject only

to any contractual restrictions binding upon such obligee:

(1) By mandamus, suit, action or proceeding at law or in equity to compel said authority and the commissioners, officers, agents or employees thereof to perform each and every term, provision and covenant contained in any contract of said authority with or for the benefit of such obligee, and to require the carrying out of any or all such covenants and agreements of said authority and the fulfillment of all duties imposed upon said authority by this chapter.

(2) By suit, action or proceeding in equity, to enjoin any acts or things which may be unlawful, or the violation of any of the rights of such obligee of said authority.

History.—§18, ch. 17981, 1937; CGL 1940 Supp. 7100(3-cc).

421.19 Additional remedies conferrable by authority.—An authority shall have power by its resolution, trust indenture, lease or other contract to confer upon any obligee holding or representing a specified amount in debentures, or holding a lease, the right (in addition to all rights that may otherwise be conferred), upon the happening of an event of default as defined in such resolution or instrument, by suit, action or proceeding in any court of competent jurisdiction:

(1) To cause possession of any housing project or any part thereof to be surrendered to any such obligee.

(2) To obtain the appointment of a receiver of any housing project of said authority or any part thereof and of the rents and profits therefrom. If such receiver be appointed, he may enter and take possession of such housing project or any part thereof and operate and maintain same, and collect and receive all fees, rents, revenues, or other charges thereafter arising therefrom, and shall keep such moneys in a separate account or accounts and apply the same in accordance with the obligation of said authority as the court shall direct.

(3) To require said authority and the commissioners thereof to account as if it and they were the trustees of an express trust.

History.—§19, ch. 17981, 1937; CGL 1940 Supp. 7100(3-dd).

421.20 Exemption of property from execution sale.—

(1) All real property of an authority shall be exempt from levy and sale by virtue of an execution, and no execution or other judicial process shall issue against the same nor shall any judgment against an authority be a charge or lien upon its real property; provided, however, that the provisions of this section shall not apply to or limit the right of obligee to pursue any remedies for the enforcement of any pledge given by an authority on its rents, fees or revenues.

(2) This section shall not apply to housing facilities financed by loans made for the purpose of providing such facilities for domestic

farm labor pursuant to §514 of the federal housing act of 1949.

History.—§20, ch. 17981, 1937; CGL 1940 Supp. 7100(3-ee); §2, ch. 65-223.

421.21 Aid from federal government; tax exemptions.—

(1) In addition to the powers conferred upon an authority by other provisions of this chapter, an authority is empowered to borrow money or accept grants or other financial assistance from the federal government for or in aid of any housing project within its area of operation, to take over or lease or manage any housing project or undertaking constructed or owned by the federal government, and to these ends, to comply with such conditions and enter into such trust indentures, leases or agreements as may be necessary, convenient or desirable. It is the purpose and intent of this chapter to authorize every authority to do any and all things necessary or desirable to secure the financial aid or cooperation of the federal government in the undertaking, construction, maintenance or operation of any housing project by such authority.

(2) In addition to the powers conferred upon an authority by subsection (1) and other provisions of this chapter, an authority is empowered to borrow money or accept grants or other financial assistance from the federal government under section 202 of the housing act of 1959 (P. L. 86-372, 86th congress) or any law or program of the housing and home finance agency, which provides for direct federal loans in the maximum amount, as defined therein, for the purpose of assisting certain non-profit corporations to provide housing and related facilities for elderly families and elderly persons.

(a) Housing authorities created under this section are authorized to execute mortgages, notes, bills or other forms of indebtedness together with any agreements, contracts or other instruments required by the housing and home finance agency of the United States government in connection with loans made for the purposes set forth in subsection (2).

(b) This provision relating to housing facilities for the elderly is cumulative and in addition to the powers given to housing authorities under this chapter. All powers granted generally by law to housing authorities in Florida relating to issuance of trust indentures, debentures and other methods of raising capital shall apply also to housing authorities in connection with their participation in programs of the housing and home finance agency.

(3) It is the legislative intent that the tax exemption of housing authorities provided by chapter 423, shall specifically apply to any housing authority created under this section.

History.—§21, ch. 17981, 1937; CGL 1940 Supp. 7100(3-ff); §§1, 2, ch. 61-197

421.22 Reports.—At least once a year, an authority shall file with the clerk a report of

its activities for the preceding year, and shall make recommendations with reference to such additional legislation or other action as it deems necessary in order to carry out the purposes of this chapter.

History.—§22, ch. 17981, 1937; CGL 1940 Supp. 7100(3-gg).

421.23 Liabilities of authority.—In no event shall the liabilities, whether ex contractu or ex delicto, of an authority arising from the operation of its housing projects, be payable from any funds other than the rents, fees or revenues of such projects and any grants or subsidies paid to such authority by the federal government.

History.—§23, ch. 17981, 1937; CGL 1940 Supp. 7100(3-hh); §7, ch. 22858, 1945.

421.24 Organization and establishment.—The establishment and organization of housing authorities in the state under the provisions of the housing authorities law of this state, together with all proceedings, acts and things heretofore undertaken, performed or done with reference thereto, are hereby validated, ratified, confirmed, approved and declared legal in all respects, notwithstanding any defect or irregularity therein or any want of statutory authority.

History.—§1, ch. 19511, 1939; CGL 1940 Supp. 7100(3-kk).

421.25 Contracts and undertakings.—All contracts, agreements, obligations, and undertakings of such housing authorities heretofore entered into relating to financing or aiding in the development, construction, maintenance or operation of any housing project or projects or to obtaining aid therefor from the United States Housing Authority, including (without limiting the generality of the foregoing) loan and annual contributions, contracts and leases with the United States Housing Authority, agreements with municipalities or other public bodies (including those which are pledged or authorized to be pledged for the protection of the holders of any notes or bonds issued by such housing authorities or which are otherwise made a part of the contract with such holders of notes or bonds) relating to cooperation and contributions in aid of housing projects, payments (if any) in lieu of taxes, furnishing of municipal services and facilities, and the elimination of unsafe and insanitary dwellings, and contracts for the construction of housing projects, together with all proceedings, acts and things heretofore undertaken, performed or done with reference thereto, are hereby validated, ratified, confirmed, approved and declared legal in all respects, notwithstanding any defect or irregularity therein or any want of statutory authority.

of financing or aiding in the development or construction of a housing project or projects, and all notes and bonds heretofore issued by housing authorities are hereby validated, ratified, confirmed, approved and declared legal in all respects, notwithstanding any defect or irregularity therein or any want of statutory authority.

History.—§3, ch. 19511, 1939; CGL 1940 Supp. 7100(3-mm).

421.261 Continuance of municipal housing authorities when municipality abolished; counties in excess of 400,000.—Whenever a municipality in any county having a population in excess of four hundred thousand according to the most recent official census has been or hereafter shall be abolished, wherein at the time of such abolishment a housing authority of such municipality was or is in existence, such housing authority shall continue to function in all respects; provided, however, that the name of such housing authority shall thenceforth be such as may be determined by the county commissioners of the county wherein it functions. Each such housing authority and the commissioners thereof, within the area of operation of such housing authority as hereinafter defined, shall have the same functions, rights, powers, duties, immunities and privileges provided for housing authorities created for cities. Each such housing authority shall continue to operate and prosecute all projects operated or initiated by it prior to the abolishment of the municipality, and shall be entitled to all benefits and privileges thereafter conferred upon housing authorities for cities. The commissioners of each such housing authority shall continue in office after the abolishment of the particular municipality for the remainder of their respective terms. Their successors shall be appointed by resolution of the commissioners of the county. As used in the housing authorities law, the terms "mayor" and "governing body" shall be construed as meaning "county commissioners", the term "city" as used therein shall be construed as meaning "county", and the term "clerk" as used therein shall be construed as meaning "clerk of the circuit court of the county", unless different meanings clearly appear from the contents. The area of operation of any such housing authority shall continue to be the same as that before the abolishment of the municipality, unless extended by resolution of the county commissioners, provided that no such extension shall include any territory lying within a city as defined in the housing authorities law.

History.—§1, ch. 28305, 1953.

421.27 Housing authorities in counties.—

(1) In each county of the state there is hereby created a public body corporate and politic to be known as the "housing authority" of the county; provided, however, that such housing authority shall not transact any business or exercise its powers hereunder until or unless the governing body of such county, by

proper resolution shall declare at any time hereafter that there is need for a housing authority to function in and for such county, which declaration shall be made by such governing body for such county in the same manner and subject to the same conditions as the declaration of the governing body of a city required by §421.04 for the purpose of authorizing a housing authority created for a city to transact business and exercise its powers (except that the petition referred to in said §421.04 shall be signed by twenty-five residents of such county).

(2) Upon notification of the adoption of such resolution the commissioners of a housing authority created for a county (who shall be qualified electors of such county) shall be appointed by the governor in the same manner as the commissioners of a housing authority created for a city may be appointed by the mayor; and except as otherwise provided herein, each housing authority created for a county and the commissioners thereof, within the area of operation of such housing authority as hereinafter defined, shall have the same functions, rights, powers, duties, immunities and privileges provided for housing authorities created for cities and the commissioners of such housing authorities, in the same manner as though all the provisions of law applicable to housing authorities created for cities were applicable to housing authorities created for counties; provided, that for such purposes the term "mayor" as used in the Housing Authorities Law shall be construed as meaning "governor," the term "governing body" as used therein shall be construed as meaning "county commissioners," the term "city" as used therein shall be construed as meaning "county," and the term "clerk" as used therein shall be construed as meaning "county clerk" (as herein defined), unless a different meaning clearly appears from the context; and provided further that the governor may appoint any persons as commissioners of a housing authority created for a county who are qualified electors in such county; and provided further that such commissioners may be removed or suspended in the same manner and for the same reasons as other officers appointed by the governor.

(3) The area of operation of a housing authority created for a county shall include all of the county for which it is created except that portion of the county which lies within the territorial boundaries of any city as defined in the Housing Authorities Law, as amended.

History.—§1, (27) ch. 20220, 1941.

421.28 Creation of regional housing authority.—

(1) If the governing body of each of two or more contiguous counties by resolution declares that there is a need for one housing authority to be created for all of such counties to exercise powers and other functions herein prescribed in such counties, a public body corporate and politic to be known as a regional housing

authority shall thereupon exist for all of such counties and exercise its powers and other functions in such counties; and thereupon each housing authority created by §421.27 for each of such counties shall cease to exist except for the purpose of winding up its affairs and executing a deed to the regional housing authority as hereafter provided; provided that the governing body of a county shall not adopt a resolution as aforesaid if there is a housing authority created for such county which has any obligations outstanding unless first:

(a) All obligees of such county housing authority and parties to the contracts, bonds, notes and other obligations of such county housing authority agree with such county housing authority to the substitution of such regional housing authority in lieu of such county housing authority on all such contracts, bonds, notes or other obligations; and

(b) The commissioners of such county housing authority adopt a resolution consenting to the transfer of all the rights, contracts, obligations and property, real and personal, of such county housing authority to such regional housing authority as hereinafter provided;

and provided further that when the above two conditions are complied with and such regional housing authority is created and authorized to exercise its powers and other functions, all rights, contracts, agreements, obligations and property of such county housing authority shall be in the name of and vest in such regional housing authority, and all obligations of such county housing authority shall be the obligations of such regional housing authority and all rights and remedies of any person against such county housing authority may be asserted, enforced and prosecuted against such regional housing authority to the same extent as they may have been asserted, enforced and prosecuted against such county housing authority.

(2) When any real property of a county housing authority vests in a regional housing authority as provided above, the county housing authority shall execute a deed of such property to the regional housing authority which thereupon shall file such deed with the recorder of deeds of the county where such real property is, provided that nothing contained in this sentence shall affect the vesting of property in the regional housing authority as provided above.

(3) The governing body of each of two or more contiguous counties shall by resolution declare that there is a need for one regional housing authority to be created for all of such counties to exercise powers and other functions herein prescribed in such counties, if such governing body finds (and only if it finds):

(a) That insanitary or unsafe inhabited dwelling accommodations exist in such county or there is a shortage of safe and sanitary dwelling accommodations in such county available to persons of low income at rentals they can afford; and

(b) That a regional housing authority would

be a more efficient or economical administrative unit than the housing authority of such county to carry out the purposes of this Housing Authorities Law in such county.

(4) In any suit, action or proceeding involving the validity or enforcement of or relating to any contract of the regional housing authority, the regional housing authority shall be conclusively deemed to have become created as a public body corporate and politic and to have become established and authorized to transact business and exercise its powers hereunder upon proof of the adoption of a resolution by the governing body of each of the counties creating the regional housing authority declaring the need for the regional housing authority. Each such resolution shall be deemed sufficient if it declares that there is need for a regional housing authority and finds in substantially the foregoing terms (no further detail being necessary) that the conditions enumerated above in (a) and (b) of subsection (3) exist. A copy of such resolution of the governing body of a county, duly certified by the county clerk of such county, shall be admissible in evidence in any suit, action or proceeding.

History.—§1, (28) ch. 20220, 1941.

421.29 Area of operation of regional housing authority.—

(1) The area of operation of a regional housing authority shall include all of the counties for which such regional housing authority is created and established except such portions of the counties which lie within the territorial boundaries of cities, as defined in the housing authorities law, as amended.

(2) The area of operation of a regional housing authority shall be increased from time to time to include one or more additional counties not already within a regional housing authority (except such portion or portions of such additional county or counties which lie within the territorial boundaries of any city, as defined) if the governing body of each of the counties then included in the area of operation of such regional housing authority, the commissioners of the regional housing authority and the governing body of each such additional county or counties each adopt a resolution declaring that there is a need for the inclusion of such additional county or counties in the area of operation of such regional housing authority. Upon the adoption of such resolutions, the county housing authority created by §421.27 for each such additional county shall cease to exist except for the purpose of winding up its affairs and executing a deed to the regional housing authority as hereinafter provided; provided, however, that such resolutions shall not be adopted if there is a county housing authority created for any such additional county which has any obligations outstanding unless first:

(a) All obligees of any such county housing authority and parties to the contracts, bonds, notes and other obligations of any such county

housing authority agree with such county housing authority and the regional housing authority to the substitution of such regional housing authority in lieu of such county housing authority on all such contracts, bonds, notes or other obligations, and second:

(b) The commissioners of such county housing authority and the commissioners of such regional housing authority adopt resolutions consenting to the transfer of all the rights, contracts, obligations and property, real and personal, of such county housing authority to such regional housing authority as hereinafter provided, and provided further, that when the above two conditions are complied with and the area of operation of such regional housing authority is increased to include such additional county, as hereinabove provided, all rights, contracts, agreements, obligations and property of such county housing authority shall be in the name of and vest in such regional housing authority, all obligations of such county housing authority shall be the obligations of such regional housing authority and all rights and remedies of any person against such county housing authority may be asserted, enforced and prosecuted against such regional housing authority to the same extent as they may have been asserted, enforced and prosecuted against such county housing authority.

(3) When any real property of a county housing authority vests in a regional housing authority as provided above, the county housing authority shall execute a deed of such property to the regional housing authority which thereupon shall file such deed with the recorder of deeds of the county where such real property is, provided that nothing contained in this sentence shall affect the vesting of property in the regional housing authority as provided above.

(4) The governing body of each of the counties in the regional housing authority, the commissioners of the regional housing authority and the governing body of each such additional county or counties shall by resolution declare that there is a need for the addition of such county or counties to the regional housing authority, if:

(a) The governing body of each of such additional county or counties finds that insanitary or unsafe inhabited dwelling accommodations exist in such county or there is a shortage of safe or sanitary dwelling accommodations in such county available to persons of low income as rentals they can afford; and

(b) The governing body of each of the counties then included in the area of operation of the regional housing authority, the commissioners of the regional housing authority and the governing body of each such additional county or counties find that the regional housing authority would be a more efficient or economical administrative unit to carry out the purposes of this housing authorities law if the area of operation of the regional housing authority shall be increased to include such additional county or counties.

(5) In determining whether dwelling accommodations are unsafe or insanitary under this or the preceding section, the governing body of a county shall take into consideration the safety and sanitation of the dwellings, the light and air space available to the inhabitants of such dwellings, the degree of overcrowding, the size and arrangement of the rooms and the extent to which conditions exist in such buildings which endanger life or property by fire or other causes.

(6) In connection with the issuance of bonds or the incurring of other obligations a regional housing authority may covenant as to limitations on its right to adopt resolutions relating to the increase of its area of operation.

(7) No governing body of a county shall adopt any resolution authorized by this or the preceding section unless a public hearing has first been held. The clerk of such county shall give notice of the time, place and purpose of the public hearing at least ten days prior to the day on which the hearing is to be held, in a newspaper published in such county, or if there is no newspaper published in such county, then in a newspaper published in the state and having a general circulation in such county. Upon the date fixed for such public hearing an opportunity to be heard shall be granted to all residents of such county and to all other interested persons.

History.—§1, (29) ch. 20220, 1941.

421.30 Commissioners of regional authorities.—

(1) When a regional housing authority has been created as provided above, the governor shall thereupon appoint one qualified elector from each county included in such regional housing authority as a commissioner of the regional housing authority. When the area of operation of a regional housing authority is increased to include an additional county or counties as herein provided, the governor shall thereupon appoint one qualified elector from each such additional county as a commissioner of the regional housing authority. If any county is excluded from the area of operation of a regional housing authority, the office of the commissioner of such regional housing authority appointed as provided above for such county, shall be thereupon abolished.

(2) If the area of operation of a regional housing authority consists at any time of an even number of counties, the governor shall appoint one additional commissioner (who shall be a qualified elector from one of the counties in such area of operation) whose term of office shall be as herein provided for a commissioner of a regional housing authority, except that such term shall end at any earlier time that the area of operation of the regional housing authority shall be changed to consist of an odd number of counties.

(3) A certificate of the appointment of any commissioner of a regional housing authority shall be filed with the county clerk of the county from which the commissioner is appointed, and

such certificate shall be conclusive evidence of the due and proper appointment of such commissioner. The commissioners of a regional housing authority shall be appointed for terms of four years, except that all vacancies shall be filled for the unexpired terms. Each commissioner shall hold office until his successor has been appointed and has qualified, except as otherwise provided herein. The governor shall thereafter appoint the successor of each commissioner of a regional housing authority.

(4) The commissioners appointed as aforesaid shall constitute the regional housing authority, and the powers of such authority shall be vested in such commissioners in office from time to time.

(5) The commissioners of a regional housing authority shall elect a chairman from among the commissioners and shall have power to select or employ such other officers and employees as the regional housing authority may require. A majority of the commissioners of a regional housing authority shall constitute a quorum of such authority for the purpose of conducting its business and exercising its powers and for all other purposes.

History.—§1, (30) ch. 20220, 1941; am. §2, ch. 21699, 1943.

421.31 Powers of regional housing authority; definitions.—Except as otherwise provided herein, a regional housing authority and the commissioners thereof shall, within the area of operation of such regional housing authority, have the same functions, rights, powers, duties, privileges and immunities provided for housing authorities created for cities or counties and the commissioners of such housing authorities in the same manner as though all the provisions of law applicable to housing authorities created for cities or counties were applicable to regional housing authorities; provided that for such purposes the term "mayor" as used in the housing authorities law shall be construed as meaning "governor," the term "governing body" as used therein shall be construed as meaning "county commissioners," the term "city" as used therein shall be construed as meaning "county" and the term "clerk" as used therein shall be construed as meaning "county clerk" (as herein defined), unless a different meaning clearly appears from the context; and provided further that the governor may appoint any person as commissioner of a regional housing authority who is a qualified elector in the county from which he is appointed; and provided further that any commissioner of a regional housing authority may be removed or suspended in the same manner and for the same reason as other officers appointed by the governor. A regional housing authority shall have power to select any appropriate corporate name.

History.—§1, (31) ch. 20220, 1941.

421.32 Rural housing projects.—County housing authorities and regional housing authorities are specifically empowered and authorized to borrow money, accept grants and

exercise their other powers to provide housing for farmers of low income and domestic farm labor as defined in §514 of the federal housing act of 1949. In connection with such projects, any such housing authority may enter into such leases or purchase agreements, accept such conveyances and rent or sell dwellings forming part of such projects to or for farmers of low income, as such housing authority deems necessary in order to assure the achievement of the objectives of this law. Such leases, agreements or conveyances may include such covenants as the housing authority deems appropriate regarding such dwellings and the tracts of land described in any such instrument, which covenants shall be deemed to run with the land where the housing authority deems it necessary and the parties to such instrument so stipulate. In providing housing for farmers of low income, county housing authorities and regional housing authorities shall not be subject to the limitations provided in §421.08(3), and of §421.10(3). Nothing contained in this section shall be construed as limiting any other powers of any housing authority.

History.—§1, (32) ch. 20220, 1941; §3, ch. 65-223.

421.33 Housing applications by farmers.—The owner of any farm operated, or worked upon, by farmers of low income in need of safe and sanitary housing may file an application with a housing authority created for a county or a regional housing authority requesting that it provide for a safe and sanitary dwelling or dwellings for occupancy by such farmers of low income. Such applications shall be received and examined by housing authorities in connection with the formulation of projects or programs to provide housing for farmers of low income. Provided, however, that if it becomes necessary for an applicant under this paragraph to convey any portion of his then homestead in order to take advantages as provided herein, then in that event, the parting with title to a portion of said homestead shall not affect the remaining portion of same, but all rights that said owner may have in and to same under and by virtue of the constitution of the state or any law passed pursuant thereto, shall be deemed and held to apply to such remaining portion of said land, the title of which remains in said applicant; it being the intention of the legislature to permit the owner of any farm operated or worked upon by farmers of low income in need of safe and sanitary housing to take advantage of the provisions of this law without jeopardizing their rights in their then homestead by reason of any requirement that may be necessary

in order for them to receive the benefits herein provided; and no court shall ever construe that an applicant who has taken advantage of this law has in any manner, shape or form abandoned his rights in any property that is his then homestead by virtue of such action upon his part, but it shall be held, construed and deemed that such action upon the part of any applicant hereunder was not any abandonment of his then homestead, and that all rights that he then had therein shall be and remain as provided by the constitution and any law enacted pursuant thereto.

History.—§1, (33), ch. 20220, 1941; am. §7, ch. 22858, 1945.

History.—§1, ch. 20220, 1941.

421.37 Defense housing; finding and declaration of necessity.—It is hereby found and declared that the national defense program involves large increases in the military forces and personnel of this state, a great increase in the number of workers in already established manufacturing centers and the bringing of a large number of workers and their families to new centers

of defense industries in the state; that there is an acute shortage of safe and sanitary dwellings available to such persons and their families in this state which impedes the national defense program; that it is imperative that action be taken immediately to assure the availability of safe and sanitary dwellings for such persons to enable the rapid expansion of national defense activities in this state and to avoid a large labor turnover in defense industries which would seriously hamper their production; that the provisions hereinafter enacted are necessary to assure the availability of safe and sanitary dwellings for persons engaged in national defense activities which otherwise would not be provided at this time; and that such provisions are for the public use and purpose of facilitating the national defense program in this state. It is further declared to be the purpose of this law to authorize housing authorities to do any and all things necessary or desirable to secure the financial aid of the federal government, or to cooperate with or act as agent of the federal government, in the expeditious development and the administration of projects to assure the availability when needed of safe and sanitary dwellings for persons engaged in national defense activities.

History.—§1, ch. 20221, 1941.

421.38 Defense housing by authorities.—

(1) Any housing authority may undertake the development and administration of projects to assure the availability of safe and sanitary dwellings for persons engaged in national defense activities whom the housing authority determines would not otherwise be able to secure safe and sanitary dwellings within the vicinity thereof, but no housing authority shall initiate the development of any such project pursuant to this law after the termination of the existing war by the signing of a definitive treaty of peace, or by the proclamation of the President of the United States that hostilities have ceased or that the emergency in justification of extraordinary wartime powers no longer exists, whichever shall first occur.

(2) In the ownership, development or administration of such projects, a housing authority shall have all the rights, powers, privileges and immunities that such authority has under any provision of law relating to the ownership, development or administration of slum clearance and housing projects for persons of low income, in the same manner as though all the provisions of law applicable to slum clearance and housing projects for persons of low income were applicable to projects developed or administered to assure the availability of safe and sanitary dwellings for persons engaged in national defense activities as provided in this law, and housing projects developed or administered hereunder shall constitute "housing projects" under the housing authorities law, as that term is used therein; provided, that during the period (herein called the "national defense period") that a

housing authority finds (which finding shall be conclusive in any suit, action or proceeding) that within its area of operation (as defined in the housing authorities law), or any part thereof, there is an acute shortage of safe and sanitary dwellings which impedes the national defense activities, any project developed or administered by such housing authority (or by any housing authority cooperating with it) in such area pursuant to this law, with the financial aid of the federal government (or as agents for the federal government as hereinafter provided), shall not be subject to the limitations provided in §421.10 and the second sentence of §421.09; and provided, further, that during the national defense period, a housing authority may make payments in such amounts as it finds necessary or desirable for any services, facilities, works, privileges or improvements furnished for or in connection with any such projects. After the national defense period, any such projects owned and administered by a housing authority shall be administered for the purposes and in accordance with the provisions of the housing authorities law.

In order to assure the availability of safe and sanitary housing for persons engaged in national defense activities, a housing authority may sell (in whole or in part) to the federal government any housing project developed for persons of low income but not yet occupied by such persons; such sale shall be at such price and upon such terms as the housing authority shall prescribe and shall include provision for the satisfaction of all debts and liabilities of the authority relating to such project.

History.—§3, ch. 20221, 1941.

421.40 Cooperation by public bodies on defense housing.—Any state public body, as defined in the Housing Cooperation Law shall have the same rights and powers to cooperate with housing authorities, or with the federal government, with respect to the development or administration of projects to assure the availability of safe and sanitary dwellings for persons engaged in national defense activities that such state public body has pursuant to such law for the purpose of assisting the development or administration of slum clearance or housing projects for persons of low income.

History.—§6, ch. 20221, 1941.

421.43 Removal of restrictions for defense housing.—This law shall constitute an independent authorization for a housing authority to undertake the development or administration of projects to assure the availability of safe and sanitary dwellings for persons engaged in national defense activities as provided in this law and for a housing authority to cooperate with, or act as agent for, the federal government in the development or administration of similar projects by the federal government. In acting under this authorization, a housing authority shall not be subject to any limitations, restrictions or requirements of other laws (except those relating to land acquisition) prescribing the procedure or action to be taken in the development or administration of any public works, including slum clearance and housing projects for persons of low income or undertakings or projects of municipal or public corporations or political subdivisions or agencies of the state. A housing authority may do any and all things necessary or desirable to cooperate with, or act as agent for, the federal government, or to secure financial aid, in the expeditious development or in the administration of projects to assure the availability of safe and sanitary dwellings for persons engaged in national defense activities and to effectuate the purposes of this law.

At such public hearing the names of the real parties in interest, directly or indirectly, in the proposed project shall be disclosed.

(2) In the event such housing project is not approved by a majority vote of the governing body at such public hearing, then upon request of the housing authority at said public hearing, the governing body shall order a referendum election of the freeholders in the precinct wherein the proposed housing project is to be located. Approval of a majority of those voting in such election shall constitute approval of such housing project.

422.01 Short title.—This chapter may be referred to as the "Housing Cooperation Law."

History.—§1, ch. 17982, 1937; CGL 1940 Supp. 7100(3-oo).

422.02 Finding and declaration of necessity.—It has been found and declared in the housing authorities law that there exist in the state unsafe and insanitary housing conditions and a shortage of safe and sanitary dwelling accommodations for persons of low income; that these conditions necessitate excessive and disproportionate expenditures of public funds for crime prevention and punishment, public health, welfare and safety, fire and accident protection, and other public services and facilities; and that the public interest requires the remedying of these conditions. It is hereby found and declared that the assistance herein provided for the remedying of the conditions set forth in the housing authorities law constitutes a public use and purpose and an essential governmental function for which public moneys may be spent and other aid given; that it is a proper public purpose for any state public body to aid any housing authority operating within its boundaries or jurisdiction or any housing project located therein, as the state public body derives immediate benefits and advantages from such an authority or project; and that the provisions hereinafter enacted are necessary in the public interest.

History.—§2, ch. 17982, 1937; CGL 1940 Supp. 7100(3-pp).

The moneys so appropriated shall be paid to the authority as a donation. Any city, town or county located in whole or in part within the area of operation of a housing authority shall have the power from time to time to lend or donate money to the authority or to agree to take such action. The housing authority, when it has money available therefor, shall make reimbursements for all such loans made to it.

History.—§6, ch. 17982, 1937; CGL 1940 Supp. 7100(3-tt).

the interests of the public, the lienholders or the stockholders, it may commence an action or proceeding in the court of chancery of the county in which the said company is located, in the name of the department for the purpose of having such violations or threatened violations stopped and prevented by mandatory injunction. The department shall begin such action or proceeding by a petition and complaint to the said court of chancery, alleging the violation complained of and praying for appropriate relief by way of mandatory injunction. It shall thereupon be the duty of the court to specify the time, not exceeding twenty days after service of a copy of the petition and complaint, within which the corporation complained of must answer the petition and complaint.

(2) In case of default in answer or after answer the court shall immediately inquire into the facts and circumstances in such manner as the court shall direct without other or formal pleadings, and without respect to any technical requirements. The name of a cooperative shall distinguish it from the name of any other corporation organized under the laws of, or authorized to transact business in, this state. The words "electric" and "cooperative" shall not both be used in the name of any corporation organized under the laws of, or authorized to transact business in, this state, except a cooperative or a corporation trans-

History.—§4, ch. 19138, 1939; CGL 1940 Supp. 6494(47); §§10, 35, ch. 69-106.

425.06 Incorporators.—Five or more natural persons or two or more cooperatives, may organize a cooperative in the manner herein-after provided.

425.07 Articles of incorporation.—

(b) The address of its principal office;

(c) The names and addresses of the incorporators;

(d) The names and addresses of the persons who shall constitute its first board of trustees; and

(2) Such articles of incorporation shall be submitted to the department of state for filing as provided in this chapter.

History.—§6, ch. 19138, 1939; CGL 1940 Supp. 6494(49); §§10, 35, ch. 69-106.

425.08 By-laws.—The original by-laws of a cooperative, and the first by-laws for a corporation after the effective date of the conversion thereof into a cooperative, pursuant to §425.17, shall be adopted by its board of trustees. Thereafter, by-laws shall be adopted, amended or repealed by its members. The by-laws shall set forth the rights and duties of members and trustees and may contain other provisions for the regulation and management of the affairs of the cooperative not inconsistent with this chapter or with its articles of incorporation.

History.—§7, ch. 19138, 1939; CGL 1940 Supp. 6494(50).

425.09 Members.—

(1) No person who is not an incorporator shall become a member of a cooperative unless such person shall agree to use electric energy furnished by the cooperative when such electric energy shall be available through its facilities. The by-laws of a cooperative may provide that any person, including an incorporator, shall cease to be a member thereof if he shall fail or refuse to use electric energy made available by the cooperative or if electric energy shall not be made available to such person by the cooperative within a specified time after such person shall have become a member thereof. Membership in the

cooperative shall not be transferable, except as provided in the by-laws. The by-laws may prescribe additional qualifications and limitations in respect to membership.

(2) An annual meeting of the members shall be held at such time as shall be provided in the by-laws.

(3) Special meeting of the members may be called by the board of trustees, by any three trustees, by not less than ten per cent of the members, or by the president.

(4) Meetings of members shall be held at such place as may be provided in the by-laws. In the absence of any such provision, all meetings shall be held in the city or town in which the principal office of the cooperative is located.

(5) Except as hereinafter otherwise provided, written or printed notice stating the time and place of each meeting of members and, in the case of a special meeting, the purpose or purposes for which the meeting is called, shall be given to each member, either personally or by mail, not less than ten nor more than twenty-five days before the date of the meeting.

(6) Five per cent of all members, present in person, shall constitute a quorum for the transaction of business at all meetings of the members, unless the by-laws prescribe the presence of a greater percentage of the members for a quorum. If less than a quorum is present at any meeting, a majority of those present in person may adjourn the meeting from time to time without further notice.

(7) Each member shall be entitled to one vote on each matter submitted to a vote at a meeting. Voting shall be in person, but, if the by-laws so provide, may also be by proxy or by mail, or both. If the by-laws provide for voting by proxy or by mail, they shall also prescribe the conditions under which proxy or mail voting shall be exercised. In any event, no person shall vote as proxy for more than three members at any meeting of the members.

History.—§8, ch. 19138, 1939; CGL 1940 Supp. 6494(51).

425.10 Board of trustees.—

(1) The business and affairs of a cooperative shall be managed by a board of not less than five trustees, each of whom shall be a member of the cooperative or of another cooperative which shall be a member thereof. The by-laws shall prescribe the number of trustees, their qualifications, other than those provided for in this chapter, the manner of holding meetings of the board of trustees and of the election of successors to trustees who shall resign, die, or otherwise be incapable of acting. The by-laws may also provide for the removal of trustees from office and for the election of their successors. Without approval of the members, trustees shall not receive any salaries for their services as trustees and, except in emergencies, shall not be employed by the cooperative in any capacity involving compensation. The by-laws may,

however, provide that a fixed fee and expenses of attendance, if any, may be allowed to each trustee for attendance at each meeting of the board of trustees.

(2) The trustees of a cooperative named in any articles of incorporation, consolidation, merger or conversion, as the case may be, shall hold office until the next following annual meeting of the members or until their successors shall have been elected and qualified. At each annual meeting or, in case of failure to hold the annual meeting as specified in the by-laws, at a special meeting called for that purpose, the members shall elect trustees to hold office until the next following annual meeting of the members, except as hereinafter otherwise provided. Each trustee shall hold office for the term for which he is elected or until his successor shall have been elected and qualified.

(3) The by-laws may provide that, in lieu of electing the whole number of trustees annually, the trustees may be divided into three classes at the first or any subsequent annual meeting, each class to be as nearly equal in number as possible, with the term of office of the trustees of the first class to expire at the next succeeding annual meeting and the term of the second class to expire at the second succeeding annual meeting and the term of the third class to expire at the third succeeding annual meeting. At each annual meeting after such classification a number of Trustees equal to the number of the class whose term expires at the time of such meeting shall be elected to hold office until the third succeeding annual meeting.

(4) A majority of the board of trustees shall constitute a quorum.

(5) If a husband and wife hold a joint membership in a cooperative, either one, but not both, may be elected a trustee.

(6) The board of trustees may exercise all of the powers of a cooperative except such as are conferred upon the members by this chapter, or its articles of incorporation or by-laws.

History.—§9, ch. 19138, 1939; CGL 1940 Supp. 6494(52); §1, ch. 28053, 1953.

425.11 Voting districts.—Notwithstanding any other provision of this chapter, the by-laws may provide that the territory in which a cooperative supplies electric energy to its members shall be divided into two or more voting districts and that, in respect of each such voting district:

(1) A designated number of trustees shall be elected by the members residing therein; or

(2) A designated number of delegates shall be elected by such members; or

(3) Both such trustees and delegates shall be elected by such members.

In any such case the bylaws shall prescribe the manner in which such voting districts and the members thereof, and the delegates and trustees, if any, elected therefrom shall function and the powers of the delegates, which

may include the power to elect trustees. No member at any voting district meeting and no delegate at any meeting shall vote by proxy or by mail.

History.—§10, ch. 19138, 1939; CGL 1940 Supp. 6494(53).

425.12 Officers.—The officers of a cooperative shall consist of a president, vice-president, secretary and treasurer, who shall be elected annually by and from the board of trustees. No person shall continue to hold any of the above offices after he shall have ceased to be a trustee. The offices of secretary and of treasurer may be held by the same person. The board of trustees may also elect or appoint such other officers, agents, or employees as it shall deem necessary or advisable and shall prescribe the powers and duties thereof. Any officer may be removed from office and his successor elected in the manner prescribed in the by-laws.

The proposed amendment, with such changes as the members shall choose to make therein, shall be deemed to be approved on the affirmative vote of not less than two-thirds of those members voting thereon at such meeting; and

(2) Upon such approval by the members, articles of amendment shall be executed and acknowledged on behalf of the cooperative by its president or vice-president and its corporate seal shall be affixed thereto and attested by its secretary. The articles of amendment shall recite in the caption that they are executed pursuant to this chapter and shall state:

- (b) The address of its principal office;
- (c) The date of the filing of its articles of incorporation with the department of state; and
- (d) The amendment to its articles of incorporation.

The president or vice-president executing such articles of amendment shall also make and annex thereto an affidavit stating that the provisions of this section were duly complied with. Such articles of amendment and affidavit shall be submitted to the department of state for filing as provided in this chapter.

(3) A cooperative may, without amending its articles of incorporation, upon authorization of its board of trustees, change the location of its principal office by filing a certificate of change of principal office executed and acknowledged by its president or vice presi-

dent under its seal attested by its secretary, with the department of state and also in each county office in which its articles of incorporation or any prior certificate of change of principal office of such cooperative has been filed. Such cooperative shall also, within thirty days after the filing of such certificate of change of principal office in any county office, file therein certified copies of its articles of incorporation and all amendments thereto, if the same are not already on file therein.

The proposed consolidation and the proposed articles of consolidation shall be deemed to be approved upon the affirmative vote of not less than two-thirds of those members of each consolidating cooperative voting thereon at such meeting; and

The approval of the board of trustees shall not be required in respect of any proposition or document submitted to the members pursuant to this section and approved by them, but such proposition or document shall be subject to all other applicable provisions of this chapter. Any affidavit or affidavits required to be filed with any such document pursuant to applicable provisions of this chapter shall, in such case, be modified to show compliance with the provisions of this section.

- (b) The address of its principal office;
- (c) The date of its incorporation;
- (d) That the cooperative has not commenced business;

(f) That no debt of the cooperative remains unpaid; and

(g) That a majority of the incorporators elect that the cooperative be dissolved. Such articles of dissolution shall be submitted to the department of state for filing as provided in this chapter;

(2) A cooperative which has commenced business may dissolve voluntarily and wind up its affairs in the following manner:

(a) The board of trustees shall first recommend that the cooperative be dissolved voluntarily and thereafter the proposition that the cooperative be dissolved shall be submitted to the members of the cooperative at any annual or special meeting the notice of which shall set forth such proposition. The proposed voluntary dissolution shall be deemed to be approved upon the affirmative vote of not less than two-thirds of those members voting thereon at such meeting;

(b) Upon such approval, a certificate of election to dissolve, hereinafter designated the "certificate", shall be executed and acknowledged on behalf of the cooperative by its president or vice-president, and its corporate seal shall be affixed thereto and attested by its secretary. The certificate shall state:

- 1. The name of the cooperative;
- 2. The address of its principal office;
- 3. The names and addresses of its trustees; and

4. The total number of members of the cooperative and the number of members who voted for and against the voluntary dissolution of the cooperative. The president or vice-president executing the certificate shall also make and annex thereto an affidavit stating that the provisions of this subsection were duly complied with. Such certificate and affidavit shall be submitted to the department of state for filing as provided in this chapter;

(c) Upon the filing of the certificate and affidavit by the department of state, the cooperative shall cease to carry on its business except insofar as may be necessary for the winding up thereof, but its corporate existence shall

continue until articles of dissolution have been filed by the department of state;

(d) After the filing of the certificate and affidavit by the department of state the board of trustees shall immediately cause notice of the winding up proceedings to be mailed to each known creditor and claimant and to be published once a week for two successive weeks in a newspaper of general circulation in the county in which the principal office of the cooperative is located;

(e) The board of trustees shall have full power to wind up and settle the affairs of the cooperative and shall proceed to collect the debts owing to the cooperative, convey and dispose of its property and assets, pay, satisfy, and discharge its debts, obligations, and liabilities, and do all other things required to liquidate its business and affairs, and after paying or adequately providing for the payment of all its debts, obligations and liabilities, shall distribute the remainder of its property and assets among its members in proportion to the aggregate patronage of each such member during the seven years next preceding the date of such filing of the certificate, or, if the cooperative shall not have been in existence for such period, during the period of its existence; and

(f) When all debts, liabilities and obligations of the cooperative have been paid and discharged or adequate provision shall have been made therefor, and all of the remaining property and assets of the cooperative shall have been distributed to the members pursuant to the provisions of this section, the board of trustees shall authorize the execution of articles of dissolution which shall thereupon be executed and acknowledged on behalf of the cooperative by its president or vice-president, and its corporate seal shall be affixed thereto and attested by its secretary. Such articles of dissolution shall recite in the caption that they are executed pursuant to this chapter and shall state:

- 1. The name of the cooperative;

425.20 Filing of articles.—Articles of incorporation, amendment, consolidation, merger, conversion, or dissolution, as the case may be, when executed and acknowledged and accompanied by such affidavits as may be required by applicable provisions of this chapter, shall be presented to the department of state for filing in the records of its office. If the department of state shall find that the articles presented conform to the requirements of this chapter, it shall upon the payment of the fees as in this chapter provided, file the articles so presented in the records of its office and upon such filing the incorporation, amendment, consolidation, merger, conversion, or dissolution provided for therein shall be in effect. The department of state immediately upon the filing in its office of any articles pursuant to this chapter shall transmit a certified copy thereof to the county clerk of the county in which the principal office of each cooperative or corporation affected by such incorporation, amendment, consolidation, merger, conversion, or dissolution shall be located. The clerk of any county, upon receipt of any such certified copy, shall file and index the same in the records of his office, but the failure of the department of state or of a clerk of a county to comply with the provisions of this section shall not invalidate such articles. The provisions of this section shall also apply to certificates of election to dissolve and affidavits of compliance executed pursuant to subsection (2) (b) of §425.19.

History.—§19, ch. 19138, 1939; CGL 1940 Supp. 6494(62); §§10, 35, ch. 69-106.

(6) To provide a fund for education in cooperation and for the dissemination of informa-

tion concerning the effective use of electric energy and other services made available by the cooperative,

shall, unless otherwise determined by a vote of the members, be distributed by the cooperative to its members as patronage refunds in accordance with the patronage of the cooperative by the respective members paid for during such fiscal year. Nothing herein contained shall be construed to prohibit the payment by a cooperative of all or any part of its indebtedness prior to the date when the same shall become due.

History.—§20, ch. 19138, 1939; CGL 1940 Supp. 6494(63).

425.22 Disposition of property.—A cooperative may not sell, mortgage, lease or otherwise dispose of or encumber all or any substantial portion of its property unless such sale, mortgage, lease, or other disposition or encumbrance is authorized at a duly held meeting of the members thereof by the affirmative vote of not less than two-thirds of all of the members of the cooperative, and unless the notice of such proposed sale, mortgage, lease or other disposition or encumbrance shall have been contained in the notice of the meeting; provided, however, that notwithstanding anything herein contained, or any other provisions of law, the board of trustees of a cooperative, without authorization by the members thereof, shall have full power and authority to authorize the execution and delivery of a mortgage or mortgages or deed or deeds of trust upon, or the pledging or encumbering of, any or all of the property, assets, rights, privileges, licenses, franchises and permits of the cooperative, whether acquired or to be acquired, and wherever situated, as well as the revenues and income therefrom, all upon such terms and conditions as the board of trustees shall determine, to secure any indebtedness of the cooperative to the United States or any instrumentality or agency thereof.

425.24 Recordation of mortgages.—Any mortgage, deed of trust, or other instrument executed by a cooperative or foreign corporation transacting business in this state pursuant to this chapter, which, by its terms, creates a lien upon real and personal property then owned or after-acquired, and which is recorded as a mortgage of real property in any county in which such property is located or is to be located shall have the same force and effect as if the mortgage, deed of trust or other instrument were also recorded or filed in the proper office of such county as a mortgage on

personal property. Recordation of any such mortgage, deed of trust or other instrument shall cause the lien thereof to attach to all after-acquired property of the mortgagor of the nature therein described as being mortgaged or pledged thereby immediately upon the acquisition of such property by the mortgagor, and such lien shall be superior to all claims of creditors of the mortgagor and purchasers of such property and to all other liens, except liens of prior record and tax liens, affecting such property.

History.—§23, ch. 19138, 1939; CGL 1940 Supp. 6494(66).

If a person or persons entitled to notice of a meeting shall attend such meeting, such attendance shall constitute a waiver of notice of the meeting, except in case the attendance is for the express purpose of objecting to the transaction of any business because the meeting shall not have been lawfully called or convened.

History.—§24, ch. 19138, 1939; CGL 1940 Supp. 6494(67).

425.26 Trustees, officers or members, notaries.—No person who is authorized to take acknowledgment under the laws of this state shall be disqualified from taking acknowledgments of instruments executed in favor of a cooperative or to which it is a party, by reason of being an officer, director or member of such cooperative.

mission or distribution lines in a state adjacent to this state, shall be allowed to transact business in this state and shall have the same rights, powers, and privileges as a cooperative organized under this chapter upon the filing with the department of state of a certified copy of its charter or articles of incorporation and upon payment of the filing fee in this chapter provided.

(c) The term "employee" shall not include:

1. Independent contractors; or

2. Persons whose employment is both casual and not in the course of the trade, business, profession or occupation of the employer.

(3) The term "casual" as used in this section shall be taken to refer only to employments where the work contemplated is to be completed in not exceeding ten working days, without regard to the number of men employed, and where the total labor cost of such work is less than one hundred dollars.

(4) The term "employer" means the state and all political subdivisions thereof, all public and quasi-public corporations therein, every person carrying on any employment, and the legal representative of a deceased person or the receiver or trustees of any person.

(5) The term "person" means individual, partnership, association or corporation, including any public service corporation.

In employment where an employee receives consideration other than cash as a portion of this compensation the value of such compensation shall be subject to the determination of the division.

440.03 Application.—Every employer and every employee, unless otherwise specifically provided, shall be presumed to have accepted the provisions of this chapter, respectively to pay and accept compensation for injury or death, arising out of and in the course of employment, and shall be bound thereby, unless he shall have given prior to the injury, notice to the contrary as provided in §440.05.

(3) When any policy or contract of insurance specifically secures the benefits of this chapter to any person not included in the definition of "employee" or whose services are not included in the definition of "employment" or who is otherwise excluded or exempted from the operation of this chapter, the acceptance of such policy or contract of insurance by the insured and the writing of same by the carrier shall constitute a waiver of such exclusion or exemption and an acceptance of the provisions of this chapter with respect to such per-

son, notwithstanding the provision of §440.05 with respect to notice.

History.—§4, ch. 17481, 1935; CGL 1936 Supp. 5966(4); §2, ch. 18413, 1937; sub §(3) comp. §2, ch. 29778, 1955.

440.05 Notice of nonacceptance and waiver of exemption.—Notice of nonacceptance of this chapter and notice of waiver of exemption heretofore referred to shall be given in accordance with the following provisions:

(1) Every employer who elects not to accept the provisions of this chapter or who waives such exemption as the case may be, shall post and keep posted in a conspicuous place or places in and about his place or places of business typewritten or printed notices to such effect in accordance with a form to be prescribed by the division. (2) Every employee who elects not to accept the provisions of this chapter or who waives such exemption, as the case may be, shall deliver to the employer or shall send to him by mail addressed to him at his office, notice to such effect in accordance with a form to be prescribed by the division. He shall file a duplicate of such notice with the division.

(3) Such notice shall be given thirty days prior to any injury, provided, however, that if the injury occurs less than thirty days after the date of employment, such notice given at the time of employment shall be sufficient notice.

440.06 When employer rejects chapter; effect.—Every employee who elects not to operate under this chapter by giving proper notice as provided in §440.05 may not, in any suit brought against him by an employee subject to this chapter to recover damages for injury or death, defend such a suit on the grounds that the injury was caused by the negligence of a fellow servant, nor that the employee assumed the risk of his employment, nor that the injury was due to the contributory negligence of the employee.

History.—§6, ch. 17481, 1935; CGL 1936 Supp. 5966(6).

440.07 When employee rejects chapter; effect.—Every employee who elects not to operate under this chapter, in any action to recover damages for injury or death brought against an employer who accepts the provisions of this chapter shall proceed as at common law and the employer in such suit may avail himself of the defense of negligence of fellow servant, assumption of risk and contributory negligence, as such defense exists at common law.

440.08 When employer and employee reject chapter; effect.—When both employer and employee elect not to operate under this chapter the liability of the employer shall be the same as though he alone rejected the terms of this chapter and in any action brought against him by such employee, he may not plead as a defense that the injury was caused by the neg-

ligence of a fellow servant, nor that the employee assumed the risk of his employment, nor that the injury was due to contributory negligence of the employee.

History.—§8, ch. 17481, 1935; CGL 1936 Supp. 5966(8).

440.09 Coverage.—

(1) Compensation shall be payable under this chapter in respect of disability or death of an employee if the disability or death results from an injury arising out of and in the course of employment. Death resulting from an operation by a surgeon furnished by the employer for the cure of hernia as required in §440.15(6) shall for the purpose of this chapter be considered as a death resulting from the accident causing the hernia. Where an accident happens while the employee is employed elsewhere than in this state, which would entitle him or his dependents to compensation if it had happened in this state, the employee or his dependents shall be entitled to compensation, if the contract of employment was made in this state, and if the employer's place of business is in this state or if the residence of the employee is in this state, provided, his contract of employment was not expressly for service exclusively outside of the state; provided, however, that if an employee shall receive compensation or damages under the laws of any other state, nothing herein contained shall be construed so as to permit a total compensation for the same injury greater than is provided herein.

(2) No compensation shall be payable in respect of the disability or death of any employee of a common carrier by railroad or express company engaged in intrastate, interstate or foreign commerce.

(3) No compensation shall be payable if the injury was occasioned primarily by the intoxication of the employee or by the willful intention of the employee to injure or kill himself or another. Where injury is caused by the willful refusal of the employee to use a safety appliance or observe a safety rule required by statute or lawfully required or approved by the commission, and brought prior to the accident to his knowledge, the compensation as provided in this chapter shall be reduced twenty-five per cent.

(4) When any employee of the state or of any political subdivision thereof or of any public or quasi-public corporation therein, or any person entitled thereto on account of dependency upon such employee, receives compensation under the provisions of this chapter by reason of the disability or death of such employee resulting from an injury arising out of and in the course of employment with such employer, and such employee or dependent is entitled to receive any sum from any pension or other benefit fund to which the same employer may contribute, the amount of any payment from such pension or benefit fund allocable to any week with respect to which such employee or dependent receives compensation under this chapter shall be reduced by the amount of the

compensation for such week; provided that if the amount of the payment from such pension or benefit fund allocable to any week is less than the amount of such compensation for such week only the amount of the pension or benefit payment allocable to such week shall be affected and the amount of the difference between the compensation and the pension or benefit payment allocable to one week shall not reduce the pension or benefit payment allocable to any subsequent week.

440.10 Liability for compensation.—

(1) Every employer coming within the provisions of this chapter, including any brought within the chapter by waiver of exclusion or of exemption, shall be liable for and shall secure the payment to his employees of the compensation payable under §§440.13, 440.15 and 440.16. In case a contractor sublets any part or parts of his contract work to a subcontractor or subcontractors, all of the employees of such contractor and subcontractor or subcontractors engaged on such contract work shall be deemed to be employed in one and the same business or establishment, and the contractor shall be liable for and shall secure the payment of compensation to all such employees, except to employees of a subcontractor who has secured such payment.

(2) Compensation shall be payable irrespective of fault as a cause for the injury, except as provided in §440.09(3).

History.—§10, ch. 17481, 1935; CGL 1936 Supp. 5966(10); §4, ch. 18413, 1937.

440.11 Exclusiveness of liability.—The liability of an employer prescribed in §440.10 shall be exclusive and in place of all other liability of such employer to the employee, his legal representative, husband or wife, parents, dependents, next of kin, and anyone otherwise entitled to recover damages from such employer at law or in admiralty on account of such injury or death, except that if an employer fails to secure payment of compensation as required by this chapter an injured employee, or his legal representative, in case death results from the injury, may elect to claim compensation under this chapter, or to maintain an action at law or in admiralty for damages on account of such injury or death. In such action the defendant may not plead as a defense that the injury was caused by negligence of a fellow servant, nor that the employee assumed the risk of his employment, nor that the injury was due to the contributory negligence of the employee.

History.—§11, ch. 17481, 1935; CGL 1936 Supp. 5966(11).

440.12 Time for commencement and limits on weekly rate of compensation.—

(1) No compensation shall be allowed for the first seven days of the disability, except benefits provided for in §440.13; provided, however, that if the injury results in disability of

more than twenty-one days compensation shall be allowed from the commencement of the disability.

(2) Compensation for disability resulting from injuries which occur after December 31, 1967, shall not exceed forty-nine dollars per week nor be less than eight dollars per week; provided, however, that if the employee's wages at the time of injury are less than eight dollars per week he shall receive his full weekly wages.

(3) The provisions of this section as amended effective July 1, 1951, shall govern with respect to disability due to injuries suffered prior to July 1, 1959; and the provisions of this section as amended effective July 1, 1959, shall govern with respect to disability due to injuries suffered after June 30, 1959, and prior to January 1, 1968.

440.13 Medical services and supplies; penalty for violations; limitations.—

(1) Subject to the limitations specified in subsection (3)(b) the employer shall furnish to the employee such remedial treatment, care and attendance under the direction and supervision of a qualified physician or surgeon, or other recognized practitioner, nurse or hospital, and for such period, as the nature of the injury or the process of recovery may require, including medicines, crutches, artificial members, and other apparatus. If the employer fails to provide the same after request by the injured employee, such injured employee may do so at the expense of the employer, the reasonableness and the necessity to be approved by the division. The employee shall not be entitled to recover any amount expended by him for such treatment or service unless he shall have requested the employer to furnish the same and the employer shall have failed, refused or neglected to do so, or unless the nature of the injury required such treatment, nursing and services and the employer or his superintendent or foreman having knowledge of such injury shall have neglected to provide the same; nor shall any claim for medical, surgical or other remedial treatment be valid and enforceable unless within ten days following the first treatment (except in cases where first aid only is rendered) and thereafter at such intervals as the division by regulation may prescribe the physician or other recognized practitioner giving such treatment or treatments furnish to the division and to the employer a report of such injury and treatment on forms prescribed by the division, provided that the division for good cause may excuse the failure of the physician or other recognized practitioner to furnish any report within the period prescribed and may order the payment to him of such remuneration for treatment or service rendered as the division finds equitable. The physician shall

also furnish to the injured employee on demand a copy of each such report.

(2) If an injured employee objects to the medical attendance furnished by the employer, it shall be the duty of the employer to select another physician to treat the injured employee unless the division determines that a change in medical attendance is not for the best interests of the injured employee; provided that the division may at any time, for good cause shown, in its discretion order a change in such remedial attention, care, or attendance. It shall be unlawful for any employer or representative of any insurance company or insurer to coerce or attempt to coerce a sick or injured employee in the selection of a physician, or surgeon or other attendant or remedial treatment, nursing or hospital care, or any other service that the sick or injured employee may require; and any employer or representative of any insurance company or insurer who violates this provision shall be guilty of a misdemeanor and upon conviction therefor shall be fined not less than twenty-five dollars and not more than one hundred dollars for each and every offense.

(3)(a) All fees and other charges for such treatment or service shall be limited to such charges as prevail in the same community for similar treatment of injured persons of like standard of living, and shall be subject to regulations by the division, which shall adopt schedules of charges for such treatment or services.

(b) All rights for remedial attention under this section shall be barred unless a claim therefor is filed with the division within two years after the time of injury, except that if payment of compensation has been made or remedial attention has been furnished by the employer without an award on account of such injury a claim may be filed within two years after the date of the last payment of compensation or within two years after the date of the last remedial attention furnished by the employer; and all rights for remedial attention under this section pursuant to the terms of an award shall be barred unless a further claim therefor is filed with the division within two years after the entry of such award, except that if payment of compensation has been made or remedial attention has been furnished by the employer under the terms of the award a further claim may be filed within two years after the date of the last payment of compensation or within two years after the date of the last remedial attention furnished by the employer.

440.14 Determination of pay.—Except as otherwise provided in this chapter, the average weekly wages of the injured employee at the time of the injury shall be taken as the basis upon which to compute compensation

and shall be determined subject to limitations of §440.12(2) as follows:

(1) If the injured employee shall have worked in the employment in which he was working at the time of the injury, whether for the same or another employer, during substantially the whole of thirteen weeks immediately preceding the injury, his average weekly wage shall be one-thirteenth of the total amount of wages earned in such employment during the said thirteen weeks.

(2) If the injured employee shall not have worked in such employment during substantially the whole of thirteen weeks immediately preceding the injury, the wages of a similar employee in the same employment who has worked substantially the whole of such thirteen weeks shall be used in making the determination under the preceding subsection.

(3) If either of the foregoing methods cannot reasonably and fairly be applied the full-time weekly wages of the injured employee shall be used, except as otherwise provided in subsections (4) or (5) of this section.

(4) If it be established that the injured employee was a minor when injured, and that under normal conditions his wages should be expected to increase during the period of disability the fact may be considered in arriving at his average weekly wages.

(5) If it be established that the injured employee was a part-time worker at the time of the injury, that he had adopted part-time employment as his customary practice, and that under normal working conditions he probably would have remained a part-time worker during the period of disability, these factors shall be considered in arriving at his average weekly wages. For the purpose of this subsection the term part-time worker means an individual who customarily works less than the full-time hours or full-time work week of a similar employee in the same employment.

(6) If compensation is due for a fractional part of the week, the compensation for such fractional part shall be determined by dividing the weekly compensation rate by the number of days employed per week to compute the amount due for each day.

History.—§14, ch. 17481, 1935; CGL 1936 Supp. 5966(14); §3, ch. 20672, 1941; §2, ch. 28241, 1953; (5) §1, ch. 63-160.

440.15 Compensation for disability.—Compensation for disability shall be paid to the employee, subject to the limits provided in §440.12(2) as follows:

(1) **PERMANENT TOTAL DISABILITY.**—

(a) In case of total disability adjudged to be permanent, sixty per cent of the average weekly wages shall be paid to the employee during the continuance of such total disability.

(b) Loss of both hands, or both arms, or both feet, or both legs, or both eyes, or of any two thereof shall, in the absence of conclusive proof to the contrary, constitute permanent total disability. In all other cases permanent total

disability shall be determined in accordance with the facts.

(c) In cases of permanent total disability resulting from injuries which occurred prior to July 1, 1955, such payments shall not be made in excess of seven hundred weeks.

(d) If an employee who is being paid compensation for permanent total disability shall become rehabilitated to the extent that he shall establish an earning capacity by employment he shall be paid during the period of such employment, instead of the compensation provided in paragraph (a) of this subsection, sixty per cent of the difference between his average weekly wages at the time the total disability was incurred and his wage earning capacity as determined by his actual earnings in such employment.

(2) **TEMPORARY TOTAL DISABILITY.**—In case of disability total in character but temporary in quality, sixty per cent of the average weekly wages shall be paid to the employee during the continuance thereof, not to exceed three hundred and fifty weeks except as provided in §440.12(1).

(3) **PERMANENT PARTIAL DISABILITY.**—In case of disability partial in character but permanent in quality the compensation shall, in addition to that provided by subsection (2) of this section, be sixty per cent of the average weekly wages, and shall be paid to the employee as follows:

(a) Arm lost, two hundred weeks' compensation.

(b) Leg lost, two hundred weeks' compensation.

(c) Hand lost, one hundred and seventy-five weeks' compensation.

(d) Foot lost, one hundred and seventy-five weeks' compensation.

(e) Eye lost, one hundred and seventy-five weeks' compensation.

(f) Thumb lost, sixty weeks' compensation.

(g) First finger lost, thirty-five weeks' compensation.

(h) Great toe lost, thirty weeks' compensation.

(i) Second finger lost, thirty weeks' compensation.

(j) Third finger lost, twenty weeks' compensation.

(k) Toe other than great toe lost, ten weeks' compensation.

(l) Fourth finger lost, fifteen weeks' compensation.

(m) Loss of hearing: compensation for loss of hearing of one ear, forty weeks. Compensation for loss of hearing of both ears, one hundred and fifty weeks.

(n) Phalanges: Compensation for loss of more than one phalange of a digit shall be the same as for loss of the entire digit. Compensation for loss of the first phalange shall be one-half of the compensation for the loss of the entire digit.

(o) Amputated arm or leg: Compensation

for an arm or leg, if amputated at or above the elbow or the knee, shall be the same as for the loss of the arm or leg, but, if amputated between the elbow and the wrist, or the knee and the ankle, shall be the same as for loss of hand or foot.

(p) **Per cent of vision:** Compensation for loss of eighty per cent or more of the vision of an eye shall be the same as for the loss of the eye.

(q) **Two or more digits:** Compensation for loss of two or more digits or one or more phalanges of two or more digits, of a hand or foot may be proportioned to the loss of use of the hand or foot occasioned thereby, but shall not exceed the compensation for loss of a hand or foot.

(r) **Total loss of use:** Compensation for permanent total loss of use of a member shall be the same as for loss of the member.

(s) **Partial loss or partial loss of use:** Compensation for permanent partial loss or loss of use of a member may be for proportionate loss or loss of use of the member.

(t) **Disfigurement:** The division shall award proper and equitable compensation for serious facial or head disfigurement, not to exceed two thousand dollars; provided, that in such award the division shall consider only the effect such disfigurement shall have on the future earning capacity of the injured employee.

(u) **Other cases:** In all other cases in this class of disability the compensation shall be sixty per cent of the injured employee's average weekly wage for such number of weeks as the injured employee's percentage of disability is of three hundred fifty weeks; provided, however, that for the purpose of this paragraph "disability" means either physical impairment or diminution of wage earning capacity, whichever is greater.

(4) **TEMPORARY PARTIAL DISABILITY.**—In case of temporary partial disability resulting in decrease of earning capacity the compensation shall be sixty per cent of the difference between the injured employee's average weekly wages before the injury and his wage-earning capacity after the injury in the same or other employment, to be paid during the continuance of such disability, but shall not be paid for a period exceeding five years.

(5) **SUBSEQUENT INJURY.**—

(a) If any employee receives any injury for which compensation is payable while he is still receiving or entitled to receive compensation for a previous injury in the employ of the same employer, he shall not at the same time be entitled to compensation for both injuries, unless the latter injury be a permanent injury such as specified in this section; but he shall be entitled to compensation for that injury and from the time of that injury which will cover the longest period and the largest amount payable under this chapter.

(b) If any employee receives a permanent injury as specified in this section, after having

previously sustained another permanent injury in the employ of the same employer, he shall be entitled to compensation for both injuries, but the total compensation shall be paid by extending the period and not by increasing the amount of weekly compensation. When the previous and subsequent injuries received in the same employment result in permanent total disability, compensation shall be payable for permanent total disability.

(c) The fact that an employee has suffered previous disability or received compensation therefor shall not preclude him from benefits for a later injury nor preclude benefits for death resulting therefrom; but in determining compensation for the later injury or death his average weekly wages shall be such sum as will represent his earning capacity at the time of the later injury, provided, however, that an employee who is suffering from a previous disability shall not receive compensation for a later injury in excess of the compensation allowed for such injury when considered by itself and not in conjunction with the previous disability.

(6) **HERNIA.**—In all claims for compensation for hernia resulting from injury by an accident arising out of and in the course of his employment it must be definitely proved to the satisfaction of the division:

(a) That there was an injury resulting in hernia.

(b) That the hernia appeared suddenly.

(c) That it was accompanied by pain.

(d) That the hernia immediately followed an accident.

(e) That the hernia did not exist prior to the accident for which compensation is claimed.

(f) All hernia, inguinal, femoral, or otherwise, so proved to be the result of an injury by accident arising out of and in the course of the employment, shall be treated at the expense of the employer in a surgical manner by radical operation. Compensation shall be paid for a period of six weeks from the date of the operation. In case the injured employee refuses to undergo the radical operation for the cure of said hernia, no compensation will be allowed during the time of refusal. This shall not apply to those who by religious belief do not use medical or surgical treatment. If, however, it is shown that the employee had some chronic disease, or is otherwise in such physical condition that the division considers it unsafe for the employee to undergo said operation, the compensation shall be paid as otherwise provided in §440.15(4), but not for exceeding thirty weeks. Compensation shall be allowed for temporary total disability as provided by subsection (2) of this section for such disability before the operation.

(7) **EMPLOYEE REFUSES EMPLOYMENT.**—If an injured employee refuses employment suitable to his capacity, offered to or procured for him, he shall not be entitled to any compensation at any time during the continu-

ance of such refusal unless at any time in the opinion of the division such refusal is justifiable.

(8) EMPLOYEE LEAVES EMPLOYMENT.

—If an injured employee, when receiving compensation for temporary partial disability, leaves the employment of the employer by whom he was employed at the time of the accident for which such compensation is being paid, he shall, upon securing employment elsewhere, give to such former employer an affidavit in writing containing the name of his new employer, the place of employment and the amount of wages being received at such new employment and until he gives such affidavit the compensation for temporary partial disability will cease. The employer by whom such employee was employed at the time of the accident for which such compensation is being paid may also at any time demand of such employee additional affidavit in writing containing the name of his employer, the place of his employment and the amount of wages he is receiving, and if the employee, upon such demand, fails or refuses to make and furnish such affidavit, his right to compensation for temporary partial disability shall cease until such affidavit is made and furnished.

(9) EMPLOYEE BECOMES INMATE OF INSTITUTION.—In case an employee who is permanently and totally disabled becomes an inmate of a public institution, then no compensation shall be payable unless he has dependent upon him for support a person or persons defined as dependents elsewhere in this chapter, whose dependency shall be determined as if the employee were deceased and to whom compensation would be paid in case of death and such compensation as is due said employee shall be paid such dependents during the time he remains such inmate.

440.151 Occupational diseases.—

(1) (a) Where the employer and employee are subject to the provisions of the workmen's compensation law, the disablement or death of an employee resulting from an occupational disease as hereinafter defined shall be treated as the happening of an injury by accident, notwithstanding any other provisions of this chapter, and the employee or, in case of death, his dependents shall be entitled to compensation as provided by this chapter, except as hereinafter otherwise provided; and the practice and procedure prescribed by this chapter shall apply to all proceedings under this section, except as hereinafter otherwise provided. Provided, however, that in no case shall an employer be liable for compensation under the provisions of this section unless such disease has resulted from the nature of the employment in which the employee was engaged under such employer and was actually contracted while so engaged, mean-

ing by "nature of the employment" that to the occupation in which the employee was so engaged there is attached a particular hazard of such disease that distinguishes it from the usual run of occupations and is in excess of the hazard of such disease in such employment, or, in case of death, unless death follows continuous disability from such disease, commencing within the period above limited, for which compensation has been paid or awarded or timely claim made as provided in this section, and results within three hundred fifty weeks after such last exposure.

(b) No compensation shall be payable for an occupational disease if the employee, at the time of entering into the employment of the employer by whom the compensation would otherwise be payable, falsely represents himself in writing as not having previously been disabled, laid off or compensated in damages or otherwise, because of such disease.

(c) Where an occupational disease is aggravated by any other disease or infirmity, not itself compensable, or where disability or death from any other cause, not itself compensable, is aggravated, prolonged, accelerated or in anywise contributed to by an occupational disease, the compensation payable shall be reduced and limited to such proportion only of the compensation that would be payable if the occupational disease were the sole cause of the disability or death as such occupational disease, as a causative factor, bears to all the causes of such disability or death, such reduction in compensation to be effected by reducing the number of weekly or monthly payments or the amounts of such payments, as under the circumstances of the particular case may be for the best interest of the claimant or claimants.

(d) No compensation for death from an occupational disease shall be payable to any person whose relationship to the deceased, which under the provisions of this workmen's compensation law would give right to compensation, arose subsequent to the beginning of the first compensable disability save only to after-born children of a marriage existing at the beginning of such disability.

(e) The presumptions in favor of claimants established by §440.26 of this workmen's compensation law shall not apply to a claim for compensation for an occupational disease under this section.

(f) No compensation shall be payable for disability or death resulting from tuberculosis arising out of and in the course of employment by the division of health of the department of health and rehabilitative services at a state tuberculosis hospital, or aggravated by such employment, when the employee had suffered from said disease at any time prior to the commencement of such employment.

(2) Whenever used in this section the term "occupational disease" shall be construed to mean only a disease which is due to causes and conditions which are characteristic of and pe-

culiar to a particular trade, occupation, process or employment, and to exclude all ordinary diseases of life to which the general public is exposed.

(3) Except as hereinafter otherwise provided in this section, "disablement" means the event of an employee's becoming actually incapacitated, partially or totally, because of an occupational disease, from performing his work in the last occupation in which injuriously exposed to the hazards of such disease; and "disability" means the state of being so incapacitated.

(4) This section shall not apply to cases of occupational disease in which the last injurious exposure to the hazards of such disease occurred before this section shall have taken effect.

(5) Where compensation is payable for an occupational disease, the employer in whose employment the employee was last injuriously exposed to the hazards of such disease, and the insurance carrier, if any, on the risk when such employee was last so exposed under such employer, shall alone be liable therefor, without right to contribution from any prior employer or insurance carrier; and the notice of injury and claim for compensation, as hereinafter required, shall be given and made to such employer; provided, however, that in case of disability from any dust disease the only employer and insurance carrier liable shall be the last employer in whose employment the employee was last injuriously exposed to the hazards of the disease for a period of at least sixty days.

(6) (a) Disability from silicosis, asbestosis or any dust disease shall be caused only from the characteristic fibrotic condition of the lungs caused from the inhalation of dust and shall be allowed only when the employee is incapacitated from performing any remunerative employment.

(b) In the absence of conclusive evidence in favor of the claim, disability or death from silicosis or asbestosis shall be presumed not to be due to the nature of any occupation within the provisions of this section, unless during the ten years immediately preceding the date of disablement the employee has been exposed to the inhalation of silica dust or asbestos dust over a period of not less than five years, two years of which shall have been in this state, under a contract of employment existing in this state; provided, however, that if the employee shall have been employed by the same employer during the whole of such five-year period, his right to compensation against such employer shall not be affected by the fact that he had been employed during any part of such period outside of this state.

(7) The time for notice of injury or death provided in §440.18 (1) shall be extended in case of occupational diseases to a period of ninety days.

History.—§1, ch. 22852, 1945; §1, ch. 23921, 1947; §11, ch. 25035, 1949; §3, ch. 28241, 1953; §1, ch. 65-116; §§19, 35, ch. 69-106.

440.152 Division to make study of occupational diseases, etc.—

(1) The division shall make a study of occupational diseases and the ways and means for their control and prevention; shall make and enforce necessary regulations for such control. For this purpose the division is authorized to cooperate with employers, employees and carriers and with the division of health of the department of health and rehabilitative services.

(2) The result of the above study, together with its recommendations, shall be reported by the division to the governor and the legislature.

History.—§2, ch. 22852, 1945; §1, ch. 23921, 1947; §§17, 19, 35, ch. 69-106.

440.16 Compensation for death.—If death results from the accident within one year thereafter or follows continuous disability and results from the accident within five years thereafter, the employer shall pay:

(1) Actual funeral expenses not to exceed five hundred dollars.

(2) Compensation, in addition to the above, in the following percentages of the average weekly wages to the following persons entitled thereto on account of dependency upon the deceased and in the following order of preference (subject to the limitation provided in §440.16(2)(c) below), but such compensation shall be subject to the limits provided in §440.12(2) and shall not exceed a period of three hundred fifty weeks nor fifteen thousand dollars; and may be less than, but shall not exceed, for all dependents or persons entitled to compensation, sixty per cent of the average wage:

(a) To the widow if there is no child, thirty-five per cent of the average weekly wage, said compensation to cease upon her death or remarriage.

(b) To the widower if there is no child, thirty-five per cent during the continuance of dependency, said compensation to cease upon death, remarriage or the termination of dependency.

(c) To the widow or widower if there is a child or children, the compensation payable under paragraph (a) or (b) hereof and, in addition, fifteen per cent on account of each child; and in case of the death or remarriage of such a widow or widower or the termination of dependency of the widower, twenty-five per cent for each child; provided, however, where the deceased is survived by a widow or widower and also a child or children, whether such child or children be the product of the union existing at the time of death or of a former marriage or marriages, the division may provide for the payment of compensation in such manner as to it may appear just and proper and for the best interests of the respective parties and in so doing may provide for the entire compensation to be paid exclusively to the child or children.

(d) To the child or children, if there is no

widow or widower, twenty-five percent for each child.

(e) To the parents, twenty-five per cent to each, such compensation to be paid during the continuance of dependency.

(f) To the brothers, sisters and grandchildren, fifteen per cent for each brother, sister, or grandchild.

(3) For the purpose of this chapter the dependence of a widow or widower of a deceased employee shall terminate with remarriage. The dependence of a child, except a child physically or mentally incapacitated from earning a livelihood, shall terminate with the attainment of eighteen years of age, or upon marriage.

(4) Where, because of the limitation in subsection (2), a person or class of persons cannot receive the percentage of compensation specified as payable to or on account of such person or class, there shall be available to such person or class that proportion of such percentage as, when added to the total percentage payable to all persons having priority of preference, will not exceed a total of said sixty per cent, which proportion shall be paid:

(a) To such person; or

(b) To such class share and share alike unless the division determines otherwise in accordance with the provisions of subsection (5).

(5) If the division determines that payments in accordance with paragraph (b) of subsection (4) would provide no substantial benefit to any person of such class, it may provide for the payment of such compensation to the person or persons within such class whom it considers will be most benefited by such payment.

(6) Upon the cessation of compensation under this section to any person, the compensation of the remaining persons entitled to compensation, for the unexpired part of the period during which their compensation is payable, shall be that which such persons would have received if they had been the only persons entitled to compensation at the time of the decedent's death.

(7) Relationship to the deceased giving right to compensation under the provisions of this section must have existed at the time of the accident, save only in the case of after-born children of the deceased.

(8) Compensation under this chapter to aliens not residents (or about to become non-residents) of the United States or Canada shall be the same in amount as provided for residents, except that dependents in any foreign country shall be limited to surviving wife and child or children, or if there be no surviving wife or child or children, to surviving father or mother whom the employee has supported, either wholly or in part, for the period of one year prior to the date of the injury, and except that the division may, at its option, or upon the application of the insurance

carrier, commute all future installments of compensation to be paid to such aliens by paying or causing to be paid to them one-half of the commuted amount of such future installments of compensation as determined by the division, and provided further that compensation to dependents referred to in this subsection shall in no case exceed one thousand dollars.

440.17 Guardian for minor or incompetent.

—The division may require the appointment by a court of competent jurisdiction, for any person who is mentally incompetent or a minor, of a guardian or other representative to receive compensation payable to such person under this chapter and to exercise the powers granted to or to perform the duties required of such person under this chapter; provided, however, the division in its discretion may designate in the compensation award a person to whom payment of compensation may be paid for a minor or incompetent, in which event payment to such designated person shall discharge all liability for such compensation.

440.18 Notice of injury or death.—

(1) Notice of an injury or death in respect to which compensation is payable under this chapter shall be given within thirty days after the date of such injury or death:

(a) To the division;

(b) To the employer; provided, however, that in the event of any injury which results in the death of the injured employee within twenty-four hours of the time of such injury immediate notice shall be given to the division by telegraph or telephone. Such immediate notice shall be in addition to any other notice provided for in this section; and, provided further, that such special notice shall not be required where the death results subsequent to the submission to the division of a previous notice of such injury which did not result in immediate death.

(2) Such notice shall be in writing, shall contain the name and address of the employee and a statement of the time, place, nature, and cause of the injury or death, and shall be signed by the employee or by some person on his behalf or in case of death, by any person claiming to be entitled to compensation for such death or by a person on his behalf.

(3) Notice shall be given to the division by delivering same to it or sending same by mail addressed to its office, and to the employer, by delivering same to him or by sending same by mail addressed to him at his last known place of business. If the employer is a partnership, such notice may be given to any partner, or if a corporation, such notice may

be given to any agent or officer thereof upon whom legal process may be served or who is in charge of the business in the place where the injury occurred.

(4) Failure to give such notice shall not bar any claim under this chapter:

(a) If the employer (or his agent in charge of the business in the place where the injury occurred) or the carrier had knowledge of the injury or death and the division determines that the employer or carrier has not been prejudiced by failure to give such notice; or

(b) If the division excuses such failure on the ground that for some satisfactory reason such notice could not be given; nor unless objection to such failure is raised before the division at the first hearing of a claim for compensation in respect of such injury or death. Provided, in case the delay in giving notice is so excused, no compensation shall be payable for aggravation of the injury caused by want of "first aid" or proper medical treatment during such delay, and every presumption shall be against the validity of the claim.

History.—§18, ch. 17481, 1935; CGL 1936 Supp. 5966(18); §1, ch. 57-245; §§17, 35, ch. 69-106.

440.19 Time and procedure for filing claims.—

(1) (a) The right to compensation for disability under this chapter shall be barred unless a claim therefor is filed within two years after the time of injury, except that if payment of compensation has been made or remedial treatment has been furnished by the employer without an award on account of such injury a claim may be filed within two years after the date of the last payment of compensation or after the date of the last remedial treatment furnished by the employer.

(b) The right to compensation for death under this chapter shall be barred unless a claim therefor is filed within two years after the death, except that if payment of compensation has been made without an award on account of such death a claim may be filed within two years after the date of the last payment.

(c) Such claim shall be filed with the division at its office in Tallahassee and shall contain the name and address of the employee, the name and address of the employer, and a statement of the time, place, nature and cause of the injury or such fairly equivalent information as will put the division and the employer on notice with respect to the identity of the parties and the nature of the claim.

(d) Any judge of industrial claims receiving a claim for compensation in any form shall, immediately upon receipt of such claim, mail said claim to the division at its office in Tallahassee.

(e) In no event and under no circumstances shall any of the rights of employees under the workmen's compensation law be prejudiced or lost by failure or delay of judges of indus-

trial claims in mailing claims in any form to the division in Tallahassee.

(2) Notwithstanding the provisions of subsection (1) failure to file claim within the period prescribed in such subsection shall not be a bar to such right unless objection to such failure is made at the first hearing of such claim in which all parties in interest are given reasonable notice and opportunity to be heard.

(3) If a person who is entitled to compensation under this chapter is mentally incompetent or a minor, the provisions of subsection (1) shall not be applicable so long as such person has no guardian or other authorized representative, but shall be applicable in the case of a person who is mentally incompetent or a minor from the date of appointment of such guardian or other representative, or in the case of a minor, if no guardian is appointed before he becomes of age, from the date he becomes of age.

(4) Where recovery is denied to any person, in a suit brought at law or in admiralty to recover damages in respect of injury or death, on the ground that such person was an employee and that the defendant was an employer within the meaning of this chapter and that such employer had secured compensation to such employee under this chapter, the limitation of time prescribed in subsection (1) shall begin to run only from the date of termination of such suit, but in such an event the employer shall be allowed a credit of his actual cost of defending said suit in a sum not exceeding two hundred and fifty dollars, which shall be deducted from any compensation allowed or awarded to said employee under this chapter.

440.20 Payment of compensation.—

(1) Compensation under this chapter shall be paid periodically, promptly in the usual manner and directly to the person entitled thereto, without an award, except where liability to pay compensation is controverted by the employer.

(2) The first installment of compensation shall become due on the fourteenth day after the employer has knowledge of the injury or death on which date all compensation then due shall be paid. Thereafter, compensation shall be paid in installments biweekly except where the division determines that payments in installments should be made monthly or at some other period.

(3) Upon making the first payment, and upon suspension of payment for any cause, the employer shall immediately notify the division, in accordance with a form prescribed by the division, that payment of compensation has begun or has been suspended, as the case may be.

(4) If the employer controverts the right to compensation he shall file with the division on or before the twenty-first day after he has knowledge of the alleged injury or death, a no-

tice in accordance with a form prescribed by the division, stating that the right to compensation is controverted, the name of the claimant, the name of the employer, the date of the alleged injury or death, and the grounds upon which the right to compensation is controverted.

(5) If any installment of compensation payable without an award is not paid within fourteen days after it becomes due, as provided in subsection (2) of this section, there shall be added to such unpaid installment an amount equal to ten per cent thereof, which shall be paid at the same time as, but in addition to, such compensation, such installment, unless notice is filed under subsection (4) of this section, or unless such nonpayment is excused by the division after a showing by the employer that owing to conditions over which he had no control such installment could not be paid within the period prescribed for the payment.

(6) If any compensation, payable under the terms of an award, is not paid within twenty days after it becomes due, there shall be added to such unpaid compensation an amount equal to twenty per cent thereof, which shall be paid at the same time as, but in addition to, such compensation, unless review of the compensation order making such award is had as provided in §440.25.

(7)(a) Within thirty days after final payment of compensation has been made, the employer shall send to the division a notice, in accordance with a form prescribed by the division stating that such final payment has been made, the total amount of compensation paid, the name of the employee and of any other person to whom compensation has been paid, the date of the injury or death, and the date to which compensation has been paid.

(b) If the employer fails to so notify the division within such time the division may assess against such employer a civil penalty in an amount not over one hundred dollars.

(8) The division:

(a) May upon its own initiative at any time in a case in which payments are being made without an award; and

(b) Shall in any case where right to compensation is controverted, or where payments of compensation have been stopped or suspended, upon receipt of notice from any person entitled to compensation, or from the employer, that the right to compensation is controverted, or that payments of compensation have been stopped or suspended, make such investigations, cause such medical examination to be made, or hold such hearings, and take such further action as it considers will properly protect the rights of all parties.

(9) Whenever the division deems it advisable it may require any employer to make a deposit with the state treasurer to secure the prompt and convenient payments of such compensation, and payments therefrom upon any

awards shall be made upon order of the commission.

(10) Upon the application of any party in interest and after giving due consideration to the interests of all interested parties, if he finds that it is for the best interests of the person entitled to compensation a judge of industrial claims may enter a compensation order requiring that the liability of the employer for compensation shall be discharged by the payment of a lump sum equal to the present value of all future payments of compensation, computed at four per cent true discount compounded annually, or requiring that the employer make advance payment of a part of the compensation for which he is liable by the payment of a lump sum equal to the present value of such part of the compensation computed at four per cent true discount compounded annually. Upon joint petition of all interested parties and after giving due consideration to the interests of all interested parties, if he finds that it is for the best interests of the person entitled to compensation a judge of industrial claims may enter a compensation order approving and authorizing the discharge of the liability of the employer for both compensation and remedial treatment, care and attendance by the payment of a lump sum equal to the present value of all future payments for both compensation and remedial treatment, care and attendance; and a compensation order so entered upon joint petition of all interested parties shall not be subject to modification or review under §440.28. The probability of the death of the injured employee or other person entitled to compensation before the expiration of the period during which he is entitled to compensation shall in the absence of special circumstances making such course improper be determined in accordance with a standard experience table of mortality approved by the division. The probability of the happening of any other contingency affecting the amount of duration of the compensation except the possibility of the remarriage of a widow shall be disregarded. As a condition of approving a lump sum payment to a widow the judge of industrial claims in his discretion may require security which will insure that in the event of the remarriage of such widow any unaccrued future payments so paid may be recovered or recouped by the employer or carrier. Such applications shall be considered and determined in accordance with §§440.25 and 440.27 and the rules of procedure prescribed by the division.

(11) If the employer has made advance payments of compensation, he shall be entitled to be reimbursed out of any unpaid installment or installments of compensation due.

440.21 Invalid agreements; penalty.—

(1) No agreement by an employee to pay

any portion of premium paid by his employer to a carrier or to contribute to a benefit fund or department maintained by such employer for the purpose of providing compensation or medical services and supplies as required by this chapter shall be valid, and any employer who makes a deduction for such purpose from the pay of any employee entitled to the benefits of this chapter shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not more than five hundred dollars.

(2) No agreement by an employee to waive his right to compensation under this chapter shall be valid, unless he has rejected the chapter as provided in §440.05.

History.—§22, ch. 17481, 1935; CGL 1936 Supp. 5966(22).

440.23 Compensation a lien against assets.—Compensation shall have the same preference of lien against the assets of the carrier or employer without limit of an amount as is now or may hereafter be allowed by law to the claimant for unpaid wages or otherwise.

History.—§23, ch. 17481, 1935; CGL 1936 Supp. 5966(23).

440.24 Enforcement of compensation orders; penalties.—

(1) In case of default by the employer or carrier in the payment of compensation due under any compensation order of a judge of industrial claims or order of the full commission or other failure by the employer or carrier to comply with such order for a period of ten days after the order has become final, any circuit court of this state within the jurisdiction of which the employer or carrier resides or transacts business shall upon application by the division or any beneficiary under such order, have jurisdiction to issue a rule nisi directing such employer or carrier to show cause why a writ of execution, or such other process as may be necessary to enforce the terms of such order, shall not be issued, and unless such cause is shown, the said court shall have jurisdiction to issue a writ of execution or such other process or final order as may be necessary to enforce the terms of such order of the judge of industrial claims or full commission.

(2) In any case where the employer is insured and the carrier fails to comply with any compensation order of a judge of industrial claims or order of the full commission for a period of ten days after such order has become

final, the division shall notify the department of insurance of such failure, and the department of insurance shall thereupon suspend the license of such carrier to do an insurance business in this state, until such carrier has complied with such order.

(3) In any case where the employer is a self-insurer and fails to comply with any compensation order of a judge of industrial claims or order of the full commission for a period of ten days after such order has become final, the division may suspend or revoke any authorization previously given to the employer to become a self-insurer, and the division will be authorized to sell such of the securities deposited by such self-insurer with the division as may be necessary to satisfy such order.

History.—§24, ch. 17481, 1935; CGL 1936 Supp. 5966(24); §10, ch. 18413, 1937; §7, ch. 28241, 1953; §2, ch. 67-554; §13, 17, 35, ch. 69-106.

440.25 Procedure in respect to claims.—

(1) Subject to the provisions of §440.19, claim for compensation may be filed with the division at its office in the city of Tallahassee in accordance with regulations prescribed by the division at any time after the first seven days of disability following any injury or at any time after the death, and the division shall have full power and authority to hear and determine all questions in respect to such claims.

(2) Within ten days after such claim is filed the division, in accordance with regulations prescribed by it, shall notify the employer and any other person (other than the claimant), whom the division considers an interested party, that a claim has been filed. Such notice may be served personally upon the employer or other person, or sent to such employer or person by regular mail.

(3)(a) The division shall make or cause to be made such investigations as it considers necessary in respect of the claim, and upon application of any interested party shall order a hearing thereof. If a hearing on such claim is ordered, the division shall give the claimant and other interested parties at least fifteen days' notice of such hearing served personally upon the claimant and other interested parties by certified or registered mail.

(b) The hearing shall be held in the county where the injury occurred, if the same occurred in this state, unless otherwise agreed to between the parties and authorized by the division. If the injury occurred without the state, and is one for which compensation is payable under this chapter, then the hearing above referred to may be held in the county of the employer's residence or place of business, or in any other county of the state which will, in the discretion of the division, be the most convenient for a hearing. The hearing shall be conducted by a judge of industrial claims, who shall within twenty days after such hearing determine the dispute in a summary manner. At such hearing the claimant and employer may each present evidence in respect of such claim

and may be represented by any attorney authorized in writing for such purpose. When there is a conflict in the medical evidence submitted at the hearing the judge of industrial claims may designate a disinterested doctor to submit a report or to testify in the proceeding, after such doctor has reviewed the medical reports and evidence, examined the claimant, or otherwise made such investigation as appropriate. The report or testimony of any doctor so designated by the judge of industrial claims shall be made a part of the record of the proceeding and shall be given the same consideration by the judge of industrial claims as is accorded other medical evidence submitted in the proceeding; and all costs incurred in connection with such examination and testimony may be assessed as costs in the proceeding, subject to the provisions of §440.13(3)(a).

(c) The order making an award or rejecting the claim (referred to in this chapter as a compensation order) shall set forth the findings of ultimate facts and the mandate, and the order need not include any other reasons or justification for such mandate, and shall be filed in the office of the division at Tallahassee. A copy of such compensation order shall be sent by registered mail to the claimant and to the employer at the last known address of each, with the date of mailing noted thereon.

(4) (a) The compensation order rendered by the judge of industrial claims shall become final twenty days after the date copies of same are mailed to the parties at the last known address of each, unless within said time any interested party shall make and file with the commission or a judge of industrial claims an application for a review thereof by the full commission in accordance with the provisions of this subsection; provided, however, that an employer who has not secured the payment of compensation under this chapter in compliance with §440.38 shall, as a condition of filing such application for a review by the full commission, file with his application for review a good and sufficient bond, as provided in §59.13, conditioned to pay the amount of the award, interest and costs payable under the terms of the order of the full commission, if the application shall be dismissed or the order thereon shall affirm or make an award of benefits in any amount, and upon failure of such employer to file such bond with his application for review the commission shall dismiss the application for review. The application must state concisely and particularly the grounds upon which the appellant relies, and the consideration of the commission thereof will be confined solely to the grounds so presented. A copy of all applications for review shall be served on all interested parties, and proof of service thereof shall accompany all applications when filed.

(b) The appellant shall have prepared, in accordance with such rules as the division may prescribe, a transcript of the proceedings

before the judge of industrial claims, certified by the judge of industrial claims, which transcript must be filed with the full commission within forty-five days from the date of the filing of the application for review, unless the commission for good cause shown by verified petition presented prior to the expiration of said period shall extend the time therefor. The appellant shall have a copy of the transcript served on the opposing party or parties or their counsel and evidence of such service shall be filed with the transcript when filed with the commission. Upon failure of the appellant to file a transcript of the proceedings with the commission, together with evidence of service of a copy thereof on the opposing party or parties, within the time specified or within such time as allowed by the commission pursuant to petition for an extension of time as aforesaid, the commission shall dismiss the application for review.

(c) Within ten days after the appellant has filed his application for review, any other interested party who desires review of any adverse ruling by the judge of industrial claims must file his cross-application for review with the commission or a judge of industrial claims. The cross-application for review must state concisely and particularly the grounds upon which the cross-appellant relies, and the consideration of the commission thereof will be confined solely to the grounds so presented. A copy of all cross-applications for review shall be served on all interested parties, and proof of service thereof shall accompany all cross-applications when filed.

(d) Unless the application for review is withdrawn with its permission or is dismissed as aforesaid, the commission shall consider the matter upon the record as certified by the judge of industrial claims and shall thereafter affirm, reverse or modify said compensation order, or remand the claim for further proceedings before a judge of industrial claims who shall proceed as the full commission may direct. The order of the full commission shall be filed in the office of the division at Tallahassee, and a copy of such order shall be sent by registered or certified mail to each interested party at his last known address. The order of the full commission shall become final upon expiration of the period within which any interested party may file a petition for writ of certiorari requesting review of such order by the supreme court unless within said time any interested party shall file a petition for writ of certiorari in accordance with §440.27.

(5) An award of compensation for disability may be made after the death of an injured employee.

(6) An injured employee claiming or entitled to compensation shall submit to such physical examination by a duly qualified physician designated or approved by the division as the division may require. The place or places shall be reasonably convenient for the employee. Such physician or physicians as the em-

ployee, employer or carrier may select and pay for may participate in an examination if the employee, employer or carrier so requests. Proceedings shall be suspended and no compensation be payable for any period during which the employee may refuse to submit to examination. Any interested party shall have the right in any case of death to require an autopsy, the cost thereof to be borne by the party requesting it; and the division shall have authority to order and require an autopsy and may in its discretion withhold its findings and award until an autopsy is held.

440.26 Presumptions.—In any proceeding for the enforcement of a claim for compensation under this chapter it shall be presumed, in the absence of substantial evidence to the contrary:

- (1) That the claim comes within the provisions of this chapter.
- (2) That sufficient notice of such claim has been given.
- (3) That the injury was not occasioned primarily by the intoxication of the injured employee.
- (4) That the injury was not occasioned by the willful intention of the injured employee to injure or kill himself or another.

440.27 Review of compensation orders.—

(1) Orders of the full commission entered pursuant to §440.25 shall be subject to review only by petition for writ of certiorari to the supreme court. The petition shall be filed in accordance with rules of procedure prescribed by the supreme court of Florida for review of such orders. The division shall be made a party respondent to every such proceeding.

(2) The commission may grant a supersedeas or stay upon petitioner giving a good and sufficient bond, as provided in §59.13, conditioned to pay the amount of the award, interest and costs, if the petition shall be denied by the court; provided, however, that if the employer has secured the payment of benefits of this chapter to his employees no bond is required.

440.28 Modification of orders.—Upon their own initiative or upon the application of any party in interest, on the ground of a change in condition or because of a mistake in a determination of fact the commission may at any time prior to two years after the date of the last payment of compensation pursuant to any com-

pensation order, or at any time prior to two years after the date copies of an order rejecting a claim are mailed to the parties at the last known address of each, review a compensation case in accordance with the procedure prescribed in respect of claims in §440.25 and in accordance with such section, issue a new compensation order which may terminate, continue, reinstate, increase, or decrease such compensation, or award compensation. Such new order shall not affect any compensation previously paid, except that an award increasing the compensation rate may be made effective from the date of the injury, and if any part of the compensation due or to become due is unpaid, an award decreasing the compensation rate may be made effective from the date of the injury, and any payment made prior thereto in excess of such decreased rate shall be deducted from any unpaid compensation, in such manner and by such method as may be determined by the commission.

440.29 Procedure before the commission or division.—

(1) In making an investigation or inquiry or conducting a hearing neither the commission nor the division shall be bound by technical or formal rules of procedure, except as provided by this chapter; but may make such investigation or inquiry, or conduct such hearing in such manner as to best ascertain the rights of the parties. Declaration of a deceased employee concerning the injury in respect of which the investigation or inquiry is being made or the hearing conducted shall be received in evidence and shall, if corroborated by other evidence, be sufficient to establish the injury.

(2) Hearings before the division shall be open to the public and shall be reported, and the division is authorized to contract for the reporting of such hearings. The division shall by regulation provide for the preparation of a record of the hearings and other proceedings before it and shall be permitted to charge for transcripts of testimony and copies of any instrument the same fees as are allowed by law to reporters and clerks of courts of this state for like services.

(b) By furnishing satisfactory proof to the division of his financial ability to pay such compensation and receiving an authorization from the division to pay such compen-

sation directly. The division may, as a condition to such authorization, require such employer to deposit in a depository designated by the division either an indemnity bond or securities (at the option of the employer) of a kind and in an amount determined by the division, and subject to such conditions as the division may prescribe, which shall include authorization to the division in case of default to sell any such securities sufficient to pay compensation awards or to bring suit upon such bonds, to procure prompt payment of compensation under this chapter. Any employer securing compensation in accordance with the provisions of this paragraph shall be known as a self-insurer, and shall be classed as a carrier of his own insurance.

(2) The license of any stock company or mutual company or association or exchange authorized to do insurance business in the state may, upon recommendation of the division be suspended, or revoked by the department of insurance for good cause shown after a hearing at which the carrier shall be entitled to be heard in person or by counsel and to present evidence. No suspension or revocation shall affect the liability of any carrier already incurred.

(3) The division may suspend or revoke any authorization to a self-insurer for a good cause shown after a hearing at which the self-insurer shall be entitled to be heard in person or by counsel and to present evidence. No suspension or revocation shall affect the liability of any self-insurer already incurred.

(4) (a) No carrier of insurance, including the parties to any mutual, reciprocal or other association, shall write any compensation insurance under this chapter without a permit from the department of insurance. Such permit shall be given upon application therefor to any insurance or mutual or reciprocal insurance association upon the said department being satisfied of the solvency of such corporation or association and its ability to perform all its undertakings. 440.39 Compensation for injuries where third persons are liable.—

(1) If an employee, subject to the provisions of the Florida workmen's compensation law, is injured or killed in the course of his employment by the negligence or wrongful act of a third party tort-feasor, such injured employee, or in the case of his death his dependents, may accept compensation benefits under the provisions of this law, and at the same time such injured employee, his dependents or personal representatives may pursue his remedy by action at law or otherwise against such third party tort-feasor.

(2) If the employee or his dependents shall accept compensation or other benefits under this law or begin proceedings therefor, the employer or, in the event the employer is insured against liability hereunder then the insurer, shall be subrogated to the rights of the employee or his dependents against such third party tort-feasor, to the extent of the amount of compensation benefits paid or to be paid as provided by subsection (3) of this section.

(3) (a) In all claims or actions at law against a third party tort-feasor, the employee, or his dependents, or those entitled by law to sue in the event he is deceased, shall sue for the employee individually, and for the use and benefit of the employer if a self-insurer, or employer's insurance carrier, in the event compensation benefits are claimed or paid, and such suit may be brought in the name of the employee or his dependents or those entitled by law to sue in the event he is deceased, as plaintiff or, at the option of such plaintiff may be brought in the name of such plaintiff and for the use and benefit of the employer or insurance carrier, as the case may be. Upon suit being filed the employer or the insurance carrier, as the case may be, may file in the suit a notice of payment of compensation and medical benefits to the employee or his dependents, which said notice shall be recorded and the same shall constitute a lien upon any judgment recovered to the extent that the court may determine to be their pro rata share for compensation benefits paid or to be paid under the provisions of this law, based upon such equitable distribution of the amount recovered as the court may determine, less their pro rata share of all court costs expended by the plaintiff in the prosecution of the suit including reasonable attorney's fees for plaintiff's attorney, such proration of court costs and attorney's fees to be made by the judge of the trial court upon application therefor and notice to adverse party. Notice of suit being filed and notice of payment of compensation benefits shall be served upon the compensation carrier

and upon all parties to the suit, or their attorneys of record.

(b) If the employer or insurance carrier has given written notice of his rights of subrogation to the third party tort-feasor, and, thereafter, settlement of any such claim or action at law is made, either before or after suit is filed, and the parties fail to agree on the proportion to be paid to each, the circuit court of the county in which the cause of action arose shall determine the amount to be paid to each by such third party tort-feasor in accordance with the provisions of paragraph (a) above.

(4) (a) If the injured employee or his dependents, as the case may be, shall fail to bring suit against such third party tort-feasor within one year after the cause of action thereof shall have accrued, the employer if a self-insurer, and if not, the insurance carrier, may institute suit against such third party tort-feasor either in his own name or as provided by subsection

(3) of this section, and in the event suit is so instituted, shall be subrogated to and entitled to retain from any judgment recovered against or settlement made with such third party, the following: All amounts paid as compensation and medical benefits under the provisions of this law and the present value of all future compensation benefits payable, to be reduced to its present value, and to be retained as a trust fund from which future payments of compensation are to be made, together with all court costs, including attorney's fees expended in the prosecution of such suit, to be prorated as provided by subsection (3) of this section. The remainder of the moneys derived from such judgment or settlement to be paid to the employee or his dependents, as the case may be.

(b) If the carrier or employer does not bring suit within two years following the accrual of the cause of action against a third party tort-feasor, the right of action shall revert to the employee (or in the case of his death, those entitled by law to sue), and in such event the provisions of subsection (3) shall apply.

(5) In all cases under subsection (4) of this section involving third party tort-feasors, where compensation benefits under this law are paid, or are to be paid, settlement either before or after suit is instituted shall not be made except upon agreement of the injured employee or his dependents and the employer or his insurance carrier, as the case may be.

(6) Any amounts recovered under this section by the employer or his insurance carrier shall be credited against the loss-experience of said employer.

his place or places of business typewritten or printed notices, in accordance with a form prescribed by the division, stating that such employer has secured the payment of compensation in accordance with the provisions of this chapter. 440.41 Substitution of carrier for employer.

—In any case where the employer is not a self-insurer, in order that the liability for compensation imposed by this chapter may be most effectively discharged by the employer, and in order that the administration of this chapter in respect of such liability may be facilitated, the division shall by regulation provide for the discharge, by the carrier for such employer, of such obligations and duties of the employer in respect of such liability, imposed by this chapter upon the employer, as it considers proper in order to effectuate the provisions of this chapter. For such purposes

(1) Notice to or knowledge of an employer of the occurrence of the injury shall be notice to or knowledge of the carrier;

(2) Jurisdiction of the employer by the division, the commission, or any court under this chapter shall be jurisdiction of the carrier; and

(3) Any requirement by the division, the commission, or any court under any compensation order, finding, or decision shall be binding upon the carrier in the same manner and to the same extent as upon the employer.

(1) Every policy or contract of insurance issued under authority of this chapter shall contain:

(a) A provision to carry out the provisions of §440.41; and

(b) A provision that insolvency or bankruptcy of the employer and discharge therein shall not relieve the carrier from payment of compensation for disability or death sustained by an employee during the life of such policy or contract.

(2) No contract or policy of insurance issued by a carrier under this chapter shall be cancelled prior to the date specified in such contract or policy for its expiration until at least thirty days have elapsed after a notice of cancellation has been sent to the division and to the employer in accordance with the provisions of §440.18(3); provided, however, that when duplicate or dual coverage exists by reason of two different carriers having issued policies of insurance to the same employer securing the same liability one of the policies may be cancelled instantaneously upon filing a notice of cancellation with the division and serving a copy thereof upon the employer, in

such manner as the division by regulation may prescribe.

(3) When there is any controversy as to which of two or more carriers is liable for the discharge of the obligations and duties of one or more employers with respect to a claim for compensation, remedial treatment or other benefits under this chapter, the division shall have jurisdiction to adjudicate such controversy; and if one of the carriers voluntarily or in compliance with a compensation order makes payments in discharge of such liability and it is finally determined that another carrier is liable for all or any part of such obligations and duties with respect to such claim, the carrier which has made payments either voluntarily or in compliance with a compensation order shall be entitled to reimbursement from the carrier finally determined liable, and the division shall have jurisdiction to order such reimbursement; provided, however, that if the carrier finally determined liable can demonstrate that it has been prejudiced by lack of knowledge or notice of its potential liability, such reimbursement shall be only with respect to payments made after it had knowledge or notice of its potential liability.

This section shall not affect any other liability of the employer under this chapter.

440.49 Rehabilitation of injured employees; special disability trust fund.—

(1) In cases in which it appears that disability probably will be permanent the division shall assist injured employees to obtain appropriate training, education and employment and may cooperate with federal and state agencies for vocational education and with any public or private agency cooperating with such federal or state agencies in the vocational rehabilitation of injured employees. The division may, and it is authorized to, expend moneys from the special fund established by §440.50, for the purpose of assisting such injured employees to obtain appropriate training, education and employment in connection with their vocational rehabilitation.

(2) Whenever the division determines that there is a reasonable probability that with appropriate training or education a person entitled to compensation for total or partial disability which is or is likely to be permanent may be rehabilitated to the extent that he will require less care and attendance or to the extent that he can become gainfully employed or increase his earning capacity and that it is for the best interests of such person to undertake such training or education, if the injured employee without reasonable cause refuses to undertake the training or educational program determined by the division to be suitable for him, the division may in its discretion suspend, reduce or limit the compensation otherwise payable to such person under this chapter, any provisions of this chapter to the contrary notwithstanding.

(3) In cases involving total disability adjudged to be permanent, within two years after a disability has been so adjudged, the division shall determine whether there is a reasonable probability that with appropriate training or education the injured employee may be rehabilitated to the extent that he can become gainfully employed and whether it is for the best interests of such person to undertake such training or education; and whenever the division determines that there is a reasonable probability that the injured employee may be so rehabilitated and that it is for his best interests, if the injured employee without reasonable cause refuses to undertake the training or educational program determined by the division to be suitable for him, the division shall suspend or reduce by not less than fifty per cent the compensation otherwise payable to such employee under this chapter, any provisions of this chapter to the contrary notwithstanding.

(4) LIMITATION OF LIABILITY FOR SUBSEQUENT INJURY THROUGH SPECIAL DISABILITY TRUST FUND.—

(a) *Legislative intent.*—It is the purpose of this subsection to encourage the employment of the physically handicapped by protecting employers from excess liability for compensation and medical expense when an injury to

a handicapped worker merges with his pre-existing permanent physical impairment to cause a greater disability than would have resulted from the injury alone. It shall not be construed to create or provide any benefits for injured employees or their dependents not otherwise provided by this chapter. The entitlement of an injured employee or his dependents to compensation under this chapter shall be determined without regard to this subsection, the provisions of which shall be considered only in determining whether an employer or carrier who has paid compensation under this chapter is entitled to reimbursement from the special disability trust fund.

(b) *Definition.*—As used in this subsection, permanent physical impairment means any permanent condition due to previous accident or disease or any congenital condition which is or is likely to be a hindrance or obstacle to employment and which was known to the employer prior to the occurrence of the subsequent injury or occupational disease.

(c) *Permanent disability after other permanent physical impairment.*—If an employee who has a total or partial loss or loss of use of one hand, one arm, one foot, one leg or one eye, or who has other permanent physical impairment incurs a subsequent permanent disability from injury or occupational disease arising out of and in the course of his employment which merges with the pre-existing permanent physical impairment to cause a permanent disability that is materially and substantially greater than that which would have resulted from the subsequent injury or occupational disease alone, the employer shall in the first instance pay all benefits provided by this chapter, but subject to the limitations specified in paragraph (f) such employer shall be reimbursed from the special disability trust fund created by this paragraph for all compensation for permanent disability paid in excess of that allowed for such injury or occupational disease when considered by itself and not in conjunction with the previous permanent physical impairment.

(d) *When death results.*—If death results from the subsequent disability contemplated in paragraph (c) within one year after the subsequent injury or within five years after the subsequent injury when disability has been continuous since the subsequent injury, and it shall be determined that the death would not have occurred except for such pre-existing permanent physical impairment, the employer shall in the first instance pay the funeral expenses and the death benefits prescribed by this chapter, but subject to the limitations specified in paragraph (f) he shall be reimbursed from the special disability trust fund created by this subsection for all compensation for death payable in excess of the compensation which otherwise would have been payable for acceleration of death reasonably attributable to the subsequent injury or occupational disease when considered by itself and not in conjunc-

tion with the previous permanent physical impairment.

(e) Subject to the limitations specified in paragraph (f) an employer entitled to reimbursement from the special disability trust fund for compensation paid for permanent disability or death shall be reimbursed from said fund for a pro rata share of the amounts paid as compensation for temporary disability and paid pursuant to §440.13 for the same injury, such pro rata share to be in the same proportion as the ratio of the reimbursement of compensation for permanent disability or death is to the total compensation payable for such permanent disability or death.

(f) No reimbursement shall be allowed under this subsection unless the total amount otherwise reimbursable to the employer with respect to any case is one thousand five hundred dollars or more.

(g) *Reimbursement of employer.*—The right to reimbursement as provided in this subsection shall be barred unless notice of claim of the right to such reimbursement is filed by the employer or carrier entitled to such reimbursement with the division at Tallahassee within sixty days after the date copies of the order awarding the compensation with respect to which such reimbursement is claimed are mailed to the employer and carrier at the last known address of each, or, if payment of such compensation is made by the employer or carrier without an award, within sixty days after the date the first payment of compensation for the permanent disability was made. The notice of claim shall contain such information as the division by rule or regulation may require; and the employer or carrier claiming reimbursement shall furnish such evidence in support of the claim as the division reasonably may require. If the special disability trust fund through its representative denies or controverts the claim, the right to such reimbursement shall be barred unless an application for a hearing thereon is filed with the division at Tallahassee within sixty days after notice to the claimant of such denial or controversion. When such application for a hearing is timely filed, the claim shall be heard and determined in accordance with the procedure prescribed in §440.25, to the extent that same is applicable, and the rules of procedure prescribed by the division. In such proceeding on a claim for reimbursement no findings of fact made with respect to the claim of the injured employee or his dependents for compensation shall be res judicata, and the special disability trust fund shall be made the party respondent. When it has been determined that an employer or carrier is entitled to reimbursement in any amount the employer or carrier shall be reimbursed periodically every six months from the special disability trust fund for the compensation and medical benefits paid by him for which he is entitled to reimbursement, upon filing request therefor and submitting evidence of such pay-

ment in accordance with rules prescribed by the division.

(h) 1. *Special disability trust fund.*—There is established in the state treasury a special fund to be known as the special disability trust fund, which shall be available only for the purposes stated in this subsection, and the assets thereof shall not at any time be appropriated or diverted to any other use or purpose. The state treasurer shall be the custodian of such fund and all moneys and securities in such fund shall be held in trust by such treasurer and shall not be the money or property of the state. The state treasurer is authorized to disburse moneys from such fund only when approved by the division and upon the order of the comptroller, countersigned by the governor. The state treasurer shall deposit any moneys paid into such fund into such depository banks as the division may designate and is authorized to invest any portion of the fund which, in the opinion of the division, is not needed for current requirements, in the same manner and subject to all the provisions of the law with respect to the deposits of state funds by such treasurer. All interest earned by such portion of the fund as may be invested by the state treasurer shall be collected by him and placed to the credit of such fund.

2. *Payments to special disability trust fund.*—The special disability trust fund shall be maintained by annual assessments upon the insurance companies writing compensation insurance in the state and the self-insurers under this chapter, commencing with the fiscal year beginning July 1, 1963, which assessments shall become due and be paid on a quarterly basis at the same time and in addition to the assessments provided in §440.51. The division shall estimate annually in advance the amount necessary for the administration of this subsection and the maintenance of this fund and shall make such assessment in the manner hereinafter provided. The annual assessment shall be calculated to produce during the ensuing fiscal year an amount which—when combined with that part of the balance in the fund on June 30 of the current fiscal year which is in excess of one hundred thousand dollars—is equal to the sum of disbursements from the fund during the immediate past three calendar years. Such amount shall be prorated among the insurance companies writing compensation insurance in the state and self-insurers. The gross premiums collected by the companies on workmen's compensation premiums in this state and the amount of premiums a self-insurer would have to pay in this state if insured are the basis for computing the amount to be assessed as a percentage of gross premiums. Such payments shall be made by each insurance company and self-insurer to the division for the special disability trust fund, in accordance with such regulations as the division may prescribe.

The state treasurer is hereby authorized to receive and credit to such special disability trust fund any sum or sums that may at any time be contributed to the state by the United States under any act of congress, or otherwise, to which the state may be or become entitled by reason of any payments made out of such fund.

(i) The division shall administer the special disability trust fund with authority to allow, deny, compromise, controvert and litigate claims made against it and to designate an attorney to represent it in proceedings involving claims against the fund, including negotiation and consummation of settlements, hearings before judges of industrial claims and the full commission, and judicial review. Upon the application of the division or any party in interest, the commission may, in accordance with the procedure prescribed in §440.25, review orders of judges of industrial claims by which the fund may be adversely affected. The division or the attorney designated by it shall be given notice of all hearings and proceedings involving the rights or obligations of such fund; and shall have authority to make expenditures for such medical examinations, expert witness fees, depositions, transcripts of testimony, and the like, as may be necessary to the proper defense of any claim. The division shall appoint an advisory committee composed of representatives of management, compensation insurance carriers, and self-insurers to aid it in formulating policies with respect to conservation of the fund, who shall serve without compensation for such terms as specified by it, but be reimbursed for traveling expenses as provided in §112.061. All expenditures made in connection with conservation of the fund, including the salary of the attorney designated to represent it and necessary travel expenses, shall be allowed and paid from the special disability trust fund as provided in this subsection upon the presentation of itemized vouchers therefor approved by the division.

(j) *Effective dates.*—The provisions of this subsection shall not be applicable to any case in which the accident causing the subsequent injury or death or the disablement or death from a subsequent occupational disease shall have occurred prior to July 1, 1955; and the provisions of paragraphs (e) and (f) of this subsection shall not be applicable to any case in which the accident causing the subsequent injury or death or the disablement or death from a subsequent occupational disease shall have occurred prior to July 1, 1963.

440.50 Workmen's compensation administration trust fund.—

(1) (a) There is established in the state treasury a special fund to be known as the

workmen's compensation administration trust fund for the purpose of providing for the payment of all expenses in respect to the administration of this chapter, including the vocational rehabilitation of injured employees as provided in §440.49. Such fund shall be administered by the division. The state treasurer shall be the custodian of such funds and all moneys and securities in such fund shall be held in trust by such treasurer and shall not be the money or property of the state.

(b) The division is authorized to transfer as a loan an amount not in excess of two hundred and fifty thousand dollars from such special fund to the special disability trust fund established by §440.49(4), which amount shall be repaid to said special fund in annual payments equal to not less than ten per cent of moneys received for such special disability trust fund.

(2) The state treasurer is authorized to disburse moneys from such fund only when approved by the division and upon the order of the comptroller, countersigned by the governor. He shall be required to give bond in an amount to be approved by the division conditioned upon the faithful performance of his duty as custodian of such fund.

(3) The state treasurer shall deposit any moneys paid into such fund into such depository banks as the division may designate and is authorized to invest any portion of the fund which, in the opinion of the division, is not needed for current requirements, in the same manner and subject to all the provisions of the law with respect to the deposit of state funds by such treasurer. All interest earned by such portion of the fund as may be invested by the state treasurer shall be collected by him and placed to the credit of such fund.

(4) All civil penalties provided in this chapter, if not voluntarily paid, may be collected by civil suit brought by the division and shall be paid into such fund.

440.51 Expenses of administration.—

(1) The division shall estimate annually in advance the amounts necessary for the administration of this chapter, in the following manner.

(a) The division shall as soon as practicable after the first day of July in each year, determine the expense of administration of this chapter for the preceding fiscal year. The expense of administration for such preceding fiscal year shall be used as the basis for determining the amount to be assessed against each carrier in order to provide for the expenses of the administration of this chapter for the current fiscal year.

(b) The total expenses of administration shall be prorated among the insurance companies writing compensation insurance in the

state, and self-insurers. The gross premiums collected by the companies and the amount of premiums a self-insurer would have to pay if insured are the basis for computing the amount to be assessed. This amount may be assessed as a specific amount or as a percentage of gross premiums payable as the division may direct, provided, however, such amount so assessed shall not exceed four per cent of such gross premiums.

(2) The division shall provide by regulation for the collection of the amounts assessed against each carrier. Such amounts shall be paid within thirty days from the date that notice is served upon such carrier. If such amounts are not paid within such period, there may be assessed for each thirty days the amount so assessed remains unpaid, a civil penalty equal to ten per cent of the amount so unpaid, which shall be collected at the same time and a part of the amount assessed.

(3) If any carrier fails to pay the amounts assessed against him under the provisions of this section within sixty days from the time such notice is served upon him, the department of insurance upon being advised by the division may suspend or revoke the authorization to insure compensation in accordance with the procedure in §440.38(2).

(4) All amounts collected under the provisions of this section shall be paid into the fund established in §440.50.

(5) Any amount so assessed against and paid by an insurance carrier shall be allowed as a deduction against the amount of any other tax levied by the state upon the premiums, assessments or deposits for workmen's compensation insurance on contracts or policies of said insurance carrier.

(6)(a) The division may require from each carrier, at such time and in accordance with such regulations as the division may prescribe, reports in respect to all gross earned premiums and of all payments of compensation made by such carrier during each prior period, and may determine the amounts paid by each carrier and the amounts paid by all carriers during such period.

(b) The division may require from each self-insurer, at such time and in accordance with such regulations as the division may prescribe, reports in respect to wages paid, the amount of premiums such self-insurer would have to pay if insured, and all payments of compensation made by such self-insurer during each prior period, and may determine the amounts paid by each self-insurer and the amounts paid by all self-insurers during such period. For the purposes of this section the payroll records of each self-insurer shall be open to annual inspection and audit by the division or its authorized representative, during regular business hours; and if any audit of such records of a self-insurer discloses a deficiency in the amounts reported to the division or in the amounts paid to the division

by such self-insurer pursuant to this section, the division may assess the cost of such audit against such self-insurer.

(7) The division shall keep accumulated cost records of all injuries occurring within the state coming within the purview of this chapter on a policy and calendar year basis. For the purpose of this chapter, a "calendar year" is defined as the year in which the injury is reported to the division; "policy year" is defined as that calendar year in which the policy becomes effective and the losses under such policy shall be chargeable against the policy year so defined.

(8) The division shall assign an account number to each employer under this chapter and an account number to all insurance carriers authorized to write workmen's compensation insurance in the state, and it shall be the duty of the division under the account number so assigned to keep the cost experience of each carrier and the cost experience of each employer under the account number so assigned by calendar and policy year as above defined.

(9) In addition to the above, it shall be the duty of the division to keep the accident experience, as classified by the division, by industry as follows:

- (a) Cause of the injury;
- (b) Nature of the injury, and
- (c) Type of disability.

(10) In every case where the duration of disability exceeds thirty days, the carrier shall establish a sufficient reserve to pay all benefits to which the injured employee, or in case of death, his dependents, may be entitled to under the law. In establishing the reserve, consideration shall be given to the nature of the injury, the probable period of disability, and the estimated cost of medical benefits.

(11) The division shall furnish to any employer or carrier, upon request, its individual experience. The division shall furnish to the department of insurance, upon request, the Florida experience as developed under policy year and/or calendar year.

(12) In addition to any other penalties provided by this law, the failure to submit any report or other information required by this law shall be just cause to suspend the right of a self-insurer to operate as such; or, upon certification by the division to the department of insurance that a carrier has failed or refused to furnish such reports shall be just cause for the department of insurance to suspend or revoke the license of such carrier.

History.—§51, ch. 17481, 1935; CGL 1936 Supp. 5966(49); §17, ch. 18413, 1937; §1, ch. 24081, 1947; §14, ch. 28241, 1953; §§14, 15, ch. 29778, 1955; §§13, 17, 35, ch. 69-106.

440.52 Registration of insurance companies.—Each insurance company who desires to write such compensation insurance in compliance with this chapter shall be required, before writing such insurance, to register with the division and pay a registration fee of one

hundred dollars. This shall be deposited by the division in the fund created by §440.50.

History.—§52, ch. 17481, 1935; CGL 1936 Supp. 5966(50); §17, 35, ch. 69-106.

440.53 Effect of unconstitutionality.—If any part of this chapter is adjudged unconstitutional by the courts, and such adjudication has the effect of invalidating any payment of compensation under this chapter, the period intervening between the time the injury was sustained and the time of such adjudication shall not be computed as a part of the time prescribed by law for the commencement of any action against the employer in respect of such injury; but the amount of any compensation paid under this chapter on account of such injury shall be deducted from the amount of damages awarded in such action in respect of such injury.

History.—§53, ch. 17481, 1935; CGL 1936 Supp. 5966(51).

440.54 Violation of child labor law.—If the division determines that the injured employee at the time of the accident is a minor employed, permitted or suffered to work in violation of any of the provisions of the child labor laws of Florida, the employer shall, in addition to the normal compensation and death benefits provided by this chapter, pay such additional compensation as the division may determine according to the circumstances of the case or the seriousness of the violation, provided that the total compensation so payable shall not exceed double the amount otherwise payable under this chapter. The employer alone and not the insurance carrier shall be liable for the increased compensation or increased death benefits provided for by this section. Any provision in an insurance policy undertaking to protect an employer from such increased liability shall be void.

440.55 Proceedings against state.—Any person entitled to compensation benefits by reason of the injury or death of an employee of the state, its boards, bureaus, departments, agencies or subdivisions employing labor, may maintain proceedings and actions at law against the state, its boards, bureaus, departments, agencies, and subdivisions, for such benefit, said proceedings and action at law to be in the same manner as provided herein with respect to other employers.

History.—§19, ch. 18413, 1937; CGL 1940 Supp. 5966(55).

440.56 Safety rules and provisions; penalty.—

(1) Every employer, as defined in the workmen's compensation law, including employers who have elected not to accept the workmen's compensation law, shall furnish employment which shall be safe for the employees therein and shall furnish and use safety devices and safeguards, and shall adopt and use methods and processes reasonably adequate to render such an employment and place of employment

safe, and shall do every other thing reasonably necessary to protect the life, health and safety of such employees; provided that as used in this section the terms "safe" and "safety" as applied to any employment or place of employment shall mean such freedom from danger as is reasonably necessary for the protection of the life, health and safety of employees or the public, including conditions and methods of sanitation and hygiene; and provided further that safety devices and safeguards required to be furnished by the employer by the provisions of this section or by the commission under authority of this section shall not include personal apparel and protective devices that replace personal apparel normally worn by employees during regular working hours.

(2) The commission shall have the power, jurisdiction and authority:

(a) To investigate and prescribe what safety devices, safeguards or other means of protection shall be adopted for the prevention of accidents in every employment or place of employment, and to determine what suitable devices, safeguards, or other means of protection for the prevention of industrial or occupational diseases shall be adopted or followed in any or all such employments, or places of employment, and to make, amend or repeal reasonable rules for the prevention of accidents and the prevention of industrial or occupational diseases.

(b) To ascertain, fix, and order such reasonable standards and rules for the construction, repair and maintenance of places of employment as shall render them safe.

(3) Before any such rule or requirement is adopted, amended or repealed, a public hearing shall be held and not less than ten days before the hearing a notice thereof shall be published in such newspapers as the commission may prescribe. Such rule, amendment or repeal shall be promptly published in such manner as the commission may prescribe and shall take effect thirty days after such publication.

(4) If there shall be practical difficulties or unnecessary hardships in carrying out a rule or requirement of the commission, the division may, after public hearing, make a variation from the rule or requirement if the spirit of the rule and law shall be observed. Any person affected by such rule, or his agent, may petition the division for such variation stating the grounds therefor. The division shall fix a day for a hearing on such petition and give reasonable notice thereof to the petitioner. A properly indexed record of all variations made shall be kept in the office of the division and open to public inspection.

(5) The division and its authorized representatives shall have the power and authority to enter at any reasonable time any place of employment for the purpose of examining any tool, appliance or machinery used in such employment and of making inspections for the proper enforcement of this section. No employer or owner shall refuse to admit any mem-

ber of the division or its authorized representatives to any place of employment.

(6) The provisions of §440.33 shall be applicable to all proceedings arising under this section, and it shall be the duty of the court having jurisdiction in the place in which the hearing is held, upon application of the commission or the division or its authorized representatives, to compel obedience to such provisions in proceedings arising under this section in the same manner as provided in §440.33 for proceedings in respect of compensation claims.

(7) Any person aggrieved by a rule made pursuant to the provisions of this section may commence an action in any court of competent jurisdiction against the division as defendant to set aside such rule on the ground that such rule is unlawful and unreasonable. Such action and pleadings therein shall be governed by the laws and rules of practice applicable to other civil actions in such court. All rules and variations of the commission and division respectively, shall be prima facie lawful and reasonable, and shall not be held invalid because of any technical defect, provided there is substantial compliance with the provisions of this section.

(8)(a)1. If any employer violates or fails or refuses to comply with any reasonable rule or variation adopted by the commission or division, respectively, pursuant to this section for the prevention of accidents or industrial or occupational diseases or any lawful order of the commission in connection with the provisions of this section or fails or refuses to furnish or adopt any safety device, safeguard or other means of protection prescribed by the commission pursuant to this section for the prevention of accidents or industrial or occupational diseases, after he has been given reasonable notice in writing by the division or its authorized representative, not less than fifteen days prior thereto, of the specific violation, omission, failure or refusal charged by the division, or its authorized representative, the division after notice and hearing as herein provided, may assess against such employer a civil penalty of not less than \$20.00 nor more than \$100.00. Each day such violation, omission, failure or refusal continues after the employer has given notice thereof in writing as herein provided shall be deemed a continuing violation and the penalty may not exceed \$1,000.00. The division shall give the employer at least ten days notice of such hearing by personal service or registered mail, and the hearing shall be held in the county where the violation, omission, failure or refusal is alleged to have occurred, unless otherwise agreed to by the employer and authorized by the division. The hearing shall be conducted by a judge of industrial claims, and at such hearing the division and the employer may each present evidence in respect of such charge or charges and may be represented by counsel. No record of the hearing shall be required but either the division or

the employer may have the proceeding reported and transcribed at its or his own expense. The judge of industrial claims within twenty days after such hearing shall enter an order assessing the penalty or penalties or dismissing the charges. The order shall set forth a statement of his findings of fact and the reasons for his decision and shall be filed in the office of the division at Tallahassee. A copy of the order shall be sent by registered mail to the employer at his last known address.

2. The order shall become final after the date copy of same is mailed to the employer unless within the time provided by the Florida appellate rules the employer shall take and file an appeal to the circuit court of the judicial circuit in which the hearing before the judge of industrial claims was held. The appeal shall operate as a supersedeas. The proceeding on such appeal shall be governed by chapter 59, unless the employer requests a hearing de novo before the circuit court. The circuit court, when so requested by the employer, shall proceed to hear, try and determine the charges de novo as though the proceeding had been originally commenced in that court, and render final judgment therein.

3. Any provision of this subsection to the contrary notwithstanding, the commission shall after public notice and hearing, establish rules and procedures defining the type or types of violations constituting an emergency requiring expeditious compliance, the type and method of notice to the employer to expedite compliance, the time and method of emergency hearing and appearances, the penalty for noncompliance and method of effecting compliance with the decision; and the decision of the commission shall be subject to review by certiorari to the circuit court.

(b) Upon petition of the division the circuit courts shall under and pursuant to the general laws of Florida applicable to such relief and upon reasonable notice have power to issue restraining orders, injunctions, writs of mandamus, and all writs necessary or proper to the enforcement of this section and to the enforcement of any reasonable rule, standard, variation or order adopted, prescribed, or made by the commission pursuant to this section.

(9) In estimating the amounts necessary for the administration of this chapter, in accordance with §440.51, the division shall also include estimates of the amounts necessary for the administration of this section which shall be made in the manner set forth in §440.51; and such amounts as may be needed to administer this section shall be disbursed from the fund established pursuant to §440.50 in the manner therein provided. If this subsection or the application of such funds to the administration of this section be declared invalid for any reason, the validity of §§440.50 and 440.51 as applied to the provisions of this chapter other than this section shall not be affected thereby.

(10) The division shall appoint and fix the salary of a full time administrator of indus-

trial safety, who shall be appointed in accordance with the provisions of §440.44(4)(a); provided, however, that no person shall be appointed to such position unless he either has a degree from a recognized college of engineering and the equivalent of eight full years experience in safety engineering or has had the equivalent of ten full years experience in safety engineering. It shall be the duty of the administrator of industrial safety, under the direction and supervision of the division, to enforce the safety provisions of this chapter and all rules and regulations adopted by the commission pursuant to this section.

(11) The division shall cooperate with the federal government so that duplicate inspections will be avoided yet assure safe places of employment for the citizens of this state.

440.57 Pooling liabilities.—The division may, under such rules and regulations as it may prescribe, permit two or more employers to enter into agreements to pool their liabilities under this chapter for the purpose of qualifying as self-insurers and each employer member

of such approved group shall be classified as a self-insurer as defined in this chapter.

Coleman of Florida, Inc., as servicing agent, or any other self-insurers groups similarly situated, the division shall enter its order requiring the employer members and former members of said groups liable therefor to pay all delinquent premiums and all necessary assessments, such payments to be paid to the division and by it disbursed to said trustees to be used for the payment of workmen's compensation claims and related compensation expenses.

CHAPTER 441

EMPLOYEES TRUST BENEFIT LAW

441.01 Trust for employees.

441.01 Trust for employees.—A trust created by an employer as part of a stock bonus plan, pension plan, disability or death benefit plan, or profit sharing plan, for the exclusive benefit of some or all of his employees, to which contributions are made by such employer or employees, or both for the purpose of distributing to such employees the earnings or the principal, or both earnings and principal, of the fund so held in trust, shall not be deemed to be invalid as violating any existing law against perpetuities or suspension of the power of alienation of title to property; but such a trust may continue for such time as may be necessary to accomplish the purposes for which it may be created.

History.—§1, ch. 29948, 1955.

443.01 Short title.—This chapter shall be known and may be cited as the "Unemployment Compensation law."

History.—§2, ch. 18462, 1937; CGL 1940 Supp. 4151(488).

443.02 Declaration of public policy.—As a guide to the interpretation and application of this chapter, the public policy of this state is declared to be as follows: Economic insecurity due to unemployment is a serious menace to the health, morals, and welfare of the people of this state. Unemployment is therefore a subject of general interest and concern which requires appropriate action by the legislature to prevent its spread and to lighten its burden which now so often falls with crushing force upon the unemployed worker and his family. The achievement of social security requires protection against this greatest hazard of our economic life. This objective can be furthered by operating free public employment offices in affiliation with a nationwide system of employment services, by devising appropriate methods for reducing the volume of unemployment and by the systematic accumulation of funds during the periods of employment from which benefits may be paid for periods of unemployment thus maintaining purchasing power and limiting the serious social consequences of unemployment. The legislature, therefore, declares that in its considered judgment the public good, and the general welfare of the citizens of this state require the enactment of this measure, under the police power of the state, for the establishment and maintenance of free public employment offices and for the compulsory setting aside of unemployment reserves to be used for the benefit of persons unemployed through no fault of their own, subject, however, to the specific provisions of this chapter.

History.—§1, ch. 18402, 1937; CGL 1940 Supp. 4151(489); §1, ch. 20685, 1941.

443.03 Definitions.—As used in this chapter, unless the context clearly requires otherwise:

(1) "Base period" means the first four of the last five completed calendar quarters imme-

diately preceding the first day of an individual's benefit year.

(2) "Benefits" means the money payable to an individual, as provided in this chapter, with respect to his unemployment.

(3) "Benefit year," with respect to any individual, means the one-year period beginning with the first day of the first week with respect to which the individual first files a valid claim for benefits, and thereafter, the one-year period beginning with the first day of the first week with respect to which the individual next files a valid claim for benefits, after the termination of his last preceding benefit year. Any claim for benefits made in accordance with §443.07(2) shall be deemed to be a "valid claim" for the purposes of this subsection if the individual has been paid wages for insured work in accordance with the provision of §443.05(5) and is unemployed as defined in §443.03 (12)(a) at the time of the filing of such claim. Provided, however, that the commission may in its discretion provide by regulation for the establishment of a uniform benefit year for all workers in one or more groups or classes of service or within a particular industry when and if it has been determined by the commission, after notice to the industry and to the workers in such industry and an opportunity to be heard in the matter, that such groups or classes of workers in a particular industry periodically experience unemployment resulting from layoffs or shutdowns for limited periods of time.

(4) "Calendar quarter" means the period of three consecutive calendar months ending on March 31, June 30, September 30, and December 31, excluding, however, any calendar quarter or portion thereof which occurs prior to January 1, 1938, or the equivalent thereof as the commission may by regulation prescribe.

(5) "Employment" means:

(a) "Employment," subject to the other provisions of this chapter, means any service performed by an employee for the person employing him.

(b) The term "employment" shall include

an individual's entire service, performed within or both within and without this state if:

1. The service is localized in this state; or
2. The service is not localized in any state but some of the service is performed in this state and

- a. The base of operations, or, if there is no base of operations, then the place from which such service is directed or controlled, is in this state, or

- b. The base of operations or place from which such service is directed or controlled is not in any state in which some part of the service is performed but the individual's residence is in this state.

(c) Services not covered under §443.03(5) (b)2. and performed entirely without this state, with respect to no part of which contributions are required and paid under an unemployment compensation law of any other state or of the federal government, shall be deemed to be employment subject to this chapter if the individual performing such services is a resident of this state and the division approves the election of the employing unit for whom such services are performed that the entire service of such individual shall be deemed to be employment subject to this chapter.

(d) Service shall be deemed to be localized within a state if:

1. The service is performed entirely within such state; or

2. The service is performed both within and without such state, but the service performed without such state is incidental to the individual's service within the state; for example, it is temporary or transitory in nature or consists of isolated transactions.

(e) The term "employment" shall include services covered by an arrangement pursuant to §443.18 between the division and the agency charged with the administration of any other state or federal unemployment compensation law, pursuant to which all services performed by an individual for an employing unit are deemed to be performed entirely within this state, if the division has approved an election of the employing unit for which such services are performed, pursuant to which the entire service of such individual during the period covered by such election is deemed to be insured work.

(f)1. The term "employment" shall also include all service performed by an officer or member of the crew of an American vessel or American aircraft on or in connection with such vessel or aircraft, provided that the operating office, from which the operations of such vessel or aircraft operating within or within and without the United States is ordinarily and regularly supervised, managed, directed and controlled, is within this state.

2. The term "American vessel" means any vessel documented or numbered under the laws of the United States; and includes any vessel

which is neither documented or numbered under the laws of the United States nor documented under the laws of any foreign country, if its crew is employed solely by one or more citizens or residents of the United States or corporations organized under the laws of the United States or of any state.

3. The term "American aircraft" means an aircraft registered under the laws of the United States.

(g) The term "employment" shall not include:

1. Agricultural labor; the term "agricultural labor" includes all services performed:

- a. On a farm, in the employ of any person in connection with cultivating the soil, or in connection with raising or harvesting any agricultural or horticultural commodity, including the raising, shearing, feeding, caring for, training, and management of livestock, bees, poultry, and fur-bearing animals and wildlife.

- b. In the employ of the owner or tenant or other operator of a farm, in connection with the operation, management, conservation, improvement, or maintenance of such farm and its tools and equipment, or in salvaging timber or clearing land or brush and other debris left by a hurricane, if the major part of such service is performed on a farm.

- c. In connection with the production or harvesting of maple syrup or maple sugar or any commodity defined as an agricultural commodity in §15 (g) of the agricultural marketing act, as amended, or in connection with the raising or harvesting of mushrooms, or in connection with the hatching of poultry, or in connection with the ginning of cotton, or in connection with the operation or maintenance of ditches, canals, reservoirs, or waterways used exclusively for supplying and storing water for farming purposes.

- d. In handling, planting, drying, packing, packaging, processing, freezing, grading, storing, or delivering to storage or to market or to a carrier for transportation to market, any agricultural or horticultural commodity; but only if such service is performed as an incident to ordinary farming operations or, in the case of fruits and vegetables, as an incident to the preparation of such fruits and vegetables for market. The provisions of this paragraph shall not be deemed to be applicable with respect to service performed in connection with commercial canning or commercial freezing or in connection with any agricultural or horticultural commodity after its delivery to a terminal market for distribution for consumption or in connection with grading, packing, packaging, or processing fresh citrus fruits.

- e. As used in this subsection, the term "farm" includes stock, dairy, poultry, fruit, fur-bearing animals, and truck farms, plantations, ranches, nurseries, ranges, greenhouses or other similar structures used primarily for the raising of agricultural or horticultural commodities, and orchards;

2. Domestic service in a private home, local college club, or local chapter of a college fraternity or sorority;

3. Casual labor not in the course of the employer's trade or business. For the purposes of this subsection "casual labor" shall mean labor which is occasional, incidental, or irregular, not exceeding two hundred man hours in total duration. Duration shall mean the period of time from the commencement to the completion of the particular job or project; provided, however, services performed by an employee for his employer during a period of one calendar month or any two consecutive calendar months shall be deemed to be casual labor only if such service is performed on not more than ten calendar days, whether or not such days are consecutive. If any of the services of an individual on a particular labor project are not casual labor as defined then none of the services of such individual on such job or project shall be deemed casual labor. "Not in the course of the employer's trade or business" shall mean that which does not promote or advance the trade or business of the employer. In order for services to be exempt under this subsection such services shall constitute casual labor, as defined, and not in the course of the employer's trade or business, as defined;

4. Service performed on or in connection with a vessel or aircraft not an American vessel or American aircraft, if the employee is employed on and in connection with such vessel or aircraft when outside the United States;

5. Service performed by an individual in (or as an officer or member of the crew of a vessel while it is engaged in) the catching, taking, harvesting, cultivating, or farming of any kind of fish, shellfish, crustacea, sponges, seaweeds, or other aquatic forms of animal and vegetable life (including service performed by any such individual as an ordinary incident to any such activity), except:

8. Service performed in the employ of a state, or any political subdivision thereof, or any instrumentality of any one or more of the foregoing which is wholly owned by one or more states or political subdivisions; and any service performed in the employ of any instrumentality of one or more state or political subdivisions to the extent that the instrumentality is, with respect to such service, immune under the constitution of the United States from the tax imposed by §3301 of the internal revenue code;

9. Service performed in the employ of a corporation, community chest, fund, or foundation, organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals, no part of the net earnings of which inures to the benefit of any private shareholder or individual, and no substantial part of the activities of which is carrying on propaganda, or otherwise attempting to influence legislation; provided that service performed in the employ of an organization operated for the primary purpose of carrying on a trade or business for profit shall not be exempt on the ground that all of its profits are payable to one or more organizations exempt under this subparagraph; and provided further that service exempt under this subparagraph shall not include service with respect to which a tax is required to be paid under any federal law imposing a tax against which credit may be taken for contributions required to be paid into a state unemployment fund.

10. Service with respect to which unemployment compensation is payable under an unemployment compensation system established by an act of congress;

11. a. Service performed in any calendar quarter in the employ of any organization exempt from income tax under §501(a) of the internal revenue code, (other than an organization described in §401(a)) or under §521, if

b. Service performed in the employ of a school, college, or university if such service is performed by a student who is enrolled and is regularly attending classes at such school, college, or university.

12. Services performed in the employ of a foreign government (including service as a consular or other officer or employee or a non-diplomatic representative);

13. Service performed in the employ of an instrumentality wholly owned by a foreign government:

a. If the service is of a character similar to that performed in foreign countries by employees of the United States government or of an instrumentality thereof; and

b. The secretary of state shall certify to the secretary of the treasury that the foreign government, with respect to whose instrumentality exemption is claimed, grants an equivalent exemption with respect to similar service performed in the foreign country by employees of the United States government and of instrumentalities thereof;

14. Service performed as a student nurse in the employ of a hospital or a nurses' training school by an individual who is enrolled and is regularly attending classes in a nurses' training school chartered or approved pursuant to a state law; and service performed as an interne in the employ of a hospital by an individual who has completed a four years' course in a medical school chartered or approved pursuant to state law;

17. Service performed by an individual under the age of eighteen in the delivery or distribution of newspapers or shopping news not including delivery or distribution to any point for subsequent delivery or distribution; or

18. Service covered by an arrangement between the division and the agency charged with the administration of any other state or federal unemployment compensation law pursuant to which all services performed by an individual for an employing unit during the period covered by such employing unit's duly approved election, are deemed to be performed entirely within such agency's state or under such federal law; provided, that if wages paid for or in connection with any employment or service excluded under this subsection are, or hereafter become, taxable under §3301 of the internal revenue code by virtue of any amendment or amendments hereafter made to §3306

(c) of said code or to the federal unemployment tax act, such employment or service on and after the effective date of such amendment or amendments shall not be excluded from the term "employment" as used in this law, any other provisions of this subsection to the contrary notwithstanding.

19. Services performed by high school or college students as a part of their training in connection with the diversified cooperative training program or cooperative program under the supervision of the school or college (university) authorities in which such students are enrolled.

20. Service performed by an individual for a person as a barber if all such service performed by such individual for such person is performed for remuneration solely by way of commission.

(h) If the services performed during one-half or more of any pay period by an employee for the person employing him constitute employment, all the services of such employee for such period shall be deemed to be employment; but if the services performed during more than one half of any such pay period by an employee for the person employing him do not constitute employment, then none of the services of such employee for such period shall be deemed to be employment. As used in this subsection the term "pay period" means a period (of not more than thirty-one consecutive days) for which a payment of remuneration is ordinarily made to the employee by the person employing him. This subsection shall not be applicable with respect to services performed in a pay period by an employee for the person employing him, where any of such service is excepted by subparagraph 10. of paragraph (g).

(6) "Employing unit" means: Any individual or type of organization, including any partnership, association, trust, estate, joint-stock company, insurance company or corporation, whether domestic or foreign, or the receiver, trustee in bankruptcy, trustee or successor of any of the foregoing, or the legal representative of a deceased person, which has or subsequent to January 1, 1936, had in its employ one or more individuals performing services for it within this state.

(a) Each individual employed to perform or to assist in performing the work of any agent or employee of an employing unit shall be deemed to be employed by such employing unit for all the purposes of this chapter, whether such individual was hired or paid directly by such employing unit or by such agent or employee, provided the employing unit had actual or constructive knowledge of the work.

(b) All individuals performing services within this state for any employing unit which maintains two or more separate establishments within this state shall be deemed to be performing services for a single employing unit for all the purposes of this chapter.

(c) Any person who is an officer of a corporation and who performs services for such

corporation within this state, whether or not such services are continuous, shall be deemed an employee of the corporation during all of each week of his tenure of office, regardless of whether or not he is compensated for such services. Services shall be presumed to have been rendered the corporation in cases where such officer is compensated by other than dividends upon shares of stock of such corporation owned by him.

(7) "Employer" means:

(a) Any employing unit which for some portion of a day, but not necessarily simultaneously, in each of twenty different calendar weeks, whether or not such weeks are or were consecutive, within either the current or the preceding calendar year (and for the purpose of this definition, if any week includes both December 31 and January 1, the days up to January 1 shall be deemed one calendar week and the days beginning January 1 another such week) has or had in employment four or more individuals (irrespective of whether the same individuals are or were employed in each such day).

(b) An individual or employing unit which acquired the organization, trade or business, or substantially all the assets thereof, of another which at the time of such acquisition was an employer subject to this chapter or which acquired a part of the organization, trade, or business of another which at the time of such acquisition was an employer subject to this chapter, provided such other would have been an employer under paragraph (a) or (h) of this subsection if such part had constituted its entire organization, trade or business.

(c) Any individual or employing unit which acquired the organization, trade or business, or substantially all the assets thereof, of another employing unit if the employment record of the predecessor prior to such acquisition together with the employment record of such individual or employing unit subsequent to such acquisition, both within the same calendar year, would be sufficient to render an employing unit subject to this chapter as an employer under paragraph (a) or (h) of this subsection.

(d) An employing unit which has become an employer under paragraphs (a), (b), (c), and has not ceased to be an employer subject to this chapter, as provided in §443.09, hereof;

(e) For the effective period of its election, any other employing unit which has elected to become fully subject to this chapter under the rules and regulations of the commission.

(f) Any employing unit not an employer by reason of any other paragraph of this subsection for which services in employment are performed with respect to which such employing unit is liable for any federal tax against which credit may be taken for contributions required to be paid into a state unemployment compensation fund; but services performed for such employing units shall constitute employment for the purposes of this chapter only to the extent that

such services constitute employment with respect to which such federal tax is payable.

(g) Any employing unit which fails to keep the records of employment required by this chapter and by the regulations of the commission shall be presumed to be an employer liable for the payment of contributions pursuant to the provisions of this chapter, regardless of the number of individuals employed by such employing unit; provided, however, that the division shall make written demand that such employing unit keep and maintain required payroll records and such demand shall have been made not less than six months before assessing contributions against any employing unit determined to have become an "employer" solely by reason of this paragraph.

(h) 1. Any employing unit which in either the current or the preceding calendar year,

a. Has paid wages in any calendar quarter in excess of six thousand dollars, and

b. Has or had in employment four or more individuals for some portion of a day, but not necessarily simultaneously, in each of eight different calendar weeks in the same calendar year, whether or not such weeks are or were consecutive. Any employing unit becoming an employer pursuant to this paragraph shall be liable for the payment of contributions upon all wages paid for the entire calendar year during which it becomes an employer and for the calendar year subsequent thereto and until terminated pursuant to §443.09 upon a showing that in the preceding calendar year there was no calendar quarter in which it paid wages in excess of six thousand dollars and that there were not eight different days, each day being in a different calendar week, in such preceding calendar year within which such employing unit had in employment four or more individuals.

2. The term "wages" as used in this paragraph means gross wages and is not limited by the definition of that term in subsection (13) (b).

(12) "Unemployment":

(a) An individual shall be deemed "totally unemployed" in any week during which he per-

forms no services and with respect to which no wages are payable to him, or "partially unemployed" in any week of less than full-time work if the wages payable to him with respect to such week are less than his weekly benefit amount. The commission shall prescribe regulations applicable to unemployed individuals making such distinctions in the procedures as to total unemployment, part-time unemployment, partial unemployment of individuals attached to their regular jobs, and other forms of short-time work, as the commission deems necessary.

(b) An individual's week of unemployment shall be deemed to commence only after his registration at an employment office, except as the commission may by regulations otherwise prescribe.

(13) "Wages":

(a) "Wages" means all remuneration paid for services from whatever source, including commissions and bonuses and the cash value of all remuneration paid in any medium other than cash. The reasonable cash value of remuneration in any medium other than cash shall be estimated and determined in accordance with rules prescribed by the commission.

(b) The term "wages" shall not include:

1. That part of remuneration which, after remuneration equal to three thousand dollars has been paid in a calendar year to an individual by an employer or his predecessor with respect to employment during any calendar year, is paid to such individual by such employer during such calendar year, unless that part of the remuneration is subject to a tax, under a federal law imposing the tax, against which credit may be taken for contributions required to be paid into a state unemployment fund. For the purposes of this subsection the term "employment" shall include services constituting employment under any employment security law of another state or of the federal government.

2. The amount of any payment with respect to services performed, to, or on behalf of, an individual in its employ under a plan or system established by an employing unit which makes provision for individuals in its employ generally or for a class or classes of such individuals (including any amount paid by an employing unit for insurance or annuities, or into a fund, to provide for any such payment), on account of

- a. Retirement, or
- b. Sickness or accident disability, or
- c. Medical and hospitalization expenses in connection with sickness or accident disability, or
- d. Death, provided the individual in its employ

(I) Has not the option to receive, instead of provision for such death benefit, any part of such payment or, if such death benefit is insured, any part of the premiums (or contri-

butions to premiums) paid by his employing unit, and

(II) Has not the right, under the provisions of the plan or system or policy of insurance providing for such death benefit, to assign such benefit or to receive cash consideration in lieu of such benefit either upon his withdrawal from the plan or system providing for such benefit or upon termination of such plan or system or policy of insurance or of his services with such employing unit;

3. The payment by an employing unit (without deduction from the remuneration of the individual in its employ) of the tax imposed upon an individual in its employ under §3101 of the federal internal revenue code with respect to services performed after June 30, 1941.

(14) "Week" means such period of seven consecutive days as the commission may by regulation prescribe. The commission may by regulation prescribe that a week shall be deemed to be "in," "within," or "during," that benefit year which includes the greater part of such week.

443.04 Payment of benefits.—

(1) **MANNER OF PAYMENT.**—On and after January 1, 1939, benefits shall become payable from the fund. All benefits shall be paid through employment offices in accordance with such regulations as the commission may prescribe.

(2) WEEKLY BENEFIT AMOUNT.—

(a) An individual's "weekly benefit amount" shall be an amount equal to one half of his average weekly wages, but not less than ten dollars nor more than forty dollars. Such weekly benefit amount if not a multiple of one dollar shall be rounded off to the next higher multiple of one dollar.

(b) The average weekly wages of such individual shall be computed by dividing his total base period wages by the number of weeks in such base period in which he was paid wages for insured work, provided however, that any individual shall be deemed to have been paid wages in the total number of weeks of his base period indicated in the reports submitted to the division by his base period employers but

not more than thirteen weeks in any calendar quarter.

(c) The provisions of this subsection as herein amended apply only to benefit years beginning on and after July 1, 1967; provided, that no individual currently eligible for benefits shall be redetermined ineligible pursuant to this section.

(d) Notwithstanding the provisions of paragraphs (a), (b), and (c) of this subsection, the weekly benefit amount, the average weekly wages, and total amount of benefits available with respect to all benefit years beginning on and after July 1, 1959, but prior to July 1, 1960, shall be determined and shall be payable in accordance with the following:

1. The weekly benefit amount shall be one-half of the average weekly wages of the claimant, but not more than thirty-three dollars. The average weekly wages shall be one-thirteenth of the total wages paid to the claimant in that calendar quarter of his base period in which his wages for insured employment were highest. Such weekly benefit amount, if not a multiple of one dollar, shall be rounded off to the next higher multiple of one dollar.

2. The total weeks of employment of any claimant shall be the quotient obtained by dividing his total wages for insured employment in his base period by his average weekly wages, as determined in paragraph (d) 1. Provided, that when there is a fractional portion of a week as a remainder equal to one-half or more it shall be increased to the next higher number of weeks, and when such fraction is less than one-half it shall be decreased to the next lower number of weeks.

3. Any otherwise eligible individual shall be entitled during the benefit year established pursuant to a claim filed during the one-year period beginning July 1, 1959, to a total amount of benefits equal to the product of his weekly benefit amount and one-half the total number of weeks of employment in his base period in which he was paid wages for insured work.

4. The total available credits and weekly benefit amounts determined with respect to benefit years established pursuant to the authority of subparagraphs 1., 2., and 3., of this proviso shall be applicable throughout such benefit year.

(3) WEEKLY BENEFIT FOR UNEMPLOYMENT.—

(a) *Total*.—Each eligible individual who is totally unemployed in any week shall be paid with respect to such week a benefit in an amount equal to his weekly benefit amount.

(b) *Partial*.—Each eligible individual who is partially unemployed in any week shall be paid with respect to such week a benefit in an amount equal to his weekly benefit less that part of the wages (if any) payable to him with respect to such week which is in excess of five dollars. Such benefits, if not a multiple of one dollar, shall be computed to the next higher multiple of one dollar.

(4) DURATION OF BENEFITS.—

(a) 1. Any otherwise eligible individual shall be entitled during any benefit year to a total amount of benefits equal to the product of his weekly benefit amount and one-half the number of weeks in his base period in which he was paid wages for insured work; provided, that such total amount of benefits, if not a multiple of one dollar shall be rounded off to the next higher multiple of one dollar.

2. For the purposes of this subsection, wages shall be counted as "wages for insured work" for benefit purposes with respect to any benefit year only if such benefit year begins subsequent to the date on which the employing unit by whom such wages were paid has satisfied the conditions of this chapter with respect to becoming an employer.

3. The provisions of this subsection as herein amended apply only to the benefit years beginning after June 30, 1960.

(b) If the remuneration of an individual is not based upon a fixed period or duration of time or if the individual's wages are paid at irregular intervals or in such manner as not to extend regularly over the period of employment, the wages for any week or for any calendar quarter for the purpose of computing an individual's right to employment benefits only shall be determined in such manner as may be regulated by prescribed. Such regulations, so far as possible, secure results reasonably similar to those which would prevail if the individual were paid his wages at regular intervals.

443.05 Benefit eligibility conditions.—An unemployed individual shall be eligible to receive benefits with respect to any week only as the division finds that:

(1) He has made a claim for benefits with respect to such week in accordance with such regulations as the commission may prescribe.

(2) He has registered for work at, and thereafter continued to report at, an employment office in accordance with such regulations as the commission may prescribe; except, that the commission may, by regulation not inconsistent with the purposes of this law, waive or alter either or both of the requirements of this subsection as to individuals attached to regular jobs; provided, that no such regulation shall conflict with §443.04(1).

(3) He is able to work and is available for work.

(4) He has been unemployed for a waiting period of one week. No week shall be counted as a week of unemployment for the purposes of this subsection:

(a) Unless it occurs within the benefit year which includes the week with respect to which he claims payment of benefits.

(b) If benefits have been paid with respect thereto.

(c) Unless the individual was eligible for benefits with respect thereto as provided in §§443.05 and 443.06 except for the requirements of this subsection and of §443.06(5).

(5) He has been paid wages for insured work equal to twenty times his average weekly wages during his base period; provided, that no unemployed individual shall be eligible to receive benefits if his average weekly wage is less than twenty dollars.

(6) In the event of national emergency, in the course of which the federal emergency unemployment payment plan is, at the request of the governor, invoked for all or any part of the state, such plan shall supersede the procedures prescribed by this chapter, and by regulations thereunder, and the division shall act as the Florida agency for the United States department of labor in the administration of such plan.

443.06 Disqualification for benefits.—An individual shall be disqualified for benefits:

(1) For the week in which he has voluntarily left his employment without good cause attributable to his employer or in which he has been discharged by his employing unit for misconduct connected with his work, if so found by the division, and for not more than the twelve weeks which immediately follow such week, as determined by the division in each case according to the circumstances in each case or the seriousness of the misconduct. Provided, however, that disqualification under this subsection shall continue for the full period of unemployment next ensuing after he has left his work voluntarily without good cause or has been discharged for misconduct connected with his work and until such individual has become re-employed and has earned wages equal to or in excess of ten times his weekly benefit amount; and provided, further, that good cause as used in this subsection shall include only such cause as is attributable to the employer or consists of illness or disability of the individual, other than pregnancy, requiring separation from his employment. An individual shall not be disqualified under this subsection for voluntarily leaving temporary employment to return immediately when called to employment by the permanent employer who temporarily terminated his employment within the previous six calendar months.

(2) If the division finds that the individual has failed without good cause either to apply for available suitable work when so directed by the employment office or the division, or to accept suitable work when offered to him by employment office, division, or employing unit or to return to his customary self-employment when so directed by the divi-

sion, such disqualification shall continue for the week in which such failure occurred and for not more than five weeks immediately following such week, or a reduction by not more than three weeks from the duration of benefits as determined by the division in each case. Provided, however, that disqualification under this subsection shall continue for the full period of unemployment next ensuing after he has failed without good cause either to apply for available suitable work, or to accept suitable work, or to return to his customary self-employment, pursuant to this subsection, and until such individual has become re-employed and has earned wages equal to or in excess of ten times his weekly benefit amount.

(a) In determining whether or not any work is suitable for an individual, the division shall consider the degree of risk involved to his health, safety, and morals, his physical fitness and prior training, his experience and prior earnings, his length of unemployment and prospects for securing local work in his customary occupation, and the distance of the available work from his residence.

(b) Notwithstanding any other provisions of this chapter, no work shall be deemed suitable and benefits shall not be denied under this chapter to any otherwise eligible individual for refusing to accept new work under any of the following conditions:

1. If the position offered is vacant due directly to a strike, lockout, or other labor dispute;

2. If the wages, hours, or other conditions of the work offered are substantially less favorable to the individual than those prevailing for similar work in the locality;

3. If as a condition of being employed, the individual would be required to join a company union or to resign from or refrain from joining any bona fide labor organization.

(3) For any week with respect to which he is receiving or has received remuneration in the form of:

(a) Wages in lieu of notice;

(b) 1. Compensation for temporary partial disability, temporary total disability or permanent total disability under the workmen's compensation law of any state or under a similar law of the United States.

2. Provided, that if the remuneration referred to in paragraphs (a) and (b) of this subsection is less than the benefits which would otherwise be due under this chapter, he shall be entitled to receive for such week, if otherwise eligible, benefits reduced by the amount of such remuneration.

(4) For any week with respect to which the division finds that his total or partial unemployment is due to a labor dispute in active progress which exists at the factory, establishment or other premises at which he is or was last employed; provided, that this subsection shall not apply if it is shown to the satisfaction of the division that:

(a) He is not participating in or financing, or directly interested in the labor dispute which is in active progress; provided, however, that the payment of regular union dues shall not be construed as financing a labor dispute within the meaning of this section; and

(b) He does not belong to a grade or class of workers of which immediately before the commencement of the labor dispute there were members employed at the premises at which the labor dispute occurs any of whom are participating in, or financing, or directly interested in the dispute; provided, that if in any case separate branches of work which are commonly conducted as separate businesses in separate premises, or are conducted in separate departments of the same premises, each department shall, for the purpose of this subsection be deemed to be a separate factory, establishment or other premises.

(5) For any week with respect to which or a part of which he has received or is seeking unemployment benefits under an unemployment compensation law of another state or of the United States; for the purposes of this subsection, an unemployment compensation law of the United States is any law of the United States which provides for payment of any type and in any amounts for periods of unemployment due to lack of work; provided, that if the appropriate agency of such other state or of the United States finally determines that he is not entitled to such unemployment benefits, this disqualification shall not apply.

(6) For a period of not to exceed one year from the date of the discovery by the division of the making of any false or fraudulent representation for the purpose of obtaining benefits contrary to the provisions of this chapter, constituting a violation within the intent of §443.22 hereof; provided, that any such disqualification may be appealed from in the same manner as from any other disqualification imposed hereunder; and provided further that a conviction by any court of competent jurisdiction in this state of the offense prohibited or punished by §443.22 herein shall be conclusive upon the appeals referee and the commission of the making of such false or fraudulent representation for which disqualification is imposed hereunder.

(7)(a) If the division finds that the individual is not a citizen of the United States and is residing in this state as a place of refuge, temporarily or without formal visa, and that such individual has failed without good cause to register with an appropriate federal or state agency having jurisdiction of such individual for the purposes of registration or relocation or resettlement pursuant to the rules or regulations of such agency or of the commission. Such disqualification shall continue for the duration of such failure and for not more than ten weeks immediately following the week in which such individual registers, or a reduction by not more than five weeks from the

duration of benefits as determined by the division in each case.

(b) If the division finds that said individual has refused without good cause an offer of resettlement or relocation, which offer provides for suitable employment for such individual notwithstanding the distance of such relocation, resettlement or employment from the current location of such individual in this state, such disqualification shall continue for the week in which such failure occurred and for not more than ten weeks immediately following such week, or a reduction by not more than five weeks from the duration of benefits as determined by the division in each case.

(8) For any week with respect to which he has received, or is eligible to receive, from a base period employing unit, income from a retirement, pension or annuity program embodied in a union contract or either a public or private employee benefit program. Provided, however, that for any week in which income from a retirement, pension or annuity program as referred to in this subsection when combined with income from the retirement provisions of the United States social security act is less than the weekly benefits which would otherwise be due under this chapter he shall be entitled to receive for such week, if otherwise eligible, benefits reduced by the income from the retirement, pension, or annuity program combined with the United States social security act retirement income, prorated to a weekly basis. For the purpose of this subsection benefits from the United States social security act, a disability benefit program, a supplemental unemployment benefit program, or any other program not specifically designated either in the union contract or a company benefit program as being retirement, pension or annuity income shall not be disqualifying.

443.07 Procedure concerning claims.—

(1) **POSTING OF INFORMATION.**—Each employer shall post and maintain in places readily accessible to individuals in his employ printed statements concerning benefit rights, claims for benefits and such other matters relating to the administration of this chapter as the commission may by regulation prescribe. Each employer shall supply to such individuals copies of such printed statements or other materials relating to claims for benefits when and as the commission may by regulations prescribe. Such printed statements and other materials shall be supplied by the division to each employer without cost to the employer.

(2) **FILING OF CLAIM.**—Claims for benefits shall be made in accordance with such regulations as the commission may prescribe.

(3) **DETERMINATION.**—

(a) *In general.*—An initial determination

upon a claim filed pursuant to §443.07 (2) shall be made promptly by an examiner designated by the division and shall include a statement as to whether and in what amount claimant is entitled to benefits and, in the event of a denial, shall state the reasons therefor. A determination with respect to the first week of a benefit year shall also include a statement as to whether the claimant has been paid the wages required under §443.05 (5), and if so, the first day of the benefit year, his weekly benefit amount, and the maximum total amount of benefits payable to him with respect to a benefit year. The claimant, his most recent employing unit, and all employers whose accounts would be charged with benefits pursuant to such determination, shall be promptly notified of such initial determination, and such determination shall be final unless within ten days after the mailing of such notices to the parties' last known addresses, or in the absence of such mailing, within ten days after the delivery of such notice, appeal or written request for reconsideration is filed by the claimant or other party entitled to such notice.

(b) *Determinations in labor dispute cases.*—Whenever any claim involves the application of the provisions of §443.06 (4), the examiner handling the claim shall, if so directed by the division, promptly transmit such claim to a special examiner designated by the division to make a determination upon the issues involved under that subsection or upon such claims. Such special examiner shall make the determination thereon after such investigation as he deems necessary, and after affording the parties entitled to notice an opportunity for a fair hearing in accordance with the provisions of this section with respect to hearings and determinations of appeals referees. The parties shall be promptly notified of the determination, together with the reason therefor, and such determination shall be deemed to be the final decision on the claim, unless within ten days after the mailing of notices to the parties' last known addresses, or, in the absence of such mailing, within ten days after the delivery of such notice, appeal is filed with the commission or notice of review is entered by that body.

(c) *Redeterminations.*—

1. The division may reconsider a determination whenever it finds that an error has occurred in connection therewith, or whenever new evidence or information pertinent to such determination has been discovered subsequent to any previous determination or redetermination. No such redetermination shall be made after one year from the date the claim was filed, unless it appears that the disqualification imposed by §443.06(6) is applicable, in which case the redetermination may be made at any time within two years from the date of the making of such false or fraudulent representation. Notice of redetermination shall be promptly given to the claimant and to any employers en-

titled to notice thereof in the manner prescribed in this section with respect to notice of an initial determination. If the amount of benefits is increased upon such redetermination an appeal therefrom solely with respect to the matters involved in such increase may be filed in the manner and subject to the limitations provided in subsection (4) of this section. If the amount of benefits is decreased upon such redetermination, the matters involved in such decrease shall be subject to review in connection with an appeal by claimant from any determination upon a subsequent claim for benefits which may be affected in amount or duration by such redetermination. Subject to the same limitations and for the same reasons, the division may reconsider its determination in any case in which the final decision has been rendered by an appeals referee, the commission, or a court, and may apply to the body or court which rendered such final decision to issue a revised decision.

2. In the event that an appeal involving an original determination is pending as of the date a redetermination thereof is issued, such appeal unless withdrawn, shall be treated as an appeal from such redetermination.

(d) *Notice of determination or redetermination pursuant to §443.06.*—Notice of any determination or redetermination which involves the application of the provisions of §443.06, together with the reasons therefor, shall be promptly given to the claimant and to any employer entitled to notice thereof, such notice to be given in the manner provided in subsection (3) hereof, provided that the commission shall by regulation prescribe the manner and procedure pursuant to which employers within the base period of a claimant may become entitled to such notice.

(4) *APPEALS.*—

(a) *Appeals referees.*—The division shall appoint one or more impartial salaried appeals referees selected in accordance with §443.12(4) to hear and decide appealed and/or disputed claims. Such appeals referees shall have such qualifications as may be established by the merit system council upon the advice and consent of the division. No person shall participate on behalf of the division as an appeals referee in any case in which he is an interested party. The division may designate alternates to serve in the absence or disqualification of any appeals referee upon a temporary basis and pro hac vice which alternate shall be possessed of the same qualifications required of appeals referees. The division shall provide the commission and the appeals referees with proper facilities and assistance for the execution of their functions.

(b) *Filing and hearing.*—

1. The claimant or any other party entitled to notice of a determination as herein provided, may file an appeal from such determination with an appeals referee within ten days after the

date of mailing of the notice to his last known address or if such notice is not mailed, within ten days after the date of delivery of such notice.

2. Unless the appeal is withdrawn with his permission or is removed to the commission, the appeals referee, after affording the parties reasonable opportunity for a fair hearing, shall make findings and conclusions and on the basis thereof affirm, modify, or reverse such determination; provided, however, that whenever an appeal involves a question as to whether services were performed by claimant in employment or for an employer, the referee shall give special notice of such issue and of the pendency of the appeal to the employing unit and to the division, both of whom shall thenceforth be parties to the proceeding and be afforded reasonable opportunity to adduce evidence bearing on such question.

3. The parties shall be promptly notified of such referee's decision and shall be furnished with a copy of the decision and the findings and conclusions in support thereof and such decisions shall be final unless, within ten days after the date of mailing of notice thereof to the party's last known address, or in the absence of such mailing, within ten days after the delivery of such notice, further review is initiated pursuant to paragraph (c) of this subsection.

(c) *Review by commission.*—The commission may, on its own motion, within the time specified in paragraph (b) of this subsection, initiate a review of the decision of an appeals referee or determination of a special examiner or may allow an appeal from such decision on application filed within such time by any party entitled to notice of such decision. An appeal filed by any such party shall be allowed as of right if the examiner's determination was not affirmed by the appeals referee. Upon review on its own motion or upon appeal, the commission may on the basis of the evidence previously submitted in such case, or upon the basis of such additional evidence as it may direct be taken, affirm, modify or reverse the findings and conclusions of the appeals referee. The commission may remove to itself or transfer to another appeals referee the proceedings on any claim pending before an appeals referee. Any proceeding so removed to the commission prior to the completion of a fair hearing shall be heard by the commission in accordance with the requirement of this subsection with respect to proceedings before an appeals referee. The commission shall promptly notify the parties to any proceeding before it of its decision, including its findings and conclusions in support thereof, and such decision shall be final unless within the time prescribed by Florida appellate rules a proceeding for judicial review is initiated pursuant to paragraph (e) of this subsection; provided, however, that upon denial by the commission of an application for appeal from the decision of an appeals referee, the decision of

the appeals referee shall be deemed to be a decision of the commission within the meaning of this paragraph for purposes of judicial review and shall be subject to judicial review within the time and in the manner provided for with respect to decisions of the commission, except that the time for initiating such review shall run from the date of notice of the order of the commission denying the application for appeal.

(d) *Procedure.*—The manner in which appealed claims shall be presented, and the conduct of hearings and appeals shall be in accordance with regulations prescribed by the commission for determining the rights of the parties, whether or not such regulations conform to common law or statutory rules of evidence or other technical rules of procedure. When the same or substantially similar evidence is relevant and material to the matters in issue in claims by more than one individual or in claims by a single individual with respect to two or more weeks of unemployment, the same time and place for considering each such claim may be fixed, hearing thereon jointly conducted, a single record of the proceedings made, and evidence introduced with respect to one proceeding considered as introduced in the others, provided that in the judgment of the examiner or referee having jurisdiction of the proceeding, such consolidation would not be prejudicial to any party. No person shall participate on behalf of the division or commission in any case in which he has a direct or indirect interest. A record shall be kept of all testimony and proceedings before special examiners or in connection with an appeal, but the testimony need not be transcribed unless further review is initiated. Witnesses subpoenaed pursuant to this section shall be allowed fees at a rate fixed by the division, and fees of witnesses subpoenaed on behalf of the division, or any claimant shall be deemed part of the expense of administering this chapter.

(e) *Judicial review.*—Orders of the commission entered pursuant to paragraph (c) of this subsection shall be subject to review only by petition for writ of certiorari to the district court of appeal in the appellate district in which the issues involved were decided by an appeals referee and the division shall be made a party respondent to every such proceeding.

(5) **PAYMENT OF BENEFITS.**—

(a) Benefits shall be promptly paid in accordance with a determination or redetermination except that, if such determination or redetermination is upon the first claim with respect to a benefit year, or if the record of the proceeding on the claim indicates that a disqualification has been alleged or may exist, such benefits shall not be paid prior to the expiration of the period for appeal. If pursuant to a determination or redetermination benefits are payable in any amount as to which there is no dispute, such amount of benefits shall be promptly paid regardless of any appeal.

(b) The commencement of a proceeding for judicial review pursuant to subsection (4) (e) of this section shall not operate as a supersedeas

or stay unless the commission shall so order, and the filing of a petition for judicial review by the division from a decision of the commission which awarded benefits shall not authorize the commission or any court to direct the denial of any benefits which would have been payable under the commission's decision. If a determination allowing benefits is affirmed in any amount by an appeals referee, or is so affirmed by the commission or if a decision of an appeals referee, allowing benefits is affirmed in any amount by the commission, such benefits shall be promptly paid regardless of any further appeal, and no injunction, superseas, stay, or other writ or process suspending the payment of such benefits shall be issued by any court but if such decision is finally reversed, no employer's account shall be charged with benefits so paid pursuant to the erroneous determination and benefits shall not be paid for any subsequent weeks of unemployment involved in such reversal.

(6) **RECOVERY AND RECOUPMENT.**—

(a) Any person who, by reason of his fraud has received any sum as benefits under this chapter to which he was not entitled shall be liable to repay such sum to the division for and on behalf of the trust fund, or, in the discretion of the division, to have such sum deducted from future benefits payable to him under this chapter, provided a finding of the existence of such fraud has been made by a redetermination or decision pursuant to this section within two years from the commission of such fraud, and provided no such recovery or recoupment of such sum may be effected after five years from the date of such redetermination or decision.

(b) If any person other than by reason of his fraud has received any sum as benefits under this chapter to which, under a redetermination or decision pursuant to this section, he has been found not entitled, he shall in the discretion of the division be liable to have such sum deducted from any future benefits payable to him with respect to unemployment occurring within one year from the date of such redetermination or decision.

(c) No recoupment from future benefits shall be had if such sum was received by such person without fault on his part and such recoupment would defeat the purpose of this chapter or would be against equity and good conscience.

(d) In any case in which under this section a claimant is liable to repay to the division any sum for the fund, such sum shall be collectible without interest by a deduction from benefits pursuant to a redetermination as above provided, or by civil action in the name of the division.

443.08 Contributions.—

(1) **WHEN PAYABLE.**— Contributions shall accrue and become payable by each employer for each calendar quarter in which he is subject to this chapter, with respect to wages paid during such calendar quarter for employment. Such contributions shall become due and be paid by each employer to the division for the fund, in accordance with such regulations as the commission may prescribe. Contributions shall not be deducted, in whole or in part, from the wages of individuals in such employer's employ. In the payment of any contributions, a fractional part of a cent shall be disregarded unless it amounts to one-half cent or more, in which case it shall be increased to one cent.

(2) **RATES.**—Each employer is required to pay contributions equal to the following percentages of wages paid by him with respect to employment.

(a) 1.8 per centum with respect to employment during the calendar year 1937.

(b) 2.7 per centum with respect to employment after December 31, 1937, except as otherwise determined by experience rating provisions of this chapter; provided that for the purposes of this section the total wages on which contributions have been paid by a single employer or his predecessor to an individual in any state within a single calendar year shall be counted to determine whether more remuneration than constitutes "wages" as defined by §443.03(13)(b)1. has been paid to such individual by such employer or his predecessor in one calendar year.

(c)1. Should the congress either amend or repeal the Wagner-Peyser act, the federal unemployment tax act, the social security act or subtitle C of the internal revenue code, or any act or acts supplemental to or in lieu thereof, or any part or parts of either or all of said laws, or should either or all of said laws, or any part or parts thereof, be held invalid, to the end and with such effect that appropriations of funds by the said congress and grants thereof to Florida for the payment of costs of administration of the division become no longer available for such purposes, or should employers in Florida subject to the payment of tax under the federal unemployment tax act be granted full credit upon such a tax for contributions or taxes paid to the unemployment compensation trust fund, then in such case, beginning with the effective date of such change in liability for payment of such federal tax, and for each year thereafter, the standard contribution rate under this chapter shall be three per cent per annum of each such employer's payroll subject to contributions. With respect to each such employer having a reduced rate of contribution for such year pursuant to terms of subsection (3) hereof, to the rate of contribution, as determined for such year in which such change occurs, shall be added three-tenths of one per cent.

2. The amount of the excess of tax for which such employer is or may become liable, by reason of this subsection, over the amount which such employer would pay or become liable for except for the provisions of this subsection, shall be paid and transferred into the employment security administration trust fund to be disbursed and paid out under the same conditions and for the same purposes as are other moneys provided to be paid into such fund; provided, that if the division shall determine that as of the first day of January of any year, there is an excess in said fund over the moneys and funds required to be disbursed therefrom for the purposes thereof for such year, then, and in such cases an amount equal to such excess, as determined by the division, shall be transferred to and become a part of the unemployment compensation trust fund, and such funds shall be deemed to be and are hereby appropriated for the purposes set out in this chapter.

(d) In the event that the federal unemployment tax act is amended to permit credit against such tax in excess of 2.7 per cent with respect to any calendar year, payment of the amount of contributions necessary to qualify an employer for such additional credit shall be deemed to be required under this chapter.

(3) CONTRIBUTION RATES BASED ON BENEFIT EXPERIENCE.—

(a) The benefit payments made to any eligible individual shall be charged to the employment record of each employer who paid such individual wages equal to forty dollars or more within the base period of said individual in the proportion to which wages paid by each such employer to such individual within the base period bears to total wages paid by all such employers to such individual within the base period. Provided, that no benefit charges shall be made to the employment record of any employer who has furnished part-time work to an individual who, because of loss of employment with one or more other employers, becomes eligible for partial benefits while still being furnished part-time work by such employer on substantially the same basis and in substantially the same amount as has been made available to such worker during his base period. Provided, further, that benefit payments will not be charged to the accounts of employers when such employers have furnished the division with such notices regarding separations of individuals from work and the refusal of individuals to accept offers of suitable work as are required by the provisions of this chapter and the regulations of the commission, if one or more of the following conditions are found to be applicable:

1. When an individual has left his job without good cause attributable to his employer or has been discharged by his employer for misconduct connected with his work, no benefits subsequently paid to him on the basis of wages paid to such individual by such employer prior

to such separation shall be charged to such employer's account.

2. Benefits which are paid to any individual subsequent to the refusal without good cause by such individual of an offer of suitable employment from an employer will not be charged to the account of such employer when all or any part of such benefits are upon the basis of wages paid to such individual by such employer prior to the refusal by such individual to accept such offer of suitable work. (The division shall determine with respect to the payment of all benefits whether this proviso shall be applied without regard to whether a disqualification pursuant to the provisions of §443.06 has or may be invoked against a claimant or claimants for benefits.)

(b) 1. On and after January 1, 1958, the division shall, notwithstanding the provisions of paragraph (d) of this subsection, compute a benefit ratio for each employer not previously eligible therefor whose unemployment record has been chargeable with benefit payments for at least twelve calendar quarters immediately preceding the calendar quarter for which the benefit ratio is computed. Such employer's benefit ratio shall be the quotient obtained by dividing the total benefit payments chargeable to his employment record during the twelve completed calendar quarters immediately preceding the calendar quarter for which the benefit ratio is computed by the total of his annual payrolls (as defined in paragraph (f) of this subsection) for the first twelve of the thirteen completed calendar quarters immediately preceding the calendar quarter for which the benefit ratio is computed. Such benefit ratio shall be computed to the fifth decimal place, and rounded to the fourth decimal place, and shall be applicable only for the remainder of the calendar year in which it becomes effective, after which the benefit ratio of such employer shall be computed as provided in subparagraph 2. hereof. Variation from the standard rate of contribution shall be assigned on a quarterly basis to such employers eligible therefor in like manner as assignments made for a calendar year under paragraph (e) of this subsection.

2. The division shall, for each calendar year, compute a benefit ratio for each employer whose employment record has been chargeable with benefit payments for at least three calendar years immediately preceding the calendar year for which the benefit ratio is computed. An employer's benefit ratio shall be the quotient obtained by dividing the total benefit payments chargeable to his employment record during the three-year period ending December 31 of the preceding calendar year by the total of his annual payrolls (as defined in paragraph (f) of this subsection) for the three-year period ending September 30 of the preceding calendar year. Such benefit ratio shall be computed to the fifth decimal place and rounded to the fourth decimal place.

(c) The standard rate of contributions payable by each employer shall be 2.7 per centum.

(d) Employers shall be eligible for rate variations from the standard rate of contributions, as hereinafter described, in any calendar year, only if their employment records have been chargeable with benefit payments throughout the three consecutive calendar years ending on December 31, of the preceding calendar year.

(e) 1. Variations from the standard rate of contributions shall be assigned with respect to each calendar year to employers eligible therefor. In determining the contribution rate, varying from the standard rate to be assigned each employer, adjustment factors provided for in subparagraphs a.-c. of this subparagraph will be added to the benefit ratio. This addition will be accomplished in two steps by adding a variable adjustment factor and a final adjustment factor as defined below. The sum of these adjustment factors provided for in subparagraphs a.-c. of this subparagraph will first be algebraically summed. The sum of these adjustment factors will then be divided by a gross benefit ratio to be determined as follows: total benefit payments for the previous three calendar years charged to employers eligible to be assigned a contribution rate different from the standard rate minus excess payments for the same period divided by taxable payroll entering into the computation of individual benefit ratios for the current calendar year. The ratio of the sum of the adjustment factors provided for in subparagraphs a.-c. of this subparagraph to the gross benefit ratio will be multiplied by each individual benefit ratio below the maximum tax rate to obtain variable adjustment factors; except that in any instance in which the sum of an employer's individual benefit ratio and variable adjustment factor exceeds the maximum tax rate, the variable adjustment factor will be reduced so that the sum equals the maximum tax rate. The variable adjustment factor of each such employer will be multiplied by his taxable payroll entering into the computation of his benefit ratio. The sum of these products will be divided by the taxable payroll of such employers that entered into the computation of their benefit ratios. The resulting ratio will be subtracted from the sum of the adjustment factors provided for in subparagraphs a.-c. of this subparagraph to obtain the final adjustment factor. The variable adjustment factors and the final adjustment factor will be computed to five decimal places and rounded to the fourth decimal place. This final adjustment factor will be added to the variable adjustment factor and benefit ratio of each employer and the sum rounded to three decimal places to obtain each employer's contribution rate; provided that in years when the adjustment factor provided for in subparagraph c. of this subsection is negative the sum shall not be rounded to three decimal places for those employers whose sum is less

than one tenth of one per cent; provided further that no employer's contribution rate shall be less than one tenth of one per cent except in years when the adjustment factor provided for in subparagraph c. of this subsection is negative the minimum rate of one tenth of one per cent shall be reduced to the extent of the negative adjustment factor provided for in subparagraph c. of this subsection.

a. An adjustment factor for noncharge benefits will be computed to the fifth decimal place, and rounded to the fourth decimal place, by dividing the amount of benefit payments noncharged in the three preceding calendar years by the taxable payroll of employers eligible to be considered for assignment of a contribution rate different from the standard rate that have a benefit ratio for the current year less than the maximum contribution rate, except that in computing the adjustment factor for 1964 the two preceding calendar years of noncharged benefits will be used. The taxable payroll of such employers will be the taxable payrolls for the three years ending September 30 of the preceding calendar year that had been reported to the division by December 31 of the same calendar year except that in computing the adjustment factor for 1964 the two preceding years of taxable payrolls will be used. Noncharge benefits for the purpose of this section shall be defined as benefit payments to an individual which were paid from the unemployment compensation trust fund but which were not charged to the unemployment record of any employer.

b. An excess payments adjustment factor will be computed to the fifth decimal place, and rounded to the fourth decimal place, by dividing the total excess payments during the three preceding calendar years by the taxable payroll of employers eligible to be considered for assignment of a contribution rate different from the standard rate that have a benefit ratio for the current year less than the maximum contribution rate, except that in computing the adjustment factor for 1964 the two preceding years' excess payments will be used. The taxable payroll of such employers will be the same as used in computing the noncharge adjustment factor as described in subsection (3) (e) 1. a. of this section. Excess payments for the purpose of this section shall be defined as the amount of benefit payments charged to the employment record of an employer during the three preceding calendar years less the product of the maximum contribution rate and his taxable payroll for the three years ending September 30 of the preceding calendar year that had been reported to the division by December 31 of the same calendar year, except that in computing excess payments for use in 1964 contribution rate determination the two preceding years will be used. Total excess payments shall be defined as the sum of the individual employer excess payments for those

employers that were eligible to be considered for assignment of a contribution rate different from the standard rate.

c. If the balance in the unemployment compensation trust fund as of December 31 of the calendar year immediately preceding the calendar year for which the contribution rate is being computed is less than four per cent of the taxable payrolls for the year ending September 30 of the preceding calendar year as reported to the division by December 31 of that calendar year, a positive adjustment factor will be computed. Such adjustment factor shall be computed annually to the fifth decimal place, and rounded to the fourth decimal place, by dividing the sum of the total taxable payrolls for the year ending September 30 of the preceding calendar year as reported to the division by December 31 of such calendar year into a sum equal to one fourth of the difference between the amount in the fund as of December 31 of such preceding calendar year and the sum of five per cent of the total taxable payrolls for that year. Such adjustment factor will remain in effect in subsequent years until a balance in the unemployment compensation trust fund as of December 31 of the year immediately preceding the effective date of such contribution rate equals or exceeds four per cent of the taxable payrolls for the year ending September 30 of the preceding calendar year as reported to the division by December 31 of that calendar year. If the balance in the unemployment compensation trust fund as of December 31 of the year immediately preceding the calendar year for which the contribution rate is being computed exceeds five per cent of the taxable payrolls for the year ending September 30 of the preceding calendar year as reported to the division by December 31 of that calendar year, a negative adjustment factor will be computed. Such adjustment factor shall be computed annually to the fifth decimal place, and rounded to the fourth decimal place, by dividing the sum of the total taxable payrolls for the year ending September 30 of the preceding calendar year as reported to the division by December 31 of such calendar year into a sum equal to one fourth of the difference between the amount in the fund as of December 31 of such preceding calendar year, and five per cent of the total taxable payrolls of such year. Such adjustment factor will remain in effect in subsequent years until the balance in the unemployment compensation trust fund as of December 31 of the year immediately preceding the effective date of such contribution rate is less than five per cent but more than four per cent of the taxable payrolls for the year ending September 30 of the preceding calendar year as reported to the division by December 31 of that calendar year.

d. The maximum contribution rate that can be assigned to any employer shall be two and nine tenths per cent with respect to the calendar year 1963, three and five tenths per cent

with respect to the calendar year 1964, four per cent with respect to the calendar year 1965, and four and five tenths per cent with respect to the calendar year 1966 and subsequent calendar years.

2. In the event of the transfer of employment records to an employing unit pursuant to paragraph (g) of this subsection which, prior to such transfer, was an "employer" the division shall recompute a benefit ratio for the successor employer on the basis of the combined employment records, and reassign an appropriate contribution rate to such successor employer as of the beginning of the calendar quarter immediately following the effective date of such transfer of employment records.

(f) As used in paragraph (b)2. of this subsection, the term "annual payroll" means the total amount of wages for insured employment paid by an employer during the twelve-month period ending on September 30 of any calendar year with respect to which contributions have been paid on or before the date on which they became due and payable; and as used in paragraph (b)1. of this subsection, the term "annual payroll" means the total amount of wages for insured employment paid by an employer during a period of four consecutive calendar quarters with respect to which contributions have been paid on or before the date on which they become due and payable. Provided, that where no contributions are payable for a calendar quarter, the term "annual payroll" as used in paragraph (b) of this subsection shall include only wages paid during such quarter with respect to which contribution and wage reports have been submitted to the division on or before the date on which they became due.

(g)1. For the purposes of this subsection, two or more employers who are parties to a transfer of business or the subject of a merger, consolidation, or other form of reorganization, effecting a change in legal identity or form, shall be deemed to be a single employer and shall be considered as one employer with a continuous employment record if the division finds that the successor employer continues to carry on the employing enterprises of the predecessor employer or employers.

2. Each predecessor shall in the event he again employs persons be treated as an employer without previous employment record, or, if his coverage has been terminated as provided in §443.09, as a new employing unit.

3. The commission may provide by regulation for partial transfer of experience rating where an employer has transferred at any time an identifiable and segregable portion of his payrolls and business to a successor employing unit. As a condition of such partial transfer of experience, the regulations shall require an application by the successor, agreement by predecessor, and such evidence as the division may prescribe of the experience and payrolls attributable to the transferred portion up

to the date of transfer. The regulations shall provide that the successor employing unit, if not already an employer, shall become an employer as of the date of the transfer and that the experience of the transferred portion of the predecessor's account shall be removed from the experience-rating record of the predecessor and for each calendar year following the date of the transfer of the employment record on the books of the division, the division shall compute the rate of contribution payable by the successor on the basis of his experience, if any, combined with the experience of the portion of the record transferred. The regulation may also provide what rates shall be payable by the predecessor and successor employers for the period between the date of the transfer of the employment record of the transferred unit on the books of the division and the first day of the next calendar year.

(h) No reduction in contribution rate shall be allowed under the provisions of this section unless the employer entitled thereto shall have at least one "annual payroll" as defined in paragraph (f) of this subsection and unless such employer is eligible for additional credit under the provisions of the federal unemployment tax act; and in the event the federal unemployment tax act shall be revised, amended or repealed, then and in that event this section shall be applicable only to the extent that additional credit may be allowed against the payment of the tax imposed by said federal unemployment tax act.

(i) The division:

1. Shall promptly notify each employer of his rate of contributions as determined for any calendar year pursuant to this section. Such determination shall become conclusive and binding upon the employer unless within fifteen days after the mailing of notice thereof to his last known address, or, in the absence of mailing, within fifteen days after the delivery of such notice, the employer files an application for review and redetermination setting forth his reasons therefor. If the division grants such review, the employer shall be promptly notified thereof and shall be afforded an opportunity for a fair hearing, but no employer shall be allowed, in any proceeding involving his rate of contributions or contribution liability, to contest the chargeability to his account of any benefits paid in accordance with a determination, redetermination or decision pursuant to §443.07, except upon the ground that the services on the basis of which such benefits were found to be chargeable did not constitute services performed in employment for him and then only in the event that he was not a party to such determination, redetermination or decision or to any other proceedings provided for in this chapter in which the character of such services was determined. The employer shall be promptly notified of the division's denial of this application, or of the division's redetermina-

tion, both of which shall become final unless within the time prescribed by Florida appellate rules a petition for writ of certiorari is filed in the district court of appeal of the district in which the petitioner resides or in the district court of appeal for the first district of Florida.

2. Shall, upon the discovery of an error in computation, reconsider any prior determination or redetermination of contribution rate after the fifteen-day period has expired, and issue a revised notice of contribution rate as so redetermined. Such redetermination shall be subject to review, and become conclusive and binding in absence thereof, in the same manner as the determination provided in subparagraph 1. hereof. No such reconsideration shall be made after the March 31 immediately following the calendar year with respect to which the contribution rate is applicable, nor shall interest accrue on any additional contributions found to be due until thirty days after the employer is mailed notice of his revised contribution rate.

3. The commission may provide by regulation for periodic notification to employers of benefits paid and chargeable to their accounts or of the status of such accounts, and any such notification, in the absence of an application for redetermination filed in such manner and within such period as the division may prescribe, shall become conclusive and binding upon the employer for all purposes of this chapter. Such redetermination, made after notice and opportunity for hearing, and the division's finding of fact in connection therewith, may be introduced in any subsequent administrative or judicial proceedings involving the determination of the rate of contributions of any employer for any calendar year and shall be entitled to the same finality as is provided in this subsection with respect to the findings of fact made by the division in proceedings to redetermine the contribution rate of an employer.

(j)1. If the division finds that an employer's business is closed solely because of the entrance of one or more of the owners, officers, partners, or the majority stockholder into the armed forces of the United States, or any of its allies, or of the United Nations after June 30, 1950, such employer's experience-rating record shall not be terminated; and, if the business is resumed within two years after the discharge or release from active duty in the armed forces of such person or persons, the employer's experience shall be deemed to have been continuous throughout such period. The benefit ratio of any such employer for the calendar year in which he resumed business and the three calendar years immediately following shall be a percentage equal to the total of his benefit charges (including charges of benefits paid to any individual during the period the employer was in the armed forces based upon wages paid by him prior to his entrance into such forces) for the three most

recently completed calendar years divided by that part of his total payroll, with respect to which contributions have been paid to the division, for the three most recent calendar years during the whole of which, respectively, such employer has been in business.

2. Provided, that no cash refund shall be made with respect to any adjustment required hereunder, but such refund shall be made by credit memorandum only.

443.09 Employing units affected.—

(1) (a) Any employing unit which is or becomes an employer subject to this chapter as defined in §443.03(7)(a) or (h) within any calendar year shall be subject to this chapter during the whole of such calendar year.

(b) Any employing unit which is or becomes an employer subject to this chapter solely by reason of the provisions of §443.03(7)(b) shall be subject to this chapter only during its operation of the business acquired.

(c) Any employing unit which is or becomes an employer subject to this chapter solely by reason of the provisions of §443.03(7)(c) shall be subject to this chapter only with respect to employment occurring subsequent to the date of such acquisition.

(2) Except as otherwise provided in subsections (3) and (4) of this section, an employing unit shall cease to be an employer subject to this chapter as of the first day of January of any calendar year only if it files with the division by April 30 of the year for which termination is requested, a written application for termination of coverage, and the division finds that there were no twenty different days, each day being in a different week within the preceding calendar year, within which such employing unit employed four or more individuals in employment subject to this chapter and that the employment and payrolls of such employing unit during such calendar year were insufficient to have rendered such employing unit an employer under §443.03(7)-(h). Provided, however, that the above prescribed time limitation for the filing of such written application may be waived by the division in cases where such time limitation had expired prior to the establishment in the records of the division of the liability of such employing unit. For the purposes of this subsection, the two or more employing units mentioned in §443.03(7)(b)(c)(d) shall be treated as a single employing unit.

(3) (a) An employing unit, not otherwise subject to this chapter, which files with the division its written election to become an employer subject hereto for not less than one calendar year, shall, with the written approval of such election by the division, become an

employer subject hereto to the same extent as all other employers, as of the date stated in such approval, and shall cease to be subject hereto as of January 1 of any calendar year subsequent to the first calendar year of its election, only if by April 30 of such subsequent year such employing unit has filed with the division a written notice to that effect. Provided, however, that at the expiration of the calendar year of such election the division may reconsider such voluntary election of coverage and may in its discretion notify such employer that such employer will not be carried upon the records of the division as an employer and thereupon such employer shall cease to be an employer under the provisions of this chapter as of the first of the year next succeeding the last calendar year during which it was an employer under this chapter.

(b) Any employing unit, including this state or any political subdivision thereof, or any instrumentality of any one or more of the foregoing which is wholly owned by this state or by one or more of its political subdivisions, for which services that do not constitute employment as defined in this chapter are performed, may file with the division a written election that all such services performed by individuals in its employ in one or more distinct establishments or places of business shall be deemed to constitute employment for all the purposes of this chapter for not less than one calendar year. Upon the written approval of such election by the division, such services shall be deemed to constitute employment subject to this chapter from and after the date stated in such approval. Such services shall cease to be deemed employment subject hereto as of January 1 of any calendar year subsequent to such calendar year only if by April 30 of such subsequent year such employing unit has filed with the division a written notice to that effect.

(4) Notwithstanding the provisions of subsection (2), if the division finds that an employer has become inactive and has ceased to be an employing unit as defined by this chapter for a complete calendar year the division may automatically terminate the account of such employer as of January 1 of any year following a complete calendar year in which such employer has ceased to be an employing unit, and thereupon such employer shall cease to be an employer subject to the provisions of this chapter.

443.10 Unemployment compensation trust fund; establishment and control.—

(1) There is hereby established as a special fund separate and apart from all public moneys or funds of this state, an employment compensation trust fund, which shall be administered by the division exclusively for the pur-

poses of this chapter. This fund shall consist of:

- (a) All contributions collected under this chapter;
- (b) Interest earned upon any moneys in the fund;
- (c) Any property or securities acquired through the use of moneys belonging to the fund;
- (d) All earnings of such property or securities; and
- (e) All money credited to this state's account in the unemployment compensation trust fund pursuant to §903 of the social security act as amended.

All moneys in the fund shall be mingled and undivided.

(2) **The state treasurer shall be the ex-officio treasurer and custodian of the fund and shall administer such fund in accordance with the directions of the division.** All payments from the fund shall be approved by the division or by a duly authorized agent and shall be made by the treasurer upon warrants issued by the comptroller and countersigned by the governor except as hereinafter provided. The treasurer shall maintain within the fund three separate accounts:

- (a) A clearing account;
- (b) An unemployment compensation trust fund account; and
- (c) A benefit account.

All moneys payable to the fund, upon receipt thereof by the division, shall be forwarded to the treasurer who shall immediately deposit them in the clearing account. Refunds payable pursuant to §443.15 may be paid from the clearing account upon warrants issued by the comptroller as above set forth. After clearance thereof, all other moneys in the clearing account shall be immediately deposited with the secretary of the treasury of the United States to the credit of the account of this state in the unemployment compensation trust fund, established and maintained pursuant to §904 of the social security act, as amended, any provisions of the law in this state relating to the deposit, administration, release or disbursement of moneys in the possession or custody of this state to the contrary notwithstanding. The benefit account shall consist of all moneys requisitioned from this state's account in the unemployment compensation trust fund. Except as herein otherwise provided, moneys in the clearing and benefit accounts may be deposited by the treasurer, under the direction of the division, in any bank or public depository in which general funds of the state may be deposited, but no public deposit insurance charge or premium shall be paid out of the fund. The treasurer shall be liable on his official bond for the faithful performance of his duties as custodian of the fund.

(3) Moneys shall be requisitioned from the state's account in the unemployment compensation trust fund solely for the payment of

benefits and in accordance with regulations prescribed by the commission, except that money credited to this state's account pursuant to §903 of the social security act as amended shall be used exclusively as provided in §443.10(5). The division, through the treasurer, shall from time to time requisition from the unemployment compensation trust fund such amounts, not exceeding the amounts standing to this state's account therein, as it deems necessary for the payment of benefits for a reasonable future period. Upon receipt thereof the treasurer shall deposit such moneys in the benefit account in the state treasury and warrants for the payment of benefits shall be drawn by the comptroller upon the order of the division against such benefit account. All warrants for benefits shall be payable directly to the ultimate beneficiary. Expenditures of such moneys in the benefit account and refunds from the clearing account shall not be subject to any provisions of law requiring specific appropriations or other formal release by state officers of money in their custody. All warrants issued for the payment of benefits and refunds shall bear the signature of the comptroller and the counter-signature of the governor as above set forth. Any balance of moneys requisitioned from the unemployment compensation trust fund which remains unclaimed or unpaid in the benefit account after the expiration of the period for which such sums were requisitioned shall either be deducted from estimates for, and may be utilized for the payment of benefits during succeeding periods, or, in the discretion of the division, shall be redeposited with the secretary of the treasury of the United States, to the credit of this state's account in the unemployment compensation trust fund, as provided in subsection (2) of this section.

(4) The provisions of subsections (1), (2), and (3), to the extent that they relate to the unemployment compensation trust fund, shall be operative only so long as such unemployment trust fund continues to exist and so long as the secretary of the treasury of the United States continues to maintain for this state a separate book account of all funds deposited therein by this state for benefit purposes, together with this state's proportionate share of the earnings of such unemployment compensation trust fund, from which no other state is permitted to make withdrawals. If and when such unemployment compensation trust fund ceases to exist, or such separate book account is no longer maintained, all moneys, properties, or securities therein, belonging to the unemployment compensation trust fund of this state shall be transferred to the treasurer of the unemployment compensation trust fund, who shall hold, invest, transfer, sell, deposit, and release such moneys, properties, or securities in a manner approved by the division in accordance with the provisions of this chapter; provided that such moneys shall be invested in the following readily marketable classes of securities: Bonds or other interest-bearing obligations of

the United States or of the state. Provided further, that such investment shall at all times be so made that all the assets of the fund shall always be readily convertible into cash when needed for the payment of benefits. The treasurer shall dispose of securities or other properties belonging to the unemployment compensation trust fund only under the direction of the division.

(5) MONEY CREDITED UNDER SECTION 903 OF THE SOCIAL SECURITY ACT.—

(a) Money credited to the account of this state in the unemployment compensation trust fund by the secretary of the treasury of the United States pursuant to §903 of the social security act may not be requisitioned from this state's account or used except for the payment of benefits and for the payment of expenses incurred for the administration of this law. Such money may be requisitioned pursuant to subsection (3) for the payment of benefits. Such money may also be requisitioned and used for the payment of expenses incurred for the administration of this law but only pursuant to a specific appropriation by the legislature and only if the expenses are incurred and the money is requisitioned after the enactment of an appropriation law which:

1. Specifies the purposes for which such money is appropriated and the amounts appropriated therefor;

2. Limits the period within which such money may be obligated to a period ending not more than two years after the date of the enactment of the appropriation law; and

3. Limits the amount which may be obligated during any twelve-month period beginning on July 1 and ending on the next June 30 to an amount which does not exceed the amount by which the aggregate of the amounts credited to the account of this state pursuant to §903 of the social security act during the same twelve-month period and the nine preceding twelve-month periods, exceeds the aggregate of the amounts obligated for administration and paid out for benefits and charged against the amounts credited to the account of this state during such ten twelve-month periods.

(b) Amounts credited to this state's account in the unemployment compensation trust fund under §903 of the social security act which are obligated for administration or paid out for benefits shall be charged against equivalent amounts which were first credited and which are not already so charged; except that no amount obligated for administration during a twelve-month period specified herein may be charged against any amount credited during such a twelve-month period earlier than the ninth preceding such period. Any amount credited to the state's account under §903 which has been appropriated for expenses of administration, whether or not withdrawn from the unemployment compensation trust fund, shall be excluded from the unemployment com-

pensation trust fund balance for the purposes of §443.08(3).

(c) Money appropriated as provided herein for the payment of expenses of administration shall be requisitioned as needed for the payment of obligations incurred under such appropriation and, upon requisition, shall be deposited in the employment security administration trust fund from which such payments shall be made. Money so deposited shall, until expended, remain a part of the unemployment compensation trust fund and, if it will not be expended, shall be returned promptly to the account of this state in the unemployment compensation trust fund.

(6) APPROPRIATIONS.—

(a) There is hereby appropriated out of funds made available to the state under §903 of the social security act, as amended, the sum of eight hundred twenty thousand dollars, or so much thereof as may be necessary, to be used, under the direction of the division and in accordance with the applicable standards prescribed by, and subject to the approval of the bureau of employment security of the United States department of labor, for the purpose of providing facilities for employment security operations, including the purchase of existing office buildings and the acquisition of land and erection of buildings thereon for use as local employment offices of the division, the alteration or addition to office buildings now owned or later acquired by the division, including the central office at Tallahassee, and the provision of such improvements, facilities, paving, landscaping and fixed equipment as may be required for their proper use and operation. Such appropriation shall include the re-appropriated sum of two hundred twenty thousand dollars for completion of the local employment office at Fort Lauderdale, for which construction funds were previously appropriated but lapsed prior to full obligation thereof.

(b) The sums herein appropriated are to be expended solely for the purchase or alteration of existing office buildings and for the acquisition of land and the construction thereon of appropriate offices to be used exclusively for the employment security activities of the division, and for all necessary expenses incidental thereto, and said sums shall be obligated for the purposes herein appropriated not later than the two-year period following the date of the enactment hereof. Of the amount hereinabove appropriated the division may not obligate of said appropriations during the fiscal year ending June 30, 1966, an amount to exceed the total of the sums credited to Florida under the provisions of §903 of the social security act for such fiscal year and the nine preceding fiscal years, less the aggregate of the amounts which have been obligated for administration and paid out for benefits and charged against said sums during such ten fiscal years. Nor shall the amount which may be obligated by said division under the appropriation during the fiscal year ending June 30, 1967, exceed the total of the

sums credited to this state under provisions of said §903 of the social security act for such fiscal year and the nine preceding fiscal years, less the aggregate of the amounts which have been obligated for administration and paid out for benefits and charged against said sum during such ten fiscal years.

(c) The division is authorized to withdraw from this state's account in the unemployment trust fund referred to in said employment security administrative financing act of 1954 as amended, such sums as are from time to time needed for payment of obligations incurred under the provisions hereof, but not to exceed at any time either the amount in said fund made available by said employment security administrative financing act of 1954, as amended, or the specific appropriation made for a particular location.

(d) Any moneys requisitioned and withdrawn by the division under the provisions of paragraph (c) shall be deposited in a separate account of this state's employment security administration trust fund, but such moneys until expended shall remain a part of the unemployment compensation trust fund. The division shall maintain a separate record of the deposit, obligation and expenditure of such funds.

(e) The division shall have complete authority to carry out the purposes of this section and is expressly authorized and empowered to employ necessary appraisers, architects, engineers and contractors, and to execute all contracts necessary to effectuate the declared purposes of this section, including the acquisition of the necessary real estate for said offices, which real property shall be acquired in the name of the division and shall be used exclusively thereafter for providing facilities for the employment security activities of the division.

(f) Money so withdrawn from the unemployment compensation trust fund shall be repaid from federal funds periodically allocated to the division for rental of local employment office space in the named municipalities. Such money as may be used for the purposes of this subsection (including any unrepaid portion thereof) shall continue to be deemed part of the unemployment compensation trust fund for the purposes of §443.08-(3)(e)1.c., and such temporary use shall not be construed to have reduced the total of such fund for tax rate computation purposes, including interest which would have been added to such total if none of such fund had been used as authorized by this subsection.

*443.11 Administrative organization.—

(1) DIVISIONS.—

(a) There are hereby created and established in the Florida industrial commission two coordinate divisions, the Florida state em-

ployment service division, established pursuant to §443.13, and a division to be known as the unemployment compensation division. Each of said divisions shall be administered by a full-time salaried director.

(b) The chairman of the Florida industrial commission shall be paid for the additional duties involved in the administration of this chapter such sum as may be agreed upon between the said chairman and the federal bureau of employment security. Each other member of the commission shall be paid for the additional duties involved in the administration of this chapter the sum of one thousand eight hundred dollars per annum and shall be reimbursed for traveling expenses as provided in §112.061. Each division shall be responsible for the discharge of its distinctive functions.

(c) Each division shall be a separate administrative unit except insofar as the commission may find that such separation is impracticable. Each division shall pay its proportionate part of the administrative costs for the members and the secretary of the commission.

(2) BOARD OF REVIEW.—

(a) There is hereby created within the Florida industrial commission a board of review which shall consist of the chairman of the Florida industrial commission, who shall serve as chairman of such board, and the members of the commission, each of whom shall serve ex officio and receive no additional compensation for services performed as a member of such board.

(b) Any hearing, inquiry, or investigation required or authorized to be conducted or made by the board of review may be conducted or made by an individual member thereof, and the order, decision, or determination of such member shall be deemed the order, decision or determination of the board of review from the date of the filing thereof in the commission unless the board, on its own motion, or by application duly made to it, modifies or rescinds such order, decision, or determination.

(3) OBSOLETE RECORDS.—The commission is expressly authorized to provide by regulation for and to destroy obsolete records of the commission.

(4) ADVANCES.—The commission is authorized and directed to apply for an advance to the state unemployment compensation trust fund and to accept responsibility for the repayment of such advance in accordance with the conditions specified in title XII of the social security act as amended, in order to secure to this state and its citizens the advantages available under the provisions of said title XII of the social security act.

443.12 Division and commission; powers, duties, etc.; rules and regulations; personnel; advisory councils; records and reports; cooperation, etc.—

***(1) DUTIES AND POWERS OF DIVISION AND COMMISSION.**—It shall be the duty of the division to administer this chapter; and it shall have power and authority to employ such persons, make such expenditures, require such reports, make such investigations, and take such other action as it deems necessary or suitable to that end. The commission shall have the power and authority to adopt, amend, or rescind such rules and regulations as are necessary for the administration of the chapter. Such rules and regulations shall be effective upon publication in the manner, not inconsistent with the provisions of this chapter, which the commission shall prescribe. The division shall determine its own organization and methods of procedure in accordance with the provisions of this chapter and shall have an official seal which shall be judicially noticed. Not later than the 15th day of March of each year, the division shall submit to the governor a report covering the administration and operation of this chapter during the preceding calendar year and shall make such recommendations for amendment to this chapter as it deems proper. Such report shall include a balance sheet of the moneys in the fund in which there shall be provided, if possible, a reserve against the liability of future years to pay benefits in excess of the then current contributions, which reserve shall be set up by the division in accordance with accepted actuarial principles on the basis of statistics of employment, business activity, and other relevant factors for the longest possible period. Whenever the division believes that a change in contribution or benefit rates will become necessary to protect the solvency of the fund, it shall promptly so inform the governor and the legislature, and make recommendations with respect thereto.

(2) REGULATIONS AND GENERAL AND SPECIAL RULES.—General and special rules may be adopted, amended, or rescinded by the commission only after public hearing or opportunity to be heard thereon, of which proper notice has been given. General rules shall become effective ten days after filing with the department of state and publication in one or more newspapers of general circulation in this state. Special rules shall become effective ten days after notification to or mailing to the last known address of the individuals or concerns affected thereby. Regulations may be adopted, amended, or rescinded by the commission and shall become effective in the manner and at the time prescribed by the commission.

***(3) PUBLICATION OF ACTS AND RULES AND REGULATIONS.**—The division shall cause to be printed and distributed to the public the text of this chapter, the regulations and rules adopted by the commission, the division's annual report to the governor, and any

other matter the division deems relevant and suitable, and shall furnish this information to any person upon application therefor; provided that the printing of any pamphlet, rules, circulars or reports required by this chapter shall contain no matter except the actual data necessary to complete same or the actual language of the said rule or regulation, together with proper notices thereof; and provided further, where the amount involved exceeds two hundred dollars that in advance of any such printing being done or contracted for, sealed written bids therefor shall be asked for by the division and the lowest and best bid therefor shall be accepted.

***(4) PERSONNEL.**—Subject to other provisions of this chapter, the division is authorized to appoint, fix the compensation, and prescribe the duties and powers of such employees, accountants, attorneys, experts, and other persons as may be necessary in the performance of its duties under this chapter. Provided, however, that the division shall pay no employee appointed pursuant to the provisions of this subsection any compensation in excess of amounts paid for comparable services performed for other state departments. The division may delegate to any such person such power and authority as it deems reasonable and proper for the effective administration of this chapter, and may in its discretion bond any person handling moneys or signing checks hereunder; the cost of such bonds shall be paid from the employment security administration trust fund. The division shall classify positions under this chapter and shall establish salary schedules and minimum personnel standards for the positions so classified. It shall provide for the holding of examinations to determine the qualifications of applicants for the positions so classified, and except for temporary appointments of not to exceed six months in duration, such personnel shall be appointed on the basis of efficiency and fitness as determined in such examinations. Provided, however, that appointments of persons who have not participated in an examination may be continued for a period in excess of six months when such persons have been certified as possessing the necessary training and experience for admittance to an examination for the position to which appointed and such appointments may be continued until the establishment of an appropriate register for such position pursuant to the holding of an examination therefor. The commission shall establish and enforce fair and reasonable regulations for appointments, promotions, and demotions based upon rating of efficiency and fitness and for terminations for cause.

(5) ADVISORY COUNCILS.—The division shall appoint a state advisory council and may appoint local or industry advisory councils, composed in each case of an equal number of employer representatives and employee representatives who may fairly be regarded as representative because of their vocation, employment,

or affiliations, and of such members representing the general public as the division may designate. Such councils shall aid the division in formulating policies and discussing problems related to the administration of this chapter and in assuring impartiality and freedom from political influence in the solution of such problems. Such advisory councils shall serve for such terms as specified by the division, without compensation, but shall be reimbursed for traveling expenses as provided in §112.061.

(6) **EMPLOYMENT STABILIZATION.**—The division with the advice and aid of advisory councils shall take all appropriate steps to reduce and prevent unemployment; to encourage and assist in the adoption of practical methods of vocational training, retraining and vocational guidance; to investigate, recommend, advise, and assist in the establishment and operation, by municipalities, counties, school districts and the state of reserves for public works to be used in times of business depression and unemployment; to promote the reemployment of the unemployed workers throughout the state in every other way that may be feasible; and to these ends to carry on and publish the results of investigations and research studies.

(7) **RECORDS AND REPORTS.**—Each employing unit shall keep true and accurate work records, containing such information as the commission may prescribe. Such records shall be open to inspection and be subject to being copied by the division at any reasonable time and as often as may be necessary. The division or an appeals referee may require from any employing unit any sworn or unsworn reports, with respect to persons employed by it, deemed necessary for the effective administration of this chapter. Information thus obtained, or obtained from any individual pursuant to the administration of this chapter, shall, except to the extent necessary for the proper presentation of a claim, be held confidential and shall not be published or be open to public inspection (other than to public employees in the performance of their public duties), in any manner revealing the individual's or employing unit's identity, but any claimant (or his legal representative) at a hearing before an appeals referee or the commission shall be supplied with information from such records to the extent necessary for the proper presentation of his claim. Any employee or member of the commission or any employee of the division who violates any provision of this subsection shall be fined not less than twenty dollars nor more than two hundred dollars, or imprisoned for not longer than ninety days, or both. Provided, however, the division may furnish to any employer copies of any report previously submitted by such employer, upon the request of such employer, and the division is authorized to charge therefor such reasonable fee as the commission may by regulations prescribe not to exceed the actual reasonable cost of the preparation of such copies. Fees received by the

division for copies as herein provided shall be deposited to the credit of the employment security administration trust fund.

(8) **OATHS AND WITNESSES.**—In the discharge of the duties imposed by this chapter, the division, the appeals referees, the members of the commission and any duly authorized representative of any of them shall have power to administer oaths and affirmations, take depositions, certify to official acts, and issue subpoenas to compel the attendance of witnesses and the production of books, papers, correspondence, memoranda, and other records deemed necessary as evidence in connection with a disputed claim or the administration of this chapter.

(9) **SUBPOENAS.**—In case of contumacy by, or refusal to obey a subpoena issued to any person, any court of this state within the jurisdiction of which the inquiry is carried on, or within the jurisdiction of which said person guilty of contumacy or refusal to obey is found or resides, or transacts business, upon application by the division, the commission, an appeals referee, or any duly authorized representative of any of them shall have jurisdiction to issue to such person an order requiring such person to appear before the division, the commission, an appeals referee, or any duly authorized representative of any of them, there to produce evidence if so ordered or there to give testimony touching on the matter under investigation or in question; and any failure to obey such order of the court may be punished by said court as a contempt thereof. Any person who shall without just cause fail or refuse to attend and testify or to answer any lawful inquiry or to produce books, papers, correspondence, memoranda, and other records, if it is in his power to do so, in obedience to a subpoena of the division, the commission, an appeals referee, or any duly authorized representative of any of them, shall be punished by a fine of not less than two hundred dollars or by imprisonment for not longer than sixty days, or by both such fine and imprisonment, and each day such violation continues shall be deemed to be a separate offense.

(10) **PROTECTION AGAINST SELF INCRIMINATION.**—No person shall be excused from attending and testifying, or from producing books, papers, correspondence, memoranda, and other records before the division, the commission, an appeals referee, or any duly authorized representative of any of them, or in obedience to the subpoena of any of them in any cause or proceeding before the division, the commission, or any appeals referee, on the ground that the testimony or evidence, documentary or otherwise, required of him may tend to incriminate him or subject him to a penalty or forfeiture; but no individual shall be prosecuted or subjected to any penalty or forfeiture for or on account of any transaction, matter or thing concerning which he is compelled, after having claimed his privilege against self incrimination, to testify or produce evidence, documentary or otherwise, except that such individ-

ual so testifying shall not be exempt from prosecution and punishment for perjury committed in so testifying.

(11) STATE-FEDERAL COOPERATION.—

(a) In the administration of this chapter, the division shall cooperate to the fullest extent consistent with the provisions of this chapter with the bureau of employment security or other authorized federal agencies, and is authorized and directed to take such action, through the adoption of appropriate rules, regulations, administrative methods and standards, as may be necessary to secure to this state and its citizens all advantages available under the provisions of the social security act, the federal unemployment tax act, and the act of congress entitled "An act to provide for the establishment of a national employment system and for cooperation with states in the promotion of such system, and for other purposes," approved June 6, 1933, as amended. The division shall comply with the regulations of the bureau of employment security relating to the receipt or expenditure by this state of moneys granted under any of such acts and shall make such reports, in such form and containing such information, as the bureau of employment security may from time to time require, and shall comply with such provisions as the bureau of employment security may from time to time find necessary to assure the correctness and verification of such reports.

(b) The division may afford reasonable cooperation with every agency of the United States charged with the administration of any unemployment insurance law.

(c) The division shall fully cooperate with the agencies of other states, and shall make every proper effort within its means, to oppose and prevent any further action which would in its judgment tend to effect complete or substantial federalization of state unemployment compensation funds or state employment security programs. The division may make, and may cooperate with other appropriate agencies in making, studies as to the practicability and probable cost of possible new state-administered social security programs, and the relative desirability of state (rather than federal) action in any such field.

(12) DISCLOSURE OF INFORMATION.—

Subject to such restrictions as the commission may by regulation prescribe, such information may be made available to any agency of this or any other state, or any federal agency, charged with the administration of any unemployment compensation law or the maintenance of a system of public employment offices, or the bureau of internal revenue of the United States department of the treasury, and information obtained in connection with the administration of the employment service may be made available to persons or agencies for purposes appropriate to the operation of a public employment service. Upon request therefor the division shall furnish any agency of the United

States charged with the administration of public works or assistance through public employment, and may furnish to any state agency similarly charged, the name, address, ordinary occupation, and employment status of each recipient of benefits and such recipient's rights to further benefits under this chapter. The division may request the comptroller of the currency of the United States to cause an examination of the correctness of any return or report of any national banking association rendered pursuant to the provisions of this chapter, and may in connection with such request transmit any such report or return to the comptroller of the currency of the United States as provided in §3305 (c) of the federal internal revenue code.

443.13 State employment service.—

(1) The Florida state employment service is hereby established in the division. The division shall establish and maintain free public employment offices in such number and in such places as may be necessary for the proper administration of this chapter and for the purposes of performing such duties as are within the purview of the act of congress entitled "An act to provide for the establishment of a national employment system and for cooperation with the states in the promotion of such system and for other purposes," approved June 6, 1933 (48 Stat. 113; U. S. C., Tit. 29, §49 (c)), as amended. It shall be the duty of the division to cooperate with any official or agency of the United States having power or duties under the provisions of the act of congress, as amended, and to do and perform all things necessary to secure to this state the benefits of said act of congress, as amended, in the promotion and maintenance of a system of public employment offices. The provisions of the said act of congress, as amended, are hereby accepted by this state, in conformity with §4 of said act, and this state will observe and comply with the requirements thereof. The division of labor and employment opportunities of the department of commerce is hereby designated and constituted the agency of this state for the purpose of said act. The division is authorized and directed to appoint sufficient employees to carry out the purposes of this section. The division may cooperate with or enter into agreements with the railroad retirement board with respect to the establishment, maintenance, and use of free employment service facilities.

(2) FINANCING.—All moneys received by this state under the said act of congress, as amended, shall be paid into the employment security administration trust fund, and said moneys are hereby made available to the di-

vision to be expended as provided by this chapter and by said act of congress. For the purpose of establishing and maintaining free public employment offices, the division is authorized to enter into agreements with the railroad retirement board or any other agency of the United States charged with the administration of an unemployment compensation law, with any political subdivision of this state, or with any private, non-profit organization, and as a part of any such agreement the division may accept moneys, services, or quarters as a contribution to the employment security administration trust fund.

443.14 Employment security administration trust fund; appropriation; reimbursement.—

(1) **EMPLOYMENT SECURITY ADMINISTRATION TRUST FUND.**—There is hereby created in the state treasury a special fund to be known as the employment security administration trust fund. All moneys which are deposited or paid into this fund shall be continuously available to the division for expenditure in accordance with the provisions of this chapter, and shall not lapse at any time or be transferred to any other fund. All moneys in this fund which are received from the federal government or any agency thereof or which are appropriated by this state for the purposes described in §§443.12 and 443.13 except money received pursuant to §443.10(5)(c) shall be expended solely for the purposes and in the amounts found necessary by the authorized cooperating federal agencies for the proper and efficient administration of this chapter. The fund shall consist of all moneys appropriated by this state, and all moneys received from the United States, or any agency thereof, and all moneys received from any other source for such purpose, and shall also include any moneys received from any agency of the United States or any other state as compensation for services or facilities supplied to such agency, any amounts received pursuant to any surety bond or insurance policy or from other sources for losses sustained by the employment security administration trust fund or by reason of damage to equipment or supplies purchased from moneys in such fund, and any proceeds realized from the sale or disposition of any such equipment or supplies which may no longer be necessary for the proper administration of this chapter. Notwithstanding any provision of this section, all money requisitioned and deposited in this fund pursuant to §443.10(5)(c) shall remain part of the unemployment compensation trust fund and shall be used only in accordance with the conditions specified in §443.10(5). All moneys in this fund shall be deposited, administered, and disbursed, in the same manner and under the same conditions and requirements as is provided by law for other special funds in the state treasury, except that moneys in this

fund shall not be commingled with other state funds, but shall be maintained in a separate account on the books of a depository bank. Such moneys shall be secured by the depository in which they are held to the same extent and in the same manner as required by the general depository law of the state and collateral pledged shall be maintained in a separate custody account. All payments from the employment security administration trust fund shall be approved by the division or by a duly authorized agent and shall be made by the treasurer upon warrants issued by the comptroller and countersigned by the governor. Any balances in this fund shall not lapse at any time, but shall be continuously available to the division for expenditure consistent with this chapter. The state treasurer shall be liable on his official bond for the faithful performance of his duties in connection with the employment security administration trust fund provided for under this chapter. Such liability on the official bond shall be effective immediately upon the enactment of this provision, and such liability shall exist in addition to any liability upon any separate bond existent on the effective date of this provision, or which may be given in the future. All sums recovered on any surety bond for losses sustained by the employment security administration trust fund shall be deposited in said fund.

(2) **SPECIAL EMPLOYMENT SECURITY ADMINISTRATION TRUST FUND.**—There is hereby created in the state treasury a special fund, to be known as the "special employment security administration trust fund," into which shall be deposited or transferred all interest on contributions, penalties, and fines or fees collected under this chapter. Interest on contributions, penalties, and fines or fees deposited during any calendar quarter in the clearing account in the unemployment compensation trust fund shall, as soon as practicable after the close of such calendar quarter and upon certification of the division, be transferred to the special employment security administration trust fund; provided, however, that there shall be withheld from any such transfer the amount certified by the division to be required under this chapter to pay refunds of interest on contributions, penalties, and fines or fees collected after June 30, 1947, and erroneously deposited into the clearing account in the unemployment compensation trust fund. Such amounts of interest and penalties so certified for transfer shall be deemed to have been erroneously deposited in the clearing account and the transfer thereof to the special employment security administration trust fund shall be deemed to be a refund of such erroneous deposits. All moneys in this fund shall be deposited, administered and disbursed in the same manner and under the same conditions and requirements as is provided by law for other special funds in the state treasury. Said moneys shall not be expended or be available for expenditure in any manner which would permit their sub-

stitution for (or permit a corresponding reduction in) federal funds which would, in the absence of said moneys, be available to finance expenditures for the administration of the unemployment compensation law. But nothing in this section shall prevent said moneys from being used as a revolving fund to cover expenditures, necessary and proper under the law, for which federal funds have been duly requested but not yet received, subject to the charging of such expenditures against such funds when received. The moneys in this fund, with the approval of the department of administration, shall be used by the division for the payment of costs of administration which are found not to have been properly and validly chargeable against funds obtained from federal sources. All moneys in the special employment security administration trust fund shall be continuously available to the division for expenditure in accordance with the provisions of this chapter and shall not lapse at any time. All payments from the special employment security administration trust fund shall be approved by the division or by a duly authorized agent thereof and shall be made by the treasurer upon warrants issued by the comptroller and countersigned by the governor. The moneys in this fund are hereby specifically made available to replace, as contemplated by subsection (3) of this section, expenditures from the employment security administration trust fund, established by subsection (1) of this section, which have been found by the bureau of employment security (or other authorized federal agency or authority), because of any action or contingency, to have been lost or improperly expended. The state treasurer shall be liable on his official bond for the faithful performance of his duties in connection with the special employment security administration trust fund.

(3) **REIMBURSEMENT OF FUND.**—If any moneys received after June 30, 1941, from the bureau of employment security under Title III of the social security act, or any unencumbered balances in the employment security administration trust fund as of that date, or any moneys granted after that date to this state pursuant to the provisions of the Wagner-Peyser act, or any moneys made available by this state or its political subdivisions and matched by such moneys granted to this state pursuant to the provisions of the Wagner-Peyser act, after reasonable notice and opportunity for hearing, are found by the bureau of employment security, because of any action or contingency, to have been lost or been expended for purposes other than, or in amounts in excess of, those found necessary by the bureau of employment security for the proper administration of this chapter, it is the policy of this state that such moneys shall be replaced by moneys appropriated for such purposes from the general funds of this state to the employment security administration trust fund for

expenditure as provided in subsection (1) of this section. Upon receipt of notice of such a finding by the bureau of employment security, the division shall promptly report the amount required for such replacement to the governor and the governor shall at the earliest opportunity, submit to the legislature a request for the appropriation of such amount. This subsection shall not be construed to relieve this state of its obligation with respect to funds received prior to July 1, 1941, pursuant to the provisions of Title III of the social security act.

(4) **EXEMPTION OF FUND FROM CERTAIN LAWS.**—The special employment security administration trust fund provided for in subsection (2) of this section be, and the same is hereby exempt from the application of any laws of the legislature of 1949, other than this subsection, and specifically from the application or effect by the continuing appropriations law.

443.15 Collection of contributions.—

(1) PAST DUE CONTRIBUTIONS.—

(a) *Interest.*—Contributions unpaid on the date on which they are due and payable shall bear interest at the rate of one-half per centum per month from and after such date until payment plus accrued interest is received by the division. Interest collected pursuant to this subsection shall be paid into the special employment security administration trust fund.

(b) *Penalty for delinquent reports.*—

1. Any employing unit which fails to file any reports required by the division in the administration of this chapter, in accordance with regulations adopted by the commission, shall pay to the division with respect to each such report the sum of five dollars for each thirty days or fraction thereof that such employing unit is delinquent, unless the division finds that such employing unit has or had good reason for failure to file such report or reports.

2. Sums collected as penalties under the provisions of subparagraph 1. shall be deposited by the division in the special employment security administration trust fund.

(2) REPORTS, CONTRIBUTIONS, APPEALS.—

(a) *Failure to make reports and pay contributions; duty and power of division.*—If any employing unit determined by the division to be an employer subject to the provisions of this chapter fails to make and file any report as and when required by the terms and provisions of this chapter or by any rule or regulation of the commission, for the purpose of determining the amount of contributions due by said employer under this chapter, or if any such report which has been filed is deemed by the division to be incorrect or

insufficient, and such employer after having been given written notice, by registered or certified mail, by the division to file such report, or a corrected or sufficient report, as the case may be, shall fail to file such report within fifteen days after the date of the mailing of such notice, the division may:

1. Determine the amount of contributions due from such employer on the basis of such information as may be readily available to it, which said determination shall be deemed to be prima facie correct;

2. Assess such employer with the amount of contributions so determined; and

3. Immediately give written notice by registered or certified mail to such employer of such determination and assessment including penalties as provided in this chapter, if any, added and assessed, demanding payment of same together with interest as herein provided on the amount of contributions from the date when same were due and payable.

Such determination and assessment shall be final at the expiration of fifteen days from the date of the mailing of such written notice thereof demanding payment unless such employer shall have filed with the division a written protest and petition for hearing specifying the objections thereto. Upon receipt of such petition within the fifteen days allowed the division shall fix the time and place for a hearing and shall notify the petitioner thereof. The division by regulation may appoint special deputies with full power to hold hearings hereunder, and to submit their findings together with a transcript of the proceedings before them and their recommendations to the division for its final decision and determination. At any hearing held before the division or its special deputy, as herein provided, evidence may be offered to support such determination and assessment or to prove that it is incorrect. Provided, however, that at such hearing the petitioner shall be required to show wherein that it is incorrect or else file full and complete corrected reports. Evidence may also be submitted at such hearing to rebut the determination by the division that the petitioner is an employer under the provisions of this chapter, and upon evidence taken before it or upon the transcript submitted to it with the findings and recommendation of its special deputy the division may set aside its determination that the petitioner is an employer under the provisions of this chapter or may reaffirm such determination. Any determination made by the division with reference to the status of an employer under the provisions of this subsection shall become final upon the mailing of notice of such determination by registered or certified mail to the last known address of such employer unless within the time prescribed by Florida appellate rules the employer shall have filed in the district court of appeal in the district in which the petitioner resides or in the district court of

appeal for the first district of Florida a petition for writ of certiorari. Such review shall proceed in the same manner as provided for a review of decisions of the commission under §443.07(4)(e). The amounts assessed pursuant to a final determination by the division hereunder together with interest and penalties shall be paid within fifteen days after notice of such final decision and assessment and demand for payment thereof by the division shall have been mailed to such employer, unless judicial review is instituted under the provisions hereof in cases of status determinations. Amounts due when the status of the employer is in dispute shall be payable within fifteen days of the entry of an order by the district appellate court affirming such determination. Provided, however, that any determination by the division that an employing unit is not an employer under the provisions of this chapter shall not affect the benefit rights of any individual as determined by an appeals referee or the commission, under the provisions of this chapter, unless such individual shall have been made a party to the proceedings before the division by registered or certified notice served upon him at least ten days before the holding of any hearing hereunder, or unless such determination of the commission or appeals referee shall not have become final or the employing unit and the division shall not have been made parties to the proceedings before the appeals referee or the commission.

(b) *Appeals.*—Subject to the foregoing provisions of this subsection, the commission shall by regulation prescribe the manner pursuant to which an employing unit which has been determined to be an "employer" may file an appeal and be afforded an opportunity for a hearing on such determination.

(3) COLLECTION PROCEEDINGS.—

(a) *Lien for payment of contributions.*—

1. There is hereby created a lien in favor of the division upon all the property both real and personal of any employer who shall become liable for the payment of any contribution levied and imposed upon it by this law for the amount of the contributions due and payable under the provisions hereof, together with interest, costs and penalties; and if any contribution imposed by this chapter or any portion of such contribution or interest or penalty be not paid within sixty days after the same becomes delinquent the division may thereafter issue a notice of lien under its official seal, which notice of lien may be filed in the office of the clerk of the circuit court of any county in which the delinquent employer owns property or has conducted business, and which notice of lien shall set forth the periods for which the contributions, interest or penalties are demanded and the amounts thereof, copy of which notice of lien shall be mailed to the employer at his last known address by registered mail. Provided, that notice of lien may be issued and recorded at the expiration of fifteen days from the date assessment becomes

final under the provisions of §443.15(2) hereof. Upon presentation of said notice of lien the clerk of the circuit court shall record same in a book maintained by him for that purpose, and thereupon the amount of said notice of lien, together with the cost of recording and interest accruing upon the contribution amount, shall become a lien upon the title to and interest, whether legal or equitable, in any real property, chattels real, or personal property of such employer against whom such notice of lien is issued, in the same manner as a judgment of the circuit court duly docketed in the office of such circuit court clerk with execution duly issued thereon and in the hands of the sheriff for levy; and such lien shall be prior, preferred and superior to all mortgages or other liens filed, recorded, or acquired subsequent to the time such notice of lien shall have been filed. Upon the payment of the amounts due thereunder, or upon determination by the division that such notice of lien was erroneously issued, the same may be satisfied of record by the division by an acknowledgment under the seal of the division that such lien has been fully satisfied. Such satisfaction need not be acknowledged before any notary or other public officer and the seal of the division together with the signature of the director shall be conclusive evidence of the satisfaction of said lien, which satisfaction shall be recorded by the clerk of the circuit court who shall receive fees for such services as may be fixed by law for the recording of instruments generally.

2. The division may thereafter issue a warrant directed to all and singular sheriffs in the State of Florida, commanding them to levy upon and sell any real or personal property of the employer liable for any amount under this law within their respective jurisdictions, for the payment of the amount thereof, with the added penalties, interest and the costs of executing the warrant, together with costs of the clerk of the circuit court in recording and docketing the notice of lien, and to return such warrant to the division and to pay to it the money collected by virtue thereof; such warrant shall issue and be enforced for all amounts due the division as of the date of issuance thereof, together with interest accruing on the contribution amount due from said employer to the date of payment at the rate provided herein; provided, that in the event of sale of any assets of the employer, priorities under said warrant shall be determined in accordance with the priority established by the notice or notices of lien filed by the division and recorded by the clerk of the circuit court. The sheriff shall proceed upon said warrant in all respects with like effect and in the same manner prescribed by law in respect to executions issued out of the office of the clerk of the circuit court upon judgments of the circuit court and the sheriff shall be entitled to the same fees for his services in executing the warrant as under a writ of execution out of the circuit court, said fees to be collected in the same manner.

(b) *Injunction—procedures to contest warrants after issuance.*—No writ of injunction or restraining order to stay the execution of such warrant shall issue until a bill praying therefor shall have been filed and reasonable notice of hearing of motion for such injunction has previously been served on the division, nor unless the party applying therefor shall have previously tendered and paid into the custody of the court the full amount of contributions, interests, costs and penalties claimed in such warrant or entered into and filed in said court a bond with two or more good and sufficient sureties approved by the court in a sum at least double the amount of such contributions, interests, costs and penalties, payable to the division, and conditioned to pay the amount of such warrant, interest thereon, and such damages as may be occasioned by the wrongful issuing of said injunction, if the said injunction shall be dissolved, or the bill upon which it may be granted be dismissed. Only one surety shall be required when such bond is executed by a lawfully authorized surety company as surety thereon.

(c) *Attachment and garnishment.*—Upon the filing of notice of lien as provided in §443.15 (3) (a) 1. hereof, the division shall be entitled to remedy by attachment or garnishment as provided in chapters 76 and 77, as for a debt due and upon application by the division such writs shall issue out of the office of the clerk of the circuit court as upon a judgment of the circuit court duly docketed and recorded, and such writs shall be made returnable to the circuit court. Provided, however, that no bond shall be required of the division as a condition precedent to the issuance of said writs of attachment or garnishment. Issues raised under proceedings by attachment or garnishment shall be tried by the circuit court as upon a judgment thereof in the manner provided in chapters 76 and 77. Provided, further, that said notice of lien filed by the division shall be of full force and effect for the purposes of all remedies provided for in this chapter until satisfied as provided in this chapter, and no revival by scire facias or other proceedings shall be necessary prior to the pursuit of any remedy herein provided for, and proceedings authorized as upon a judgment of the circuit court shall not be construed as making of said lien a judgment of the circuit court upon a debt for any purpose except as herein specifically set forth as procedural remedies only.

(d) *Third party claims.*—Upon any levy made by the sheriff under the authority of a writ of attachment or garnishment as provided in §443.15(3)(c) third party claims to property involved shall be tried by the circuit court as upon a judgment thereof and all proceedings shall be authorized on such third party claims as provided in §§56.16, 56.20, 76.21 and 77.16.

(e) *Proceedings supplementary to execution.*—At any time after a warrant provided for

in §443.15(3)(a)2. shall have been in the hands of any sheriff of this state and returned unsatisfied the division may make and file an affidavit in the circuit court affirming such fact and also that said warrant is valid and outstanding and also stating the residence of the party or parties against whom the warrant has been issued, and the division shall thereupon be entitled to have other and further proceedings in the circuit court as upon a judgment thereof as provided in §56.29 et seq.

(f) *Photostats.*—In any proceedings in any court under this chapter photostats of original records or microfilm copies of records of the division of labor and employment opportunities or the industrial relations commission shall be primary evidence in lieu of the originals of said records or of the documents which have been transcribed into such records.

(g) *Jeopardy assessment and warrant.*—If the division has just cause to believe and does believe that the collection of contributions from an employer will be jeopardized by delay it may assess such contributions immediately, together with interest or penalties when due, whether or not contributions accrued have become due, and may immediately issue a notice of lien and jeopardy warrant upon which proceedings may be had as herein provided for notice of lien and warrant of the division. Within fifteen days from the mailing of such notice of lien by registered mail the employer against whom such notice of lien and warrant is issued may protest the issuance thereof in the same manner provided in §443.15(3)(a) and further proceedings shall be had upon said protest as therein provided. Such protest shall not operate as a supersedeas or stay of enforcement proceedings until and unless the employer shall have filed with the sheriff seeking to enforce the warrant of the division a good and sufficient surety bond in twice the amount demanded by said notice of lien or warrant conditioned upon payment of the amount subsequently found to be due from the employer to the division by final determination of the division upon protest of assessment. Said jeopardy warrant and notice of lien shall be satisfied by the division in the manner heretofore provided upon payment of the amount finally determined to be due from said employer. In the event enforcement of said jeopardy warrant is not superseded as hereinabove provided the employer shall be entitled to a refund from the fund of all amounts paid as contributions in excess of the amount finally determined to be due by said employer upon application being made as provided in this chapter.

(4) MISCELLANEOUS PROVISIONS FOR ENFORCEMENT OF COLLECTION OF CONTRIBUTIONS.—

(a) Independently of all other remedies and proceedings authorized by this law for the enforcement of and the collection of contributions hereby levied, a right of action by suit in the name of the division is hereby

created. Suit may be maintained and prosecuted, and all proceedings taken, to the same effect and extent as for the enforcement of a right of action for debt or assumpsit, and any and all remedies available in such actions including attachment and garnishment shall be available to the division for the collection of any contribution accruing hereunder; provided that the division shall not be required to post bond in any such action or proceeding; and providing further that nothing herein contained shall be construed as making of said contributions a debt or demand unenforceable against homestead property provided by article X of the constitution of the state, the above remedies being procedural only.

(b) Any employer failing to make return or to pay the contributions levied under this chapter, and who has not ceased to be an employer as provided in §443.09 hereof, may be enjoined from employing individuals in employment as defined in this chapter upon the complaint of the division in the circuit court of the county in which said employer may be doing business; and such employer so failing to make return or to pay contributions levied hereunder shall be enjoined from employing individuals in employment until such return shall have been made and the contributions shown to be due thereunder paid to the division.

(c) The division or any agent or employee whom it may designate shall have the power to administer an oath to any person in respect to any return or report required by this law or by the rules and regulations of the commission and such oath made before the division or any authorized agent or employee shall have the same efficacy as an oath made before any judicial officer or notary public of the state.

(d) Civil actions brought under this chapter to collect contributions and interest thereon, or any proceeding had herein for the collection of contributions from an employer shall be heard by the court having jurisdiction thereof at the earliest possible date, and shall be entitled to preference upon the calendar of said court over all other civil actions except petitions for judicial review of claims for benefits arising under this chapter and cases arising under the workmen's compensation law of this state.

(e) The division is hereby authorized to commence action in any other state by and in the name of the division to collect unemployment compensation contributions, penalties and interest legally due this state. The officials of other states which extend a like comity to this state are authorized to sue for the collection of such contributions, interest and penalties in the courts of this state. The courts of this state shall recognize and enforce liability for such contributions interest and penalties imposed by other states which extend a like comity to this state.

(f) The collection of any contribution, in-

terest and penalty otherwise due under this chapter shall not be enforceable by civil action, warrant, claim or other means unless within five years from the date upon which such contribution, interest and penalty became due and payable as provided by law and by regulations of the commission, a notice of lien with respect to such contribution, interest and penalty was filed for record with a clerk of a circuit court as provided in subsection (3) of this section.

(5) **PRIORITIES UNDER LEGAL DISSOLUTION OR DISTRIBUTIONS.**—In the event of any distribution of any employer's assets pursuant to an order of any court under the laws of this state, including any receiverships, assignment for benefit of creditors, adjudicated insolvency, composition, administration of estates of decedents, or any other similar proceeding, contributions then or thereafter due shall be paid in full prior to all other claims except claims for wages of not more than two hundred and fifty dollars to each claimant, earned within six months of the commencement of the proceeding, and on a parity with all other tax claims wherever such tax claims shall have been given priority. In the administration of the estate of any decedent the filing of notice of lien shall be deemed a proceeding required upon protest of the claim filed by the division for contributions due under this chapter and such claim shall be allowed by the county judge. Provided, however, that the personal representative of the decedent may by petition to the circuit court object to the validity of the claim of the division and proceedings shall be had in the circuit court for the determination of the validity of the claim of the division, and, provided further, that the bond of the personal representative shall not be discharged until such claim is finally determined by the circuit court, and where no bond has been given by the personal representative none of the assets of said estate shall be distributed until such final determination by the circuit court; and, provided, further, that upon distribution of the assets of the estate of any decedent the claim of the division shall have priority established in subsection (1) (e) class five of §733.20, subject to the above limitations with reference to wages. In the event of any employer's adjudication in bankruptcy, judicially confirmed extension proposal, or composition, under the federal bankruptcy act of 1898, as amended, contributions then or thereafter due shall be entitled to such priority as is provided in §64B of that act (U. S. C. Title II, §104(b), as amended).

(6) **REFUNDS.**—If not later than four years after the date of payment of any amount as contributions, interest or penalties, an employing unit who has paid such contributions, interest or penalties shall make application for an adjustment thereof in connection with subsequent contribution payments, or for a refund thereof because such adjustment cannot be made, and the division shall determine that

such contributions or interest or penalties or any portion thereof was erroneously collected, the division shall allow such employer to make an adjustment thereof without interest in connection with subsequent contribution payment by him, or if such adjustment cannot be made, the division shall refund said amount, without interest, from the fund. For like cause, and within the same period, adjustment or refund may be made on the division's own initiative. Provided, however, that nothing in this chapter shall be construed to authorize a refund of contributions which were properly paid in accordance with the provisions of this chapter at the time of such payment, except as required by §443.03(5)(g) 7.; provided further that refunds under this subsection and under §443.03 (5) (g) 7. may be paid from either the clearing account or the benefit account of the unemployment compensation trust fund and from the special employment security administration trust fund with respect to interest or penalties which have been previously paid into such fund, provisions of §443.10 (2) to the contrary notwithstanding.

443.16 Waiver of rights; fees; privileged communications.—

(1) **WAIVER OF RIGHTS VOID.**—Any agreement by an individual to waive, release, or commute his rights to benefits or any other rights under this chapter shall be void. Any agreement by an individual in the employ of any person or concern to pay all or any portion of any employer's contributions, required under this chapter from such employer, shall be void. No employer shall directly or indirectly make or require or accept any deduction from wages to finance the employer's contributions required from him, or require or accept any waiver of any right hereunder by any individual in his employ. Any employer or officer or agent of an employer who violates any provision of this subsection shall, for each offense, be fined not less than one hundred nor more than one thousand dollars, or be imprisoned for not more than six months, or both.

(2) FEES.—

(a) No individual claiming benefits shall be charged fees of any kind in any proceeding under this chapter by the commission or division or their representatives, or by any court or any officer thereof, except as hereinafter provided. Any individual claiming benefits in any proceeding before the commission or division, or representatives of either, or a court may be represented by counsel or duly authorized agent, but no such counsel or agent shall either charge or receive for such services more than an amount approved by the commission or division or by the court.

(b) An attorney at law representing a claimant for benefits in any district court of appeal of this state or in the supreme court of Florida shall be entitled to counsel fees payable by the division as fixed by the court in either of the following cases:

1. Where petition for review or appeal is initiated by any party to such proceeding other than the claimant, or

2. Where such petition for review or appeal is initiated by the claimant and results in a decision awarding more benefits than did the decision under review or from which appeal was taken.

(c) Attorneys' fees awarded under this section shall be paid by the division out of employment security administration funds as a part of the costs of administration of this chapter and may be paid directly to the attorney for the claimant in a lump sum.

(d) Any person, firm or corporation who or which seeks or receives any remuneration or gratuity for any services rendered on behalf of a claimant, except as allowed by this section and in an amount approved by the commission or by a court, shall be guilty of a misdemeanor. Any person, firm or corporation who or which shall solicit the business of appearing on behalf of a claimant, or shall make it a business to solicit employment for another in connection with any claim for benefits under this chapter, shall be guilty of a misdemeanor.

(3) PRIVILEGED COMMUNICATIONS.—All letters, reports, communications, or any other matters, either oral or written, from the employer or employee to each other or to the division or any of its agents, representatives or employees which shall have been written, sent, delivered, or made in connection with the requirements and administration of this chapter, shall be absolutely privileged and shall not be made the subject matter or basis for any suit for slander or libel in any court of the state.

443.18 Reciprocal arrangement.—

(1) The division is hereby authorized to enter into reciprocal arrangements with appropriate and duly authorized agencies of other states or of the federal government, or both, whereby:

(a) Services performed by an individual for a single employing unit for which services are customarily performed by such individuals in

more than one state shall be deemed to be services performed entirely within any one of the states:

1. In which any part of such individual's service is performed, or

2. In which such individual has his residence, or

3. In which the employing unit maintains a place of business, provided there is in effect as to such services, an election, approved by the agency charged with the administration of such state's unemployment compensation law, pursuant to which all the services performed by such individual for such employing unit are deemed to be performed entirely within such state;

(b) Potential rights to benefits accumulated under the unemployment compensation laws of one or more states or under one or more such laws of the federal government, or both, may constitute the basis for the payment of benefits through a single appropriate agency under terms which the division finds will be fair and reasonable as to all affected interests and will not result in any substantial loss to the fund;

(c) Wages or services, upon the basis of which an individual may become entitled to benefits under an unemployment compensation law of another state or of the federal government, shall be deemed to be wages for insured work for the purpose of determining his rights to benefits under this chapter, and wages for insured work, on the basis of which an individual may become entitled to benefits under this chapter shall be deemed to be wages or services on the basis of which unemployment compensation under such law of another state or if the federal government is payable, but no such arrangements shall be entered into unless it contains provisions for reimbursements to the fund for such of the benefits paid under this chapter upon the basis of such wages or services, and provisions for reimbursements from the fund for such of the compensation paid under such other law upon the basis of wages for insured work, as the division finds will be fair and reasonable as to all affected interests; and

(d) Contributions due under this chapter with respect to wages for insured work shall for the purposes of §§443.08 and 443.15 be deemed to have been paid to the fund as of the date payment was made as contributions therefor under another state or federal unemployment compensation law, but no such arrangement shall be entered into unless it contains provisions for such reimbursement to the fund of such contributions and the actual earnings thereon as the division finds will be fair and reasonable as to all affected interests.

(2) Reimbursements paid from the fund pursuant to subsection (1)(c) of this section shall be deemed to be benefits for the purpose of §§443.04 and 443.10. The division is authorized to make to other state or federal agencies and to receive from such other

state or federal agencies reimbursements from or to the fund, in accordance with arrangements entered into pursuant to subsection (1) of this section.

(3) The administration of this chapter and of other state and federal unemployment compensation and public employment service laws will be promoted by cooperation between this state and such other states and the appropriate federal agencies in exchanging services, and making available facilities and information. The division is therefore authorized to make such investigations, secure and transmit such information, make available such services and facilities and exercise such of the other powers provided herein with respect to the administration of this chapter as it deems necessary or appropriate to facilitate the administration of any such unemployment compensation or public employment service law, and in like manner, to accept and utilize information, services and facilities made available to this state by the agency charged with the administration of any such other unemployment compensation or public employment service law.

(4) To the extent permissible under the laws and constitution of the United States, the division is authorized to enter into or cooperate in arrangements whereby facilities and services provided under this chapter and facilities and services provided under the unemployment compensation law of any foreign government may be utilized for the taking of claims and the payment of benefits under the employment security law of the state or under a similar law of such government.

443.19 Unemployment compensation trust fund to be sole source of benefits; nonliability of state.—The unemployment compensation trust fund established by this chapter shall be the sole and exclusive source for the payment of benefits payable hereunder, and such benefits shall be deemed to be due and payable only to the extent that contributions, with increments thereon, actually collected and credited to the fund and not otherwise appropriated and/or allocated, are available therefor. The state undertakes the administration of such fund without any liability on the part of the state beyond the amount of moneys received from the said bureau of employment security or other federal agency.

443.20 Rule of liberal construction.—This chapter shall be liberally construed to accomplish its purpose to promote employment security by increasing opportunities for placement through the maintenance of a system of public employment offices and to provide through the accumulation of reserves for the payment of compensation to individuals with respect to their unemployment. The legislature

hereby declares its intention to provide for carrying out the purposes of this chapter in cooperation with the appropriate agencies of other states and of the federal government, as part of a nationwide employment security program, and particularly to provide for meeting the requirements of Title III, the requirements of the federal unemployment tax act, and the act of congress approved June 6, 1933, entitled "An act to provide for the establishment of a national employment system and for cooperation with the states in the promotion of such system, and for other purposes" (the Wagner-Peyser act), each as amended, in order to secure for this state and the citizens thereof the grants and privileges available thereunder; all doubts as to the proper construction of any provision of this chapter shall be resolved in favor of conformity with such requirements.

443.21 Saving clause.—The legislature reserves the right to amend or repeal all or any part of this chapter at any time; and there shall be no vested private right of any kind against such amendment or repeal. All the rights, privileges or immunities conferred by this chapter or by acts done pursuant thereto, shall exist subject to the power of the legislature to amend or repeal this chapter at any time.

443.22 Penalties.—

(1) Whoever makes a false statement or representation, knowing it to be false, or knowingly fails to disclose a material fact to obtain or increase any benefits or other payment under this chapter or under an employment security law of any other state, of the Federal government, or of a foreign government, either for himself or for any other person, shall be punished by a fine of not less than \$50 nor more than \$100 or by imprisonment for not longer than thirty days, or both such fine and imprisonment; and each such false statement or representation or failure to disclose a material fact shall constitute a separate offense.

(2) Any employing unit or any officer or agent of any employing unit or any other person who makes a false statement or representation, knowing it to be false, or who knowingly fails to disclose a material fact, to prevent or reduce the payment of benefits to any individual entitled thereto, or to avoid becoming or remaining subject hereto, or to avoid or reduce any contribution or other payment required from an employing unit under this chapter, or who willfully fails or refuses to make any such contribution or other payment or to furnish any reports required hereunder, or to produce or permit the inspection of or copying of records as required hereunder, or who fails or refuses, within six months after written demand therefor by the division, to keep and maintain the payroll records required by this

chapter and by the regulations of the commission, shall be punished by a fine of not less than fifty dollars nor more than five hundred dollars, or by imprisonment for not longer than sixty days or by both such fine and imprisonment.

(3) Any person who shall wilfully violate any provision of this chapter or any order, rule or regulation hereunder, the violation of which is made unlawful or the observance of which is

required under the terms of this chapter, and for which a penalty is neither prescribed hereunder nor provided by any other applicable statute, shall be punished by a fine of not less than fifty dollars nor more than five hundred dollars or by imprisonment for not longer than sixty days, or by both such fine and imprisonment.

All such claims shall be assignable, and the assignee shall be entitled to the same upon the bond of such licensed agency or otherwise, as the person aggrieved would have been entitled to if such claim had not been assigned. 449.05 Registration fees, when permitted; investigation; revocation of permit; referral.—

(1) No such licensed agency shall charge a registration fee without having first obtained a permit to charge such registration fee from the department. Any such licensed person desiring to charge such registration fee shall make application in writing to the department, and shall set out in the application the type of applicants from whom it is intended to accept a registration fee, the amount of the fee to be charged, and shall furnish any other information on the subject that the department may deem necessary to enable it to determine whether permit shall be granted.

(2) The department may make investigation, upon receipt of the application, as to the truthfulness of said application and the necessity of the charge of a registration fee; and if it is shown that the applicant's method of doing business is of such a nature that a permit to charge a registration fee is necessary, and that the record of the applicant's past method of charging a registration fee has been reasonable and fair, then the department may grant a permit to such applicant, which permit shall remain in force until revoked for cause. No permit shall be granted until after ten days from the date of filing of the application.

(4) Any such permit granted by the department may be revoked by it, in the same manner as prescribed herein for the revocation of licenses.

(5) No such licensed agency shall, as a condition to registering or obtaining employment for any applicant, require such applicant to subscribe to any publication, post card service, advertisement, or resume service. Each licensed agency shall be permitted to accept an advance fee in the form of a deposit. All such

advance deposit fees taken, shall be deposited in the escrow account. No funds are to be withdrawn from the escrow account by the agency before the date of the applicant's acceptance of employment. If an applicant accepts a position through the efforts of the licensed agency and fails to report for work at the prescribed time, or quits, then said applicant shall owe the licensed agency the full placement fee for the said job and shall forfeit the total amount deposited with the licensed agency. In the event the applicant has an advance fee on deposit with the licensed agency of an amount exceeding the total fee of said position, then such overpayment of fee shall be refunded to the applicant within three days after request.

(6) Each applicant sent to an employer for an interview shall be furnished with a referral card containing the following information: The name and address of the employer doing the interviewing, the position for which the applicant is being interviewed, the salary offered, who is paying the cost of transportation for the interview, and a space must be provided whereby the interviewer can sign his or her name, after noting thereon whether the applicant has been engaged.

(7) In addition to the receipt herein provided to be given for a registration fee, it shall be the duty of such licensed agency to give to every applicant for employment or help from whom other fee or fees shall be received, an additional receipt in which shall be stated the name of the applicant, the amount of the fee, date of payment. All such receipts shall be in duplicate, numbered consecutively, shall contain the name and address of such agency. The duplicate receipt shall be kept on file in the agency for at least one year from date thereof.

(8) If the employer pays the fee, and the employee fails to remain in the position for the period of fourteen days, such licensee shall refund to the employer all fees, less an amount equal to twenty-five per cent of the total fee, within three days after said licensed agency has been notified of the employee's failure to remain in the employment.

(9) If the applicant is discharged at any time within fourteen calendar days for any reason other than intoxication, dishonesty, unexcused tardiness, unexcused absenteeism, insubordination, misrepresentation of abilities, education or skills, or otherwise fails to remain in the position for a period of fourteen calendar days through no fault of his own, such licensed agency shall refund to the employee all fees paid to said agency, less an amount equal to twenty-five per cent of the total fee. All refunds shall be in cash or negotiable check

and shall be made within three days of the time such licensed agency has been notified of the employee's failure to remain in the employment.

The hearing shall be heard before a hearing officer appointed by the department who shall transmit to the accused by registered mail a notice setting forth the charge or charges that will be heard before the hearing officer and the date and place at which the hearing will be held, which date shall not be less than thirty days after mailing such notice. The accused licensee may appear before the hearing officer at such time and place, in person or by counsel, and dispute or disprove the said charge or charges. For the purpose of such hearing, the hearing officer shall have the power to require the production of books, papers, or other documents, and may issue subpoenas to compel the defendants or witnesses to testify, produce such books, papers, or other documents as may be, in the opinion of the hearing officer, relevant to the issues involved; said subpoenas to be served by duly authorized agent of the department or by the sheriff of the county where the witnesses reside or may be found; such witnesses shall be entitled to the same per diem and mileage as witnesses appearing in the circuit courts of the state, which shall be paid by the department. The hearing officer shall administer oaths or affirmations to witnesses appearing before him. If any person shall refuse to obey any subpoena so issued, or shall refuse to testify or produce any books, papers, or other documents, required by the department or hearing officer, the hearing officer may present his petition to the circuit court of the county where any such person is served with a subpoena, or where he resides, setting forth the facts, and shall deposit with said court the per diem and mileage to secure the attendance of such witness; whereupon, the court shall issue a rule nisi to such person, requiring him to obey forthwith the subpoena issued by the department, or show cause why he fails to obey the same; and unless the said person shows sufficient cause for failing to obey the said subpoena, the court shall forthwith direct such person to obey the same, and, upon refusal to comply, he shall be adjudged in contempt of court and shall be punished as the court may direct.

(3) The hearing shall be held by a hear-

The order of the hearing officer shall be filed in the office of the department at Tallahassee, and a copy of such order shall be sent by registered mail to the licensee, addressed to the licensee at the address shown on his application for license.

(4) The order rendered by the hearing officer shall become final seven days after same was filed in the office of the department at Tallahassee, unless within said time any interested party may make and file with the department an application for review thereof by the department. As soon as practicable after receiving such application, the hearing officer shall have prepared a transcript of the testimony adduced at the hearing before him, to which he shall attach his certificate, and shall return the same, together with the file, to the department. The department shall consider the matter upon the record as prepared and certified by the hearing officer, and shall thereafter affirm, reverse or modify said order, or remand to hearing officer for further proceedings. (2) Upon denial of any application, the department shall promptly notify the applicant by registered mail, setting forth in said notice the ground or grounds on which such application was denied. Denial of the application shall be final unless, within twenty days from date of mailing notice of denial, applicant files with the department his appeal from such denial and requests public hearing. Upon receipt of such appeal and request for hearing, the department shall set a date therefor, and appoint a hearing officer to conduct said hearing, after which the matter shall proceed as hereinbefore provided for revocation of licenses. At any time before denial of an application becomes final, the department may rescind its denial, and issue the license applied for.

453.01 Declaration of policy.—That it is hereby declared to be the public policy of the State of Florida that it is necessary and essential in the public interest to facilitate the prompt, peaceful and just settlement of labor disputes between public utility employers and their employees which cause or threaten to cause an interruption in the supply of services necessary to the health, safety and well-being of the citizens of Florida, and to that end to encourage the making and maintaining of agreements concerning wages, hours and other conditions of employment through collective bargaining between public utility employers and their employees, and to provide settlement procedures for labor disputes between public utility employers and their employees in cases where the collective bargaining process has reached an impasse and stalemate, and as a result thereof the parties are unable to effect such settlement and which labor disputes, if not settled, are likely to cause interruption of the supply of a public utility service on which the community so affected is so dependent that severe hardship would be inflicted on a substantial number of persons by a cessation of such service.

History.—§1, ch. 23911, 1947.
cf.—Ch. 447, Labor organizations.

453.02 Definitions.

(1) The term "public utility employer" means an employer engaged in the business of rendering electric power, light, heat, gas, water, communication or transportation services to the public in this state.

(2) The term "collective bargaining" means collective bargaining of or similar to the kind provided for by the federal law known as the national labor relations act and as interpreted by decisions of the supreme court of the United States arising under said last mentioned act.

History.—§2, ch. 23911, 1947.
cf.—§453.17, Publicly owned utilities excepted.

453.03 Duty to make effort to settle labor disputes.—It shall be the duty of public utility

employers and their employees in public utility operations to exert every reasonable effort to settle such labor disputes by the making of agreements through collective bargaining between the parties, and by the maintaining thereof when made, and to prevent, if possible, the collective bargaining process from reaching a state of impasse and stalemate.

History.—§3, ch. 23911, 1947.

453.04 Petition for and appointment of conciliator.—If in any case of a labor dispute between a public utility employer and its employees, the collective bargaining process reaches an impasse and stalemate, with the result that the employer and the employees are unable to effect a settlement thereof, then either party to the dispute may petition the governor of the State of Florida to appoint a conciliator. The party filing such a petition shall serve a true copy thereof upon the other party or parties to such labor dispute. Service shall be made by delivering such a copy (a) in the case of public utility employer, to one of its officers or a member of its collective bargaining committee and (b) in the case of a labor organization, a labor union or a group of employees in the process of organizing, to one of the officers, business agents, organizers or collective bargaining committee-men of such organization, union or group. In case service cannot be so made within twenty-four hours after the time of the actual receipt of the petition by the governor, then such service shall be effected by mailing (registered mail—return receipt requested) such a copy to the last known principal post office address or box of the party entitled to receive the same. In event such acceptance or delivery of such mailing is refused then such service shall be fully and sufficiently effected by the immediate posting of a true copy of the petition on the bulletin board of at least one major place of employment of employees involved in such labor dispute. The party effecting such service shall make and file with the governor a certificate setting forth the time and date of such service and the manner

in which it was so effected. Upon the filing of such petition, the governor shall consider the same, and if he deems advisable shall order a hearing thereon, and if in his opinion the collective bargaining process, notwithstanding good faith efforts on part of both sides to such dispute, has reached an impasse and stalemate and such dispute, if not settled, will cause or is likely to cause the interruption of the supply of a service on which the community affected is so dependent that severe hardship would be inflicted on a substantial number of persons by a cessation of such service, the governor shall appoint a conciliator to attempt to effect the settlement of such dispute. Such conciliator shall be allowed reasonable compensation for his services and for his necessary expenses, in an amount to be fixed by the governor, such compensation and expenses to be shared equally by the parties to the dispute.

History.—§4, ch. 23911, 1947.

453.05 Work interruption; prohibited.—The conciliator so named shall expeditiously meet with the disputing parties and shall exert every reasonable effort to effect a prompt settlement of such dispute. From and after the filing of a petition with the governor as provided for in §453.04 hereof, and until and unless the governor shall determine that the failure to settle the dispute with respect to which such petition relates would not cause severe hardship to be inflicted on a substantial number of persons, there shall be no interruption of work and no strikes or slowdowns by the employees, and there shall be no lockout or other work stoppage by the employer, until such time as all procedure provided for by this chapter has been exhausted or during the effective period of any order issued by a board of arbitration pursuant to the provisions of this chapter.

History.—§5, ch. 23911, 1947.

cf.—§447.13, Right to strike preserved.

453.06 Inability to effect settlement; appointment of board of arbitration; compensation and expenses.—If the conciliator so named is unable to effect a settlement of such dispute within a thirty day period after his appointment, he shall report such fact to the governor; and the governor may allow such conciliator up to an additional fifteen days in which to attempt to effect a settlement of such dispute and make report to the governor; and the governor, if he believes that a continuation of the dispute will cause or is likely to cause the interruption of the supply of a service on which the community so affected is so dependent that severe hardship would be inflicted on a substantial number of persons by a cessation of such service, shall appoint a board of arbitration to hear and determine such dispute. The board of arbitration shall consist of one public member chosen by the governor, and one member designated in writing by each of the parties to the dispute. If either party to the dispute shall fail or refuse to designate its member within one week after

appointment of the public member, the governor shall appoint such member in the same manner as the public member is appointed. A new board shall be chosen by the governor for each separate dispute; but the same board may hear any number of issues or grievances which are involved at the same time in any dispute between the same employer and his employees. The public member of such board of arbitration shall be allowed reasonable compensation for his services and shall be reimbursed for traveling expenses as provided in §112.061, in an amount to be fixed by the governor, and such compensation of such board of arbitration shall be shared equally by the parties to the dispute.

History.—§6, ch. 23911, 1947; §19, ch. 63-400.

453.07 Arbitration board; hearings.—The board of arbitration shall promptly hold hearings and shall have the power to administer oaths and compel the attendance of witnesses and the furnishing by the parties of such information as may be necessary to a determination of the issue or issues in dispute. Both parties to the dispute shall have the opportunity to be present at the hearing, both personally and by counsel, and to present such oral and documentary evidence as the board shall deem relevant to the issue or issues in controversy.

History.—§7, ch. 23911, 1947.

453.08 Finding and order of board.—It shall be the duty of the board to make written findings of fact, and to promulgate a written decision and order upon the issue or issues presented in each case. In making such findings the board shall consider only, and be bound only, by the evidence submitted. When a valid contract is in effect defining the rights, duties and liabilities of the parties with respect to any matter in dispute, the board shall have power only to determine the proper interpretation and application of the contract provisions which are involved. Where wage rates or other conditions of employment under a proposed new or proposed amended contract are in dispute, the board shall establish rates of pay and conditions of employment which are comparable to the prevailing wage rates paid and conditions of employment maintained by the same or similar public utility employers, if any, in the same labor market area, and if none, in adjoining labor market areas within the state, and if none, in adjoining labor market areas in states bordering on this state, and which in addition thereto bear a generally comparable relationship to wage rates paid and conditions of employment maintained by all other employers in the same labor market area. The board shall determine in each case, based upon the evidence presented and received by the board, what constitutes in that case the labor market area involved. The board may establish separate schedules of wage rates and separate conditions of employment in each labor market area. In establishing wage rates the board shall take into consideration the overall compensation presently received by the employ-

ees, having regard not only to wages for time actually worked but also to wages for time not worked, including (without limiting the generality of the foregoing) vacations, holiday, and other excused time, and all benefits received, including insurance and pensions, and the continuity and stability of employment by the employees.

History.—§8, ch. 23911, 1947.

453.09 Time within which to make findings; majority decision; recording; finality of order.

—The board of arbitration shall hand down its findings, decision and order (hereinafter referred to as its order) within sixty days after its appointment; provided, however, that the governor may for good cause extend said period for not to exceed an additional thirty days. If all three members of the board do not agree, the order of the majority shall constitute the order of the board. The board shall furnish to each of the parties a copy of its order. A certified copy thereof shall be filed in the office of the clerk of the circuit court of the county wherein the dispute arose or in the office of the clerk of the circuit court of any county where the employer operates or maintains an office or place of business. Unless such order is reversed upon a petition for review filed pursuant to the provisions of §453.10, such order, together with such agreements as the parties may themselves have reached, shall become binding upon, and shall control the relationship between, the parties from the date such order is filed with the clerk of the circuit court, as aforesaid, and shall continue effective for one year from that date, but such order may be changed by mutual consent or agreement of the parties. No order of the board relating to wages or rates of pay shall be retroactive to a date before the date of the termination of any contract which may have existed between the parties, or, if there was no such contract, to a date before the day on which the governor appointed a conciliator in such dispute.

History.—§9, ch. 23911, 1947.

453.10 Review of order; by circuit court.—

Either party to the dispute may within the time provided by the Florida appellate rules petition the circuit court of any county, in which the employer operates or has an office or place of business, for a review of such order on the ground (a) that the parties were not given reasonable opportunity to be heard, or (b) that the board of arbitration exceeded its powers, or (c) that the order is unreasonable in that it is not supported by the evidence, or (d) that the order was procured by fraud, collusion, or other unlawful means or methods. A summons to the other party to the dispute shall be issued as provided by law in other civil cases; and either party shall have the same rights to a change of venue from the county, or to a change of judge, as provided by law in other civil cases. The judge of the circuit court, without the intervention of a jury, shall

hear the evidence adduced by both parties with respect to the issue raised by such petition and may reverse said order only if he finds that (a) one of the parties was not given reasonable opportunity to be heard, or (b) that the board of arbitration exceeds its powers, or (c) that the order is unreasonable in that it is not supported by the evidence, or (d) that the order was procured by fraud, collusion or other unlawful means or methods. The decision of the judge of the circuit court shall be final, unless an appeal is taken to the supreme court as hereinafter provided. If the court reverses said order for one of the reasons stated herein, and no appeal is taken to the supreme court, the clerk of said court shall certify the court's decision to the governor, who may either attempt further conciliation or may appoint another board of arbitration, as hereinabove provided for, in the event that the parties do not prefer first to engage in further collective bargaining in an attempt to settle such dispute.

History.—§10, ch. 23911, 1947; §1, ch. 69-267.

453.11 Appeal to supreme court.—Any interested party may appeal to the supreme court from the decision of the judge of the circuit court within the same period of time and following the same procedure as used in appeals from the order of the board of arbitration to the circuit court. The supreme court shall give precedence to the hearing of such appeals because of the public interest involved. If the supreme court reverses said order, then its order shall be certified to the governor in the same manner as above provided in case of reversal by the circuit court.

History.—§10, ch. 23911, 1947.

453.12 Penalty for violation by an individual.

—Any violation of this chapter by any member of a group of employees acting in concert, or by any employer or by any officer of an employer acting for such employer, or by any other individual, shall constitute a misdemeanor, punishable upon conviction by a fine of not more than one thousand dollars or by imprisonment in the county jail for not more than twelve months, or both.

History.—§11, ch. 23911, 1947.

453.13 Penalty for lockout strike or work stoppage.—

Any lockout engaged in by any utility, or any strike or work stoppage engaged in by any labor organization or labor union or any concerted or simultaneous action on the part of a substantial number of the members of any labor organization or labor union, which shall result in an interruption in or suspension of operation of any utility in violation of this chapter, shall subject such utility, or labor organization or labor union to a penalty not to exceed ten thousand dollars per day for each day that such interruption or suspension of operation shall continue. Such penalty shall be to the state and recoverable by it in any appropriate legal action. All legal proceedings under this section against corporations or un-

incorporated bodies to recover any such penalty or penalties may be instituted and conducted according to the provisions of general law applicable to suits or actions against such corporations or bodies.

History.—§12, ch. 23911, 1947.
cf.—§447.13, Right to strike.
§453.17, Inapplicable to publicly owned utilities.

453.14 Action for injunction.—Any person adversely affected by reason of any violation of the provisions of this chapter may file an action in the circuit court of the county in which any such violation occurs to restrain and enjoin such violation and to compel the performance of the duties imposed by this chapter.

History.—§13, ch. 23911, 1947.

453.15 Rights of immunities of individual employees; intent of law.—Nothing in this chapter shall be construed to require an individual employee to render labor or service without his consent, or to make illegal the quitting of his labor or service or the withdrawal from his place of employment unless done in concert or by agreement with others. No court shall have power to issue any process

to compel an individual employee to render labor or service or to remain at his place of employment without his consent. It is the intent of this chapter only to forbid employees to leave their employment in concert or to cause a work slowdown or stoppage in concert, and to forbid an employer to lock out his employees, in any case where the resultant interruption of public service would cause hardship to a substantial number of persons.

History.—§14, ch. 23911, 1947.

453.16 National railway labor act not affected.—Nothing in this chapter shall apply to any utility to which the national railway labor act is applicable.

(1) It is recognized that hypnosis has attained a significant place as another technique in the treatment of human injury, disease and illness, both mental and physical; that the utilization of hypnotic techniques for therapeutic purposes should be restricted to certain practitioners of the healing arts who are qualified by professional training to fulfill the necessary criteria required for diagnosis and treatment of human illness, disease or injury within the scope of their own particular field of competence; or that such hypnotic techniques should be employed by qualified individuals who work under the direction, supervision or prescription of such practitioners.

(2) It is the intent of the legislature to provide for certain practitioners of the healing arts, such as a trained and qualified dentist, to use hypnosis for hypnoanesthesia or for the allaying of anxiety in relation to dental work; however, under no circumstances shall it be legal or proper for the dentist or the individual to whom the dentist may refer the patient, to use hypnosis for the treatment of the neurotic difficulties of a patient. The same applies to the optometrist, podiatrist, chiropractor, osteopath or physician of medicine.

(3) It is, therefore, the intent and purpose of this chapter to regulate the practice of hypnosis for therapeutic purposes by providing that such hypnotic techniques shall be used only by certain practitioners of the healing arts within the limits and framework of their own particular field of competence; or by qualified persons to whom a patient may be referred, in which event the referring practitioner of the healing arts shall be responsible, severally or jointly, for any injury or damages resulting to the patient because of either his own incompetence, or the incompetence of the person to whom the patient was referred.

ficient cause for failing to obey the said subpoena, the court shall forthwith direct such person to obey the same, and upon his refusal to comply, he shall be adjudged in contempt of court and shall be punished as the court may direct.

460.001 Legislative intent and purpose.—

(1) It is hereby declared that the practice of chiropractic is a privilege which is subordinate to the authority of the legislature to enact reasonable laws to regulate the practice thereof to protect the public health. The practice of chiropractic is declared to be a matter in the interest of public health, safety and welfare; that to merit confidence of the public and to protect the public from being misled by incompetent, unscrupulous practitioners, the legislature has enacted laws that will insure that only such chiropractic physicians who are qualified shall be granted the privilege to practice.

(2) In the exercise of the fundamental power of the legislature to control the treatment of disease, it is not necessary that all the regulations be uniform and the same with re-

spect to all methods and systems of practice. Among the primary methods for regulating the practice of chiropractic are:

(a) To make it unlawful for the practitioner to practice without a license;

(b) To prescribe certain qualifications with which he must comply before obtaining said license;

(c) To provide a procedure for disciplinary proceedings to be conducted on specified grounds of misconduct;

(d) To provide for penalties to be imposed in case a licensee is found guilty; and

(e) To provide for a judicial review of the order of discipline.

(3) It is recognized that the legislature has the authority to enact laws to control the practice of chiropractic including the power to create an administrative board such as the

Florida state board of chiropractic examiners; and that the legislature may lawfully delegate to such a board the authority to determine that the qualifications for granting a license or the procedure for refusing or revoking a license is in keeping with the intent and purpose of the statutory law. The legislature is not creating and delegating powers of discretion to such board to act arbitrarily; such powers are granted for the board to act with reason, free from fraud, corruption or oppression; and if the board shall abuse the powers and discretion so vested in it, the aggrieved person shall have a remedy which shall not be against the delegation of such authority but for the improper exercise of it. The legislature may prescribe policies or standards to guide the discretion of such an administrative board, and delegate to it the authority to make rules and regulations which may assist it in administering legislative policy. It is declared that a delegation by the legislature of such discretion and rule-making authority to such board is not a delegation of the police powers of the state, but a means of enforcing such powers.

(4) This chapter is enacted as an exercise of the police powers of the state in the interest of the public health, safety and welfare of the people of Florida.

History.—§1, ch. 63-295.

460.01 Florida state board of chiropractic examiners; qualifications.—There is hereby created an examining and licensing board within the division of professions of the department of professional and occupational regulation to be known as the Florida state board of chiropractic examiners, hereinafter referred to as the board. (1) The board is authorized to adopt and from time to time revise such rules and regulations governing the practice of chiropractic as are necessary to enable it to carry into effect the provisions, mechanics and procedures in keeping with the purpose of the chapter and the legislative delegations of administrative authority and discretion to implement, interpret and administer the intent and purpose of the statutory law.

(2) The board shall hold two regular sessions for examinations each year at some convenient place in the state and on such dates as the board may select, of which meetings notice shall be given by publication thereof once a week for four successive weeks in a newspaper of general circulation throughout the state.

lated or treated thus restoring the normal flow of nerve impulse which produce normal function and consequent health.

(a) Examine, analyze and diagnose the human living body and its diseases by the use of any physical, chemical, electrical, or thermal method, and use the x-ray for diagnosing, and may use any other general method of examination for diagnosis and analysis taught in any school of chiropractic recognized and approved by the Florida state board of chiropractic examiners.

(c) No chiropractic physician shall in any advertisement in any publication or media in the state advertise the prices for which his services are available. The advertisement of free services or consultation shall be deemed to be in violation of this section.

(d) Chiropractic physicians shall have the privileges of services from the division of health laboratories.

(3) The term "chiropractic" or "doctor of chiropractic" or "chiropractor" shall be synonymous with "chiropractic physicians" and each term shall be construed to mean a practitioner of chiropractic as the same has been hereinabove defined. When the board finds that a person claiming to be the holder of a certificate to practice chiropractic in this state is not in fact the person to whom the certificate was issued, it shall reduce its findings to writing and file them in its office. Such findings shall be prima facie evidence that the person mentioned therein is falsely impersonating the person to whom a certificate to practice chiropractic in said state was issued of a like or different name.

(n) That he has violated any of the provisions of this chapter, or any of the rules and regulations of the board.

(4) Upon receipt of such charges, the board upon an affirmative vote of two of its members may suspend the certificate of the person against whom such charges have been preferred. Immediately, but not more than ten days after such suspension, the holder of such certificate so suspended shall be notified thereof in writing and shall also be furnished with a copy of said charges and notified in writing of the time and place for the hearing of said charges by the board, which notice of the time and place shall not be more than twenty days from the date of said suspension. Upon appearance, if the witness shall fail to purge himself of such failure, refusal or conduct, the judge shall proceed further as in cases of contempt of court; and said witness shall pay the costs of said attachment.

(7) Witnesses shall be entitled to the same fees and mileage as they may be entitled by law for attending as witnesses in the circuit

court, but no witness shall be required to attend a hearing more than one hundred miles from the county seat of the county wherein he resides, without his consent.

(8) Witnesses who testify under subpoena shall be entitled to the same protection and immunities as are witnesses in judicial proceedings.

(9) At said hearing the accused may cross-examine witnesses against him, and produce witnesses in his behalf and appear personally or by counsel. The board shall keep a record of said hearing, the testimony so taken and its findings on said charges. If the board by a unanimous affirmative vote shall sustain said charges, it may revoke said certificate of the accused, and in which event the board shall thereupon give written notice in the same manner as provided for the giving of said notice of suspension, to the said holder of said certificate, which has been revoked by said board.

(10) Whereupon the holder of said certificate which has been revoked shall have the right within the time and in the manner provided by the Florida appellate rules to have the order of revocation reviewed by certiorari by the circuit court of the county wherein the holder of the certificate revoked resides. In the event the holder of said certificate, which has been so revoked shall not appeal from the decision of the board, in the manner aforesaid, then the action of the board in revoking said certificate shall be final.

(11) The action of the board shall be recorded in the same manner as certificates are recorded, and the name of the person whose certificate is so revoked shall be stricken from the list of certificate holders, and he shall be disqualified from practicing chiropractic in the state.

(3) WHAT THE COMPLAINT AND ORDER TO SHOW CAUSE SHALL CONTAIN.—The complaint and order to show cause shall be in writing and shall include but not be limited to the following:

(a) It shall state the name of the applicant, or licensee; his last known address; the serial number of his license, if any, under which he is authorized to practice in this state;

If no newspaper is published in said county, the said notice may be published in a newspaper having a general circulation in such county.

(c) If the address of the respondent appears in some state, territory or county other than this state, the secretary of the board shall mail a copy of the complaint and order to show cause or an order entered by the board pursuant to the provisions of §460.139, to his last known out of state address.

(d) Due proof of service or of publication shall be filed with the secretary of the board and shall be recorded by him in the minutes of the board.

461.01 Definition of podiatry.—

(1) Podiatry means the diagnosis, medical, surgical, palliative and mechanical treatment of ailments of the human foot or leg, except the amputation thereof, and shall include the use and prescription of local anesthetics.

(2) The definition of the word "podiatry" in this section is identical with the word "chiroprody" and for all such purposes they shall be considered one and the same.

History.—§1, ch. 15911, 1933; CGL 1936 Supp. 4151(124), 4151(127); §1, ch. 19173, 1939; §1, ch. 65-170. cf.—§458.16 Furnishing copies of mental or physical examination report.

461.02 Unlawful to practice podiatry without license; application.—It is unlawful for any person to profess to be a podiatrist or to practice or assume the duties incident to podiatry without first obtaining from the state board of podiatry examiners, a podiatry license. All persons before being licensed to practice podiatry in the state, shall make a signed and sworn to application upon a blank form authorized and furnished by the state board of podiatry examiners, to the secretary-treasurer of said board of podiatry examiners, which license shall be granted to such applicants after they shall have furnished satisfactory proof of being at least twenty-one years of age and of good moral character, but only upon compliance with the conditions provided in this chapter.

History.—§§2, 3, ch. 15911, 1933; CGL 1936 Supp. 4151(125), 4151(126); §2, ch. 65-170. cf.—§461.12, Penalty for practice without license.

***461.03 Requisites for examination; subjects; minimum passing grade; fees.—**

(1) Any person who shall furnish to the board of podiatry examiners satisfactory proof that he or she is twenty-one years of age or more, a bona fide citizen of the United States, and of good moral character, and shall make oath that he or she has not been convicted of any offense that would constitute a felony either in Florida or in any other state or country; and shall present a diploma from a po-

diatry or chiroprody college which requires for graduation at the time of his or her entrance a course of study of at least three separate calendar years until 1953, after which time a diploma from a podiatry or chiroprody school requiring for graduation a course of study of at least four separate calendar years at the time of his or her entrance, only will be acceptable; said schools or colleges to be approved by the board of podiatry examiners; and be required to pass an examination to be conducted by said board in the studies of anatomy, chemistry, dermatology, materia medica, pathology, physiology, surgery and clinical or orthopedic podiatry, limited in scope to the treatment of the foot and leg; minimum requirements for license shall be a general average in said examination of seventy-five percent in all subjects, and not less than fifty percent in any one subject; and shall pay an examination fee of fifty dollars, which fee shall accompany the application to the secretary-treasurer of the board of podiatry examiners. Any applicant failing to pass these requirements shall be entitled to a re-examination upon the payment of an additional fee of ten dollars, but two such re-examinations shall exhaust the privilege under the original application. Every person who has successfully passed the examination provided for herein, and to whom a license has been issued, shall be entitled to practice the profession of podiatry in the state upon causing his or her name to be registered at the office of the division of health of the department of health and rehabilitative services at Jacksonville, and upon registering with the secretary of the state board of podiatry examiners; and further, that such person must present in person certificates from the above mentioned officials showing registration as aforesaid, before an occupational license may be applied for or procured from any city, state or county official having jurisdiction of the issuance of occupational licenses.

(2) Any person who attempts to procure or does procure an occupational license in violation of the provisions of this section shall be subject to the penalty provided for in §461.12.

History.—§4, ch. 15911, 1933; CGL 1936 Supp. 4151(127); §1, ch. 19173, 1939; §1, ch. 25188, 1949; §2, ch. 65-170; §§19, 35, ch. 69-106.

***Note.**—This section will be amended by a subsequent reviser's bill to conform to §30(5), ch. 69-106.

461.04 Chapter not applicable to licensed physicians and surgeons, etc.—This chapter shall not apply to the other licensed medical practitioners in the state whose own governing statutes permit them to also treat the foot and leg nor shall it apply to medical practitioners of the army, navy and public health service when in actual performance of official duties; neither shall this chapter prohibit the manufacture, advertising or sale of proprietary foot appliances or remedies, or the manufacture, advertising or sale of corrective shoes.

History.—§5, ch. 15911, 1933; CGL 1936 Supp. 4151(128); §1, ch. 19304, 1939; §1, ch. 24104, 1947; §1, ch. 25279, 1949; §1, ch. 61-131.

Members of the board of podiatry examiners shall be appointed for a term of three years from the termination of their now existing terms. All members of said board shall be members of the Florida podiatry association in good standing at the time of their appointment, and during their membership on said board; and shall be citizens of the state. Any board member who fails to abide by the requirements of this section may have his or her license revoked in the manner prescribed in §§461.08, 461.09 and 461.10.

History.—§6, ch. 15911, 1933; CGL 1936 Supp. 4151(129); §2, ch. 25188, 1949; §2, ch. 65-170; §§30, 35, ch. 69-106.

cf.—§461.14, Eligibility for membership.

461.06 Removal of members of board of podiatry examiners; officers of board; meetings.—

(1) The governor may remove from office members of the board of podiatry examiners for neglect of duties as required by this chapter, or for malfeasance in office and incompetency, or for unprofessional conduct. The governor may fill any vacancy caused by removal of any member of the board of podiatry examiners or by his resignation, or death, all such appointees to be practicing podiatrists in the state.

(2) The board of podiatry examiners shall within two weeks after their appointment meet

at some convenient place in the state and shall then elect a president from their own members and a secretary-treasurer. The secretary-treasurer shall give to the governor of the state a penal bond in the sum of one thousand dollars with sufficient sureties to be approved by the governor for the faithful discharge of his duties. The board of podiatry examiners shall hold one annual examination in each year; said examination to be held on the second Monday in June of each year at such place or places as may be designated by the board of podiatry examiners.

***461.07 License; recording; displayed conspicuously; renewal; fees.**—Every license shall be conspicuously displayed at the place of practice, and must be recorded in the office of the clerk of the circuit court in the county wherein the licensee practices, within thirty days of its issue. A renewal license fee of fifteen dollars shall be paid on January first annually to the secretary-treasurer of the board of podiatry examiners, and if not paid within three months from such date, such license shall be revoked, and shall be reinstated only upon original application and examination as provided by law. Every renewal certificate shall be displayed in connection with original license. All licensees shall be designated as licensed podiatrists, and shall not bear any title or abbreviation thereof without the designation "podiatrist, diseases of foot and leg," thus indicating a limitation of professional qualifications to treat human ailments.

History.—§7, ch. 15911, 1933; CGL 1936 Supp. 4151(130); §1, ch. 25356, 1949; §2, ch. 65-170.

(a) That the podiatrist is guilty of fraud in the practice of podiatry, or of fraud or deceit in his admission to the practice of podiatry.

(b) That the podiatrist has been convicted in a court of competent jurisdiction of a felony. The conviction of a felony shall be the conviction of any offense which if committed within the state would constitute a felony under the laws thereof.

(c) That the podiatrist is engaged in the practice of podiatry under a false or assumed or commercial name, or the impersonation of another practitioner of a like or different name.

(d) That the podiatrist is addicted to the habitual use of intoxicating liquors, narcotics or stimulants to such an extent as to incapacitate him for the performance of his professional duties.

(e) That the podiatrist is guilty of untrue, fraudulent, misleading or deceptive advertising; or advertising that he can cure dis-

eases by any secret medicine, or that he can cure a manifestly incurable disease.

(f) That the podiatrist has obtained a fee upon representation that a manifestly incurable disease can be permanently cured.

(g) That the podiatrist is grossly ignorant or incompetent, or guilty of wilful negligence in the practice of podiatry, or has been guilty of employing, allowing or permitting any unlicensed person or persons to perform any work in his office which under the provisions of this chapter can be legally done only by a person or persons holding a license to practice podiatry; or of practicing deceit or fraud upon the public, or upon individual patients, in obtaining or attempting to obtain practice; or of false notice, advertising, publication, or circulation of false claims, or fraudulent or misleading statements of his art, skill or knowledge or of methods of treatment or practice; or shall be guilty of any offense involving moral turpitude, or of advertising professional services in a superior manner, or of advertising by means of a large and glaring display, light signs, or signs containing as a part thereof the representation of a foot, leg, or any portion thereof; or of employing or making use of advertising, advertising solicitors, or free publicity by press agents; or of advertising any free podiatry or free examinations; or of advertising to guarantee any podiatry services or the painless performance of any podiatry operation.

(2) The charges above set forth may be preferred by any person or corporation; or the board may on its own motion direct the executive officer to prefer said charges. An accusation may be filed with the secretary and treasurer of the board charging any licensed podiatrist with any of the offenses above enumerated, such accusation to be in writing and verified under oath; and upon consideration thereof the board may in its discretion and upon sufficient proof of the charges, revoke the license of the practitioner so charged.

(3) Any licensed podiatrist whose license is suspended or revoked by the board of podiatry examiners under the provisions of this chapter, may have the order of the board reviewed by certiorari to the circuit court of the county in which said podiatrist resides or has his place of business, provided that the petition for certiorari shall be filed within the time provided for by the Florida appellate rules from the effective date of the board's order of revocation, suspension or cancellation and any such review not so instituted and filed shall forever thereafter be barred.

For the purpose of such hearing, the board may require by subpoena the attendance of witnesses, to administer oaths and hear testimony, either oral or documentary, for and against the accused and said accused shall have the right at said hearing to cross-examine the witnesses, to produce witnesses in his defense and to appear personally or by counsel. The petition for review of

the person whose license has been revoked, shall be filed within the time provided by the Florida appellate rules after such revocation. Appeals from any decision of the circuit court may be taken to the appropriate district court of appeal in the same manner and subject to like conditions as other appeals are taken. (2) Any person who shall practice after his license has been revoked and registration annulled, shall be deemed to have practiced podiatry without a license. However, at any time after six months from the date of said conviction, said board may, by a majority vote, issue a new license, or grant a license to the person affected, restoring, or conferring all the rights and privileges of and pertaining to the practice of podiatry; the fee therefor shall be the same as upon the issuance of the original license.

Naturopathic practice employs, among other agencies, phytotherapy, dietetics, psychotherapy, suggestotherapy, hydrotherapy, zone therapy, biochemistry, external applications, electrotherapy, mechanotherapy, mechanical and electrical appliances, hygiene, first aid, sanitation and heliotherapy; provided, however, that nothing in this chapter shall be held or construed to authorize any naturopathic physician licensed hereunder to practice *materia medica* or surgery or chiropractic, nor shall the provisions of this law in any manner apply to or affect the practice of osteopathy, chiropractic, Christian science, or any other treatment authorized and provided for by law for the cure or prevention of disease and ailments.

History.—§1, ch. 12286, 1927; CGL 3469; am. §1, ch. 21707, 1943. cf.—§458.16 Furnishing copies of mental or physical examination report.

***462.02 State board of naturopathic examiners.**—

(1) An examining and licensing board is created within the division of occupations of the department of professional and occupational regulation to be known as the state board of naturopathic examiners. Said board shall be composed of three practicing naturopathic physicians, of integrity and ability, who shall be residents of this state, and who shall have graduated from a reputable naturopathic school, and shall have been engaged in the active practice of their profession within this state for at least one year prior to their appointments, but none of them shall be connected in any way with or have any interest in any naturopathic school or college.

(2) The said members shall be appointed

by the governor for terms of four years from the termination of the now existing terms. Upon the expiration of the term of office of each member of said board, or whenever a vacancy shall occur thereon, the governor shall appoint a naturopathic physician to fill such vacancy. The members of said board shall hold office until their successors are appointed and qualified.

(3) The board shall perform such duties and be vested with and exercise such powers relative to the protection of the public health and the control and regulation of the practice of naturopathy in the state as shall in this chapter be prescribed and conferred upon it.

History.—§§2, 3, ch. 12286, 1927; CGL 3470, 3471; §§30, 35, ch. 69-106.

***Note.**—Ch. 57-129, Laws of Florida, which purported to repeal this section, was held unconstitutional in *Eslin v. Collins*, Fla. 1959, 108 So. 2d 889. After being omitted from Florida Statutes, 1957, the section was reinserted in the 1959 and subsequent editions. See AGO 59-37.

462.022 Abolition of licensing power of board.—On July 1, 1959, the licensing powers of the state board of naturopathic examiners as provided by law are hereby abolished. Only those naturopathic physicians that are presently practicing and licensed, and have been residents for two years in this state prior to enactment of this law may renew their licenses. This law does not affect any other functions of the state board of naturopathic examiners.

History.—§1, ch. 59-164.

***462.03 Oath of members of board.**—Before entering upon the duties of the office, the members of the board of naturopathic examiners shall take the constitutional oath of office and shall file the same with the department of state; and there shall thereupon issue to them a commission pursuant to their appointment.

***Note.**—See note following §462.02.

***462.04 Organization, meetings; powers and duties of board.**—

(1) Immediately after the appointment and qualification of its members, the board of naturopathic examiners shall meet and organize. Said board shall elect a president, vice-president and secretary-treasurer from its member-

ship. Said board shall hold two regular meetings each year, one in June and one in November, at some convenient place in the state, and on such date as the board may determine. Notice of such meetings shall be given by publication thereof once a week for four successive weeks in one or more newspapers of general circulation through the state.

(2) Special or call meetings may be held at such times and places and upon such notice as the majority of the board may determine. Said board shall adopt a seal which must be affixed to all licenses issued by it. The board shall, from time to time, adopt such rules and regulations not inconsistent with this chapter as it may deem necessary for the performance of its duties, and shall examine and pass upon the qualifications of applicants for the practice of naturopathy in this state as provided in this chapter. A majority of the members of said board shall constitute a quorum for the transaction of business. The secretary shall keep a record of all official actions and proceedings of the board, and said records shall be prima facie evidence of matters therein contained.

***462.05 Application for license; examination and admission fee.**—It shall be unlawful for any person to practice naturopathy in the state until he shall first receive a license so to do from "the Florida state board of naturopathic examiners," and to this end he shall make application in writing to the secretary of the board, at least two weeks before any regular meeting of the board, or any special meeting that may be called for that purpose, in such form as the board may require for such examination and license. The said applicant shall furnish evidence, satisfactory to the board, that he is more than twenty-one years of age; that he is a citizen of the United States, and that he is of good moral character; that he has completed a high school course and taken a four-year course, of nine months each, or more, in a reputable, chartered school or college of naturopathy, wherein the curriculum of study included instruction in the following branches, namely: Anatomy, physiology, histology, pathology, hygiene and sanitation, chemistry, diagnosis, symptomatology, nonsurgical gynecology, midwifery, jurisprudence, first aid, philosophy and the science and practice of naturopathy. All examinations in said enumerated branches shall be in writing, but the applicant shall also be required to give a practical demonstration showing his knowledge and efficiency in such branches, as may be deemed necessary and practicable by the board. In the conduct of written examinations each applicant shall be designated by a number, instead of by his name, so that his identity shall not be disclosed to the members of the board until after the examination papers are graded. A license or certifi-

cate shall then be issued under the seal of the board, countersigned by members of the board, and authenticated by its secretary, to each applicant who shall pass said written examinations by a rating of seventy-five per cent on the questions provided in each of the subjects named, and who shall also have satisfied the members of said board by such practical demonstration as may be required of his fitness to practice naturopathy as defined by this law. All applications for examination and license shall be accompanied by a fee of twenty-five dollars to be paid to the secretary-treasurer, and such fee shall not be returned to the applicant in the event of failure on examination; provided, however, that said applicant may at the next regular meeting of the board, or at any special meeting of the board called for that purpose, again take the examination without the payment of an additional fee. Said board shall convene within sixty days after its appointment for the purpose of passing on the qualifications of the applicants practicing prior to the passage of this law. No license shall be issued to an applicant unless the applicant passes a satisfactory examination.

***462.06 Temporary license.**—The board of naturopathic examiners may in its discretion issue a temporary license to an applicant, whose qualifications and moral fitness to practice naturopathy may be made to appear to the satisfaction of the board, and said temporary license shall have the same force and effect as a permanent license until the next regular or special meeting of the board for examinations, and only until then, when said license shall become void. A temporary license shall not be recorded.

The said fee shall be charged for issuing a temporary license, which shall include the fee for examination for permanent license. No part of any fee is returnable under any circumstances or condition, nor shall this chapter be construed as affecting or changing laws in reference to license tax to be paid by physicians and surgeons.

license is issued to such person, for a renewal of such license. The secretary-treasurer of the board of naturopathic examiners shall, at least thirty days before May 1 of each year, send to all persons licensed to practice naturopathy in this state a notice of the fact that such renewal will be due on or before May 1. Mailing by secretary-treasurer of such notice by depositing it in the United States mail with proper postage attached and addressed to the last known address of such license holder shall constitute proper notice. Nothing in this section shall be construed to require that license renewals shall be recorded in the office of the clerk of the circuit court.

All expenditures authorized by this chapter shall be paid upon presentation of vouchers signed by the secretary-treasurer and approved by the president of the board. Such license shall be signed by the president, and attested by the secretary-treasurer of the board under its adopted seal, and it shall give absolute authority to the person to whom it is issued to practice naturopathy in this state. The secretary shall keep a full report of the proceedings of the board, which report shall at all reasonable times be open to public inspection. 2. At the hearing the accused shall have the right to appear either personally or by counsel, or both, to procure witnesses and evidence in his or her behalf, to cross-examine witnesses and to have subpoenas issued by the board. If the accused is found guilty of the charge or charges the board may refuse to issue a license to the applicant or may revoke, suspend or otherwise discipline said licensee.

All retail drug permits issued by the state board of pharmacy shall expire on December 31.
